1. इसमें उर्वरक विभाग के सचिवालय के व्यय के लिए व्यवस्था है ।

2. यह व्यवस्था उर्वरक प्रतिधारण मूल्य स्कीम के अन्तर्गत आर्थिक सहायता (सब्सिडी) के लिए है, जिसमें उर्वरकों के भाड़े के लिए आर्थिक सहायता भी शामिल है । यह सब्सिडी स्कीम किसानों को उचित कीमतों पर उर्वरक उपलब्ध कराने और उर्वरकों के उत्पादकों को उनके निवेश पर उचित लाभ दिलाने के लिए है । उर्वरकों की बिक्री समय-समय पर निर्धारित निर्गम मूल्यों पर की जाती है ।

3. चूंकि उर्वरकों की मांग को पूरा करने के लिए स्वदेशी उत्पादन पर्याप्त नहीं है, इसलिए कमी को पूरा करने के लिए आयात का प्रबन्ध किया जाता है । उर्वरकों की मुख्यत: तीन किस्मों अर्थात् यूरिया, डाइ-अमोनियम फास्फेट और म्यूरेट आफ पोटाश का आयात किया जाता है ।

इसकी लागत में मोटे तौर पर आयातित उर्वरकों की कीमत और उर्वरक उठाने-धरने तथा उनके वितरण की लागत शामिल होती है । किसानों को उर्वरकों की बिक्री की कीमतें उर्वरक नियंत्रण आदेश द्वारा नियंत्रित की जाती हैं और इस प्रकार उपभोक्ता कीमतें सांविधिक रूप से विनियमित होती हैं । किसानों को उर्वरकों की बिक्री से प्राप्त राशि और आयात की लागत के बीच का अन्तर उर्वरकों के आयात पर दी जाने वाली सब्सिडी का द्योतक है ।

1. Provision is for secretariat expenditure of the Department of Fertilizers.

2. This provision relates to subsidy under Fertilizer Retention Price Scheme including freight subsidy for fertilizers. The subsidy scheme is intended to make fertilizers available to the farmers at reasonable prices and give producers of fertilizers a reasonable return on their investment. The fertilizers are sold at issue prices, fixed from time to time.

3. As indigenous production is not adequate to meet the demand for fertilizers, imports are arranged to make up the shortfall. Mainly, three varieties of fertilizers viz., Urea, Di-Ammonium Phosphate and Muriate of Potash are imported.

The cost involved is broadly the price (C&F) of imported fertilizers plus the cost of handling and distribution of the fertilizers. The selling prices of fertilizers to farmers is controlled by the Fertilizer Control Order and the consumer prices are thus statutorily regulated. The difference between the amount realised by way of sale of fertilizers to farmers and the import costs to Government represents the subsidy on fertilizers imports.

4. इसमें भारत-ब्रिटिश उर्वरक शिक्षा परियोजना जो चुने हुए जिलों में शुरू की गई है, के लिए व्यवस्था है । इसका उद्देश्य उर्वरकों की खपत के स्तर में वृद्धि करना और किसानों को उर्वरकों के वैज्ञानिक उपयोग की शिक्षा देना है । यह परियोजना पांच वर्ष की अवधि के लिए है ।

4. The provision is for Indo-British fertilizer education project introduced in selected districts. It aims at increasing the level of fertilizer consumption and in educating the farmers on scientific knowledge of fertilizers. The project is for a duration of five years.

(एन.एफ.एल) और राष्ट्रीय रसायन और उर्वरक लि0 (आर.सी.एफ.एल) द्वारा कार्यान्वित की जा रही हैं, स्थानीय लागत को पूरा करता है । इन परियोजनाओं का उद्देश्य कृषि पद्धतियों के उन्नत पैकेजों को प्रोत्साहन देना है, जिनमें उर्वरकों का कुशल और सन्तुलित उपयोग भी शामिल है ।

5. Under this Programme, EEC contributes the local cost of three fertilizer education projects which are being implemented by FACT, NFL and RCFL. These projects aim at providing improved packages of agricultural practices including efficient and balanced use of fertilizers.

6. इस योजना का उद्देश्य रसायन और उर्वरक उद्योगों के क्षेत्र में स्वदेशी प्रौद्योगिकी और विकास संबंधी जानकारी की व्यवस्था करना है ।

2. अनुश्रवण संगठन रेडियो आवृत्ति प्रबन्ध के लिए अनुश्रवण प्रेक्षण के आधार पर तकनीकी और सहायक आंकड़े उपलब्ध कराता है, राष्ट्रीय और अन्तर्राष्ट्रीय रेडियो विनियमों को लागू करता है और भारतीय तार अधिनियम, 1885 और उसके अन्तर्गत बनाए गए नियमों के अनुसार कतिपय कानूनी कामों को पूरा करता है । इसके अलावा यह प्रभावकारी राष्ट्रीय रेडियो तरंग आवृत्ति प्रबन्ध करने के लिए रेडियो प्रारेषण पर हर समय नजर रखता है ।

3. अन्य कार्यक्रमों में बेतार आयोजन और समन्वय स्कन्ध से सम्बन्धित अनुमान और अन्तर्राष्ट्रीय दूर संचार संघ, जेनेवा और ए.पी.टी. बैंकाक को अदायगियां शामिल हैं । बेतार आयोजन और समन्वय स्कंध अन्तर्राष्ट्रीय दूर संचार संघ जेनेवा और ए.पी.टी. बैंकाक के साथ संपर्क रखने के लिए राष्ट्रीय प्राधिकरण के रूप में कार्य करता है । यह प्रारेषण और ग्रहण केन्द्रों के लिए भारतीय बेतार टेलीग्राफी अधिनियम,1885 के विभिन्न उपबन्धों के अन्तर्गत लाइसेंस भी जारी करता है और अन्तर्राष्ट्रीय मानकों के अनुसार बेतार कार्यों के लिए परीक्षाएं लेता है ।

4. मांग की पूंजी भाग में हिन्दुस्तान टेलीप्रिंटर लि0, मद्रास को इक्विटी (0.58 करोड़ रुपए) और उधार (1.02 करोड़ रुपए) के लिए की गई व्यवस्था शामिल है । मंत्रालय के सरकारी क्षेत्र के दो अन्य उपक्रमों अर्थात् भारतीय टेलीफोन उद्योग लि0, बंगलौर और विदेश संचार निगम लि0, बम्बई के लिए न तो संशोधित अनुमान 1987-88 में और न ही अगले वर्ष के बजट में कोई बजटीय सहायता की व्यवस्था की गई है क्योंकि आयोजना स्कीमों पर इन उपक्रमों का समस्त व्यय उनके आंतरिक और अतिरिक्त बजटीय संसाधनों से पूरा किया जाएगा ।

1987-88 के संशोधित अनुमानों से तुलना करने पर 1988-89 के बजट अनुमानों में राजस्व व्यय का आयोजना भिन्न भाग 27 लाख रुपए की मामूली वृद्धि को दर्शाता है । यह वृद्धि मुख्यतः सामान्य वार्षिक वृद्धि के कारण है । पूंजीगत व्यय के आयोजनागत भाग के अंतर्गत 1988-89 के बजट अनुमानों में 1987-88 के संशोधित अनुमानों की तुलना में 1.60 करोड़ रुपए की वृद्धि का कारण हिन्दुस्तान टेलीप्रिंटर लिमिटेड को इसकी आयोजनागत स्कीमों के लिए बजटीय सहायता दिए जाने से संबंधित सरकारी निर्णय है ।

1. **Secretariat** - covers expenditure on the secretariat of the Ministry.

2. Monitoring Organisation provides for technical and allied data on the basis of monitoring observations for radio frequency management, enforcement of national and international radio regulations and for carrying out certain statutory functions under the Indian Telegraphs Act, 1885 and rules made thereunder. Besides it keeps a round the clock watch on radio transmissions for effective national radio frequency management.

3. Other programmes cover the estimates relating to the Wireless Planning and Coordination Wing and payments to I.T.U., Geneva and A.P.T.,Bangkok. The Wireless planning and Coordination Wing functions as a national authority in respect of dealings with the I.T.U., Geneva and A.P.T., Bangkok. It also issues licences under various provisions of Indian Wireless Telegraphy Act, 1885 for transmitting and receiving stations, and conducts examinations for wireless operators as per international standards.

4. In the Capital Section, the demand covers the provision for equity (Rs.0.58 crores) and loan (Rs.1.02 crores) to Hindustan Teleprinters Limited, Madras. No budgetary support is however provided to the other two public sector enterprises of the Ministry, viz., Indian Telephone Industries Limited, Bangalore and Videsh Sanchar Nigam Limited, Bombay either in the RE 1987-88 or in the Budget for the next year as the entire expenditure of these enterprises on plan schemes will be met from their internal and extra budgetary resources.

The Non-Plan portion of Revenue expenditure in BE 1988-89 when compared with RE 1987-88 indicates marginal increase of Rs.27 lakhs. The increase is mainly on account of normal annual growth. The increase of Rs.1.60 crores in the BE 1988-89 over the RE 1987-88 under plan portion of Capital expenditure is on account of Government's decision to provide budgetary support to the Hindustan Teleprinters Limited for its Plan schemes.

डाक विभाग, जो संचार मंत्रालय के प्रशासनिक नियंत्रण के अधीन है, देश में डाक सेवाओं के आयोजन, विकास, विस्तार, संचालन और अनुरक्षण के लिए उत्तरदायी है। यह विभाग सरकार की अल्प बचत योजनाओं, डाक जीवन बीमा योजना आदि के संबंध में कुछ अभिकरण कार्य भी करता है। विभिन्न कार्यक्रमों और क्रियाकलापों के क्रियान्वयन के लिए, विभाग के अन्तर्गत 5 डाक प्रशिक्षण केन्द्रों के अलावा 18 डाक सर्कल है।

2. इस मांग में सेवाओं के राजस्व खाते के व्यय और पूंजी खाते के व्यय दोनों के लिए व्यवस्था है। राजस्व भाग में कार्यचालन व्यय के लिए व्यवस्था है, जिसमें एजेंसी सेवाओं के संबंध में व्यय और लेखा परीक्षा तथा पेंशन प्रभारों से संबंधित व्यय भी शामिल है। सेवाओं के राजस्व भाग में होने वाला निवल घाटा (सकल व्यय में से डाक आय को घटाने के बाद बची राशि) सरकार के सामान्य राजस्व से पूरा किया जाता है। पूंजी भाग में डाकघरों की इमारतों, रेल डाक सेवा की इमारतों और अन्य प्रशासनिक कार्यालयों और कर्मचारियों के क्वार्टरों के निर्माण पर होने वाले व्यय और इसके अतिरिक्त एम.एम.एस/रेल डाक सेवा के मोटर गाड़ियों, मुद्रणालयों और अन्य यांत्रिक सहायता सामग्री की खरीद के लिए व्यवस्था की गई है।

3. संशोधित अनुमान में कमी मुख्यतः पूंजीगत व्यय में होने वाली बचत के कारण है।

चालू बजट अनुमान 744.00 करोड़ रुपए और संशोधित अनुमान 655.00 करोड़ रुपए के मुकाबले बजट अनुमान 1988-89 में 725.00 करोड़ रुपए की प्राप्तियों का अनुमान लगाया गया है।

4. अगले वर्ष के बजट में डाक सेवाओं की सामान्य से वृद्धि और विस्तार की व्यवस्था है।

5. प्रस्तावित परिव्यय की तुलना में वर्ष 1988-89 की आयोजना के वास्तविक लक्ष्य मोटे रूप में इस प्रकार हैं:-

(i) डाकघरों की संख्या में वृद्धि (3000)
(ii) डाकघरों की इमारतों का निर्माण (355)
(iii) कर्मचारियों के क्वार्टरों का निर्माण (1210)
(iv) रेल डाक सेवा और एम एम एस के वाहनों की खरीद (175)
(v) अन्य यांत्रिक सहायता सामग्रियों की खरीद।

The Department of Posts, which is under the administrative control of the Ministry of Communications, is responsible for the planning, development, expansion operations and maintenance of Postal Services in the country. It also discharges certain agency functions in respect of Small Savings Schemes of the Government, Postal Life Insurance Scheme etc. For the implementation of the various programmes and activities, the Deptt. has a net work of 18 Postal circles, besides 5 Postal Training Centres.

2. This Demand provides for the revenue as well as the capital expenditure of the Services. In the revenue section, the provision is for the working expenses, which also includes those on account of the agency services, as well as expenditure relating to audit and pensionary charges. The net deficit in the Revenue Section of the Services (i.e. Gross expenditure less Postal earnings) is met by the General revenues of the Government. In the Capital Section, provision is made for the expenditure on construction of Post Office buildings, R.M.S. Buildings, and other administrative offices and Staff Quarters, besides purchase of MMS/RMS vans, printing presses and other mechanical aids.

3. The decrease in Revised Estimates is mainly due to savings in Capital expenditure.

The receipts in BE 1988-89 are estimated at Rs. 725.00 crores against the current BE of Rs.744.00 crores and RE of Rs.655.00 crores.

4. Next year's Budget provides for normal growth and expansion of postal services.

5. The physical targets in 1988-89 Plan against the proposed outlays are broadly:-

(i) Addition to Post Offices (3000)
(ii) Construction of Postal Buildings (355)
(iii) Constrtuction of Staff Quarters (1210)
(iv) Purchase of RMS and M.M.S.Vehicles (175)
(v) Purchase of other machanical aids.

दूरसंचार विभाग देश में दूरसंचार सेवाओं के नियंत्रण और प्रशासन के लिए जिम्मेदार है । ये सेवाएं देश में 18 दूरसंचार मंडलों और 32 दूरसंचार जिलों के माध्यम से वाणिज्यिक आधार पर प्रचालित की जाती हैं, जिनमें से 24 लघु दूरसंचार जिलों में से प्रत्येक जिला एक जिला प्रबंधक के अधीन कार्य करता है और 8 बड़े दूरसंचार जिलों में से प्रत्येक जिला एक महाप्रबंधक के अधीन होता है ।

दिल्ली और बम्बई महानगरों में पहली अप्रैल, 1986 से दूरसंचार सेवाओं (टेलीग्राफ सेवाओं को छोड़कर) का प्रबंध महानगर टैलीफोन निगम लिमिटेड (एम.टी.एन.एल.) द्वारा किया जाता है ।

राजस्व भाग: मांग के राजस्व भाग में की गई व्यवस्था कार्यचालन व्यय (मूल्यह्रास लेखा परीक्षा, पेंशन, संबंधी प्रभार और अनुसंधान एवं विकास सहित), सामान्य राजस्व से उधार ली गई पूंजी पर लाभांश की अदायगी, विभाग के कार्यचालन से अधिशेष के उसकी आरक्षित निधियों में विनियोग तथा टैलीमैटिक्स विकास केन्द्र को सहायता अनुदान के लिए है ।

वर्ष 1987-88 के बजट अनुमान में आंके गए 1709 करोड़ रुपए की तुलना में 1987-88 के संशोधित अनुमानों में 1745 करोड़ रुपए की प्राप्तियों का अनुमान लगाया गया है । यह वृद्धि विभाग द्वारा अंतरित की गई परिसम्पत्तियों के मूल्य के इक्विटी संघटकों (600 करोड़ रुपए) पर महानगर टैलीफोन निगम लिमिटेड द्वारा देय लाभांश की अधिक राशि आंके जाने के कारण है ।

1988-89 के बजट अनुमानों में 2306 करोड़ रुपए की प्राप्तियां होने का अनुमान है, जिसमें सामान्य वृद्धि और अतिरिक्त संसाधन जुटाने के प्रभाव को हिसाब में लिया गया है ।।

चालू संशोधित अनुमान में कार्य-चालन व्यय में वृद्धि मुख्यत: चौथे वेतन आयोग की सिफारिशों के

The Department of Telecommunications is responsible for the control and administration of the Telecommunication Services in the country. The services are operated on a commercial basis, through 18 telecommunication circles and 32 telecommunication districts in the country, the latter comprising 24 minor districts, each under the charge of a District Manager, and 8 major districts, each under the charge of a General Manager.

At the metropolitan cities of Delhi and Bombay, the telecommunication services (except telegraph services), are managed by Mahanagar Telephone Nigam Limited (MTNL) with effect from Ist April, 1986.

Revenue Section : The provision in the revenue section of the Demand is for working expenses (including depreciation, audit, pensionary charges and research and development), dividend payable to General Revenues on the borrowed capital, appropriation of the surplus in the working of the Department to its reserve funds, and grant-in-aid to the Centre for Development of Telematics (C-DOT).

Receipts in RE 1987-88 are estimated at Rs.1745 crores as against Rs.1709 crores assumed in the B.E. 1987-88 budget. The increase is due to assumpition of a larger amount of dividend payable by the MTNL on the equity component (Rs.600 crores) of the value of assets transferred by the Department.

Receipts in BE 1988-89 are assumed at Rs.2306 crores, after taking into account the normal growth and the effect of additional resources mobilisation.

The increase in working expenses in the current year in (RE) is mainly on account of

क्रियान्वयन में अतिरिक्त व्यय के कारण है जो कि पेंशन संबंधी लाभों, सरकारी कर्मचारियों को मंहगाई भत्ते की अतिरिक्त किस्तों, उच्चतम न्यायालय आदि के निर्णय के अनुसार दिहाड़ी मजदूरों के वेतन के विनियमन से संबंधित है ।

अगले वर्ष के कार्यचालन व्यय में वृद्धि, सामान्य वृद्धि की द्योतक है ।

चालू वर्ष (सं.अ.) में सामान्य राजस्व में देय लाभांश में वृद्धि ,बजट में आंकी गई लाभांश की दर को 8.8 प्रतिशत से बढ़ाकर 9 प्रतिशत कर देने के कारण है । अगले वर्ष में वृद्धि (व.अ.) उस वर्ष में नई पूंजी पर देय लाभांश और लाभांश की दर को 9.3 प्रतिशत किए जाने के कारण है ।

पूंजी भागः इस भाग में दूरसंचार नेटवर्क के विस्तार, टैलीग्राफ प्रणाली स्कीमों, स्थानीय टैलीफोन पद्धतियों, लम्बी दूरी की स्विचिंग और पारेषण प्रणालियों जिनमें उपग्रह के जरिए दूरस्थ क्षेत्र दूरसंचार सेवाए शामिल हैं, कर्मचारियों के क्वार्टरों के निर्माण और कारखानों और भंडार संगठनों पर होने वाले व्यय की व्यवस्था की गई है ।

नई परिसम्पतियों के सृजन और विद्यमान परिसम्पतियों के प्रतिस्थापन को विभाग का आयोजनागत परिव्यय माना गया है । बजट अनुमानों में 1134.12 करोड़ रुपए की तुलना में चालू वर्ष के संशोधित अनुमानों में 1400 करोड़ रुपए की व्यवस्था की गई है । अतिरिक्त परिव्यय को अतिरिक्त बजटीय संसाधनों से पूरा किया जाएगा (बाजार बांडों को जारी करके), चालू वर्ष में बजटीय समर्थन को बजट अनुमान के स्तर (100 करोड़ रुपए) पर बनाए रखा गया है ।

अगले वर्ष के आयोजनागत व्यय को 1700 करोड़ रुपए पर रखा गया है जिसमें 245.65 करोड़ रुपए का बजटीय समर्थन है ।

additional expenditure in implementation of the recommendations of Fourth Central Pay Commission relating to pensionary benefits, additional instalements of dearness allowance to Government employees, regulation of pay of casual employees in terms of the judgement of the Supreme Court, etc.

The increase in the working expenses next year represents the normal growth in expenditure.

Increase in dividend payable to General Revenues in the current year (R.E.) is due to increase in the rate of dividend from 8.8% assumed in the Budget to 9%. Increase in next year (B.E.) is on account of dividend payable on fresh capital provided for in that year as also further increase in the rate of dividend to 9.3%.

Capital Section: This section provides for expenditure on expansion of telecommunication network, the schemes being telegraph systems, local telephone systems, long-distance switching and transmission systems, including remote area telecommunication services through satellite, construction of staff quarters and support systems of factories and stores organisations.

The capital outlay on creating new assets as well as on replacement of the existing assets is treated as plan outlay of the Department. The provision for this in the current R.E. is Rs.1400 crores as against Rs.1134.12 crores in the B.E. The additional outlay will be met from extra - budgetary resources (floatation of market bonds); the budgetary support in the current year is retained at the B.E. level (Rs.100 crores).

Next year's plan outlay has been kept at Rs. 1700 crores with a budgetary support of Rs.245.65 crores.

इस मांग में सेवा निवृत्त रक्षा कार्मिकों (थल सेना, नौ सेना, वायु सेना तथा आयुध कारखानों के पेन्शन धारकों के लिए व्यवस्था की गई है। उसमें उपदानों, हताहत होने पर दिए जाने वाले पुरस्कारों जैसे कि युद्ध में क्षति होने पर दिए जाने वाले वेतनों, विकलांगता पेन्शनों तथा वीरता पुरस्कारों, अर्थात परमवीर चक्र, महावीर चक्र इत्यादि के अतिरिक्त पेन्शनों के राशिकृत मूल्य के लिए व्यवस्था की गई है। 1987-88 के संशोधित अनुमानों में वृद्धि, 15 वर्ष के पश्चात पेंशनों के राशिकृत मूल्य की बहाली के कारण तथा पहली जनवरी, 1986 से परिवार पेंशनभोगियों सहित रक्षा पेंशनभोगियों के लिए अपनाए गए विभिन्न उदार उपायों के भी कारण है।

The provision in this demand is for the Pensionery charges in respect of retired Defence personnel, (Army, Navy, Air force and Ordinance Factories). It covers payments of gratuities, Casuality Awards such as War injury Pay, Disability Pensions and Gallantry Awards like Param Vir Chakra, Mahavir Chakra besides commuted value of Pensions. The increase in the R.E. 1987-88 is due to impact of restoration of Commuted value of pensions after 15 years, as also the various libralisation measures adopted for Defence pensioners including family pensioners from 1st January, 1986.

इस विनियोग में केन्द्रीय सरकार की ऋण संबंधी देनदारी (आंतरिक एवं बाह्य) पर ब्याज प्रभारों के भुगतान तथा वाणिज्यिक विभागों की मूल्य ह्रास तथा अन्य संरक्षित निधियों से सम्बद्ध ब्याज प्रभारों की व्यवस्था की गई है । भविष्य निधि पर देय ब्याज की व्यवस्था, डाक घर बचत बैंक जमाखातों, अल्प बचत प्रतिभूतियों इत्यादि पर देय ब्याज को भी इस विनियोग में शामिल किया गया है । सम्पूर्ण व्यय संविधान के अनुच्छेद 112(3)(ग) के अनुसार भारत की समेकित निधि पर "प्रभारित" है ।

The Appropriation, provides for interest charges on Central Government's debt obligations (internal as well as external) and on depreciation and other reserve funds of Commercial departments. Provision for interest payable on Provident Funds, Post Office Saving Bank Deposits, Small Securities, etc. is also included in this Appropriation . The entire expenditure is '*Charged*' on the Consolidated Fund of India in terms of Article 112(3) (c) of the Constitution.

1987-88 के संशोधित अनुमानों में वृद्धि, मुख्यतः अल्प बचत योजनाओं (प्रत्याशित से अधिक वसूलियों के कारण) और भविष्य निधि विशेष जमाखातों में अधिक धनराशियां जमा होने के फलस्वरूप हुई है ।

The increase in the Revised Estimates, 1987-88 is mainly under small savings schemes (because of larger collection than anticipated) and Provident Funds Special deposits, following larger accretions.

1988-89 के बजट अनुमानों में वृद्धि मुख्यतः 1987-88 के बाजार उधारों पर देय पूरे वर्ष के ब्याज के कारण हुई है । यह वृद्धि राजकोषीय हुण्डियों को भुनाने के लिए अधिक रकम की आवश्यकता, तथा आन्तरिक तथा बाह्य ऋणों पर ब्याज में सम्भावित वृद्धि होने तथा अल्प बचत योजनाओं के अन्तर्गत अतिरिक्त धनराशियों के सम्भावित संग्रह तथा धनराशियों के राज्य भविष्य निधियों तथा गैर-सरकारी भविष्य उपदान तथा अधिवार्षिकी निधियों तथा अन्य जमा खातों इत्यादि में जमा होने के कारण हुई है ।

The increase in the Budget estimates, 1988-89 is mainly on account of full year's interest due on market borrowings in 1987-88, larger requirements for discount on treasury bills and interest on internal and external loans likely to be raised and the anticipated additional collections and accretions under small saving schemes, State Provident Funds and other Non-Government Provident, Gratuity and super-annuation Funds and other Deposit accounts, etc.

यह एक मिश्रित मांग है जिसमें सभी केन्द्रीय मंत्रालयों/विभागों और उनके अधीनस्थ संगठनों और संघ राज्य क्षेत्र के प्रशासनों (दिल्ली आदि) की आवश्यकताओं के लिए व्यवस्था की गई है ताकि वे अपने कर्मचारियों, उनकी विभागीय सहकारी समितियों और कैंटीनों को ऋण और अग्रिम दे सकें। इसमें संसद सदस्यों को मोटरगाड़ी की खरीद के लिए अग्रिम दिए जाने की भी व्यवस्था की गई है।

जिन प्रयोजनों के लिए ब्याजदार उधार दिए जाते हैं उनमें गृह निर्माण, वाहनों की खरीद, पंखों तथा गर्म कपड़ों की खरीद के लिए दिए जाने वाले अग्रिम शामिल हैं। इस मांग में बिना ब्याज केन्द्रीय सरकारी कर्मचारियों की सम्पत्तियों को बाढ़ तथा तूफान इत्यादि में भारी नुकसान हुआ है अथवा जिनकी सम्पत्तियां नष्ट हो गई हैं उनके लिए ब्याज रहित ऋण देने की व्यवस्था भी शामिल है।

संशोधित अनुमान 1987-88 और बजट अनुमान 1988-89 में वृद्धि, मकान बनाने के लिए अग्रराशियों की पहले से अधिक मांग हो जाने के कारण, गृह-निर्माण अग्रिम संबंधी व्यवस्था के अन्तर्गत हुई है, क्योंकि संबद्ध नियमों को उदार बना दिया गया है।

This is a composite Demand which provides for the requirements of all Central Ministries/Departments and their subordinate organisations and Union Territory administrations (Delhi, etc.) for payment of loans and advances to their employees, their departmental cooperative societies and canteens. It also includes provision for advances to Members of Parliament for purchase of motor conveyances.

The purposes for which interest-bearing loans are advanced include house-building, purchase of conveyances, fans and warm clothings. This Demand also includes provision for interest-free advances to Central Government employees whose properties are substantially affected or damaged due to floods, cyclone etc.

Increase in Revised estimates 1987-88 and Budget estimates 1988-89 is on account of larger demand for funds under House Building advance following liberalisation of rules.

This Demand includes provision for expenditure relating to the Comptroller and Auditor-General of India and the offices under his control dealing with audit of the accounts of Union Government and compilation and audit of the accounts of the State and Union Territory Governments. Larger expenditure arising out of grant of instalment of additional dearness allowance, upgradation of certain posts and upward revision of rates of daily allowance mainly account for the increase in the revised estimates. Budget 1988-89 takes into account normal growth.

इस मांग में आयकर विभाग की आवश्यकता के लिये व्यवस्था है जो केन्द्रीय सरकार द्वारा लगाए गये तथा इकट्ठे किये गये सभी प्रत्यक्ष करों अर्थात् आय पर कर (निगम क्षेत्र की आय शामिल है) सम्पदा शुल्क, धन कर और दानकर सम्बन्धी प्रशासन कार्य करता है। शुल्कों के संग्रह के लिए देश को कार्यक्षेत्रों में विभाजित किया गया है। प्रत्येक क्षेत्र एक आयकर आयुक्त के अधिकार में है। इस विभाग के अधीन बड़े पैमाने पर करों की चोरी के मामलों की छानबीन करने, निरीक्षण, अनुसंधान, अंक संकलन और प्रकाशन के लिये अलग निदेशालय हैं। इस विभाग में बड़े पैमाने पर अपवंचन निरीक्षण,अनुसंधान, सांख्यकी और प्रकाशनों के मामलों की छानबीन करने के मामलों के लिए अलग से निदेशालय भी है। संशोधित अनुमानों में मद संख्या 1 से 4 में जो वृद्धियां हुई है वे मुख्य रूप से महंगाई भत्ते की अतिरिक्त किस्त मंजूर किए जाने, बोनस की व्यवस्था करने, दैनिक मजदूरी की दरों, रेल और हवाई जहाजों के किराए में वृद्धि होने तथा कार्यालय के लिए अतिरिक्त स्थान किराए पर लिए जाने आदि के कारण हुई हैं। बजट 1988-89 में सामान्य वृद्धि के लिए व्यवस्था कर दी गई है।

मद संख्या 5 के समक्ष जो व्यवस्था है वह वित्त अधिनियम, 1986 (यथासंशोधित) द्वारा यथारोपित आयकर अधिनियम 1961 के अध्याय XXC में परिकल्पित प्रबंध के अनुसार केन्द्रीय सरकार के द्वारा अचल सम्पत्तियों को पूर्वक्रयाधिकार के अनुसार खरीद कर लिए जाने के संबंध में है। बजट अनुमान 1988-89 में इस प्रयोजन के लिए जो व्यवस्था की गई है उसमें से ऐसी अधिग्रहीत सम्पत्तियों की बिक्री से प्राप्त 90 करोड़ रुपए की रकम को घटा दिया गया है, जिनका विक्रय केन्द्रीय सरकार ने किया है जबकि इसकी तुलना में बजट अनुमान 1987-88 में 90 करोड़ रूपए और संशोधित अनुमान 1987-88 में 15 करोड़ रूपए की व्यवस्था थी।

The Demand provides for the requirement of the Income-tax department, which administers all direct taxes levied and collected by the Central Government, namely, Taxes on Income (including income of the corporate sector), Estate Duty, Wealth Tax and Gift Tax. For purpose of collection, the country has been divided into charges. The Department has also got separate Directorates for scrutiny of cases involving large scale evasion, inspection, research, statistics and publications. The increases in Revised estimates at items 1-4 are mainly due to the effect of grant of additional instalments of D.A., bonus, upward revision in the rates of daily wages, rail and air fares, hiring of additional office accommodation, etc. Budget Estimates 1988-89 take into account normal growth.

The provision at item 5 relates to pre-emptive purchase of immovable properties by Central Government as envisaged in Chapter xxc of the Income tax-Act, 1961 as amended by the Finance Act, 1986. The provision for this purpose in Budget Estimates 1988-89 is net of estimated sale proceeds amounting to Rs.90 crores in respect of the acquired properties disposed off by the Government, as against Rs.90 crores and Rs.15 crores in the Budget Estimates 1987-88 and Revised Estimates 1987-88 respectively.

1. इस मांग में सीमा शुल्क स्कंध के स्थापना व्यय और अन्य व्यय के लिए और छोटे पत्तनों और भू-सीमाशुल्क चौकियों पर केन्द्रीय उत्पाद शुल्क स्कंध द्वारा किए गए सीमा शुल्क संग्रह के कार्य के संबंध में उसको आनुपातिक व्यय की अदायगी करने के लिए व्यवस्था की गई है। छोटे पत्तनों और भू-सीमा शुल्क केन्द्रों पर पहले से अधिक व्यय की व्यवस्था के कारण मुख्यतः संशोधित अनुमान में वृद्धि हुई है। बजट अनुमान 1988-89 में और वृद्धि मशीनरी और उपस्करों, किराए, महसूल और करों तथा पुरस्कारों के लिए अधिक धन की व्यवस्था किए जाने और इसके साथ-साथ सामान्य वृद्धि के संबंध में भी व्यवस्था किए जाने के कारण हुई है।

1. This includes provision for the establishment and other expenditure of the Customs wing and for payment of proportionate charges to the Central Excise wing for customs work done by it at minor ports and land customs border posts. Larger expenditure at minor ports and land custom stations mainly accounts for the increase in RE. More provision for machinery and equipments, rent, rates and taxes and rewards, besides normal growth, accounts for the further increase in the 1988-89 Budget Estimates.

2. इस मांग में तट सुरक्षा संगठन के व्यय के लिए व्यवस्था शामिल की गई है जो भारत के समुद्री क्षेत्रों की सुरक्षा की सुनिश्चित व्यवस्था करता है।

2. Provision is for expenditure of the Coast Guard Organisation, which ensures the security of the maritime zones of India.

3. इस मांग में सीमा-शुल्क कल्याण निधि के लिए 6 करोड़ रुपए की व्यवस्था के अलावा भू-सीमाशुल्क से संबंधित बृहत्तर निर्माण कार्यों के लिए व्यवस्था शामिल है।

3. This includes provision for major works relating to Land Customs besides Rs.6 crores for Customs welfare fund.

4. यह व्यवस्था संघीय उत्पाद शुल्क संगठन के स्थापना व्ययों और उत्पाद शुल्क संग्रह के संबंध में किए जाने वाले अन्य व्ययों के लिए है। केन्द्रीय उत्पाद शुल्क स्कंध कुछ स्थानों पर, जैसे छोटे पत्तनों और भू-सीमा शुल्क केन्द्रों में सीमा शुल्क संग्रह संबंधी कार्य भी करता है, जिसके लिए सीमा शुल्क स्कंध से आनुपातिक आधार पर खर्च वसूल कर लिया जाता है। संशोधित अनुमान 1987-88 में ऐसी बकाया रकम की अदायगियों के लिए व्यवस्था शामिल की गई है, जिनको केन्द्रीय प्रशासनिक न्यायाधिकरण द्वारा निरीक्षकों के पक्ष में दिए गए एक निर्णय के आधार पर पहली जनवरी, 1980 से वेतन में की गई वृद्धि के कारण अदा करना है। बजट अनुमान 1988-89 में सामान्य वृद्धि के लिए और कम्प्यूटीकरण तथा पुरस्कारों के लिए भी व्यवस्था कर दी गई है।

5. इस भाग में माचिस उत्पाद शुल्क बैंड रोल और संघीय उत्पाद शुल्क स्टाम्पों और लेबलों की छपाई की लागत की व्यवस्था है।

6. इस भाग में मुख्यतः स्थापना संबंधी व्यवस्था और निरीक्षण कार्य पर होने वाले अन्य व्यय, सांख्यिकी और आसूचना, प्रशिक्षण, सतर्कता, प्रकाशन निदेशालय और अपवंचन विरोधी निदेशालय पर होने वाले अन्य व्यय की व्यवस्था शामिल है।

4. The provision is for establishment expenses of the Central Excise Organisation including other expenses on collection of Union Excise Duties. The Central Excise wing also performs customs work at certain places like minor ports and land customs stations for which proportionate charges are recovered from the Customs wing. Revised estimates 1987-88 include provision for arrear payments due to pay revision effective from 1st January, 1980 arising out of a judgement of the Central Administrative Tribunal in favour of Inspectors. Budget Estimates 1988-89 take into account normal growth and provision for computerisation and rewards.

5. Provision represents cost of printing of match excise banderols and union excise stamps and labels.

6. This includes provision mainly for the establishment and other expenditure on Inspection, Statistics and Intelligence, Training, Vigilance, Directorate of Publications and Directorate of Anti-evasion.

हाल ही के मुख्य कार्यकलाप निम्नलिखित रहे हैं :

i) एच.सी.एल., माइक्रो कम्प्यूटर 2200 के लिए कम्प्यूटर कार्यक्रम का विकास और उनके लिए अनुदेश तैयार किए जा रहे हैं।

ii) भारत में चुम्बकीय तत्वों, अर्थात् बी.एफ., एच.एफ. का दीर्घकालिक विभिन्नता संबंधी अनियमितताओं का अध्ययन नामक एक परियोजना भारतीय भू-चुम्बकीय संस्थान, बम्बई के सहयोग से चल रही है।

iii) एवरेस्ट गोलाभ में विश्व भूगणितीय प्रणाली-72 के प्राचल रूपान्तरण के निर्धारण के लिए डोप्पर सैटेलाइट आंकड़ों का प्रयोग पहले की तरह किया जा रहा है।

iv) वर्ष के दौरान, भौगोलिक सूचना प्रणाली, 'एकीकृत ग्रामीण विकास संबंधी आंकड़े, सड़क/रेलवे संरेखण के लिए आंकिक भूभाग मॉडल आदि से संबंधित कार्य किया गया। इसके साथ कम्प्यूटर कार्यक्रमों का विकास और डाप्लर उपग्रह प्रेक्षणों में कमी करने का कार्य भी जारी रहा।

नवीनतम कम्प्यूटर प्रणाली की सहायता तथा उपग्रह पर आधारित आंकड़ा संसाधन तकनीक को अपनाने की दृष्टि से आधुनिकीकरण के क्षेत्र में दो मुख्य परियोजनाएं अर्थात् 'आधुनिक मानचित्रण केन्द्र (संयुक्त राष्ट्र विकास कार्यक्रम की सहायता से) और 'आंकिक मानचित्रण केन्द्र' की स्थापना भारतीय सर्वेक्षण के लिए की जा रही है। ये केन्द्र भारतीय सर्वेक्षण को गियर सर्वेक्षण के क्षेत्र में नवीनतम घटनाओं से अवगत रखते हुए आधुनिक युग में प्रवेश करने में सहायता देंगे।

7. **राष्ट्रीय एटलस और थिमैटिक मानचित्रण संगठन** : इस संगठन की स्थापना 1956 में की गई जिसका प्राथमिक उद्देश्य भारत का राष्ट्रीय एटलस तैयार करना था। इसके बाद इसके कार्य क्षेत्र और कार्यकलापों को भौगोलिक अनुसंधान, थिमैटिक मानचित्रण के नए क्षेत्रों तक बढ़ा किया गया जिसमें भूगोल तथा सम्बद्ध विषयों के शैक्षिक तथा अनुप्रयुक्त पहलुओं को शामिल किया गया है। इस समय संगठन को छ इकाइयों में बांटा हुआ है तथा सभी इकाइयां कलकत्ता में स्थित हैं।

इसके कार्यकलाप इस प्रकार हैं :

i) भारत की राष्ट्रीय एटलस अंग्रेजी और हिन्दी में तैयार करना,

ii) विभिन्न क्षेत्रीय भाषाओं में राष्ट्रीय एटलस मानचित्र तैयार करना,

iii) पर्यावरणात्मक पहलुओं और आर्थिक और सामाजिक विकास पर उन के प्रभाव संबंधी अनुसंधान अध्ययनों पर आधारित विषयिक मानचित्र तैयार करना।

iv) 1:1 मी. के पैमाने और इससे बड़े पैमाने पर भारत की भूमि उपयोग और भूमिक्षमता संबंधी मानचित्र तैयार करना और संकलित करना, और

v) भौगोलिक अनुसंधान और मानचित्रकला संबंधी अनुप्रयोग।

1987-88 के दौरान संगठन ने विभिन्न विषयों पर बारह प्रकार के मानचित्र प्रकाशित किए हैं। अक्तूबर, 1987 तक के निष्पादन से लक्ष्यों के मुकाबले 50 प्रतिशत से अधिक उपलब्धियों का पता चलता है। संशोधित बजट में व्यवस्था में वृद्धि मुख्यतः न्यायालय के निर्णय के परिणाम स्वरूप महंगाई भत्ते और बोनस में वृद्धि और किराए की बकाया राशि के कारण है।

administrative and technical control of the various Regional Circle/Party Offices spread all over the Country. Modern photogrammetric methods are being extensively used for topographical, irrigation sources, Flood Management and other developmental mapping.

The recent main activities have been :

i) Development of Computer programme for HCL, Micro Computer 2200 and preparation of their instructions are in progress.

ii) A project 'Study of Secular variation Anomalies' of Magnetic Elements viz. VF, HF, in India, is in progress in collaboration with Indian Institute of Geomagnetism, Bombay.

iii) Use of Doppler satellite data for determination of transformation parameters of World Godetic System- 72 to Everest Spheroid is continued.

iv) Work with regard to 'Geographical Information System', 'Data for Integrated Rural Development', Digital Terrain Model for Road/Railway alignment, etc. were carried out throughout the year. Also work for Development of Computer Programmes and for reduction of Doppler Satellite observations were continued.

In the process of modernisation, two major projects viz. 'MODERN CARTOGRAPHIC CENTRE' (with the assistance of UNDP) and DIGITAL MAPPING CENTRE' for Survey of India are being set up with a view to adopt latest computer aided and satellite based data processing techniques. These centres will help Survey of India to keep abreast of the latest developments in this field to gear Survey of India to enter the DIGITAL ERA.

7. **National Atlas and Thematic Mapping Organisation** : The Organisation set up in 1956 primarily aims at preparing National Atlas of India. Subsequently its scope and activities were extended to new fields of geographical research, thematic mapping covering all the academic and applied aspects of geography and allied subjects. The organisation is at present divided in six units, all located in Calcutta.

Its functions are :

i) Preparation of the National Atlas of India in English and Hindi.

ii) Preparation of National Atlas maps in different regional languages.

iii) Preparation of thematic maps based on research studies on environmental aspects and their impact on social and economic development.

iv) Preparation and compilation of Land use and Land-capability maps of India on 1:1M scale and on larger scale and

v) Geographical researches and cartographic applications.

During 1987-88 the Organisation has published 12 types of maps on different subjects. The performance upto October, 1987 shows more than 50% achievements as compared to targets. The increased provision in the revised budget is mainly due to increase in D.A. Bonus and arrears of rent owing to decision of the Court.

(छ) विज्ञान और प्रौद्योगिकी की राज्य परिषदों के विकास के लिए सहायता : योजना का मुख्य उद्देश्य विज्ञान और प्रौद्योगिकी की राज्य परिषदें स्थापित करने के लिए सभी राज्यों/संघ शासित प्रदेशों की सहायता करना है ताकि ये अपने-अपने राज्यों में विज्ञान और प्रौद्योगिकी के कार्यकलापों के निर्धारण, आयोजन, समन्वय और संवर्धन के लिए केन्द्र बिन्दु के रूप में कार्य करें। उनसे यह भी आशा की जाती थी कि ये राज्य की विज्ञान और प्रौद्योगिकी योजनाएं तैयार करने में, विज्ञान और प्रौद्योगिकी संबंधी सूचना के संकलन एवं प्रसार में और विज्ञान को लोकप्रिय बनाने में सहायता करें।

राज्य परिषदें 21 राज्यों, 8 संघ शासित प्रदेशों और उत्तरपूर्वी क्षेत्रों में स्थापित की गई हैं। अनेक राज्यों ने विज्ञान और प्रौद्योगिकी के अलग-अलग विभाग और/अथवा राज्य सचिवालय भी स्थापित किए हैं। वर्ष 1987-88 में सभी राज्य परिषदों के विज्ञान और प्रौद्योगिकी कार्यकलापों की समीक्षा भी की गई है।

(ज) विज्ञान और प्रौद्योगिकी संबंधी अध्ययन गोष्ठी/विचार गोष्ठी के लिए समर्थन और अध्ययन गोष्ठी कम्पलैक्स स्थापित करने के लिए सहायता : राष्ट्रीय विज्ञान और प्रौद्योगिकी प्रयासों के संदर्भ में भारतीय वैज्ञानिकों की योग्यता और क्षमता को सुदृढ़ बनाने के उद्देश्य से विज्ञान और प्रौद्योगिकी विभाग में यह योजना आरम्भ की गई थी जिससे कि इस प्रकार की राष्ट्रीय और अन्तर्राष्ट्रीय विज्ञान और प्रौद्योगिकी अध्ययन गोष्ठी/विचारगोष्ठी को समर्थन प्रदान किया जा सके। यह योजना यह महसूस करते हुए आरम्भ की गई थी कि वैज्ञानिक अनुसंधान अधिकाधिक एक दल का प्रयास बनता जा रहा है और जहां पारस्परिक क्रिया के माध्यम से सूचना का संचार और आदान-प्रदान मुख्य भूमिका निभा रहा है। देश में अनेक राष्ट्रीय और अन्तर्राष्ट्रीय अध्ययन गोष्ठियां/विचार गोष्ठियां इस तथ्य के कारण आयोजित की जाती हैं कि देश में विज्ञान और प्रौद्योगिकी कार्यकलापों के तीव्रगति से हो रहे विस्तार के लिए वैज्ञानिक समुदाय को जाने के अपने-अपने सम्बन्धित विशिष्ट विषयों के अद्यतन विकास से अवगत कराना आवश्यक है जो केवल अध्ययन गोष्ठी/विचार गोष्ठी/कार्यशाला आदि के स्वीकृत ढंग के माध्यम से सम्भव है।

वर्ष 1987-88 के दौरान काफी प्रतिष्ठित राष्ट्रीय और अंतर्राष्ट्रीय सम्मेलनों को समर्थन दिया गया जिनमें बड़ी संख्या में वरिष्ठ और युवा दोनों ही प्रकार के भारतीय वैज्ञानिकों ने भाग लिया और भारत और विदेश, दोनों ही के प्रख्यात वैज्ञानिकों की उपस्थिति का लाभ उठाया।

हिमालयी भूकम्पनीयता परियोजना के अन्तर्गत थीन (पंजाब), जोशीमठ (उत्तर प्रदेश) में दो भूकम्पीय केन्द्र स्थापित किए गए थे। एक 50 तात्विक प्रबल गति व्यूह उपकरण असम के शिलांग क्षेत्र में स्थापित किया गया है। एक "8 एलीमेंट शार्ट अपर्चर टैलीमीट्री सिस्टम" अर्थ डाटा लिमिटेड, यू.के. से खरीद किया गया है और रुड़की विश्वविद्यालय द्वारा गंगा-यमुना क्षेत्र में उपयुक्त स्थान पर संस्थापित किया जा रहा है।

(g) **Assistance for Development of State Councils on Science and Technology** : The main objective of the scheme has been to assist all the States/U.Ts to set up State councils on Science and Technology which in turn could act as focal forums for the formulation, planning, co-ordination and promotion of S&T activities within respective States. They were also expected to help in preparing State S&T plans, compilation and dissemination of S&T information and popularisation of Science.

State Councils have been set-up in 22 States, 7 Union Territories and North Eastern Region. Several states have also formed a separate Department of Science & Technology and/or State Secretariat. During 1987-88 S&T activities of all the State Councils have been reviewed.

(h) **Support for Seminars/Symposia on Science and Technology and Establishment of Seminar Complex** : In order to strengthen the competence and capability of Indian scientists in the context of national S&T efforts, this scheme was initiated in DST to support such science and technology seminars/symposia both national and international. This was initiated realising that scientific research is becoming more and more a team effort and where communication and exchange of information through interaction play a major role. Many Seminars/Symposia are held in the country both national and international because of the fact that rapid expansion of S&T activities in the country require the scientific community to keep abreast the latest development in their respective specialised fields of knowledge which are possible only through this accepted mechanism of seminars/symposia/workshops etc.

During 1987-88 quite a few prestigious National and International conferences were supported where large number of Indian scientists both senior and young participated and taken advantage of the presence of eminent scientists both from India and abroad.

10. **Earth and Atmospheric Sciences** : Earth and Atmospheric Sciences Division of DST has been implementing the following two multi-institutional and multidisciplinary projects since 6th plan:

Under the NRDMS project, setting up of 5 district level data bases have been initiated at Visakhapatnam (A.P) Sultanpur (UP), Kheda (Gujarat), Korapur (Orissa) and Gurgaon (Haryana). R&D programme for further development of NRDMS methodology, particularly in relation to study of areas prone to natural disaster, island systems were pursued.

Under the Himalayan Seismicity project two seismic stations at Thein (Punjab), Joshimath (UP) were set up. A 50 element array of strong motion instruments has been acquired from Earth Data Limited, UK and is under installation at suitable site in Ganga-Jamuna area by the University of Roorkee.

1. **सचिवालय** : इसके अन्तर्गत खान विभाग के सचिवालय व्यय के लिए व्यवस्था की गई है ।

2. **भारतीय भूवैज्ञानिक सर्वेक्षण** : इसके अन्तर्गत व्यवस्था भूगर्भीय मानचित्रण और अपतटीय क्षेत्रों सहित देश के क्षेत्रीय खनिज के मूल्यांकन के लिए है और इसमें उपग्रह वाहित्र और वायुवाहित सर्वेक्षणों के जरिए 'सुदूर संवेदन' की आवश्यकताएं भी शामिल हैं । बजट अनुमान 1988-89 में वृद्धि, भूगर्भीय मानचित्रों को सुव्यवस्थित ढंग से बनाने में वृद्धिकारक उत्पादनों और समुद्रीय सर्वेक्षणों के कारण है ।

3. **खनिज अन्वेषण निगम लिमिटेड को अनुदान** : संवर्धनात्मक आधार पर केन्द्रीय सरकार द्वारा निगम को सौंपी गई अन्वेषण परियोजनाओं का वित्तपोषण अनुदानों द्वारा किया जाता है । बजट अनुमान 1988-89 में वृद्धि, संवर्धनात्मक कार्य के लिए दरों में संशोधन के कारण है ।

4. **भारतीय खान ब्यूरो के अनुसंधान और अन्य कार्यक्रम** : इसके अन्तर्गत व्यवस्था में खानों के निरीक्षण और अध्ययन के लिए भारतीय खान ब्यूरो की आवश्यकताएं और (i) निम्न श्रेणी के अयस्कों और खनिजों के उपकारक और (ii) खनिज संसाधनों के संरक्षण के संवर्धन और वैज्ञानिक विकास को दृष्टिगत रखते हुए विशेष खनन समस्याओं के अनुसंधान शामिल है । संशोधित अनुमान 1987-88 में कमी, परियोजना कार्यान्वयन में मामूली अवस्थबद्धता के कारण है ।

5. **भारत गोल्ड माइन्स लिमिटेड को आर्थिक सहायता** : इस कम्पनी को आर्थिक सहायता जरूरी हो गई है क्योंकि इस कम्पनी को लगातार नकद हानियां हो रही हैं । संशोधित अनुमान 1987-88 में वृद्धि, नकद हानियों में वृद्धि, बिजली और पानी की दरों तथा कर्मचारियों की मजदूरी में वृद्धि कर देने के साथ-साथ सोने के उत्पादन में कमी के कारण है ।

6. **अन्य कार्यक्रम** : इनमें विभिन्न स्वायत्त और वैज्ञानिक निकायों को सहायता अनुदान के लिए व्यवस्था, कोलार गोल्ड फील्ड खानों में अधिक गहराई में परीक्षणों के लिए भारत गोल्ड माइन्स लिमिटेड को विशेष अध्ययनों, एल्युमीनियम कारपोरेशन आफ इण्डिया के लिए भुगतान आयुक्त के कार्यालय, गोआ, दमन और दीव खनन रियायत (खनन पट्टों के रूप में संपरिवर्तन और घोषणा) अधिनियम, 1987 के लिए भुगतान आयुक्त आदि के लिए अदायगी शामिल है ।

7. **सरकारी उद्यमों में निवेश** : इसके अन्तर्गत सरकारी क्षेत्र के उपक्रमों को उनकी नई और चल रही योजनाओं पर पूंजी व्यय, प्रतिस्थापन तथा नवीकरण और अनुसंधान तथा विकास संबंधी प्रयासों के लिए इक्विटी और ऋणों के लिए विभागानुसार व्यवस्था की गई है ।

अन्य बातों के साथ-साथ राष्ट्रीय जलमार्गों के विकास, अनुरक्षण और प्रबंध तथा केन्द्रीय सरकार को देश में अन्तर्देशीय जल परिवहन के विकास के संबंध में परामर्श देने के लिए जिम्मेदार है। भारतीय अन्तर्देशीय जल परिवहन प्राधिकरण के लिए अब भारतीय अन्तर्देशीय जल परिवहन प्राधिकरण को अनुदानों (आयोजना) के अन्तर्गत व्यवस्था की जा रही है जिसमें जलवैज्ञानिक सर्वेक्षण, राष्ट्रीय जलमार्ग, सर्वेक्षण नौकाओं की प्राप्ति और भारतीय अन्तर्देशीय जल परिवहन प्राधिकरण के उपस्कर और प्रशासनिक व्यय के लिए विधियां (आयोजना) शामिल है। आयोजना में की गई व्यवस्था मुख्यतः गंगा के विकास के लिए है, जिसे एक राष्ट्रीय जलमार्ग के रूप में घोषित कर दिया गया है। इस कार्य को भारतीय अन्तर्देशीय जल परिवहन प्राधिकरण द्वारा निष्पादित किया जा रहा है। ब्रह्मपुत्र में दूसरे (प्रस्तावित) राष्ट्रीय जलमार्ग के संबंध में जलवैज्ञानिक सर्वेक्षण कार्य प्रगति पर है और इस प्रयोजन के लिए भी इसमें निधि की व्यवस्था की गई है। कार्य की प्रगति को देखते हुए संशोधित अनुमान, 1987-88 में योजना आवंटन को 8.50 करोड़ रुपए की राशि को बढ़ाकर बजट अनुमान, 1988-89 में 13.80 करोड़ रुपए कर दिया गया है।

7. **केन्द्रीय अन्तर्देशीय जल परिवहन निगम लिमिटेड को आयोजना-भिन्न ऋण** : केन्द्रीय अन्तर्देशीय जल परिवहन निगम लिमिटेड की स्थापना एक सरकारी उपक्रम के रूप में भूतपूर्व रिवर स्टीम नेविगेशन कम्पनी लिमिटेड (एक स्टर्लिंग कम्पनी) की परिसम्पत्तियों और देनदारियों का अधिग्रहण करने के लिए की गई थी, और इसका मुख्य उद्देश्य अन्तर्देशीय जलमार्गों के माध्यम से माल ढुलाई करवाना है। निगम द्वारा हाथ में ली गई सेवाओं में कलकत्ता-बंगलादेश, असम और फरक्का-हल्दिया की सेवाएं प्रमुख हैं। इसके अतिरिक्त निगम भारतीय तेल निगम के लिए हल्दिया से बजबज तक तेल ढोने का कार्य भी करता है। यह कलकत्ता पत्तन न्यास की तरफ से भागीरथी नदी में तलकर्षण का कार्य भी करता है। अपनी स्थापना किए जाने के समय से ही निगम को भारी घाटा ही रहा है। दिनांक 31.3.1986 तक का कुल घाटा 50.98 करोड़ रुपए का था जबकि प्रदत्त पूंजी 18.97 करोड़ रुपए की है। केन्द्रीय अन्तर्देशीय जल परिवहन निगम लिमिटेड को 51.59 करोड़ रुपए का अर्थोपाय ऋण दिया गया था और मार्च, 1986 तक उस पर लगे 57.46 करोड़ रुपए के ब्याज को आर्थिक सहायता (सब्सिडी) मान लिया गया है। आयोजना-भिन्न ऋण की व्यवस्था इसकी नकद हानियों के एक भाग को पूरा करने के लिए है।

8. **ब्याज संबंधी आर्थिक सहायता** : अधिक से अधिकाधिक आई० डब्ल्यू० टी० टनभार बनाने के लिए सरकार ने जून, 1980 में आई० डब्ल्यू० टी० उद्यमियों को ब्याज संबंधी आर्थिक सहायता देने के लिए एक योजना स्वीकृत की थी, जिसके अन्तर्गत 5 1/2 प्रतिशत की दर और वित्तीय संस्थाओं द्वारा लिए जाने वाले ब्याज की दर के बीच के अंतर के लिए सरकार द्वारा आर्थिक सहायता दी जाती है। वर्तमान में 30 आई० डब्ल्यू० टी० उद्यमी इस योजना से लाभ उठा रहे हैं। इस योजना का व्यापक प्रचार किया गया है ताकि इसे सारे देश में और अधिक लोकप्रिय बनाया जा सके। इस योजना के क्रियान्वयन की जिम्मेदारी अब भारतीय अन्तर्देशीय जल परिवहन प्राधिकरण को सौंपी गई है, जो इसे और अधिक प्रभावी बनाने के लिए आवश्यक उपाय कर रहा है। अभी तक विभिन्न पार्टियों को 118.00 लाख रुपए की ब्याज संबंधी आर्थिक सहायता स्वीकृत की जा चुकी है।

9. **केन्द्र-प्रायोजित योजनाएं** : जहां तक केन्द्र-प्रायोजित योजनाओं का संबंध है, सातवीं आयोजना के दौरान राज्यों द्वारा क्रियान्वित किए जाने के लिए अभी तक स्वीकृत मुख्य योजनाएं इस प्रकार हैं :- (i) पांडु (असम) में स्लिपवे (स्टीप वे) का निर्माण (45 लाख रुपए), (ii) गोआ में मान्डोवी जुआरी और मधुआ नदियों का मुख्य तलकर्षण (159.00 लाख रुपए), (iii) चम्पाकारा नहर का विकास (155.55 लाख रुपए), (iv) उद्योग मंडल नहर में सुधार (189.60 लाख रुपए), (v) केरल में जलमार्गों के सुधार के लिए जल हयासिन्थ (घुण्ड) हारवेस्टर की प्राप्ति (445.00 लाख रुपए), (vi) तमिलनाडु में बकिंघम नहर का सुधार (200.00 लाख रुपए), (vii) बिहार में गंडक और कोसी का जलवैज्ञानिक सर्वेक्षण (47 लाख रुपए)।

अन्य देशों के साथ तकनीकी और आर्थिक सहयोग :

10. **बंगला देश को सहायता** : इसमें बंगलादेश सरकार के साथ मार्गस्थ और व्यापार पर होने वाले व्यय की पूर्ति के लिए व्यवस्था की गई है।

Limited was formed as a public enterprise by taking over the assets and liabilities of the erstwhile Rivers Steam Navigation Co. Ltd. (a Sterling company), with the principal objective of transportation of cargo through Inland Waterways. Major services undertaken by the Corporation cover these between Calcutta, Bangla Desh, Assam and Farakka Haldia. Besides, the Corporation also undertakes movement of Oil from Haldia to Budge - Budge for the I.O. C., and work of dredging on the River Bhagirathi on behalf of the Calcutta Port Trust. The Corporation has been incurring heavy losses since its inception. Accumulated loss as on 31.3.86 amounted to Rs.50.98 crores when the paid up capital was Rs.18.97 crores. The Ways and Means loans of Rs.51.59 crores granted to CIWTC and interest thereon amounting to Rs.57.46 crores upto March, 1986, have since been treated as subsidy. At present 30 IWT Entrepreneurs are availing of benefit of his Scheme. The Scheme has been given wide publicity to make it more popular throughout the country. *इसमें शहरी विकास मंत्रालय की मांग में निर्माण कार्य परिव्यय के लिए की गई व्यवस्था शामिल है।

*Inclusive of Works Outlay provided in the Demands of the Ministry of Urban Development.

1. **राष्ट्रीय राजमार्ग** : इसके अन्तर्गत राष्ट्रीय राजमार्गों के निर्माण और अनुरक्षण पर होने वाले व्यय के लिए व्यवस्था की गई है। निर्माण कार्यों का निष्पादन राज्यों के लोक-निर्माण विभागों द्वारा एजेंसी आधार पर, और सीमा सड़क विकास बोर्ड के सामान्य आरक्षित इंजीनियरी बल के माध्यम से कराया जाता है। राष्ट्रीय राजमार्गों पर बने स्थायी पुलों के उपयोग के संबंध में, जिनपर 25 लाख रुपए से अधिक की लागत आई हो और जो 1.4.1976 के बाद बने हों और यातायात के लिए खोले गए हों, यांत्रिक रूप से चलने वाले वाहनों पर शुल्क लगाया जाता है। इस शुल्क से एकत्र होने वाली राशि को प्रारम्भ में लोक खाते में "राष्ट्रीय राजमार्ग स्थायी पुल शुल्क निधि" के अन्तर्गत जमा किया जाता है। शुल्क एकत्र करने वाले राज्यों को, इस शुल्क से प्राप्त होने वाले राजस्व में से 12 प्रतिशत की दर पर संग्रह-प्रभार अपने पास रख लेने की अनुमति दी जाती है। इस शीर्ष के अन्तर्गत जो व्यवस्था की गई है वह संघ राज्य क्षेत्रों को देय संग्रह-प्रभारों के अन्तरण के लिए भी है जिनकी पूर्ति उक्त निधि से की जाती है। वर्ष 1988-89 में आयोजना आवंटन में वृद्धि चालू योजनाओं में राष्ट्रीय राजमार्गों के विकास और स्वीकृत नई योजनाओं के लिए की गई है।

2. **सामरिक महत्व की और सीमावर्ती सड़कें** : यह व्यवस्था राजस्थान, गुजरात, जम्मू और कश्मीर, पंजाब, पश्चिम बंगाल, त्रिपुरा, मेघालय और हिमाचल प्रदेश के सीमावर्ती क्षेत्रों में कतिपय सामरिक महत्व की सड़कों के निर्माण के लिए राज्यों को सहायता अनुदान देने के लिए है। केन्द्रीय लोक निर्माण विभाग द्वारा जम्मू और काश्मीर में तथा सीमा सड़क विकास बोर्ड द्वारा पंजाब और राजस्थान में कुछ निर्माण कार्य निष्पादित किये जा रहे हैं।

3. **अन्तर्राज्यीय अथवा आर्थिक महत्व की सड़कें** : यह व्यवस्था अंतर्राज्यीय संचार सुविधाओं की कुछ चुनी हुई राज्य सड़कों के विकास के लिए आर्थिक सहायता देने के वास्ते है। यह कार्यक्रम 1954 में शुरू किया गया था। इस कार्यक्रम का एक उद्देश्य खनिज साधनों की दृष्टि से समृद्ध क्षेत्रों के विकास में सहायता देना और उन क्षेत्रों तक पहुंचने की सुविधा प्रदान करना है, जहां पर रेलवे जैसे संचार के अन्य साधनों की व्यवस्था नहीं है।

4. **केन्द्रीय सड़क निधि से वित्तपोषित योजना** : केन्द्रीय सड़क निधि (जिसकी स्थापना 1921 में की गई थी) व्यपगत न होने वाली निधि है। इस निधि के लिए राजस्व की व्यवस्था करारोपित मोटर स्पिरिट पर लगाए गए उत्पाद और सीमा-शुल्क पर 3.5 पैसे प्रति लीटर की दर से शुल्क लगाकर की जाती है। इस शुल्क से प्राप्त होने वाली 20 प्रतिशत राशि केन्द्रीय सरकार द्वारा राज्यों/संघ राज्य क्षेत्रों की सड़क निर्माण की अनुमोदित योजनाओं के निर्माण/अनुरक्षण के लिए राज्यों को अनुदान देने के वास्ते आरक्षित रखी जाती है। 1987-88 के संशोधित अनुमान में कमी होने का कारण कम योजनाओं को मंजूर करना रहा है और 1988-89 के बजट अनुमान में वृद्धि होने का कारण अधिक योजनाओं के लिए पूर्वानुमानित मंजूरी देना तथा राज्यों/संघ राज्य क्षेत्रों द्वारा अपनी बहुत अधिक आवश्यकतायें बताना है।

5. **राष्ट्रीय महत्व की विशेष सड़कें/पुल** : यह व्यवस्था कलकत्ता महानगर में यातायात की बढ़ती हुई आवश्यकताओं को पूरा करने के लिए कलकत्ता में हुगली नदी पर एक दूसरे पुल के निर्माण के लिए पश्चिम बंगाल सरकार को ऋण सहायता देने के लिए है।

1. **National High Ways:** Provides for the expenditure on construction and maintenance of National Highways. The works are executed by States P.W. Department on agency basis, and also through the General Reserve Engineering Force of the B.R.D.B. Fees are levied on mechanically propelled vehicles for the use of permanent bridges on National Highways costing more than Rs.25 lakhs, built and opened to traffic from 1.4.1976. The collections are initially credited to the Public Account under "National High Ways Permanent Bridges Fees Fund". The States collecting them are allowed collection charges @ 12% out of the revenue derived through the fees. The provision under this head also covers the transfer of the collection charges, payable to the U.Ts., which are met out of the Fund. The increase in the plan allocation in 1988-89 is for the development of National Highways in respect of on going schemes, and new schemes approved.

2. **Strategic and Border Roads:** Provision is for grants-in-aid to States for the construction of certain strategic roads in the Border areas of Rajasthan, Gujarat, J.& K., Punjab, West Bengal, Tripura, Meghalaya and Himachal Pradesh. Some works in J & K are executed by C.P.W.D. and in Punjab and Rajasthan by Border Road Development Board.

3. **Roads of Inter–State or Economic Importance:** Provision is towards financial assistance for development of certain selected State Roads of Inter–State and Economic Importance for promoting inter-State Communication facilities. The programme was initiated in 1954. One of the objects of the programme is to help in the development of regions rich in mineral resources and to provide access to areas not served by any other means of communications like Railways.

4. **Schemes financed from Central Road Fund:** The Central Road Fund (created in 1921) is a non-lapsing fund. It derives its revenues from a levy of 3.5 paise per litre on the customs and excise duty on taxed motor spirit 20% of the proceeds is kept as a reserve by Central Government for giving grants to States on the construction/ maintenance of approved schemes of road work of the States/Union Territories. The decrease in RE 87-88 is due to sanction of lesser number of schemes and increase in BE 88-89 is due to anticipated sanction of more schemes and enhanced requirements projected by the States/UTs.

5. **Special Roads/Bridges of National Importance:** The provision is for loan assistance to the West Bengal Government for the construction of a second bridge over the river Hooghly in Calcutta, to meet the growing requirement of traffic in the Metropolitan city of Calcutta.

6. **केन्द्रीय सड़क निधि में अन्तरण :** जैसा कि उपर्युक्त 4 में बताया गया है, 1921 में स्थापित की गई "केन्द्रीय सड़क निधि" शुल्क व्यपगत न होने वाली निधि है । इस शीर्ष के नीचे की गई व्यवस्था करायोपित मोटर स्पिरिटों यह लायु शीशा/उत्पाद-शुल्क पर 3.5 पैसे प्रति लीटर की लेवी से प्राप्त राशि का निवल अन्तरण केन्द्रीय सड़क निधि में किए जाने के लिए है । यह अन्तरण इस लेवी के 80 प्रतिशत भाग का समायोजन करने के बाद, जो "केन्द्रीय सड़क निधि से सहायता" के रूप में निर्धारित होता है, और जो राज्यों/संघ राज्य क्षेत्रों द्वारा हाथ में लिए गए सड़क निर्माण कार्यों/परियोजनाओं को अन्तरित किया जाता है, और शेष 20 प्रतिशत आरक्षित राशि में से केन्द्रीय सरकार द्वारा अनुमोदित परियोजनाओं के लिए राज्यों/संघ राज्य क्षेत्रों को दिए गए अनुदानों का (देखिए उपर्युक्त मद 4) समायोजन करने के बाद किया जाता है । (इस अन्तरण के परिणामस्वरूप सरकारी कोष से कोई निवल नकद निकासी नहीं होती ।)

7. **राष्ट्रीय राजमार्ग स्थायी पुल शुल्क निधि को अंतरण :** यह व्यवस्था, जैसा कि उपर्युक्त 1 में बताया गया है, राज्यों/संघ राज्य क्षेत्रों को देय संग्रह प्रभारों को घटाने के बाद राष्ट्रीय राजमार्ग स्थायी पुलों से प्राप्त शुल्क की निवल राशि का अन्तरण सांविधिक निधि में किए जाने के लिए है । इस अन्तरण के परिणामस्वरूप कोई निवल नकद निकासी नहीं होगी ।

8. **इंडियन रोड कंस्ट्रक्शन कारपोरेशन को आयोजना-भिन्न ऋण :** इंडियन रोड कंस्ट्रक्शन कारपोरेशन की स्थापना भारत और विदेश दोनों जगह वाणिज्यिक आधार पर सड़कों और पुलों के निर्माण/विकास के कारण और अन्य विविध इंजीनियरी कार्यों जिनमें हवाई क्षेत्रों के कार्य भी शामिल हैं, को हाथ में लेने के लिए दिसम्बर, 1976 में की गई थी । यहां जो व्यवस्था की गई है वह निगम को ऋण देने के लिए है । इस समय निगम के पास भारत के अलावा लीबिया, इराक और संयुक्त अरब अमीरात में कुल मिलाकर लगभग 350 करोड़ रुपए के ठेके हैं । 1987-88 के संशोधित अनुमानों में 11.27 करोड़ रुपए तक और 1988-89 के बजट अनुमान में 10.00 करोड़ रुपए तक के अर्थोपाय ऋण की वृद्धि विदेशी मुद्रा ऋण जुटाने और इसके अन्य दायित्वों को पूरा करने के लिए अनुदान दिए जाने के कारण है ।

9. **अन्य व्यय :** आयोजना व्यवस्था राजमार्ग अनुसंधान और आयोजन-अध्ययन के लिए है, जबकि आयोजना-भिन्न व्यवस्था संघ राज्य क्षेत्रों में जिला सड़कों और अन्य सड़कों के लिए है, जिनका वित्तपोषण केन्द्रीय सड़क निधि से दी जाने वाली आर्थिक सहायता से किया जाता है ।

6. **Transfers to Central Road Fund:** As indicated in 4 above, the 'Central Road Fund' created in 1921 is a non-lapsing fund. The provision under this head is for the net transfer of moneys to the Central Road Fund of the proceeds of the levy @3.5 paise per litre on Customs/Excise Duty on taxed motor spirits, after setting-off the 80% portion of the levy which is earmarked as "Subventions from Central Road Fund" and transferred to States/Union Terrotories for Road works/Projects undertaken by them and after adjusting the grants made from the remaining 20% Reserve to the States/Union Territories on projects approved by Central Government (Vide-item 4 above). (There is no net cash out-go from the Government as a result of the transfer).

7. **Transfer to National High Ways Permanent Bridges Fees Fund :** The provision is for transfer of the net amount of fees levied on the National Highays permanent Bridges less the collection charges payable to States/Union Territories, to the Statutory Fund, as indicated in 1. There is no net cash out-go from Government as a result of this transfer.

8. **Non-Plan Loans to I.R.C.C.:** I.R.C.C. Funds provided are in the nature of investments as loan to the Corporation.The Corporation has at present contracts aggregating to about Rs.350 crores in Libya,Iraq and U.A.R. besides India. The increase in the R.E. 87-88 by Rs.11.27 crores and Rs.10.00 crores in BE 88-89 is due to grant of the Ways and Means Loan to the Corporation to enable it to raise foreign currency loan for meeting its other liabilities.

9. **Other Expenditure:** The plan provision is for Highways Research and Planning Studies, while the non-plan provision is for District and other Roads in Union Territories financed from Subventions from the Central Road Fund.

स्थापना व्यय को पूरा करने और लघु पत्तन सर्वेक्षण संगठन द्वारा सर्वेक्षण कार्य के लिए उपस्कर खरीदने के लिए है।

कुछ राज्यों को अपने-अपने राज्यों में लघु पत्तनों के विकास के लिए भी ऋण देने की व्यवस्था की गई है।

4. **अन्य व्यय** :- आयोजना में व्यवस्था, राष्ट्रीय पत्तन प्रबंध संस्थान, मद्रास को सहायता-अनुदान देने के लिए और आयोजना-भिन्न व्यवस्था, बड़े पत्तनों को राहत सामग्रियों के शुल्क रहित आयातों पर पत्तन प्रभारों की प्रतिपूर्ति करने के लिए है।

5 से 8. **दीपस्तंभ और दीपपोत** : दीपस्तंभ और दीपपोत विभाग एक वाणिज्यिक विभाग है, जो सामान्य नौचालन सहायक-साधनों की व्यवस्था करता है। इन साधनों में बोयास, डैका, नेवीगेटर, चेन, रेडियो बीकन आदि शामिल हैं। यह, पोतों के दिशा निर्देश के लिए दीपस्तंभों का रख-रखाव और निर्माण भी करता है। इस विभाग का खर्च, भारतीय पत्तनों में आने वाले पोतों से दीपशुल्क के रूप में वसूल की गई धनराशि से चलता है और कार्यात्मक व्यय (प्रशासन प्रभारों सहित) के बाद जो राजस्व राशि बच जाती है उसे विभाग की सामान्य रिजर्व निधि में जमा कर दिया जाता है। विभाग की राजस्व प्राप्तियों के संबंध में 22.30 करोड़ रुपए का अनुमान लगाया गया है। आयोजना-व्यवस्था, दीपस्तंभों के निर्माण और विकास पर होने वाले पूंजी व्यय तथा अन्य नौचालन संबंधी सहायक-साधनों के लिए है और इसी विभाग की सामान्य रिजर्व निधि से भी पूरा किया जाता है। इस मद में सरकार की कोई निवल नकद राशि व्यय नहीं होती।

नौवहन

9. **नौवहन महानिदेशालय** : यह व्यवस्था वाणिज्यिक नौवहन अधिनियम, 1958 के अन्तर्गत स्थापित एक सांविधिक प्राधिकरण, नौवहन महानिदेशालय के लिए है और यह वाणिज्यिक नौवहन कानूनों से संबंधित सभी मामलों के एक नियंत्रक कार्यालय के रूप में कार्य कर रहा है। महानिदेशालय, नाविकों के कल्याणकारी उपायों की देखरेख करने के अतिरिक्त, मर्चेंट नेवी के अधिकारियों और नाविकों (रेटिंग) के प्रशिक्षण की सुविधाएं भी प्रदान करता है।

10. **जहाजों के अधिग्रहण के लिए दिए जाने वाले ऋण पर ब्याज संबंधी अंतर (एस.सी.आई.)** : सरकार की नीति के अनुसार देश में अपेक्षित सीमा तक नौवहन टनभार की वृद्धि करने के लिए नौवहन कंपनियों को विदेशों से पोत अधिग्रहित करने के लिए 7.5 प्रतिशत ब्याज की रियायती दर पर ऋण दिया जाना आवश्यक समझा जाता है। तदनुसार, ब्याज की सामान्य दर पर अर्जित ब्याज और ब्याज की रियायती दर पर अर्जन योग्य ब्याज के अंतर की प्रतिपूर्ति भारतीय नौवहन निगम को कर दी जाती है। निगम ने विदेशों से पोत अधिग्रहित करने के लिए पहले भी चार नामित बैंकों से ऋण लिए थे। बैंकों द्वारा लिए जाने वाले ब्याज और 7.5 प्रतिशत की रियायती दर पर लिए जाने वाले ब्याज के अंतर की प्रतिपूर्ति भी निगम को की जाती है। कार्य की इस मद को मंत्रालय से एस.सी.आई.सी.आई. में अन्तरित करने के कारण संशोधित अनुमान, 1987-88 और बजट अनुमान, 1988-89 में यह कमी हुई है।

11. **भारतीय नौवहन निगम लिमिटेड** : यह व्यवस्था भारतीय मुख्य भूमि-अंडमान, भारतीय मुख्य भूमि-लक्षद्वीप, कोंकण तथा हज नौवहन सेवाओं के संचालन में भारतीय नौवहन निगम को होने वाली हानियों की प्रतिपूर्ति करने के लिए है क्योंकि सेवाओं के किराए सरकार द्वारा सामाजिक-आर्थिक दृष्टि से न लाभ न हानि के आधार पर ही निर्धारित किये जाते हैं। (i) पहली तीन सेवाओं के मामले में, निगम को उन वर्षों के दौरान ही प्रतिपूर्ति की जाती है जब वह अपने पूरे कार्यचालन में हानि उठाता है। पहली दो सेवाओं के मामले में उठाई गई हानि के 80 प्रतिशत की प्रतिपूर्ति की जाती है। तीसरी सेवा के मामले में 80 प्रतिशत हानियों की प्रतिपूर्ति केन्द्र सरकार, गोवा-सरकार और महाराष्ट्र सरकार द्वारा क्रमशः 25:35:40 के अनुपात में की जाती है। हज सेवाओं के मामले में प्रतिवर्ष 100 प्रतिशत हानियों की प्रतिपूर्ति की जाती है। (ii) परिवहन प्रणाली के लिए मास्टर प्लान तैयार करने के लिए

The expenditure of the Department is being met out of the light dues recovered from ships visiting Indian Ports and the surplus of revenue over the working expenses (including administration charges) is credited to the general reserve fund of the Department. The revenue receipts of the Department are estimated at Rs.22.30 crores. 10. **Interest differentials on Loans for acquisition of Ships (SCI):** As per the policy of the Govt., in order to increase shipping tonnage in the country to the required extent, loans to shipping companies are required to be provided at a concessional rate of interest of 7.5% for acquisition of ships from abroad and at 6.75% for getting ships built indigenously. Accordingly, the difference between the interest accrued as per the normal rate of interest and that accruable as per the concessional rate of interest, is re-imbursed to the Shipping Corporation of India. The Corporation had also earlier taken loans from four nominated Banks for acquisition of ships from abroad. The difference between interest charged by the banks and that leviable as per the concessional rate of 7.5% is also re-imbursed to the Corporation. The reduction in the RE 87-88 and BE 88-89 is due to transfer of this item of work from the Ministry to the S.C.I.C.I.

11. **The Shipping Corporation of India Limited :** The provision has been made for re-imbursement of losses to the SCI on running Mainland-Andaman, Mainland-Lakshadweep, Konkan and Haj Shipping services, fares for which are fixed by the Government below break-even level for socio-economic considerations. (i) In thecase of first three services, reimbursement is made only during those years during which the Corporation suffers losses in its overall operations. The re-imbursement in the first two services is made at 80% of the losses. In the case of the third re-imbursement of 80% loses is shared by Central Government, Govt. of Goa, Govt. of Maharashtra in the ratio of 25:35:40:. In the case of Haj Services, 100% of losses are re-imbursed every year. (ii)

10. **कमान क्षेत्र विकास कार्यक्रम (सी.ए.डी.)** - सरकार द्वारा सन् 1975 में केन्द्र प्रायोजित योजना के रूप में शुरू किया गया कमान क्षेत्र विकास कार्यक्रम का उद्देश्य उपलब्ध जल का अधिकतम उपयोग करना तथा सृजित सिंचाई क्षमता तथा वस्तुतः उपयोग की गई क्षमता के बीच के अंतर को कम करना है । कमान क्षेत्र विकास कार्यक्रम का वित्तपोषण तीन स्रोतों यथा, केन्द्रीय सहायता, राज्य सरकार के अपने संसाधनों और संस्थागत उधारों से किया जाता है । निम्नलिखित क्रियाकलापों के लिए समतुल्य अनुदान दिया जाता है : (यथा) स्थापना, आयोजना, सर्वेक्षण, बाराबंदी फसल क्षतिपूर्ति, फील्ड चैनलों और नालियों का निर्माण, एकीकृत ग्रामीण विकास कार्यक्रम की प्रणाली पर लघु और सीमांतिक किसानों को आर्थिक सहायता आदि । फील्ड चैनलों के निर्माण तथा उपस्कर और मशीनरी के लिए ऋण सहायता दी जाती है । परिव्यय में हुई वृद्धि सभी कमान क्षेत्रों में सृजित सिंचाई क्षमता की उपयोगिता पर अधिक बल दिए जाने के कारण है ।

बाढ़ नियंत्रण

11. **केन्द्रीय जल आयोग** - इसके अंतर्गत महत्वपूर्ण अंतर्राज्यीय नदी जलवाह क्षेत्रों में केन्द्रीय जल आयोग के अधीन स्थित महत्वपूर्ण स्थलों पर बाढ़ संबंधी पूर्व सूचना प्रदान करने और तत्संबंधी चेतावनी देने वाले केन्द्रों की स्थापना, अनुरक्षण और आधुनिकीकरण के व्यय के लिए की गई व्यवस्था शामिल है । बाढ़ संबंधी पूर्वसूचना देने का जो कार्य चौथी आयोजना के दौरान गंगा, ब्रह्मपुत्र, नर्मदा, ताप्ती, तिस्ता नदियों के सम्भावित बाढ़ वाले क्षेत्रों तथा उड़ीसा के तटवर्ती नदी क्षेत्रों में शुरू किया गया था । अत्यंत लाभदायक सिद्ध होने के कारण उसे गोदावरी, दामोदर, कृष्णा, माही तथा साबरमती नदियों के जलग्राहक क्षेत्रों में भी शुरू कर दिया गया है । केन्द्रीय जल आयोग द्वारा अपने जल विज्ञानीय मौसम विज्ञान केन्द्रों तथा वायरलेस केन्द्रों के जरिए बाढ़ संबंधी जो पूर्वसूचना भेजी जाती है वह बाढ़ का प्रबंध करने और बाढ़ से होने वाली क्षति को कम से कम करने में स्थानीय प्राधिकारियों के लिए बहुत सहायक सिद्ध होती है ।

आयोग को भारत-बंगलादेश संयुक्त नदी आयोग की तरफ से विशिष्ट योजनाओं को शुरू व कार्यान्वित करने की भी जिम्मेदारी सौंपी गई है ।

12. **ब्रह्मपुत्र बोर्ड** - बहु प्रयोजनी लाभों के लिए ब्रह्मपुत्र बेसिन के जल संसाधन विकास को ध्यान में रखते हुए एक मास्टर योजना तैयार करने में मदद देने के वास्ते सर्वेक्षण तथा अन्वेषण कार्य करने के अतिरिक्त ब्रह्मपुत्र एवं बराक घाटियों में बाढ़ नियंत्रण तथा तट कटाव को रोकने और जल निकास में सुधार करने के लिए एक मास्टर योजना तैयार करने के विशिष्ट उद्देश्य से भारत सरकार द्वारा ब्रह्मपुत्र बोर्ड की स्थापना की गई थी । बोर्ड का समस्त व्यय केन्द्रीय सरकार द्वारा सहायता-अनुदान के रूप में वहन किया जाता है ।

13. **बाढ़ नियंत्रण और समुद्री-कटाव रोधी कार्य** - ब्रह्मपुत्र नदी घाटी में बाढ़ नियंत्रण के उपाय करने के लिए असम सरकार को शत-प्रतिशत ऋण-सहायता दी जा रही है । इसके साथ ही उड़ीसा में ब्राह्मणी नदी पर रेंगाली बांध परियोजना के बाढ़ नियंत्रण संबंधी घटक के लिए उड़ीसा सरकार को शत-प्रतिशत ऋण-सहायता दी जाती है । समुद्री-कटाव रोधी कार्यों के कार्यान्वयन की गति को तेज करने के लिए केरल सरकार को भी ऋण-सहायता प्रदान की जाती है ।

14. **बाढ़ नियंत्रण की अन्य योजनाएं** - इसमें गंगा बाढ़ नियंत्रण आयोग के लिए की गई व्यवस्था शामिल है । यह आयोग गंगा बेसिन में बाढ़ नियंत्रण का मास्टर प्लान तैयार करने के कार्य

VII Five Year Plan. In the field of minor irrigation, the following five Centrally Sponsored Schemes have been taken up:-

1. Strengthening of ground and surface water organisations in the States/Union Territories.
2. Encouraging use of sprinklers, Solar and wind pumps, hydrams etc.
3. Rectification of Pumpsets.
4. Rationalisation of Irrigation Statistics; and
5. Census of Minor Irrigation Works.

10. **Command Area Development Programms (CAD)** - The CAD Programme launched by the Government in 1975 as a Centrally Sponsored Scheme is designed to bring optimum utilisation of the available water, as also to bridge the gap between the irrigation potential created and ultimately utilised. The financing of the CAD Programme is from three sources viz. Central Assistance, State Government's own resources and institutional credit. Grants are given on matching basis for the following activities (viz) establishment, Planning, Surveys, Warabandi, Crop Compensation, Construction of Field Channels and drains, Subsidy for small and marginal farmers on IRDP pattern. Loan assistance is given for construction of field channels, equipment and machinery. The increased outlay is on account of greater emphasis on utilisation of irrigation potential created in all the Command Areas.

Flood Control

11. **Central Water Commission** - This includes provision for establishment, maintenance and modernisation of Flood Forecasting and Warning Centres at Key sites on important inter State river basins under the Central Water Commission. The Flood Forecasting work which was taken up during the 4th Plan period in the Flood prone basins of Ganga, Brahmaputra, Narmada, Tapti, Teesta and the Coastal rivers of Orissa has been extended to cover the Godavari, Damodar, Krishna, Mahi and the Sabarmati rivers due to its proven usefulness. The Flood Forecasts issued by the Central Water Commission through their net work of Hydrometeorological stations and wireless stations are of great help to the local authorities in flood management and in minimising the flood damages.

The Commission is also entrusted with the responsibility of undertaking and executing specific schemes on behalf of Indo-Bangladesh Joint River Commission.

12. **Brahmaputra Board** - The Brahmaputra Board was constituted by Government of India with the specific objective of preparing of Master Plan for the control of floods and bank erosion and improvement of drainage of the Brahmaputra and the Barak Valleys, besides carrying out surveys and investigations for facilitating the preparation of the Master Plan, keeping in view the water resources development of the Brahmaputra Basin for multipurpose benefits. The entire expenditure of the Board is met by Central Government in form of Grants-in-aid.

13. **Flood Control and Anti-sea-erosion works** - 100% loan assistance is being provided to the Government of Assam, for execution of flood control measures in Brahmaputra valley. Simultaneously 100% loan assistance is also given to the Government of Orissa for the flood control component of Rengali Dam Project on river Brahmani in Orissa. Central Loan assistance is also provided to Government of Kerala to accelerate the tempo of the execution of anti-sea-erosion works.

14. **Other Schemes of Flood Control** - This includes provision for the Ganga Flood Control Commission which is engaged in Master Plan preparation for Flood Control in

और केन्द्रीय सिंचाई और विद्युत बोर्ड द्वारा समन्वित बाढ़ नियंत्रण परियोजनाओं के संबंध में मूलभूत अनुसंधान कार्यों में लगा हुआ है।

15. **फरक्का बराज परियोजना** - फरक्का बराज परियोजना जो अनिवार्यतः परिवहन क्षेत्र की परियोजना है, का क्रियान्वयन इस मंत्रालय द्वारा किया जा रहा है। गंगा नदी पर फरक्का पर मुख्य बराज और जंगीपुर के पास भागीरथी पर एक बराज, रेल एवं सड़क पुल और बराज से निकाली गई तथा भागीरथी में गिरती हुई पृष्ठ नहरों के कार्य 1975 में पूरे कर लिए गए थे। फरक्का में नौवहन ताला को प्रधानमंत्री द्वारा नवम्बर, 1987 में राष्ट्र को समर्पित कर दिया गया। फरक्का पर नौवहन ताला का कार्य पूरा हो जाने पर, हल्दिया से फरक्का तक और पटना से इलाहाबाद तक का अन्तर्देशीय नौवहन मार्ग फिर से चालू कर दिया गया है। पूरे कर दिए गए मार्ग को सुदृढ़ बनाने और समेकित करने की लिए महत्वपूर्ण सुरक्षा तथा कटाव-रोधी कार्यों को हाथ में लेने के लिए सातवीं आयोजना में 49 करोड़ रुपए आवंटित किए गए है। फरक्का बराज, जंगीपुर बराज और पृष्ठ नहर के नियमित अनुरक्षण के लिए भी आयोजना-पश्चात शीर्ष के अन्तर्गत व्यवस्था की गई है। संशोधित अनुमान, 1987-88 में निवल व्यवस्था में कमी फरक्का बराज परियोजना के एक भाग की लागत के रूप में पूर्व रेलवे से 7.03 करोड़ रुपए की पिछली वसूली करने के कारण हुई है। बजट अनुमान, 1988-89 (आयोजना) में किए गए आवंटन में बढ़ोत्तरी, निर्धारित समय में सभी स्वीकृत निर्माण कार्यों को पूरा करने की दृष्टि से पूरे हो चुके भाग को सुदृढ़ और समेकित करने के लिए महत्वपूर्ण सुरक्षा और कटाव-रोधी कार्यों को हाथ में लेने के लिए की गई है।

16. **नेपाल हितकारी योजना - चन्द्रा नहर परियोजना** - चन्द्रा नहर आदि के नवीकरण और विस्तार के लिए नेपाल की महामहिम सरकार और भारत सरकार के बीच मूलतः अप्रैल, 1978 में एक करार पर हस्ताक्षर किए गए थे। यह सहमति हुई थी कि नेपाल की महामहिम सरकार द्वारा उपर्युक्त कार्य को क्रियान्वित करने के लिए भारत सरकार 18.05 करोड़ रुपए (नेपाली मुद्रा) की वित्तीय सहायता देगी। तथापि करार के अनुसार नेपाल द्वारा निर्धारित कार्यक्रम के अनुसार कार्य पूरा नहीं किया जा सका। भारत सरकार से 41.30 करोड़ रुपए (नेपाली मुद्रा) अर्थात् 28.44 करोड़ रुपए (भारतीय मुद्रा) की वित्तीय सहायता के साथ, परियोजना की संशोधित लागत के अनुमानों को सरकार द्वारा अनुमोदित कर दिया गया है तथा इस कार्य को पूरा करने की तारीख जून, 1987 निर्धारित की गई है। तथापि कुछ परियोजना का कुछ निर्माण कार्य अभी भी पूरा किया जाना शेष है।

17. **गंडक, पश्चिमी कोशी नहर और जलपापुर बाढ़ नियंत्रण कार्य** -

(i) पश्चिमी कोशी नहर : पश्चिमी कोशी नहर परियोजना में नेपाल क्षेत्र में कोशी बराज को पश्चिमी ओर से, बिहार राज्य में भारतीय क्षेत्र में प्रवेश करने से पहले, एक नहर का निर्माण करने की परिकल्पना की गई है। नेपाल हितकारी कार्यों की लागत भारत सरकार द्वारा सहायता अनुदान के रूप में दी जा रही है, जबकि भारतीय क्षेत्र में निर्माण कार्यों की लागत बिहार सरकार को ऋण सहायता के रूप में दी जा रही है।

(ii) गंडक परियोजना : गंडक परियोजना के लिए, जो नेपाल हितकारी कार्यों का एक भाग है, बिहार सरकार और उत्तरप्रदेश सरकार को सहायता अनुदान दिए जा रहे हैं। गंडक परियोजना बिहार और उत्तर प्रदेश द्वारा अपने-अपने क्षेत्रों में क्रियान्वित की जा रही है।

(iii) जलपापुर बाढ़ नियंत्रण कार्य : नेपाल की महामहिम सरकार के साथ किए गए संशोधित समझौते करार के अन्तर्गत कोशी बराज के प्रतिप्रवाह में नदी की दायीं ओर नेपाल क्षेत्र में कटाव के रोकथाम के उपाय किए जाने है। इन क्षेत्रों में सुरक्षा की योजना बिहार सरकार की एजेंसी द्वारा क्रियान्वित की जा रही है। केन्द्रीय सरकार इस कार्य के लिए बिहार सरकार को सहायता अनुदान देती है।

18. **सरकारी उद्यमों/वित्तीय संस्थाओं में निवेश** - यह लघु क्षेत्र विकास कार्यक्रम के अन्तर्गत कमजोर किसानों की भूमि समतल करने और उसे आकार देने, फील्ड चैनलों के निर्माण करने और ड्रैन सिंचाकलर और ड्रिप सिंचाई के कार्य करने के लिए राष्ट्रीय कृषि और ग्रामीण विकास बैंक (नाबार्ड) द्वारा रखे जाने वाले "विशेष ऋण खाते" में केन्द्रीय सरकार का अंशदान दर्शाता है। कमान क्षेत्र विकास कार्यक्रम के अन्तर्गत उपर्युक्त कार्य के लिए जबकि छोटे और सीमांतिक किसानों को ऋण प्रदान किए जाते है, वहीं कमजोर किसानों को "नाबार्ड" द्वारा रखे जाने वाले विशेष ऋण खाते, जिसमें केन्द्रीय सरकार, राज्य सरकार और "नाबार्ड" द्वारा 37.5: 37.5: 25 के अनुपात में अंशदान किया जाता है, से ऋण प्रदान किए जाते है।

Ganga Basin and for Fundamental and Basic Research on Flood Control projects co-ordinated by the Central Board of Irrigation and Power.

15. **Farakka Barrage Project** - The Farakka Barrage Project which is essentially a transport sector project is being implemented by this Ministry. The main barrage at Farakka across the river Ganga and a barrage on Bhagirathi near Jangipur, a road-cum-rail bridge and feeder canals taking off from the barrage and falling into Bhagirathi were completed in 1975. The navigation lock at Farakka has been dedicated to the Nation by the Prime Minister in November, 1987. With the completion of the lock at Farakka the inland navigation routes from Haldia to Farakka and from Patna to Allahabad has been restored. In the VIIth Plan an allocation of Rs. 49 crores has been made to take up important protection and anti-erosion works to strengthen and consolidate the completed portion. Provision for regular maintenance Farakka Barrage, Jangipur Barrage and Feeder Canal is also made under Non-Plan. The reduced net provision in RE 1987-88 is on account of one time recovery of Rs. 7.03 crores from Eastern Railway as apportionment cost of Farakka Barrage Project. The increased allocation in BE 1988-89 (Plan) is for taking up important protection and anti erosion work to strengthen and consolidate the completed portion, with a view to completing all approved works within the schedule time.

16. **Nepal Benefit Schemes-Chandra Canal Project** - An agreement for the renovation and extension of Chandra Canal etc. was originally signed between HMG Nepal and the Government of India in April, 1978. It was agreed that the Government of India would provide financial aid of Rs. 18.05 Crores (Nepal Currency) for execution of the above work by HMG Nepal. As per the agreement, the work however could not be completed by Nepal as scheduled. Approval of Government to revised cost estimates of the project with financial assistance from Govt. of India Rs. 41.30 crores (Nepal Currency) i.e. Rs. 28.44 crores (Indian Currency) has been given with the completion date as June, 1987. However some works of the project still remain to be completed.

17. **Gandak, Western Kosi Canal and Jaipapur Flood Control Works:**

(i) Western Kosi Canal: The Western Kosi Canal Project envisages the construction of the canal taking off from the Western side of the Kosi Barrage in the Nepal territory before entering the Indian territory in Bihar State. The cost of Nepal benefit works is being provided by the Government of India as grants-in-aid while the cost for the works on the Indian side is being provided as loan assistance to the Government of Bihar.

(ii) Gandak Project: Grants-in-aid are being given to Government of Bihar and Uttar Pradesh for Gandak Project which is a part of Nepal Benefit works. The Gandak Project is being implemented by Bihar and Uttar Pradesh in their respective sectors.

(iii) Jaipapur Flood Control Works: Under the revised Kosi agreement entered into with HMG Nepal, preventive measures are to be undertaken against erosion of areas in Nepal on the right side of the river upstream of Kosi Barrage. The scheme for protecting the areas is being implemented through the agency of Bihar Government. The Central Government provides grants-in-aid to Bihar Government for this work.

18. **Investments in Public Enterprises/Financial Institutions** - This represents contribution of Central Government to the 'Special Loan Account' being maintained by NABARD for financing the ineligible farmers for land levelling and shaping, construction of field channels and drain sprinklers and drip irrigation under the Command Area Development Programme. While the small and marginal farmers are given loans for the above works under the Command Area Development Programme, the ineligible farmers are given loan out of the Special Loan Account being maintained by the NABARD with the contribution being made to it by the Central & State Governments and NABARD in the ratio of 37.5: 37.5: 25.

इस मांग के राजस्व के अन्तर्गत, राजस्थान परमाणु बिजलीघर के प्रथम एकक के प्रचालन संबंधी खर्च, तालिका-गत ईंधनों, अपशिष्ट पदार्थ प्रबन्ध सुविधाओं तथा भारी पानी के पुंज के प्रबन्ध के लिए कार्यचालन व्ययों की व्यवस्था की गई है ।

पूंजीगत भाग में भारतीय न्यूक्लीय विद्युत निगम लि. की पूंजी में निवेश करने और उसे ऋण देने तथा विभाग की अपशिष्ट पदार्थ प्रबन्ध सुविधाओं के लिए ऋणों और अन्य व्यय के लिए व्यवस्था की गई है ।

1. राजस्व भाग - भारतीय न्यूक्लीय विद्युत निगम लि. के निर्माण के परिणाम स्वरूप राजस्थान परमाणु बिजलीघर के प्रथम एकक को छोड़कर राजस्थान और मद्रास इत्यादि के कार्यकारी बिजलीघरों को 17.9.1987 से कम्पनी को अन्तरित कर दिया गया है । इसी आधार पर संशोधित अनुमानों में इन कार्यकारी स्टेशनों के लिए केवल 16.9.1987 तक के लिए ही व्यवस्था की गई है ।

2. राजस्थान परमाणु बिजलीघर - प्रथम एकक - राजस्थान परमाणु बिजलीघर का प्रबन्ध भारतीय न्यूक्लीय विद्युत निगम लि. को अभिकरणात्मक आधार पर सौंप दिया गया है, इसलिए कार्यचालन व्ययों के लिए बजट में व्यवस्था कर दी गई है ।

'4. तालिकागत ईंधन - इसके अन्तर्गत तारापुर के लिए समृद्ध यूरेनियम का आयात करने और न्यूक्लीय ईंधन कम्पलेक्स द्वारा दाबित भारी पानी के रिएक्टरों को सप्लाई किए गए ईंधन के संबंध में व्यय की व्यवस्था की गई है । भारतीय न्यूक्लीय विद्युत निगम लि. द्वारा ईंधन के उपयोग के लिए वसूल किए गए प्रभारों को हिसाब में लेने के बाद इस खाते में राजस्व व्यय की वास्तविक राशि 15.00 करोड़ रुपए (निवल) दिखा दी गई है ।

The Revenue Section of the Demand provides for the operational expenses of RAPS Unit-I, Fuel Inventory, Waste Management Facilities and Heavy Water Pool Management.

The Capital Section provides for investment and loans to the Nuclear Power Corporation of India Ltd., Waste Management Facilities of the Department and other expenditure.

1. **Revenue Section** - Consequent on the formation of Nuclear Power Corporation of India Ltd. (NRCIL), the operating power stations at Rajasthan, Madras etc. excepting RAPS Unit-I have been transferred to the company from 17.9.1987. Consequently the provisions in the Revised Estimates for these operating stations have been made only upto 16.9.1987.

2. **RAPS Unit-I** - Management of Rajasthan Atomic Power Station has been entrusted to NPCIL on an agency basis. Hence provision has been made in the budget for operational expenses.

4. **Fuel Inventory** - Provides for expenditure on the import of enriched uranium for Tarapur as well as for fuel supplied by the Nuclear Fuel Complex for Pressurised Heavy Water Reactors. Taking into account the user charges for fuel recovered from NPCIL, the revenue expenditure on this account is netted at Rs.15.00 crores.

9. **अपशिष्ट पदार्थ प्रबन्ध** सुविधाओं का कार्यान्वयन भाभा परमाणु ऊर्जा अनुसंधान केन्द्र द्वारा और संचालन तारापुर और कलपक्कम में किया जा रहा है ।

10. **भारी पानी के पुंज का प्रबन्ध** - इसके अन्तर्गत भारी पानी के पुंज के प्रबन्ध के लिए व्यवस्था की गई है । भारी पानी के उपयोग के लिए लीज प्रभार, कार्यकारी बिजलीघरों द्वारा वसूल कर लिए जाते हैं, इसके लिए बजट में 21.09 करोड़ रुपए के निवल व्यय की व्यवस्था की गई है ।

12. **अन्य योजनाएं** : इनमें नरोरा और ककरापाड़ा स्थित पर्यावरण सर्वेक्षण प्रयोगशाला के लिए व्यवस्था है । प्रोटोटाइप फास्ट ब्रीडररिएक्टर (अनुमानित लागत 33 करोड़ रुपए) के लिए भी व्यवस्था की गई है ।

13. **सार्वजानिक उद्यमों में निवेश**

भारतीय न्यूक्लीय विद्युत निगम लि. - इस संस्थान को 3 सितम्बर, 1987 को एक कम्पनी के रूप में निगमित किया गया था । इस कम्पनी का मुख्य उद्देश्य वाणिज्यिक आधार पर बिजली पैदा करने के लिए न्यूक्लीय ऊर्जा को उपयोग में लाने और उसका विकास करने के एकीकृत कार्यक्रम को क्रियान्वित करना और पर्यावरण के सुरक्षा साधनों को बढ़ाना और सहायक सुविधाओं के प्रवर्तन और अनुरक्षण की व्यवस्था करना तथा तत्संबंधी क्रय-विक्रय, निर्यात और निर्माण आदि कार्यों को सम्पन्न करना है ।

कम्पनी की अधिकृत पूंजी 2,000 करोड़ रुपए है । कम्पनी ने अपना कारोबार 17.9.1987 को शुरू किया । इस समय यह कम्पनी मौजूदा न्यूक्लीय बिजलीघरों का संचालन कर रही है और सातवीं आयोजना में परिकल्पित नई विद्युत परियोजनाओं तथा सहायक परियोजनाओं के निर्माण का काम शुरू कर रही है ।

कुछ एक ऐसी महत्वपूर्ण परियोजनाओं का ब्यौरा, जिनपर 100 करोड़ रुपया प्रत्येक परियोजना के हिसाब से लागत आएगी और जिनको भारतीय न्यूक्लीय विद्युत निगम लि. द्वारा कार्यान्वित किया जा रहा है और जिनके लिए व्यवस्थाएं की गई है, इस प्रकार है :-

9. **Waste Management Facilities** - are executed by BARC and operated at Tarapur & Kalpakkam.

10. **Heavy Water Pool Management** - Provides for the management of Heavy Water Inventory. Lease charges are recovered for the use of Heavy Water by the operating power stations. The net expenditure on this account is budgeted at Rs.21.09 crores.

12. **Other Schemes** - These include Environmental Survey Laboratory at Narora & Kakrapara. Provision is also made for prototype fast breeder reactor (estimated cost Rs. 33 crores).

13. **Investment in Public Enterprises** -

Nuclear Power Corporation of India Ltd. - was incorporated as a company on 3rd of September 1987 with the main objective to plan and execute an integrated programme for harnessing and developing nuclear energy for generating electricity on commercial basis, to promote protection of the environment and to engage in purchase, selling, exporting, manufacturing etc., and operation and maintenance of ancillary facilities.

The authorised capital of the company is Rs.2,000 crores. The Company commenced its business on 17.9.1987. It is now operating the existing power stations except RAPS unit-I and is undertaking the construction of new power projects and ancillary projects envisaged in the 7th plan.

Some of the important projects costing more than Rs.100 crores each which are being executed by NPCIL and for which provision has been made are given below :

संशोधित अनुमान 1987-88 के पूंजी भाग में 24.63 करोड़ रुपए की जो कमी हुई है, वह मुख्य रूप से भारतीय न्युक्लीय विद्युत निगम लि. को 108.42 करोड़ रुपए तक के आन्तरिक और बजट बाह्य साधनों के उपयोग के कारण बजट में कम रकम का समर्थन दिए जाने के कारण हुई है, तथापि आन्तरिक साधनों के उपयोग के बाद संशोधित अनुमानों में बृहत्तर आयोजनागत कार्यक्रम के लिए व्यवस्था कर दी गई है, जिसके अन्तर्गत मुख्य रूप से नरोरा के लिए 11.91 करोड़ रुपए, काकड़पाड़ा के लिए 8.61 करोड़ रुपए, कैगा और राजस्थान परमाणु विद्युत परियोजनाओं के लिए 13.04 करोड़ रुपए, नई 235 मैगावट की परियोजनाओं के लिए 38.00 करोड़ रुपए, नई 500 मैगावाट की परियोजनाओं के लिए 9.35 करोड़ रुपए की व्यवस्थाएं, उनकी बढ़ी हुई आवश्यकताओं को देखकर कर दी गई है।

The decrease of Rs. 24.63 crores in the RE 87-88 in Capital Section is mainly on account of reduced budgetary support to Nuclear Power Corporation of India Ltd., on account of utilisation of internal and extra budgetary resources to the extent of Rs. 108.42 crores. However a larger plan programme of increased requirements mainly for Narora Rs. 11.91 crores, Kakrapara Rs. 8.61 crores, Kaiga and Rajasthan Atomic Power Project Rs. 13.04 crores, New 235 MW projects Rs. 38.00 crores, new 500 MW Projects Rs. 9.35 crores has been provided in the Revised Estimates, with the utilisation of the internal resources.

धन कर अधिनियम, 1957 में प्रत्येक व्यक्ति, और हिन्दू अविभक्त परिवार के निवल धन पर कर लगाने की व्यवस्था है। वित्त अधिनियम, 1960 के अधीन कम्पनियों को धनकर से मुक्त कर दिया गया था किन्तु वित्त अधिनियम, 1983 के अन्तर्गत अल्प जन धारित कम्पनियों के मामले में इस कर को फिर से लगा दिया गया था। वित्त अधिनियम,1980 के अन्तर्गत अकेले व्यक्ति के संबंध में और हिन्दू अविभक्त परिवार के संबंध में जहां पर निवल धन 1.50 लाख रुपए से कम है वहां कोई धन कर नहीं देना पड़ता। निवल सम्पत्ति की राशि 15 लाख रुपए से जितनी ज्यादा हो जाए उस पर जिस अधिकतम दर के हिसाब से धन कर लगाया जा सकता है, वह 5 प्रतिशत है। वित्त अधिनियम, 1985 के अन्तर्गत पहली अप्रैल,1986 से प्रत्येक व्यक्ति अथवा हिन्दू अविभक्त परिवार के संबंध में छूट की सीमा को बढ़ाकर 2.50 लाख रुपए तक कर दिया गया है और उस हिन्दू अविभक्त परिवार के लिए 1.50 लाख रुपए तक कर दिया गया है जिसके कम से कम एक सदस्य का कर निर्धारण वर्ष के दौरान निर्धार्य निवल धन 2.50 लाख रुपए से बढ़ गया हो। उक्त संशोधन के बाद निवल धन की राशि पहले मामले में 20 लाख रुपए से जितनी ज्यादा हो जाए उस पर जिस अधिकतम दर से धन कर लगाया जा सकता है यह 2 प्रतिशत है और बाद के मामले में 10 लाख रुपए से जितनी अधिक हो जाए उस पर 3 प्रतिशत के हिसाब से।

Wealth Tax Act, 1957 provides for levy of a tax on the net wealth of every individual, Hindu undivided family and company. Companies were exempted from Wealth Tax under the Finance Act, 1960, but under the Finance Act, 1983, tax was revised in respect of closely held companies. Under the Finance Act, 1980, no Wealth Tax is payable where the net wealth is less than Rs.1.50 lakhs both in the case of an individual and a Hindu undivided family and the maximum rate at which the tax is chargeable is 5% of the amount by which the net wealth exceeds Rs.15 lakhs. The exemption limit has been raised under the Finance Act,,1985 to Rs.2.50 lakhs with effect from 1st April, 1986, in the case of every individual or Hindu undivided family and to Rs.1.50 lakhs in the case of every Hindu undivided family which has at least one member whose net wealth assessable for the assessment year exceeds Rs.2.50 lakhs. The maximum rate at which the tax would be chargeable after the above amendment is 2% of the amount by which the net wealth exceeds Rs.20 lakhs in the case of former and 3% of the amount by which the net wealth exceeds Rs.10 lakhs in the case of latter.

वित्त अधिनियम, 1982 के अन्तर्गत कृषि संपत्ति पर धन कर वापस ले लिया गया था। जो अनुमान दिखाये गये है वे बकाया राशि की मांग के बारे में है। कृषि सम्पत्ति पर धन कर की निवल प्राप्तियों के बराबर की राशि सहायक अनुदानों के रूप में राज्यों को दे दी जाती है, जिसके लिये व्यय के अनुमानों में आवश्यक व्यवस्था की गई है।

Wealth Tax on agricultural property was withdrawn under the Finance Act, 1982. The estimates assumed are in respect of arrear demand. An amount equivalent to the net proceeds of wealth tax on agricultural property is passed on to the States as grants-in-aid for which necessary provision is made in the expenditure estimates.

दान कर

20.000 रुपए के मूल्य से अधिक के दान पर, कुछ छूटों को देने के बाद, दानकर लगाया जाता है। चालू वर्ष के संशोधित अनुमानों में और अगले वर्ष के बजट अनुमानों में दान कर से 10 करोड़ रुपए के राजस्व की प्राप्ति का अनुमान है

GIFT TAX

Gift Tax is levied on gifts exceeding value of Rs.20,000 subject to certain exemptions. The revised estimates of collection during the current and the budget estimate next year are placed at Rs.10 crores each.

सीमा शुल्क

वित्त अधिनियम, 1987 के अन्तर्गत किए गए परिवर्तनों को हिसाब में लेने के बाद चालू वर्ष के दौरान 13,500 करोड़ रुपए का कुल निवल सीमा शुल्क राजस्व प्राप्त होने का अनुमान है और अगले वर्ष बजट में 15120 करोड़ रुपए का राजस्व प्राप्त होने का अनुमान है। (वापस अदायगी और चुगी वापसी की रकम को घटाकर) अनुमानों का ब्यौरा इस प्रकार है:-

The commodity-wise break-up of the collections during 1986-87 and the estimated revenue in 1987-88 and 1988-89 are indicated in *Annexure 1*.

(i) *आयात शुल्क* - वित्त अधिनियम, 1987 के अन्तर्गत किए गए परिवर्तनों को हिसाब में लेने के बाद 1987-88 में आयात शुल्कों

(i) *Import Duties* - Revenue from import duties for 1987-88 was assumed at Rs.12629.52 crores, after taking into

से 12629.52 करोड़ रुपए की राजस्व प्राप्ति का अनुमान लगाया गया था । इनकी तुलना में संशोधित अनुमानों में 13268 करोड़ रुपए की प्राप्ति का अनुमान है । सकल राजस्व के रूप में जो वृद्धि हुई है वह मुख्य रूप से पशुजन्य और वनस्पतिजन्य वसा और तेलों और उनके भाज्य उत्पादों, तैयार खाद्य वसा, पेट्रोलियम तेलों, बिटुमन पदार्थों से प्राप्त तेलों, कच्चे तेलों, विविध रसायनिक उत्पादों, प्लास्टिक और उससे बनी वस्तुओं, हाथ से बने फिलामेण्ट ऊन तथा अन्य पशुओं की खालों, लोह तथा अमिश्रित इस्पात, बरमों की खोखली छड़ों और डंडों, तांबा, निकल, ऐल्युमिनियम, जस्त, विद्युत मशीनरी तथा अन्य वस्तुओं से प्रत्याशा से अधिक रकमों की वसूली होने के कारण हुई है । मेवों और ताजे फलों, अयस्क मल तथा धात्म कार्बनिक तथा अकार्बनिक रसायन, रबड़ तथा उससे बनी वस्तुओं, लुग्दी, कागज, गत्ता और उससे बनी वस्तुओं, हाथ से बने स्टेपल रेशों, लोहा तथा इस्पात से बनी वस्तुओं, सीसा, बुनियादी धातुओं से बने औजारों, उपकरणों तथा अन्य विविध वस्तुओं, मशीन औजारों, कल पुर्जों तथा सहायक पुर्जों, मोटर गाड़ियों और उनके कल पुर्जों, वायुयानों तथा जलयानों, दृश्य फोटोग्राफी, सिनेमाटोग्राफी, डाक्टरी तथा शल्य-चिकित्सा के मापक उपकरणों उत्पाद-आयातों और सामान में होने वाली कमी के कारण उपर्युक्त वृद्धि अंशतः प्रतिसंतुलित हो गई है ।

संशोधित अनुमानों के मुकाबले अगले वर्ष आयात शुल्कों में 1605 करोड़ रुपए (निवल) होने का अनुमान है । सकल राजस्व के रूप में प्रत्याशित वृद्धि मुख्य रूप से पशुजन्य तथा वनस्पतिजन्य वसा तथा उनके उत्पाद, तैयार खाद्य वसा, अन्य पशुजन्य मोम जो अन्य खनिज इंधनों से भिन्न है, तेलों, मोम, और बिटुमन पदार्थों, अकार्बनिक रसायनों, कार्बनिक रसायनों, रंजक पदार्थों, रंगों, रोगन और वार्निश, विविध रासायनिक उत्पादों, प्लास्टिक तथा उससे बनी वस्तुओं, लोहे और इस्पात की वस्तुओं, जस्त, मशीनों जिनमें मशीनी औजार और उनके कल-पुर्जे शामिल नहीं है, सहायक पुर्जों और बाल बेयरिंग अथवा रोलर बेयरिंग, विद्युत्चालित मशीनरी, मोटर गाड़ियों और उनके कल-पुर्जों, दृश्य फोटोग्राफी, चिकित्सा और शल्य चिकित्सा के मापक उपकरण, पार्श्विक सामान के आयात तथा अन्य समस्त वस्तुओं के अन्तर्गत हुई है । उपर्युक्त मदों में हुई वृद्धि बिटुमन खनिजों से प्राप्त पेट्रोलियम और तेलों के साथ-साथ हस्तनिर्मित लुगदी, कागज, गत्ता, कच्चा तेल, तांबा, एल्यूमीनियम और सीसा के अन्तर्गत हुई कमी के कारण अंशतः प्रतिसंतुलित हो जाएगी ।

(ii) *निर्यात शुल्क* :- खालों, चमड़ी और चमड़ा, काली मिर्च और अभ्रक जैसी विभिन्न मदों पर निर्यात शुल्क लगाया जाता है । निर्यात शुल्कों लगाते समय अन्तर्राष्ट्रीय बाजार में वस्तु की प्रतियोगितात्मक स्थिति को भी ध्यान में रखा जाता है । प्रत्येक वस्तु पर निर्यात शुल्क लगाते समय अन्य बातों के साथ साथ घरेलू उत्पादन तथा निर्यात के लिए बची संभावित वस्तु, उत्पादों की विदेशी बाजारों में मांग तथा अन्तर्राष्ट्रीय बाजारों में मिलने वाली कीमतें, विनिमय दरों में परिवर्तन आदि को भी हिसाब में लिया जाता है ।

निर्यात शुल्क से 73.10 करोड़ रुपए के मूल अनुमानों के मुकाबले संशोधित अनुमान में 40 करोड़ रुपए और अगले वर्ष में 40 करोड़ रुपए की निवल वसूलियां होने का अनुमान है. संशोधित तथा अगले बजट अनुमानों में यह वृद्धि मुख्यतः काफी पर निर्यात शुल्क में भारी कमी के कारण है ।

(iii) *निर्यात पर उपकर* :- संशोधित तथा अगले बजट अनुमान क्रमशः 21 करोड़ रुपए और 22करोड़ रुपए के हैं जबकि बजट बनाते समय 15.30 करोड़ रुपए का अनुमान लगाया गया था ।

संघ उत्पाद शुल्क

संघ उत्पाद शुल्कों से प्राप्त राजस्व का वस्तु-वार ब्यौरा

account the changes brought about under the Finance Act, 1987. As against this, the Revised is placed at Rs.13268 crores. The increase in terms of gross revenue is mainly on account of larger realisations than anticipated from animal or vegetable fats & oils and their cleavage products, prepared edible fats, petroleum oils and oils obtained from bituminous minerals, crude, misc. chemical products; plastics and articles thereof; man made filaments, wool and other animal hair; iron and non-alloy steel; stainless steel; other alloy steel, hollow drill bars and rods; copper, nickel, aluminium; zinc; electrical machinery and all other articles. The above increases have been partly offset by decreases under fruits, dried and fresh; ores slags and ash; organic and inorganic chemical; rubber and articles; pulp, paper, paper board and articles thereof; man-made staple fibres; primary materials of iron and steel, lead, tools, implements and other misc. articles of base metals, machine tools; parts and accessories; motor vehicles and parts thereof; aircrafts and vessels, optical, photographic, cinematographic, measuring medical and surgical instruments, project imports and Baggage.

Anticipated import duty realisation (net) next year show an increase of Rs.1745 crores over the current year's Revised. The expected increase in terms of gross revenue is mainly under animal or vegetable fats and oil and their cleavage products, prepared edible fats, animal or vegetable waxes; petroleum oils and oils obtained from bituminous minerals other than crude; other mineral fuels, oils, waxes; and bituminous substances; inorganic chemicals; organic chemicals; dyes, colours, paints and varnishes; misc. chemical products; plastics and articles thereof; primary materials of iron and steel; iron and non-alloy steel, articles of iron and steel; zinc, machinery excluding machine tools and their parts and accessories and ball or roller bearings; electrical machinery; motor vehicles and parts thereof; optical, photographic, measuring medical and surgical instruments; project imports; baggage and all other articles. The increase under the above items will be partly offset by decreases under Petroleum oils and oils obtained from bituminous minerals, other man-made pulp, paper, paper boards, crude; copper, aluminium and lead.

(ii) *Export Duties.* - Export duties are levied on a few items such as coffee, hides, skins and leathers, black pepper and mica. While levying export duties, the competitive position of the goods in the international market is generally kept in view. The export duty leviable on each item takes into account, *inter alia* , factors like domestic production and likely exportable surpluses, demand for products in the foreign markets and the prices prevailing in the international market, changes in the exchange rates, etc.

Net collections from Export duties are estimated at Rs.40 crores in Revised and Rs.40 crores next year against the original estimates of Rs.73.10 crores, the fall in the Revised and next Budget being mainly on account of steep reduction in the export duty on coffee.

(iii) *Cesses on Exports* :--Revised and next Budget are placed at Rs.21 crores and Rs.22 crores, respectively, against Rs.15.30 crores anticipated at the Budget stage.

(iv) *Other Receipts:* -- Collections are estimated at Rs.171 and 245 crores respectively under Revised and next year against the original Budget of Rs.149 crores.

(ख) संघ राज्य क्षेत्रों की सरकारों को दिए गए उधारों पर ब्याज

वर्ष 1987-88 के बजट में चार संघीय राज्य क्षेत्रों की सरकारों को दिए गए ऋणों पर 50.80 करोड़ रुपए की ब्याज प्राप्तियां शामिल कर ली गई थीं। इन संघ राज्य क्षेत्रों में से, अरुणाचल प्रदेश, मिजोरम और गोवा पूरे राज्य बन चुके हैं। संशोधित अनुमान, 1987-88 और अगले वर्ष के बजट में इस शीर्ष के अंतर्गत पांडिचेरी के संघ राज्य क्षेत्र से मिलने वाली ब्याज प्राप्तियां शामिल कर ली गई हैं। अरुणाचल प्रदेश, मिजोरम और गोवा की ब्याज प्राप्तियों को, राज्य सरकारों को दिए गए ऋणों पर प्राप्त होने वाले ब्याज के अन्तर्गत दिखाया गया है।

(ग) रेलवे द्वारा दिया जाने वाला ब्याज

संसद की आनुक्रामिक रेलवे अभिसमय समितियों की सिफारिशों के अनुसार रेलवे में लगी पूंजी पर, जिसका हिसाब वार्षिक आधार पर लगाया जाता है, रेलवे द्वारा ब्याज के एवज में सामान्य राजस्व को एक निश्चित लाभांश और थोड़ा सा अंशदान दिया जाता है। रेलवे अभिसमय समिति की 1988-89 के लिए सिफारिशें होने तक अनुमान 1987-88 में किए गए प्रबन्धों के आधार पर अनंतिम रूप से बनाए गए हैं। ये व्यवस्थाएं इस प्रकार हैं :-

(i) रिहायशी इमारतों की पूंजीगत लागत को छोड़ कर, जिन पर 3.5 प्रतिशत की दर से लाभांश दिया जाता है, रेलवे निम्नलिखित दरों पर इस लाभांश की अदायगी करती है:-

(1) 31-3-1980 तक नियैशित पूंजी पर 6 प्रतिशत (31-3-1984 तक राज्यों को अदायगी के लिए निवेश्य पूंजी पर यात्री किराया कर आदि के बदले 1.5 प्रतिशत सहित)

(2) उसके बाद नियैशित पूंजी पर 6.5 प्रतिशत

(ii) रेलवे नीचे बताई गई पूंजी के संबंध में लाभांश की अदायगी नहीं करती:-

(1) सामरिक महत्व की लाइनों के संबंध में लगी पूंजी, ऐसी लाइनों के कार्यचालन में वार्षिक हानि सामान्य राजस्व से पूरी की जाती है और उनके कार्यचालन में फालतू राशि, यदि कोई हो, तो वह भी सामान्य लाभांश के स्तर तक सामान्य राजस्व को अन्तरित कर दी जाती है।

(2) अलाभकारी बांच लाइनें- लगी पूंजी पर लाभांश की अदायगी से एक बांच लाइन विशेष को छूट इस लाइन की अलाभदायकता की वार्षिक समीक्षा के आधार पर दी जाती है जिसके निर्धारण में सीमान्तिक लागत का सिद्धांत अपनाया जाता है।

(3) नौकाओं, कल्याणकार्यों से संबंधित इमारतों, (अस्पताल, दवाखाने, स्वास्थ्य एकक, क्लब, संस्थाएं, स्कूल तथा कालेज, होस्टल तथा अन्य कल्याणकार्यों से संबंधित केन्द्र) औ पूर्वोत्तर सीमा रेलवे के असामरिक भाग के संबंध में लगी पूंजी।

(4) अयस्क लाइनें (किरिबुर-बिमलगढ़ तथा संभलपुर-टीटागढ़ लाइनें, जिन पर अयस्क की ढुलाई के लिए भाड़े की रियायती दरें उपलब्ध कराई जाती हैं) बशर्ते कि वे लाभकारी नहीं हैं। लाभप्रदता, सीमान्तिक लागत सिद्धान्त को अपनाते हुए निर्धारित की गई है।

(5) "वित्तीय लाभ के आधार से भिन्न आधार पर" पहली अप्रैल, 1955 को अथवा उसके बाद शुरू की गई 28 नई लाइनों की पूंजीगत लागत जिनमें से सीमान्तिक लागत के सिद्धान्त के अनुसार वे लाइनें शामिल नहीं हैं जिनसे वर्ष के दौरान लाभ प्राप्त होना शुरू हो गया था। यह प्रबंध जम्मू-कठुआ तथा तिरुनेलवेली-त्रिवेन्द्रम-कन्याकुमारी लाइनों पर लागू होता है जिनको राष्ट्रीय महत्व के निवेश माना जाता है।

नई उपर्युक्त लाइनों को छोड़कर समस्त नई लाइनों में नियैशित पूंजी पर लाभांश, निर्माण की अवधि के दौरान तथा उनके खुलने के बाद पहले पांच वर्षों के लिए स्थगित किया गया है। स्थगित लाभांश छठे वर्ष से वसूल किया जा सकता है बशर्ते कि नई लाइनों ही की निवल आय में चालू लाभांश की अदायगी के बाद कुछ अधिशेष रहे। नई लाइनों पर स्थगित लाभांश का खाता, उनके खुलने की तारीख से 20 वर्ष की अवधि के बाद,

Budget for 1987-88 included receipts of Rs.50.80 crores on account of interest on loans advanced to 4 Union Territory Governments. Of these UTs, Arunachal Pradesh, Mizoram and Goa have attained statehood. Revised estimates 1987-88 and next Budget under this head include interest receipts from Union Territory Government of Pondicherry while the interest receipts from Arunachal Pradesh, Mizoram and Goa have been assumed under interest on loans to State Governments.

(c) Interest payable by Railways

In terms of the recommendations of the successive Railway Convention Committees (RCC) of Parliament, the Railways pay a fixed dividend to General Revenues on the capital invested in the Railways as computed annually in lieu of interest charges *plus* a small amount of contribution. Pending rcommendation of RCC for the year 1988-89, the estimates have been provisionally framed on the basis of the arrangements adopted for 1987-88. These arrangements are:

(i) Except for the Capital cost of residential buildings which bears dividend at 3.5 per cent., Railways pay dividend at:

(1) 6% on capital invested upto 31.3.1980 (inclusive of 1.5% on dividend bearing capital less subsidy capital invested upto 31.3.64, for payment to States in lieu of passenger fares tax).

(2) 6.5% on the capital invested thereafter.

(ii) The Railways do not pay dividend on capital in respect of:

(1) Strategic Lines - the annual loss in respect of working of such lines is borne by General Revenues and surplus, if any, in their working is transferred to General Revenues upto the level of normal dividend.

(2) Unremunerative branch lines - the exemption of a particular branch line from payment of dividend on capital is based on annual review of the un-remunerativeness of the line, the remunerativeness being determined adopting the 'marginal cost' principle.

(3) Ferries, welfare buildings (hospitals, dispensaries, health units, clubs,institutes, schools and colleges, hostels and other welfare centres) and non-strategic portion of the Northeast Frontier Railway.

(4) Ore lines (Kiriburu-Bimlagarh and Sambhalpur-Titlagarh lines, which involve concessional rates of freight for the carriage of ore) provided that they are not remunerative, the remunerativeness being determined adopting the 'marginal cost' principle.

(5) 28 'new lines' taken up on or after 1st April, 1955 on 'other than financial' considerations,except those which become remunerative during the year adopting the 'marginal cost' principle; this arrangement applies also to Jammu Kathua and Tirunelvelli - Trivandrum - Kanyakumari lines which are known as 'national investments'.

On the 'new lines' other than those referred to above, dividend on capital invested is deferred during the period of construction as well as for the first five years after their opening. The deferred dividend is recoverable from the sixth year provided the net income of the new lines leaves a surplus after payment of the current dividend. The account of the unliquidated deferred dividend on these lines is closed after a

किसी भी जिम्मेदारी को समाप्त करते हुए जिसे उस अवधि में समाप्त नहीं किया गया, बन्द कर दिया जाता है ।

(iii) एक वर्ष में चालू पूंजीगत निर्माण कार्यों पर होने वाले पूंजी-परिव्यय के 50 प्रतिशत भाग को (जिस पर अन्यथा लाभांश देय होता हो) तीन वर्ष की अवधि के लिए लाभांश की अदायगी से छूट दी गई है ।

(iv) उपर्युक्त लाभांश छूटों को (सामरिक महत्व की लाइनों से संबंधित कार्यों पर होने वाली हानि को छोड़कर) सामान्य राजस्व से आर्थिक सहायता के रूप में उपलब्ध किया जाता है ।

(v) ऐसे वर्षों में जब रेलवे का निवल राजस्व चालू लाभांश देनदारियों को पूरा करने के लिए काफी नहीं होता तो ऐसी अवस्था में चालू लाभांश की अदायगी की कमी को आस्थगित देनदारी माना जाता है (जिस पर कोई ब्याज नहीं लिया जाता) क्योंकि इस राशि की अदायगी आने वाले वर्षों में रेलवे की बचतों से की जाती है ।

उपर्युक्त सिद्धांतों के आधार पर 1987-88 और 1988-89 के दौरान रेलवे द्वारा देय लाभांश के अनुमान नीचे दी गई सारणी के अनुसार हैं:

period of 20 years from the date of their opening, extinguishing any liability for deferred dividend not liquidated within that period.

(iii) 50 per cent of the outlay in a year on capital works-in-progress (which would otherwise be liable to payment of dividend) is exempted from payment of dividend for a period of three years.

(iv) The above dividend concessions (except losses in the working of strategic lines) are provided to Railways in the form of subsidy from General Revenues.

(v) In years in which the net revenue of the Railways is not adequate to meet the current dividend liability, the shortfall in the payment of the current dividend is treated as deferred dividend liability (on which no interest is charged) to be discharged by Railways from surplus in future years.

Based on the principles mentioned above, the estimates of dividend payable by Railways for 1987-88 and 1988-89 work out as follows:-

रेलवे अभिसमय समिति (1977) की सिफारिशों के अनुसार, रेलवे की सामान्य राजस्व के प्रति 1978-79 से पूर्व की देनदारी, जो लाभांश की अदायगी की कमी की द्योतक है उनके द्वारा भविष्य में प्राप्त होने वाले अधिशेषों से अगले दस वर्षों की अवधि में पूरी की जाएगी जिसके बाद स्थिति का पुनरीक्षण किया जा सकेगा । यह लाभांश की देनदारी पूरी कर दी गई है ।

1978-89 के बाद के आस्थगित लाभांश दायित्व 1986-87 के अंत तक 428.44 करोड़ रुपए था और 1987-88 और 1988-89 के अंत तक, वर्ष के दौरान और अधिक वृद्धि की प्रत्याशा न होने से उसी स्तर पर रहेगी ।

1964-65 से पहले की पूंजी पर रेलवे द्वारा दिए जाने वाले 1.5 प्रतिशत के अतिरिक्त लाभांश में से 23.12 करोड़ रुपए की रकम का रेलवे द्वारा प्रदत्त अंशदान, निरसित रेलवे यात्री किराया कर के एवज में राज्यों को दी गई है और बाकी की रकम, राज्यों को तथा अंशतः रेलवे को सुरक्षा कार्यों अर्थात् कर्मचारी नियंत्रित रेलवे फाटक, सड़क ऊपरी पुलों और निचले पुल के खर्च को पूरा करने के लिए दी जाती है । तथापि, आठवें वित्त आयोग की सिफारिशों के आधार पर केन्द्र 95 करोड़ रुपए का वार्षिक अनुदान राज्यों को देता है तथा यह राशि आयोग की सिफारिशों के अन्तर्गत निर्धारित प्रतिशत आधार पर राज्यों में बांट दी जाती है जैसा कि अनुबन्ध 3 में दिखाया गया है ।

(घ) *दूर संचार विभाग द्वारा देय ब्याज*- दूर संचार विभाग तथा सामान्य राजस्व के वित्तीय संबंधों को शासित करने वाले अभिसमय के अन्तर्गत दूर संचार विभाग सामान्य राजस्वों को निम्न दरों के अनुसार लाभांश देगा:-

(i) 1963-64 के अन्त तक दी गई उस निवल पूंजी पर 4.5

In terms of the recommendations of the Railway Convention Committee(1977), the pre-1978-79 liability of the Railways to General Revenues representing the shortfall in dividend payments, was required to be discharged by them out of future surpluses in the next ten years, after which the position could be reviewed. This dividend liability has been completely Liquidated.

The post 1978-79 deferred dividend liability stood at Rs.428.44 crores at the end of 1986-87 and will remain the same at the end of the years 1987-88 and 1988-89 with no further accretions on reduction expected during these years.

Out of the additional 1.5 *per cent* dividend paid by the Railways on the pre-1964-65 capital, an amount of Rs.23.12 crores is contributed by the Railways for being passed on to the States as grant in lieu of the repealed tax on railway passenger fares and the balance is made available to States and partly to Railways to finance railway safety works such as manned level crossings, road over-bridges and under-bridges. However on the basis of the recommendations of Eighth Finance Commission, Centre is paying an annual grant of Rs.95 crores to States and this is distributed among the States according to percentage share recommended by the Commission, shown in Annexure 3.

(d) *Interest payable by the Department of Telecommunications* .-Under the Convention governing the financial relationship between the Department of Telecommunications and the General Revenues, the Department of Telecommunications pay dividend to General Revenues at the following rates:

(i) 4.5% per annum on the net capital advanced upto the end

परिसंपत्ति प्रति वर्ष लाभांश, जिसमें डाक-तार विभाग के 31 मार्च 1960 तक के संचित अधिशेष के अंश की रकम (29.78 करोड़ रुपए) और विभाग की नवीकरण आरक्षित निधियों* में 1963-64 के अन्त में जमा रकम (52.72 करोड़ रुपए) घटा दी जाती है ।

(ii) वर्ष 1980-81 से आगे सभी संबंधित वर्षों में लिए गए ऋण पर लागू ब्याज की औसत दर:

(क) वर्ष 1964-65 से 1969-70 तक दी गई पूंजी जिसमें से इसी अवधि में नवीकरण आरक्षित निधि* में हुई निवल वृद्धि की रकम घटा दी गई है, और

(ख) 1969-70 के बाद दी गई पूंजी ।

यदि विभाग सामान्य राजस्व में देय लाभांश की अदा करने में असमर्थ रहता है तो उत्तरोक्त विभाग के कार्यचालन परिणामों में हुई कमी और घाटे को यदि कुछ हो, पूरा करने के लिए दूर संचार राजस्व आरक्षित निधि को ब्याज अग्रिम देता है ।

परिव्यय राशि में से घटाकर परिसम्पत्ति की वास्तविक ऐतिहासिक लागत के आधार पर मूल्य ह्रास के लिए की गई व्यवस्था को पूंजी खाते में अंतरित कर दिया जाता है ।

राजस्व आरक्षित निधि और पूंजी आरक्षित निधि के शेषों पर औसत दर से ब्याज मिलता है और यह ब्याज निधियों में जमा कर दिया जाता है ।

दूर-संचार विभाग परिणाम संक्षिप्त में कार्यचालन के वित्तीय रूप में इस प्रकार है :-

of 1963-64 reduced by the Department's share of accumulated surplus as on 31st March, 1960(Rs.29.78 crores), and the balance in the Department's Renewals Reserve Fund as at the end of 1963-64 (Rs.52.72 crores).

(ii) Average borrowing rate of interest as applicable to the respective years 1980-81 and onwards on:

(a) Capital advanced from 1964-65 to 1969-70 reduced by the net accretion to the Renewals Reserve Fund* during this period and;

(b) Capital advanced after 1969-70.

In case the Department is unable to pay dividend due to General Revenues, the latter makes interest-bearing advance to the Telecommunication Revenue Reserve Fund to cover the shortfall, as well as for meeting the deficit, if any, in the working results of the Department.

Provision for depreciation based on historical cost of assets is transferred to capital in reduction of the outlay.

The balances in the Revenue Reserve Fund and the Capital Reserve Fund earn interest at the average rate and this interest is added to the Funds.

The financial results of the working of the Department of Telecommunications are briefly as under :-

संशोधित अनुमान में वृद्धि महानगर टैलीफोन निगम लिमिटेड से प्रत्याशा से अधिक लाभांश की प्राप्तियां होने के कारण हुई है । टैरिफ के परिवर्तन के कारण अगले बजट में अधिक प्राप्तियां होने की प्रत्याशा है । कार्यचालन व्यय के संबंध में संशोधित अनुमान में जो वृद्धि हुई है वह मुख्य रूप से महंगाई भत्ते की और दो किस्तों की अदायगी, पेंशनभोगियों के लाभ, दिहाड़ी मजदूरी के वेतन के विनियमन के संबंध में उच्चतम न्यायालय द्वारा दिए गए फैसले आदि के संबंध में चौथे केन्द्रीय वेतन आयोग की सिफारिशों को कार्यान्वित किए जाने के कारण हुई है । अगले बजट में कार्यचालन व्यय में सामान्य वृद्धि की परिकल्पना की गई है ।

वित्तीय परिणामों का अपेक्षतर ब्यौरा अनुबन्ध 5 में दिया गया है ।

Increase in the Revised is due to larger dividend receipts from Mahanagar Telephone Nigam Ltd. than anticipated. Next budget assumes larger receipts mainly on account of the revision of Tariff. Increase in the Revised in respect of working expences is mainly on account of grant of two more DA instalments, implementation of the recommendation of the 4th Central Pay Commission relating to pensionery benefits, regulation of pay of casual mazdoors in the light of Supreme Court Judgement etc. Next Budget assumes normal increase under working-expenses.

Further details of the financial results are given in Annexure-5.

(ङ) अन्य ब्याज प्राप्तियां

"अन्य ब्याज प्राप्तियों" के अन्तर्गत अनुमान सरकारी क्षेत्र के उद्यमों को दिये गए सरकारी ऋण, पत्तन न्यासों तथा अन्य सांविधिक निकायों, सहकारी समितियों, तथा सरकारी सेवकों आदि को दिये गए उधारों तथा वाणिज्यिक विभागों के पूंजीगत परिव्यय के ब्याज के सम्बन्ध में है ।

चालू बजट में, इस खाते में 2135.10 करोड़ रुपए प्राप्त होने की प्रत्याशा है । अद्यतन मूल्यांकन के अनुसार संशोधित अनुमानों में 1988.85 करोड़ रुपए की व्यवस्था है । यह कमी मुख्यतः कोल इंडिया लि० द्वारा अदायगी न किए जाने के कारण है । अगले वर्ष के बजट में इस आधार पर 2317.41 करोड़ रुपए की प्राप्ति होने का अनुमान लगाया गया है ।

(e) Other Interest Receipts

The estimates under 'Other Interest Receipts' are in respect of interest on loans advanced to public sector enterprises, port trusts and other statutory bodies, cooperatives, government servants, etc. and capital outlay on departmental commercial undertakings.

The current Budget assumed a credit of Rs.2135.10 crores on this account. According to the latest assessment, the Revised is placed at Rs.1988.85 crores. The shortfall is mainly due to default by Coal India Ltd. Next budget assumes a receipt of Rs.2317.41 crores on this account .

"टकसाल" के अन्तर्गत प्राप्तियां मुख्यतः परिशोधन और धातु परीक्षण प्रभारों से संबंधित है ।

"चांदी शोधनशाला" के अन्तर्गत संशोधित अनुमान, 1987-88 तथा बजट अनुमान, 1988-89 में अधिक प्राप्तियों का कारण, हिन्दुस्तान फोटो फिल्म मैनुफैक्चरिंग कम्पनी लिमिटेड द्वारा अत्याधिक मात्रा में चांदी के उठाए जाने तथा सामग्री नीलामी से प्राप्त होने वाली बिक्रय की राशि है ।

(ख) अन्य वित्तकोषीय सेवाएं:- ये प्राप्तियां मुख्यतः अन्तर्राष्ट्रीय मुद्राकोष के लिए ई. एफ. एफ. प्रभार के संबंध में भारतीय रिजर्व बैंक के द्वारा अंशदान, ब्याज आर्थिक सहायता, अन्तर्राष्ट्रीय मुद्राकोष से प्राप्त अन्य पारितोषण, भारतीय रिजर्व बैंक को अधिशेष सोने के अन्तरण, तथा आर्थिक अपराधों इत्यादि से प्राप्त अर्थदण्ड से संबंध रखती है ।

संशोधित अनुमान और अगले बजट अनुमान में वृद्धि का कारण भारतीय रिजर्व बैंक से ई.एफ.एफ. प्रभारों के लिए अधिक अंशदान और सोने के अन्तरण पर अधिक उगाही है ।

अन्तर्राष्ट्रीय मुद्राकोष से प्राप्त ब्याज आर्थिक सहायता तथा अन्य परितोषणों का बजट में 72.88 करोड़ रुपए और संशोधित अनुमानों में 49.91 करोड़ रुपए आंका गया है । इस आधार पर अगले वर्ष 47.86 करोड़ रुपए की प्राप्तियों का अनुमान लगाया गया है ।

इन वाणिज्यिक विभागों से होने वाली प्राप्तियों को व्यय बजट में व्यय में से घटाकर दिखाया गया है ।

(a) & (b): In pursuance of the recommendations of the Eighth Finance Commission, as accepted by the Government, the Central loans advanced to the State Governments upto 1983-84, and outstanding as at the end of 1984-85 have been consolidated. For purposes of consolidation, the Finance Commission had treated loans advanced up to 1978-79 and those advanced during 1979-84 differently. While no change has been recommended in the terms of pre-1979 loans in the case of some States, these loans have been recommended to be consolidated into either 25 year loans or 30 year loans in the case of others. As regards loans advanced during 1979-84, these have been consolidated in the case of all the States with periods ranging from 15 years to 30 years. The estimates are in gross terms, without taking into account the write off of recoveries to the extent of Rs. 81.04 crores.

(ग) ये वसूलियां राज्यों को 1982-83 और 1983-84 में उनके ओवरड्राफ्टों को चुकाने के लिए दिए गए ऋणों की हैं। इन ऋणों को आठवें वित्त आयोग द्वारा विधारित समेकन योजना के अन्तर्गत समेकित नहीं किया गया।

(c) These recoveries pertain to loans given to States in 1982-83 and 1983-84 to overcome their overdraft difficulties. These loans were not covered by the scheme of consolidation of the Eighth Finance Commission.

(घ) अल्प बचत ऋण भी उन ऋणों में से हैं, जिनको आठवें वित्त आयोग की समेकन योजना के अन्तर्गत समेकित नहीं किया गया। इन ऋणों की वसूली जो पहले रोक दी गई थी, 1985-86 से फिर से शुरू कर दी गई है।

(d) Small Savings loans are also among those loans not covered by the scheme of consolidation of the Eighth Finance Commission. The recovery of these loans suspended earlier has been resumed from 1985-86.

(ङ) यद्यपि मूल बजट और संशोधित में वे वसूलियां दिखाई गई हैं जो 1984-85,1985-86 और 1986-87 में आयोजना और आयोजनाभिन्न प्रयोजनों के लिए दिए गए थे, अगले बजट में उन वर्षों में दिए गए ऋणों के अतिरिक्त वर्ष 1987-88 में दिए गए और दिए जाने वाले ऋण भी शामिल है ।

(ज) 1984-85 में राज्यों को 352.43 करोड़ रुपए के विशेष मध्यमावधिक आयोजना-भिन्न ऋण दिए गए थे । ये ऋण तीन श्रेणियों के थे-(i) मूलधन की वापसी और ब्याज की अदायगी के आस्थगन की चार वर्षों की अवधि सहित, उन्नीस वर्षीय ऋण (290.25 करोड़ रुपए), (ii) मूलधन की वापसी-अदायगी के आस्थगन की एक वर्ष की अवधि सहित छः वर्षीय ऋण (52.18 करोड़ रुपए), और (iii) दस वर्षीय ऋण (10 करोड़ रुपए) ।

1985-86 में राज्यों को अपने ओवरड्राफ्टों को बेबाक करने और अपने संसाधनों की कमी पूरी करने के लिए विशेष मध्यमावधिक आयोजना-भिन्न ऋण देने के लिए 2094.32 करोड़ रुपए की व्यवस्था की गई थी । ये ऋण निम्नलिखित श्रेणियों के हैं-(i) मूलधन की वापसी-अदायगी और ब्याज की अदायगी के आस्थगन की तीन वर्ष की अवधि सहित अठारह वर्षीय ऋण (281.31 करोड़ रुपए),(ii) दस वर्षीय ऋण (55 करोड़ रुपए),(iii) पांच वर्षीय ऋण (40 करोड़ रुपए) और (iv) चार वर्षीय ऋण (1718.01 करोड़ रुपए) ।

1986-87 में, राज्यों के राजस्व के घाटे की पूर्ति के लिए 48.92 करोड़ रुपए के ऋण दिए गए थे । ये ऋण तीन श्रेणियों के थे - (i) मूलधन की वापसी अदायगी और ब्याज की अदायगी दोनों के लिए 2 वर्ष की स्थगन अवधि सहित पंद्रह वर्षीय ऋण (13.92 करोड़ रुपए-पंजाब), (ii) मूलधन की वापसी अदायगी और ब्याज की अदायगी दोनों के लिए 2 वर्ष की स्थगनावधि सहित पंचवार्षिक ऋण (15 करोड़ रुपए-मध्य प्रदेश) और (iii) पांच वर्षों में वापस किए जाने वाले पंचवार्षिक ऋण (20 करोड़ रुपए - नागालैण्ड) ।

संशोधित अनुमानों और अगले बजट में इन दोनों को ऋणों के 461 करोड़ रुपए की वसूली होने का अनुमान है ।

विनिमय करें या बदलने ऐसा करने का अनुरोध करें । 30 अप्रैल, 1987 को कोष में भारत की सदस्यता का भी मूल्यांकन (30 अप्रैल, 1987 को लागू 1 रुपया = 0.0605634 एस.डी.आर. की प्रतिनिधि दर के आधार पर) किया गया उसके परिणामस्वरूप भारत द्वारा 15 जून 1987 को कोष को 1029.33 करोड़ रुपया अन्तर्राष्ट्रीय मुद्रा कोष के नाम अपरक्राम्य, विक्रयोत्तर रुपया प्रतिभूतियों के रूप में अदा किया है । बजट अनुमान 1988-89 में इसके लिए 147.11 करोड़ रुपए के व्यय की परिकल्पना की गई है और उनकी ही राशि प्रतिभूति खाते में जमा के रूप में दिखा दी गई है ।

अन्तर्राष्ट्रीय मुद्राकोष रुपया प्रतिभूतियों को भुना लेता है, जब उसे अपने कार्यकलापों के लिए चालू राशि की आवश्यकता हो । इस वर्ष और अगले वर्ष भी कोई रुपया-प्रतिभूतियां भुनाए जाने की संभावना नहीं है ।

विशेष विकासी अधिकार - भारत अन्तर्राष्ट्रीय मुद्रा कोष के एस.डी.आर. विभाग का भागीदार है । 1987-88 के दौरान भारत को आवंटित निवल संचित एस.डी.आर. 681.7 लाख बने रहे क्योंकि एस.डी.आर. का नया आवंटन नहीं किया गया । भारत अपने एस.डी.आर. का उपयोग प्रभारों की अदायगी और पुनः क्रय संबंधी देनदारियों को पूरा करने के लिए कर सकता है । भारत अपने एस.डी.आर. का उपयोग अतिरिक्त अंशदान की अदायगी के लिये भी कर सकता है ।

कोष प्रत्येक धारक को उसके द्वारा धारित एस.डी.आर. पर ब्याज की अदायगी करता है और प्रत्येक भागीदार के निवल संचित आवंटन तथा भागीदार के ऋणात्मक शेष अथवा अदा न किए गए प्रभारों पर उसी दर से प्रभार लगाता है । कोष सभी भागीदारों के निवल संचित आवंटनों पर उनके एस.डी.आर. खाते के प्रशासन के संबंध में निर्धारित प्रभार भी लगाता है ।

वर्ष 1987-88 के दौरान विस्तारित निधि सुविधा भारत 39000 लाख एस.डी.आर. का उपयोग करके 30.4.1984 तक 1163.07 करोड़ रुपए के बराबर की राशि की पुनः खरीद करेगा । अगले वर्ष के बजट में इस प्रयोजन के लिए 1355.02 करोड़ रुपए के बराबर की राशि के एस.डी.आर. के प्रयोग का अनुमान लगाया गया है ।

खरीदारी तथा पुनः खरीदारी संबंधी लेनदेनों को लोक खाते में "विशेष विकासी अधिकार" शीर्षक में पावतियों के रूप में दिखा दिया जाता है । विशेष विकासी अधिकारों के रूप में अन्तर्राष्ट्रीय मुद्रा कोष को जो अदायगियां की जाती हैं उनको इस शीर्ष के अंतर्गत प्रत्यावर्तित आधार पर जमा करके सम्बद्ध व्यय शीर्षों में नामे डाल दिया जाता है । इसी प्रकार से विशेष विकासी अधिकारों के रूप में जो धनराशियां वसूल की जाती हैं उनको भी सम्बद्ध प्राप्ति शीर्षों में जमा के रूप में दिखा दिया जाता है और इस शीर्ष में उनको प्रत्यावर्तित आधार पर नामे डाल दिया जाता है । विशेष विकासी अधिकार शीर्ष में संशोधित अनुमान 1987-88 में कुल जमा की गई राशि 1587.06 करोड़ रुपए की है और बजट अनुमान 1988-89 में यह राशि 1688.76 करोड़ रुपए की है । संशोधित अनुमान 1987-88 में कुल मिलाकर नामे डाली गई राशि 1549.38 करोड़ रुपए है और बजट अनुमान 1988-89 में यह राशि 1746.47 करोड़ रुपए की है ।

अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक में इस उपक्रम बैंक की शेयर पूंजी में 30 जून 1987 को भारत का अभिदान 287.534 करोड़ अमरीकी डालर था जिसमें से 24.882 करोड़ अमेरिकी डालर की अदायगी की जा चुकी है । बाकी बचे 262.652 करोड़ अमेरिकी डालर की अदायगी की जानी है ।

अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक के संकल्प संख्या 410 के अन्तर्गत भारत को 588 अतिरिक्त शेयर आवंटित किए गए हैं । अभिदान की अदायगी करने के लिए 31 अगस्त, 1988 अन्तिम तिथि है । इस संबंध में 8.38 करोड़ रुपए के अभिदान की राशि देय है । इसके अलावा, मूल्य सम्बन्धी दावों के अनुरक्षण की माप किस्तों में से पहली किस्त के रूप में 16.52 करोड़ रुपए की राशि 1988-89 में अदायगी के लिए देय हो गई है । अतः इन अदायगियों के लिए 24.90 करोड़ रुपए की व्यवस्था की गई है । इसमें से 84 लाख रुपए अमरीकी डालरों में नगदी के रूप में और शेष 24.06 करोड़ रुपए की राशि अपरक्राम्य

Special Drawing Rights (SDRs): India is a participant in the Special Drawing Rights Department of the IMF. The Fund also levies assessment charges in regard to administration of the SDR account, for all participants on their net cumulative allocations.

During 1987-88 India would repurchase an amount of Rs.1163.07 crores by using SDRs on account of the drawing of SDR 3900 million made upto 30.4.1984 under the Extended Fund Facility. Next year's budget assumes use of SDRs for an amount equal to Rs.1355.02 crores for this purpose.

Purchase and repurchase transactions are debited/credited to the head "Special Drawing Rights" in the Public Account. Payments made to the IMF in the form of SDR s are debited to the relevant expenditure heads by contra credit to this head. Similarly receipts realised in the form of SDR s are credited to the relevant receipt heads by contra debit to this head. The total credits to the head Special Drawing Rights amount to Rs.1587.06 crores in Revised Estimates 1987-88 and Rs.1688.76 crores in Budget Estimates 1988-89. The total debits amount to Rs.1549.38 crores in R.E. 1987-88 and Rs.1746.47 crores in B.E. 1988-89.

Therefore a provision of Rs.24.90 crores has been made for these payments. Out of this provision Rs. 84 lakhs will be paid in

A brief write-up on the assistance extended by different countries and organisations is given in the succeeding paragraphs.

1. आबुधाबी अरब आर्थिक विकास निधि

आबुधाबी सरकार के एक अभिकरण के रूप में आबु धाबी आर्थिक विकास निधि की स्थापना 1971 में की गई थी जिसका उद्देश्य अरब देशों को आर्थिक सहायता मुहैया कराना है। तथापि, इसका कार्यक्षेत्र अन्य विकासशील देशों में भी फैला हुआ है। 1974 से यह संस्थान अफ्रीकी और एशियाई मित्र देशों को भी ऋण प्रदान करके सहायता करने की ओर अग्रसर है। इस निधि ने 6 जुलाई, 1976 के एक करार द्वारा उत्तर प्रदेश में गढ़वाल-ऋषिकेश-चिल्ला पन-बिजली परियोजना के वित्तपोषण के लिए 6 करोड़ 80 लाख संयुक्त अरब अमीरात दिरहम (लगभग 12.92 करोड़ रुपए) का एक ऋण दिया है। इस परियोजना के अन्तर्गत प्रत्येक 30 मेगावाट के चार एकक स्थापित करने का विचार है और इस पर लगभग 88 करोड़ रुपए की लागत का अनुमान है। सारा ऋण पहले ही प्रयोग में जा चुका है।

प्रशासनिक खर्चों को पूरा करने के लिये इस ऋण पर 0.5 प्रतिशत की दर से अतिरिक्त प्रभार सहित 3.5 प्रतिशत वार्षिक दर से ब्याज लगेगा। इस ऋण की वापसी अदायगी 20 वर्ष में की जायेगी, जिसमें 5 वर्ष की रियायती अवधि शामिल है।

I. ABU DHABI FUND FOR ARAB ECONOMIC DEVELOPMENT

Abu Dhabi Fund for Arab Economic Development was established in 1971 as an agency of Abu Dhabi Government, with the object of providing economic assistance to Arab countries. However its scope was widened to cover other developing countries also. From 1974 onwards this institution has been helping friendly African and Asian countries also by way of extending loans. This fund has extended a loan of UAE Dirham 68 million (approximately Rs.12.92 crores) by an agreement dated 6th July, 1976 for financing the Garhwal-Rishikesh-Chila Hydro Electric Project in Uttar Pradesh. The project envisaged installation of four units each of 30 M.W. capacity at the estimated cost of about Rs.88 crores. The loan has already been utilised in full.

The loan carries an interest of 3.5 per cent with additional charge of 0.5 per cent towards administrative expenses. The loan is repayable in 20 years including a grace period of 5 years.

II.आस्ट्रेलिया

आस्ट्रेलिया 1951 से भारत को अनुदानों के रूप में आर्थिक सहायता दे रहा है। यह सहायता सामग्री और उपस्कर, वस्तुओं, खाद्य सहायता, परियोजना सहायता और प्रशिक्षण सहायता आदि के रूप में है।

30 जून 1983 तक लगभग 1309.6 लाख आस्ट्रेलियन डालर की कुल सहायता दी गई है। 1987-88 के दौरान कोई सहायता प्राप्त होने की संभावना नहीं है।

III. आस्ट्रिया

ऋणउधार : आस्ट्रिया सरकार ने अब तक (ऋण की हुई रकमों को घटाकर) 10692.8 लाख आस्ट्रियाई शि0 के तेरह ऋण आस्ट्रियाई मूल की पूंजीगत वस्तुओं को वित्त-पोषित करने के लिए दिए हैं। इसमें दिसम्बर, 1976 में भारत को दी गई 268 लाख आस्ट्रियाई शिलिंग की राशि की खाद्य सहायता भी शामिल है। 1979-80 तक दिए गए ऋणों को 2 से 7 वर्ष की रियायती अवधि सहित 15 से 25 वर्षों में वापिस अदा किया जाना है और इन ऋणों पर 2 से 5.5 प्रतिशत तक ब्याज लगेगा। 1980-81 के उपरान्त दिए गए ऋणों को 10 वर्ष की रियायती अवधि सहित 30 वर्ष में वापिस अदा किया जाना है और इन ऋणों पर 2 प्रतिशत प्रतिवर्ष की दर से ब्याज लगेगा।

ऋण राहत: आस्ट्रिया ने भी 9 ऋणों के द्वारा 371.610 लाख आस्ट्रियाई शिलिंग की राशि की ऋण राहत सहायता दी है। इसे पचीस वर्ष की अवधि में वापस अदा किया जाना है और शुरू में 9 वर्ष की रियायती अवधि भी उपलब्ध है, इन ऋणों पर दो प्रतिशत प्रतिवर्ष के हिसाब से ब्याज लगेगा। इसके अलावा 1968-69 से लेकर 1970-71 के दौरान ब्याज की दर को 5.5 प्रतिशत से कम करके 3 प्रतिशत कर देने की कारण आस्ट्रिया ने अनुदानों के रूप में 430 लाख आस्ट्रियाई शिलिंग की ऋण राहत भी दी है।

खाद्य ऋण : 15.12.1967 को हुए एक करार के द्वारा आस्ट्रिया से 260 लाख आस्ट्रियाई शिलिंग का खाद्य ऋण मिल रहा है। तथापि, इस ऋण की केवल 253.2 लाख आस्ट्रियाई शिलिंग की राशि को वास्तविक प्रयोग में लाया गया और 64.8 लाख आस्ट्रियाई शिलिंग की राशि भी वापस अदा की गयी है। आस्ट्रिया सरकार द्वारा 188.4 लाख आस्ट्रिया शिलिंग की शेष राशि छोड़ दी गयी है और उसे अनुदान के रूप में समझा लिया गया। इसलिए खाद्य ऋण के लिए 64.8 लाख आस्ट्रियाई शिलिंग का निवल ऋण प्राप्त किया गया।

IV बैल्जियम

बैल्जियम सरकार ने 1983-84 में अब तक 47600 लाख बैल्जियम फ्रांक की राशि का कुल ऋण दिया है। इसमें से 12620 लाख बैल्जियम फ्रांक की राशि ऋण राहत के रूप में मिली है और शेष राशि बैल्जियम पूंजीगत वस्तुओं, औद्योगिक उपस्कर तथा उनसे सम्बन्धित सेवाओं की प्राप्ति के लिए उपलब्ध है। 8.11.1983 को बैल्जियम सरकार के साथ 3500 लाख बैल्जियम फ्रांक के कुल मूल्य का अन्तिम करार किया गया जिसमें से 680 लाख बैल्जियम फ्रांक ऋण राहत के रूप में थे। हाल ही में बैल्जियम ने उनके पक्ष में मौजूदा बजटीय दबाव के कारण ऋण सुविधाओं के माध्यम से वित्तीय सहायता प्रदान करने की परम्परागत पद्धति को बंद कर दिया है। तथापि, बैल्जियम की सहायता मामले में मामले के आधार पर उपलब्ध है और सहायता की मात्रा की कोई अधिकतम सीमा नहीं है। 1977-78 से आगे जो ऋण दिए गए हैं, उनकी वापसी अदायगी 30 वर्ष की अवधि तक की जानी है जिसमें 10 वर्ष की आरम्भिक छूट की अवधि शामिल है। इन ऋणों पर कोई ब्याज नहीं लगेगा।

V. कनाडा

सन् 1951 से कनाडा विकास सहायता भारत को मिल रही है। यह सहायता कनाडी अन्तर्राष्ट्रीय विकास अभिकरण के माध्यम से प्राप्त होती है। यह सहायता ऋण और अनुदान के रूप में है। कनाडा ने 30 नवम्बर 1987 तक कुल मिलाकर 9284.4 लाख कनाडी डालर की ऋण सहायता दी है। कनाडा ने 217.6 लाख कनाडी डालर की ऋण राहत भी दी है।

II. AUSTRALIA

Australia had been extending economic assistance to India since 1951 by way of grants. The assistance has been in the shape of materials and equipments, commodities, food aid, project aid and training aid etc.

The total aid extended upto 30th June, 1983 amounted to approximately A$130.96 million. No assistance is expected during 1987-88.

III. AUSTRIA

Loans/Credits: The Government of Austria have so far extended thirteen credits (excluding debt relief) amounting to A.Sch.1069.28 million for financing capital goods of Austrian origin. This also includes Food Aid amounting to A.Sch.26.80 million given to India in December, 1976. The credits extended by Austria upto 1979-80 were repayable over a period of 15 to 25 years with a grace period of 2 to 7 years and carried interest rates ranging from 2 to 5.5 per cent. The credits extended after 1980-81 are repayable over a period of 30 years, including a grace period of 10 years and carry interest at the rate of 2 per cent per annum.

Debt Relief: Austria has also extended debt relief assistance to the extent of A.Sch.371.61 million through nine credits. These credits are repayable over a period of 25 years with an initial grace period of 9 years, the rate of interest being 2 per cent per annum. Besides, Austria has extended debt relief amounting to A.Sch.43 million in the form of a grant by way of reduction of interest rate from 5-1/2 per cent to 3 per cent during the years 1968-69 to 1970-71.

Food Loan: By an agreement dated 15.12.1967, Austria extended a food loan of A.Sch.26.00 million. However the actual utilisation of this loan was only to the extent of A.Sch.25.32 million and repayments to the tune of A.Sch.6.48 million were made. The balance of A.Sch.18.84 million was waived by Austrian Government and the same has been taken as Grant. Thus the net loan towards food loan works out to A.Sch.6.48 million.

IV. BELGIUM

The Government of Belgium have extended upto 1983-84 credits for a total amount of B.Fr.4760 million. Out of this, B.Fr.1262 million have been provided as debt relief, while the balance have been made available for procurement of Belgian capital goods, industrial equipments and services related thereto. The last agreement was concluded with the Belgian Government on 8.11.1983 for a total value of B.Fr.350 million, out of which B.Fr.68 million were towards debt relief. Recently the Belgians have discontinued their traditional mode of extending financial assistance through credit lines on account of current budgetary pressure from their side. However, Belgian aid is available on case by case basis and there is no ceiling on quantum of aid. The credits extended from 1977-78 onwards provide for repayment over 30 years including an initial grace period of 10 years and are interest free.

V. CANADA

Canada has been extending economic assistance to India since 1951. This assistance is channelised mainly through Canadian International Development Agency (CIDA). The assistance has been in the form of loans as well as grants. The net total value of CIDA loan assistance extended by Canada on Government account upto 30th November, 1987 has been of the order of C$ 928.44 million. Canada has also provided debt relief of C$21.76 million.

पूंजीगत सहायता केवल इटली में बनी वस्तुओं और सेवाओं के वित्त पोषण के लिए ही है, इटली से बाहर की वस्तुओं के लिए कोई व्यवस्था नहीं है। इटली द्वारा ऋण राशि के आवंटन से पूर्व, प्रत्येक परियोजना के लिए एक पृथक वित्तीय अभिसमय किए जाने की आवश्यकता है। राष्ट्रीय तापीय विद्युत निगम के फरक्का बायलर संविदा, तेल और प्राकृतिक गैस आयोग के साउथ बेसिन प्रोसेस कम्पलेक्स और सी.पी.आर.आई. के ट्रांसफार्मर संविदा के लिए वित्तीय करार हस्ताक्षरित होने के बाद अब चरम ऋण के अन्तर्गत कोई परियोजना लम्बित नहीं है।

तकनीकी सहायता करार पर, फरवरी 1981 में हस्ताक्षर हुए थे। हमने इतालवी प्राधिकारियों की भारत में एक तकनीकी सहकारिता यूनिट स्थापित करने के हाल ही के अनुरोध को स्वीकार कर लिया है। कृषि और बागवानी के क्षेत्र में जारी परियोजनाओं के अतिरिक्त, इतालवी प्राधिकारियों ने भारत में सुषुम्ना अपकृत केन्द्र के लिए तकनीकी सहायता अनुदान देने के लिए सहमति दे दी है। वे इंदिरा गांधी राष्ट्रीय कला केन्द्र के आधुनिकीकरण के अनुरोध पर विचार करने के लिए भी सहमत हो गए हैं।

Loan from USA are repayable in Dollars in 40 years including a grace period of 10 years and bear interest rate of 2 per cent per annum during the first 10 years and 3 per cent per annum thereafter.

In addition to the direct total assistance as mentioned above, US had also extended aid in the shape of Debt Relief from 1958 to 1972, which amounted to $97.93 million. The debt relief represented deferment of principal and interest payments relating to the wheat loan of 1951 mentioned earlier. From 1972-73 onwards the debt-relief was, however, in the form of refinancing credit, repayable in 26 to 30 years, inclusive of a grace period of 7 to 10 years. The debt-relief received for the years 1972-73 to 1974-75 was $103.48 million. Thereafter, no debt-relief assistance has been provided by the USA so far.

XXVIII. युगोस्लाविया

युगोस्लाविया की सरकार ने अब तक कुल 88.48 करोड़ रुपए के दो ऋण जहाजों की खरीद, पूंजीगत सामान और उपस्करों के वित्तपोषण के लिए दिए हैं। 21 जनवरी, 1980 को हस्ताक्षरित पहला ऋण जो 28.48 करोड़ रुपए का था यह पूर्णतया सरकार से सरकार को ऋण था। तथापि, इसमें से केवल 26.60 करोड़ रुपए का ही उपयोग किया जा सका और बाकी 1.88 करोड़ रुपए को व्यपगत माना गया।

18 जून, 1966 का दूसरा ऋण 60 करोड़ रुपए का था। तथापि, 31.16 करोड़ रुपए मूल्य के ही संविदा किए गए और बाकी 28.84 करोड़ रुपए को व्यपगत माना गया। यह विशुद्ध संभरक ऋण था और केवल 0.10 करोड़ रुपए की राशि का सरकारी ऋण था। इस प्रकार सरकारी खाते में कुल 26.70 करोड़ रुपए के प्रभावी ऋण थे जबकि संभरक ऋण खाते में 31.06 करोड़ रुपए थे।

सरकारी खाते के ऋणों की अदायगी जहाजों के मामले में 9 वर्षों में और उपस्करों और पूंजीगत सामान के मामले में इसकी अवधि ग्यारह वर्ष थी। इन दोनों ऋणों पर ब्याज की दर 3 प्रतिशत वार्षिक थी।

इन ऋणों की विशेषता यह थी कि मूल की वापसी और ब्याज की अदायगी रुपयों में की गई, जिनको युगोस्लाविया के अधिकारियों द्वारा दोनों देशों के बीच निष्पन्न ऋण करार के अन्तर्गत युगोस्लाविया को निर्यात के लिए भारतीय वस्तुएं खरीदने पर इस्तेमाल किया गया।

उन दोनों ऋणों की पूर्ण अदायगी की जा चुकी है और अब कोई सरकार से सरकार को ऋण प्रचलन में नहीं है।

XXIX. अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक

अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक की स्थापना 1945 में हुई थी और इसने आर्थिक सहायता संबंधी कार्यक्रम जून, 1946 से आरम्भ कर दिए थे। इसकी पूंजी में, इसके सदस्य देशों द्वारा अंशदान दिया जाता है और उसके उधार देने संबंधी कार्यकलापों का वित्त पोषण मुख्य रूप से इसके द्वारा अन्तर्राष्ट्रीय पूंजी बाजार में दिए गए उधारों से प्रवाहित ऋणों की वापसी अदायगी और सुरक्षित आय से किया जाता है। भारत, अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक और उससे सम्बद्ध नरम ऋण देने वाले अन्तर्राष्ट्रीय विकास संघ सहित, विश्व बैंक समूह से प्राप्त होने वाली सहायता का प्रमुख लाभ ग्राही है। अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक सहायता 1949 में मिलनी प्रारम्भ हुई और इसमें विभिन्न विकास परियोजनाओं के वित्तपोषण के लिए लम्बी अवधि के ऋणों की व्यवस्था शामिल है

इन ऋणों, जिसके लिए 1978-79 की अवधि में करार हस्ताक्षरित हुए, की वापसी अदायगी की अवधि 10 से लेकर 30 वर्षों तक है जिसमें 3 से 10 वर्ष तक की छूट की अवधि शामिल है। परन्तु 1978-79 से आगे दिए गए ऋणों की वापसी अदायगी की अवधि 20 वर्ष की है जिसमें 4 से 6 वर्ष तक की रियायती अवधि भी शामिल है।

जुलाई 1982 से पूल आधार पर परिवर्तनीय उधार दर प्रणाली के आधार पर अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक के ऋणों पर प्रत्येक छः महीने के लिए निश्चित ब्याज लगाया जाता है। जनवरी 1987 से 30 जून 1987 तक अर्ध वर्ष के लिए ब्याज की दर 7.92 प्रतिशत रखी गई थी और 1 जुलाई से 31 दिसम्बर 1987 तक की अवधि के लिए इसे संशोधित करके 7.76 प्रतिशत कर दिया गया है। इसके अतिरिक्त, ऋण पर एक फ्रन्ट-एंड शुल्क लगता है जो अब शून्य कर दिया गया है और ऋण के असंवितरित भाग पर 0.75 प्रतिशत वचनबद्धता शुल्क लगता है।

XXVIII. YUGOSLAVIA

The Government of Yugoslavia had so far extended two credits for a gross total value of Rs.88.48 crores for financing the purchase of ships, capital goods and equipments etc. The first credit dated 21st January, 1980 for Rs.28.48 crores was entirely a Government to Government credit. However the utilisation against the credit was only to the tune of Rs.26.60 crores and the balance of Rs.1.88 crores was treated as lapsed.

The second credit dated 18th June, 1966 was for Rs.60.00 crores. However contracts could be concluded to the value of Rs.31.16 crores and the balance of Rs.28.84 crores was treated as lapsed. This credit was purely suppliers' credit and a small sum of Rs.0.10 crores related to Government credit. Thus the total effective loan on Government account amounted to Rs.26.70 crores while the same on suppliers' credit, account stood at Rs.31.06 crores.

The credits on Government account were repayable over a period of nine years in case of ships and eleven years in cases of equipments and capital goods. The two credits carried interest at 3.00 per cent per annum.

The special feature of the credits was that the repayment of principal and payment of interest were made in Indian rupees which are utilised by the Yugoslav authorities for the purchase of Indian goods for export to Yugoslavia in accordance with the loan agreement in force between the two Governments.

Both the loans were repaid in full and no Government to Government credit is in operation now.

XXX अन्तर्राष्ट्रीय विकास संघ

अन्तर्राष्ट्रीय विकास संघ की स्थापना सन् 1960 में हुई थी, और इसका उद्देश्य विकासशील देशों को रियायती शर्तों पर सहायता उपलब्ध कराना है । अंतर्राष्ट्रीय विकास संघ के विकास ऋणों पर कोई ब्याज नहीं लगाया जाता है और इनकी दीर्घ परिपक्वता अवधि होती है और इस लिए, इन ऋणों का परम्परागत ऋणों की अपेक्षा उधार लेने वाले देशों पर कम भार पड़ता है लेकिन, लिए गए ऋण और ऋण की बकाया राशि पर 0.75 प्रतिशत का सेवा प्रभार लगाया जाता है । अंतर्राष्ट्रीय विकास संघ की सहायता भारत को जून, 1961 में मिलनी शुरू हुई थी और यह मार्च, 1987 के अंत तक विदेशी सहायता कार्यक्रम का एक महत्वपूर्ण घटक रहा है । अंतर्राष्ट्रीय विकास संघ ने भारत सरकार को 13,82592.8 लाख अमरीकी डालर रद्द करने के बाद की कुल मूल्य के ऋण दिए हैं । उसमें औद्योगिक आयात के लिए परियोजनेतर-भिन्न और विभिन्न परियोजनाओं के लिए ऋण के रूप में सहायता शामिल है । प्रमुख क्षेत्र, जिनके लिए सहायता दी जाती है ये ये हैं : सिंचाई और कमान क्षेत्र विकास, विद्युत, परिवहन, कृषि उर्वरक, कृषि विस्तार, रेलवे, दूर-संचार जनसंख्या, स्वास्थ्य और पोषाहार शहरी विकास और जलपूर्ति और कृषि अनुसंधान एवं विकास निगम परियोजनाएं ।

XXX. INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA)

The International Development Association was established in 1960, and is intended to provide assistance on concessional terms to developing countries. IDA development credits carry no interest and have long maturities and therefore impose a lesser burden on borrowing countries than conventional loans. A service charge of 0.75% is, however, levied on the amount of credit drawn and outstanding. IDA assistance to India began in June 1961 and has been an important component of the external asistance programme upto the end of March 1987. IDA have extended credits to the Government of India for a total value of US $ 13,825.928 million (net of cancellation). This includes assistance in the form of non-project credits for industrial imports and credits for various projects. XXXI. एशियाई विकास बैंक

एशियाई विकास बैंक (ए.डी.बी.) एक प्रमुख क्षेत्रीय संस्थान है और भारत को इसमें एक प्रमुख भूमिका निभाने की आवश्यकता है। इस उद्देश्य की प्राप्ति के लिए एशियाई विकास बैंक के पूंजी भंडार में, जापान, अमेरिका और चीन लोक गणराज्य के बाद भारत का, सभी सदस्य देशों में चौथा सबसे बड़ा भाग है।

वर्ष 1966 में इस की स्थापना होने पर, भारत ने स्वेच्छापूर्वक, एशियाई विकास बैंक से ऋण नहीं लिया था। परन्तु, उन क्षेत्रों में, जिन से हम रियायती विदेशी सहायता प्राप्त करते हैं, विस्तार करने की विधिधता लाने के बारे में विचार किया गया। इसलिए, भारत ने 1986-87 में, बैंक के साथ निम्नलिखित दो परियोजनाओं के लिए समझौते पर हस्ताक्षर किए हैं :-

inclusive of a grace period of 10 years, and those approved from 1st July 1987 are repayable over 35 years, inclusive of a grace period of 10 years.

XXXI ASIAN DEVELOPMENT BANK (ADB)

The Asian Development Bank (ADB) is a major regional institution and India needs to play a leading role in it. To this end, India's subscription to the ADB's capital stock is the fourth largest of all member countries after Japan, the USA and People's Republic of China.

Ever since its inception in 1966, India had voluntarily refrained from borrowing from the ADB. However, it was considered desirable to diversify the sources from which we receive concessional external assistance. Therefore in 1986-87 India has signed agreement with the Bank for the following two projects.

क्रम संख्या	परियोजना का नाम Name of the project	Sl. No.	ऋण की राशि (लाख अमरीकी डालर) Amount of loan ($ million)	समझौते की तारीख Date of agreement

अंतर्राष्ट्रीय कृषि विकास निधि की स्थापना विश्व की खाद्य समस्याओं और खाद्य उत्पादन और विकासशील देशों में बढ़ने वाली ग्रामीण निर्धनता से निपटने के लिए की गई, जो रियायती दरों पर उपयुक्त संसाधनों की उपलब्धता करवाता है, यह भारत को 1979 से सहायता प्रदान कर रहा है।

अन्तर्राष्ट्रीय कृषि विकास निधि द्वारा 31.12.1987 तक कुल 1828.06 लाख अमरीकी डालर मूल्य की सहायता दी गई। सहायता प्राप्त परियोजनाएं ये हैं:- भीमा कमान क्षेत्र विकास परियोजना, सुन्दर वन विकास परियोजना, राजस्थान कमान क्षेत्र विकास परियोजना, मध्य प्रदेश मध्यम सिंचाई परियोजना और उत्तर प्रदेश में दूसरी नलकूप परियोजना।

Summary of Demands for Grants, 1988-89

भूमिका

संविधान के अनुच्छेद 113 के खण्ड (2) में यह अपेक्षित है कि वार्षिक वित्तीय विवरण में सम्मिलित, भारत की समेकित निधि में से किए जाने वाले व्यय के वे अनुमान, जो इस निधि पर 'भारित' नहीं होते, अनुदानों की मांगों के रूप में लोक-सभा की स्वीकृति के लिए प्रस्तुत किए जाएं । सामान्यतः प्रत्येक मंत्रालय / विभाग के संबंध में एक मांग प्रस्तुत की जाती है । तथापि, कुछ बड़े-बड़े मंत्रालयों / विभागों के संबंध में एक से अधिक मांग प्रस्तुत की जाती है । प्रत्येक मांग में प्रायः एक सेवा के लिए आवश्यक धनराशि की कुल व्यवस्था दिखाई जाती है अर्थात् इसमें राजस्व खाते का व्यय और उस सेवा के लिए, पूंजी खाते का व्यय (उधार सहित) दिखो जाते हैं । यद्यपि भारत की समेकित निधि पर 'भारित' व्यय के अनुमानों के लिए संसद की स्वीकृति लेना आवश्यक नहीं होता, तथापि संविधान के अनुच्छेद 113 के खण्ड (1) के अनुसार ऐसे व्यय के बारे में संसद के दोनों सदनों में से किसी सदन में बहस की जा सकतीय है। इसलिए अनुदान की मांग में अगर किसी ऐसे खर्च की व्यवस्था होती है जो भारत की समेकित निधि पर 'भारित' होता है तो उसे मोटे अक्षरों में दिखाया जाता है । जहां किसी सेवा के लिए यह व्यवस्था भारत की समेकित निधि पर पूरी तरह 'भारित' होती है जैसे ब्याज संदाय और ऋण की वापसी, तो उसे मांग से पृथक विनियोग के रूप में प्रस्तुत किया जाता है यद्यपि उस पर कोई स्वीकृति नहीं मांगी जाती ।

2. संसद में वार्षिक वित्तीय विवरण के साथ 1988-89 के लिए अनुदानों की जो मांगें और विनियोग प्रस्तुत किए गए हैं वे समस्त मंत्रालयों / विभागों के लिए इसी खंड में प्रस्तुत किए गए हैं । लेकिन इन मांगों से पहले मांगों का सारांश प्रस्तुत किया गया है जिसमें 1988-89 के लिए अनुदानों की मांगों और विनियोगों की पूरी सूची एक साथ दी गई है जिसमें राजस्व खाते और (उधारों सहित) पूंजी खाते के अंतर्गत 'स्वीकृत' और 'भारित' शीर्षों के अधीन प्रत्येक मांग और विनियोग के सामने की गई व्यवस्था की कुल राशि दिखाई गई है । यह सारांश अनुदानों की मांगों और विनियोगों का अभिसूचक प्रवेश भी है ।

3. मांगों के संदर्भ में, मंत्रालयों या विभागों के उल्लेख 10 फरवरी, 1988 के तत्काल पूर्व विद्यमान मंत्रालयों या विभागों से संबंधित है, और उस तारीख को या उसके बाद इससे अभिप्राय यह होगा कि यह उल्लेख समय-समय पर पुनर्गठित संबद्ध मंत्रालयों या विभागों के बारे में है । वर्ष के दौरान विभिन्न मंत्रालयों तथा विभागों के निर्धारित कार्य में अधिसूचित परिवर्तनों को इन मांगों में समाविष्ट कर दिया गया है । 1988-89 की मांगों को इस समय गठित मंत्रालयों /

INTRODUCTION

Clause (2) of Article 113 of the Constitution requires that so much of the estimates of expenditure from the Consolidated Fund of India included in the Annual Financial Statement as are not 'charged' on the Fund shall be submitted in the form of Demands for Grants for the vote of the Lok Sabha. Normally one Demand is presented in respect of each Ministry/Department. In respect of some of the large Ministries/Departments, however, more than one Demand is presented. Each Demand normally includes the total provisions required for a Service, that is to say, expenditure on Revenue Account, as well as expenditure on Capital Account (including Loans) for the Service. Although the estimates of expenditure 'charged' on the Consolidated Fund of India are not required to be voted by Parliament, clause (1) of Article 113 of the Constitution permits discussion thereon in either House of Parliament. Accordingly, a Demand for Grant also shows, distinctly in italics, the provision for expenditure, if any, 'charged' on the Consolidated Fund of India in relation to the Service represented by the Demand. Where the provision for a Service is entirely for expenditure 'charged' on the Consolidated Fund of India, for example, Interest Payments and Repayment of Debt, a separate Appropriation, as distinct from a Demand, is presented, although no vote is sought thereon.

2. The Demands for Grants and the Appropriations for 1988-89 presented to Parliament along with the Annual Financial Statement are contained in this volume in respect of all the Ministries/Departments. A Summary of the Demands giving at one place a complete list of the Demands for Grants and Appropriations for 1988-89 showing against each the total amount of the provision, separately under Revenue Account and Capital Account (including Loans) as well as "Voted" and *"Charged"* precedes the Demands. This Summary also serves as an Index to the Demands for Grants and Appropriations.

3. References to Ministries or Departments in the Demands are to such Ministries or Departments as existed immediately before February 10, 1988 and shall, on or after that date, be construed as references to the appropriate Ministries/Departments as re-constituted from time to time. Changes in Allocation of Business to the various Ministries/Departments notified during the year have been given effect to in these Demands. The Demands for

विभागों के अनुरूप प्रदर्शित किया गया है और आंकड़ों की तुलना के कार्य को सरल बनाने के लिए 1988-89 के तदनुरूप बजट अनुमान तथा संशोधित अनुमान भी साथ-साथ प्रस्तुत कर दिए गए हैं, हालांकि 1987-88 की अनुदानों की मांगों में, जिनको फरवरी 1987 में संसद में प्रस्तुत किया गया था, इन व्यवस्थाओं को उस समय विद्यमान मंत्रालयों /विभागों की अनुदानों की मांगों के अन्तर्गत दिखाया गया था।

4. पहली अप्रैल, 1987 से, खातों के मुख्य शीर्षों और आयोजना के अंतर्गत यथावस्थित विकास शीर्षों के बीच तादात्म्यतापूर्ण एकरूपता स्थापित करने के लिए लेखांकन संबंधी वर्गीकरण में परिवर्तन कर दिए गए हैं। अनुदानों की मांगों में 1988-89 के बजट अनुमानों में की गई व्यवस्था संशोधित वर्गीकरण के अन्तर्गत प्रदर्शित की गई है।

5. मांगों में सम्मिलित "नई सेवा / सेवा के नए साधनों" का मदवार विवरण अन्त में दिया गया है।

6. इन मांगों पर टिप्पणियों सहित व्यय की मुख्य मदों / योजनाओं का ब्यौरा "व्यय बजट - खंड 2" नामक एक अलग खंड में दिया गया है।

1988-89 have been shown against the Ministries/Departments as presently constituted and to facilitate comparison, figures of the corresponding Budget Estimates and Revised Estimates for 1987-88 have been exhibited along side even though in the Demands for Grants 1987-88 presented to Parliament in February 1987, the provisions were shown under Demands of Ministries/Departments as they existed at that time.

4. From 1.4.1987 changes have been made in the accounts classification to bring about a one to one correspondence between major heads of account and the heads of development adopted in the plans. The Demands for Grants show the provision under the revised classification in regard to Budget Estimates for 1988-89 .

5. A Statement showing items of "New Service/New Instrument of Service" included in the Demands is given at the end.

6. Details of major items of expenditure/schemes along with the Notes on these Demands are given in a separate volume "Expenditure Budget Volume 2"

प्रस्तावना

वित्त मंत्रालय का आर्थिक कार्य प्रभाग, बजट को आर्थिक विश्लेषण का एक उपयोगी माध्यम बनाने के उद्देश्य से वर्ष 1957-58 से केन्द्रीय सरकार के बजटीय लेन-देनों का आर्थिक वर्गीकरण तैयार करता है । संक्षेप में, इस वर्गीकरण के द्वारा केन्द्रीय सरकार के, जिसमें रेलवे तथा डाक व तार विभाग भी शामिल हैं, व्ययों और प्राप्तियों का वर्गीकरण, महत्वपूर्ण आर्थिक वर्गों के अनुसार किया गया है, जिसमें चालू खाते के खर्च को पूंजी परिव्यय से, वस्तुओं और सेवाओं की खरीद के व्यय को व्यक्तियों और संस्थाओं को किए गए अन्तरणों से, किस्म के अनुसार कर संबंधी प्राप्तियों को अन्य प्राप्तियों से तथा उधारों और अन्तर-सरकारी ऋणों और अनुदानों आदि से अलग करके दिखाया गया है । इस रीति से पुनर्वर्गीकृत करके केन्द्रीय सरकार को प्राप्त होने वाली आमदनी तथा उसके द्वारा किए जाने वाले व्ययों को लेन-देनों के महत्वपूर्ण वर्गों से संबंधित किया जा सकता है, जो कि अर्थव्यवस्था के अन्य क्षेत्रों की प्रवृत्तियों को प्रभावित करती हैं । चूंकि राष्ट्रीय आय-वर्ग की सरकारी खाता पद्धति भी आर्थिक वर्गीकरण की सबसे महत्वपूर्ण पद्धति है, इसलिए इस विश्लेषण में वही प्रणाली तथा सिद्धान्त प्रयोग में लाये गये हैं जो कि राष्ट्रीय आय संबंधी लेखा प्रणाली में प्रयुक्त किए जाते हैं ।

देश में आर्थिक आयोजन के समारम्भ के पश्चात्, वार्षिक आयोजना परिव्ययों को बजट सम्बन्धी परिव्ययों से एकीकृत कर दिया गया है, जिसके अनुसार बजट सम्बन्धी परिव्ययों का और आगे विश्लेषण कार्य सम्बन्धी वर्गों के अनुसार किया जाता है , इस प्रकार के कार्यात्मक वर्गीकरण से इस बात के विश्लेषण में सहायता मिलती है, केन्द्रीय सरकार आयोजना में निर्धारित प्राथमिकताओं के अनुसार विभिन्न कार्यों या प्रयोजनों के लिए कितनी राशि आवंटित कर रही है । तदनुसार केन्द्रीय सरकार के लेन-देनों का आर्थिक एवं कार्य सम्बन्धी वर्गीकरण तैयार करने का काम 1967-68 से प्रतिवर्ष किया जा रहा है ।

आगे के पृष्ठों में प्रस्तुत किया गया, केन्द्रीय सरकार के 1988-89 के बजट का आर्थिक एवं कार्य-संबंधी वर्गीकरण पहले के वर्षों की प्रणाली के ही अनुरूप किया गया है । इस विश्लेषण के मुख्य-मुख्य निष्कर्षों का संक्षिप्त विवरण भाग I और II में दिया गया है और इस वर्गीकरण में इस्तेमाल की गई विभिन्न मदों को कहां से प्राप्त किया गया है और इसके लिए औचित्य का आधार क्या है, इसे भी तकनीकी परिशिष्ट में विस्तार से बताया गया है ।

PREFACE

Since 1957-58, the Economic Division of the Ministry of Finance has been preparing an economic classification of the Central Government budgetary transactions to make the budget a more useful tool of economic analysis. In brief, this classification involves arranging the expenditures and receipts of the Central Government including those of railways and posts and telecommunications by significant economic categories distinguishing current from capital outlays, spending for goods and services from transfers to individuals and institutions, tax receipts by kind from other receipts, and from borrowing and intergovernmental loans and grants etc. Reclassified in this manner, the flows into and out of the Central Government can be related to important categories of transactions influencing the behaviour of the other sectors of the economy. Since the national income type of government account is the most prevalent form of an economic classification, the methodology and concepts used in this analysis are those used in the national income accounting system.

With the advent of economic planning in the country annual plan outlays have been integrated with the budgetary outlays which called for a further analysis of budgetary outlays into functional categories. Such a functional classification helps in analysing how much the Central Government is allocating to different functions or purposes in accordance with the priorities laid down in the Plan. Accordingly since 1967-68, an economic-cum-functional classification of the Central Government transactions is being prepared.

The economic-cum-functional classification of the Central Government Budget 1988-89 presented in the following pages conforms to the pattern of the earlier years. The salient features of this analysis are summarised in Sections I and II, and the derivation of rationale of various items used in this classification have been explained in the technical Appendix at the end.

केन्द्रीय सरकार के 1988-89 के बजट के विश्लेषण से पता चलता है कि केन्द्रीय सरकार का खपत व्यय जो मजदूरी वेतन और वस्तुओं और सेवाओं की खरीद पर आधारित है 1987-88 (संशोधित अनुमान) के 16,733 करोड़ रुपए से बढ़कर 1988-89 (बजट अनुमान) में 18743 करोड़ रुपए हो गया है । केन्द्रीय सरकार की प्रत्यक्ष सकल पूंजी निर्माण की रकम भी जो 1986-87 (वास्तविक) में 5905 करोड़ रुपए थी, बढ़कर 1987-88 (संशोधित अनुमान) में 5914 करोड़ रुपए और 1988-89 (बजट अनुमान) में 7301 करोड़ रुपए हो जाएगी । 1988-89 के बजट में दिए गए केन्द्रीय सरकार के साधनों में से सकल पूंजी निर्माण प्रत्यक्ष और अप्रत्यक्ष (अन्य क्षेत्रों को पूंजी निर्माण के लिए दी गई वित्तीय सहायता), दोनों के लिए कुल वित्तीय व्यवस्था की रकम, 1987-88 (संशोधित अनुमान) के 26212 करोड़ रुपए की तुलना में 1988-89 (बजट अनुमान) में 27652 करोड़ रुपए होगी । केन्द्रीय सरकार और इसके विभागीय उपक्रमों (गैर-विभागीय उपक्रमों को "बाकी अर्थव्यवस्था" के रूप में माना जाता है) की निवल बचतों में हाल के वर्षों में काफी कमी हुई । 1986-87 में 4191 करोड़ रुपए और 1987-88 (संशोधित अनुमान) में 5317 करोड़ रुपए की नकारात्मक निवल बचत की तुलना में इसकी स्थिति और अधिक बिगड़ कर 1988-89 (बजट अनुमान) में यह 7290 करोड़ रुपए की नकारात्मक राशि पर आ गई ।

केन्द्रीय सरकार के विकास सम्बन्धी कार्यकलापों पर होने वाले खर्चों में सकल पूंजी निर्माण पर परिव्यय और आर्थिक और सामाजिक सेवाओं पर होने वाला चालू व्यय दोनों शामिल हैं । सामाजिक और आर्थिक सेवाओं पर होने वाले आयोजनागत तथा आयोजना-भिन्न कुल व्यय मोटे तौर पर केन्द्रीय सरकार के कुल विकास व्यय के बराबर ही हैं । अनुमान है कि 1988-89 (बजट अनुमान) में यह व्यय 41772 करोड़ रुपए होगा जो कि उस वर्ष के लिए बजट में निर्धारित कुल व्यय की राशि के 53.7 प्रतिशत के बराबर है ।

Analysis of the Central Government Budget 1988-89 shows that the consumption expenditure of the Central Government composed of wages and salaries and purchase of goods and services will increase from Rs.16733 crores in 1987-88 (Revised Estimates) to Rs.18743 crores in 1988-89 (Budget Estimates). The Central Government's direct gross capital formation will increase marginally from Rs.5905 crores in 1986-87 (Accounts) to Rs.5914 crores in 1987-88 (Revised Estimates) and further to Rs.7301 crores in 1988-89 (Budget Estimates). The total financial provision for gross capital formation, both direct and indirect (financial assistance provided to other sectors for capital formation) out of the Central Government budgetary resources in 1988-89 (Budget Estimates) will be Rs.27652 crores compared with Rs. 26212 crores in 1987-88 (Revised Estimates). The net savings of the Central Government and its departmental undertakings (non-departmental undertakings are treated as "rest of the economy") have, however, shown deterioration in recent years. As against a negative net savings of Rs.4191 crores in 1986-87, and Rs. 5317 crores in 1987-88 (R.E.), it further deteriorated to a negative figure of Rs.7290 crores in 1988-89 (Budget Estimates).

The Central Government's development expenditure includes both outlays on gross capital formation and current expenditure on economic and social services. The plan and non-plan expenditures in the Central Budget on economic and social services correspond broadly to the total deveopment expenditure of the Central Government. This is estimated at Rs. 41772 crores in 1988-89 (Budget Estimates) and forms 53.7 per cent of the total expenditure budgeted for that year.

I. ECONOMIC CLASSIFICATION

A set of six accounts containing the reclassified data from the Central Government Budget for 1988-89 is placed at the end of this section. Some significant magnitudes emerging from this system of accounts are:

(a) The Central Government's total expenditure;
(b) The Central Government's final outlays;
(c) Capital formation out of the budgetary resources of the Central Government;
(d) Net capital formation and savings of the Central Government;
(e) The various measures of deficit in the Central Government's budgetary transactions; and

(ख) अन्तिम परिव्यय

3. वर्ष 1988-89 के बजट में कुल 77824 करोड़ रुपए का व्यय रखा गया है, इसमें से केन्द्रीय सरकार का अन्तिम परिव्यय 26043 करोड़ रुपए या कुल परिव्यय का लगभग 33 प्रतिशत भाग है। यह परिव्यय खपत और पूंजी निर्माण के संबंध में केन्द्रीय सरकार की वस्तुओं और सेवाओं की प्रत्यक्ष मांग को सूचित करता है। राष्ट्रीय लेखा प्रणाली में ये अन्तिम परिव्यय शेष अर्थ-व्यवस्था के खपत संबंधी व्यय और पूंजी निर्माण की रकम से जुड़ जाता है। कुल व्यय के शेष भाग अर्थात् 51781 करोड़ रुपए अथवा लगभग 67 प्रतिशत भाग में अन्तरण अदायगियां वित्तीय निवेशों और ऋणों के रूप में शेष-व्यवस्था को किया गया भुगतान शामिल है। इसका उद्देश्य अन्य क्षेत्रों की चालू या पूंजीगत प्राप्तियों को अनुपूर्ति करना है।

खपत संबंधी व्यय

4. खपत संबंधी व्यय (अर्थात् मजदूरी और वेतन तथा चालू उपयोग के लिए सामान और सेवाओं के संबंध में होने वाले व्यय) के लिए 1988-89 के बजट में 18743 करोड़ रुपए की जो व्यवस्था की गई है वह अन्तिम परिव्यय का 72 प्रतिशत तथा कुल व्यय का 24 प्रतिशत बैठती है। 1988-89 में खपत संबंधी व्यय में होने वाली वृद्धि पिछले वर्ष के संशोधित अनुमान के मुकाबले में 12.0 प्रतिशत बैठती है। इसकी तुलना में 1986-87 (वास्तविक) के मुकाबले में 1987-88 (संशोधित अनुमान) में 14.1 प्रतिशत की वृद्धि हुई है।

(b) Final Outlays

3. Of the total expenditure of Rs. 77824 crores budgeted for 1988-89, Rs. 26043 crores or about 33 per cent constitute final outlays of the Central Government representing its direct demand for goods and services for consumption and capital formation. In a system of national accounts, these final outlays get linked up with the consumption expenditure and capital formation in other sectors of the economy. The rest of the total expenditure amounting to Rs. 51781 crores or about 67 per cent constitute disbursements by way of transfer payments, financial investment and loans to the rest of the economy, and are intended to supplement current and capital receipts of other sectors.

Consumption Expenditure

4. Consumption expenditure (i.e. expenditure on wages and salaries and commodities and services for current use) budgeted at Rs.18743 crores for 1988-89 forms 72 per cent of the final outlays and 24 per cent of the total expenditure. The growth in consumption expenditure works out to 12.0 per cent for 1988-89 over revised estimates for the previous year. This compared with an increase of 14.1 per cent in 1987-88 (Revised Estimates) over 1986-87 (accounts).

सकल पूंजी निर्माण

5. केन्द्रीय सरकार के प्रत्यक्ष सकल स्थिर पूंजी निर्माण (अर्थात् इमारतों, लोक निर्माण कार्य, उपस्करों और अन्य स्थिर परिसम्पत्तियों के संबंध में निवेश) के बारे में अनुमान है कि यह 1987-88 के 5674 करोड़ रुपए से बढ़कर 1988-89 में 7151 करोड़ रुपए हो जाएगा। सकल पूंजी निर्माण में, जिसमें निर्माण कार्य संबंधी भंडार के परिवर्तन शामिल है, 1987-1988 (संशोधित अनुमान) के मुकाबले में 1988-89 (बजट अनुमान) में 23.4 प्रतिशत की वृद्धि होती है।

Gross Capital Formation

5. The Central Government's direct gross fixed capital formation (i.e. investment in buildings, public works, equipment and other fixed assets) is estimated to rise from Rs.5674 crores in 1987-88 to Rs. 7151 crores in 1988-89. The gross capital formation, which includes changes in works stores, shows an increase of 23.4 per cent in 1988-89 (Budget Estimates) over 1987-88(Revised Estimates).

(ग) केन्द्रीय सरकार के बजट में उपलब्ध साधनों से पूंजी निर्माण

(c) Capital formation out of the budgetary resources of the Central Government

पूंजी निर्माण के लिए वित्तीय सहायता

6. केन्द्रीय सरकार शेष अर्थ-व्यवस्था को ऐसे पूंजी निर्माण के अतिरिक्त, जो स्वयं किया जाता है, अनुदानों व ऋणों के माध्यम से और शेयरों में धन लगा कर पूंजी निर्माण करने में सहायता देती है। इस निमित्त 1988-89 के बजट में 20352 करोड़ रुपए की सहायता का अनुमान लगाया गया है जो कि 1987-88 के संशोधित अनुमानों की अपेक्षा 0.3 प्रतिशत की मामूली-सी वृद्धि बजट करता है।

Financial Assistance for Capital Formation

6. In addition to the capital formation directly undertaken, the Central Government also provides assistance to the rest of the economy for capital formation through grants, loans and investment in share capital. The budgeted assistance of Rs. 20352 crores for 1988-89 is estimated to increase marginally by 0.3 per cent over the revised estimate of 1987-87.

* यह वास्तविक रूप से केन्द्रीय सरकार के द्वारा किया गया पूंजी निर्माण है, लेकिन चूंकि गैर-विभागीय वाणिज्यिक प्रतिष्ठानों को शेष अर्थ-व्यवस्था में सम्बद्ध मान लिया जाता है, इसलिए इस शीर्ष के अन्तर्गत आने वाले परिव्यय को, शेष अर्थ-व्यवस्था में पूंजी निर्माण के लिए वित्तीय सहायता मान लिया गया है।

* *This is essentially capital formation by the Central Government but since non-departmental commercial undertakings are treated as belonging to the rest of the economy, the outlay under this head is taken as financial assistance for capital formation in the rest of the economy.*

पूंजी निर्माण के लिए कुल व्यवस्था

7. इस प्रकार केन्द्रीय सरकार, 1988-89, सकल पूंजी निर्माण के लिए बजट में उपलब्ध होनी वाली 27652 करोड़ रुपयों की व्यवस्था करेगी। यह रकम केन्द्रीय सरकार के कुल व्यय का 35.5 प्रतिशत बैठती है। सकल पूंजी निर्माण के लिए 1988-89 में जो कुल व्यवस्था की गई है, उसमें 1987-88 के संशोधित अनुमान की तुलना में 5.5 प्रतिशत की वृद्धि का पता चलता है।

Total provision for capital formation

7. Thus, in the aggregate, the Central Government would provide Rs. 27652 crores for gross capital formation out of its budgetary resources during 1988-89 representing 35.5 per cent of its total expenditure. The aggregate provision for gross capital formation for 1988-89 shows an increase of 5.5 per cent over the revised estimates for 1987-88.

(घ) सरकार द्वारा निवल पूंजी निर्माण और उसकी निवल बचतें

(d) Net Capital Formation and Net Savings by the Government

निवल पूंजी निर्माण

8. सरकार द्वारा किये जाने वाले निवल पूंजी निर्माण और उसकी निवल बचतों में अन्तर से सरकार के बजट संबंधी कार्य के विस्तारकारी प्रभाव का पता चलता है। केन्द्रीय सरकार द्वारा 1988-89 में 5610 करोड़ रुपए के निवल पूंजी निर्माण (अर्थात् स्थिर परिसम्पत्तियों और तात्विकाम्श सामान के स्टाक में होने वाली वृद्धि) का जो अनुमान लगाया गया है वह सकल स्थिर पूंजी-निर्माण की रकम में से विभागीय वाणिज्यिक उपक्रमों द्वारा नवीकरण और प्रतिस्थापन पर किये जाने वाले व्यय की रकम को घटाने के बाद लगाया गया है। कुल निवल पूंजी निर्माण का ब्यौरा इस प्रकार है :-

Net Capital Formation

8. The expansionary impact of the Government's budgetary operations is indicated by the difference between its net capital formation and net savings. The net capital formation by the Central Government (i.e. net addition to the stock of fixed assets and works stores) estimated at Rs.5610 crores for 1988-89 has been arrived at by deducting from gross fixed capital formation, the provision for expenditure on renewals and replacements by the departmental commercial undertakings. The components of total net capital formation are as follows:-

Note : *The net capital formation arrived at is without deducting expenditure on renewals and replacements in respect of administrative buildings for which no estimates are available.*

निवल बचतें

9. हाल के वर्षों में केन्द्रीय सरकार और इसके विभागीय उपक्रमों की निवल बचतों में काफी अधिक कमी हुई है। 1986-87 की 4191 करोड़ रुपए की नकारात्मक बचतों और 1987-88 के संशोधित अनुमानों के 5317 करोड़ रुपए की नकारात्मक बचतों की तुलनाओं में 1988-89 (बजट अनुमानों) में और भी कमी हुई और यह 7290 करोड़ रुपए पर नकारात्मक हो गई है।

Net Savings

9. The net savings of the Central Government and its departmental undertakings have shown deterioration in recent years. As against a negative saving of Rs.4191 crores in 1986-87, and Rs.5317 crores in the revised estimates for 1987-88, it further deteriorated to a negative figure of Rs.7290 crores in 1988-89 (Budget Estimates).

(ङ) आय संबंधी घाटा

10. केन्द्रीय सरकार की निवल बचतों की अपेक्षा उसका सीधा निवल पूंजी निर्माण जितना अधिक हो, वह केन्द्रीय सरकार की आय में होने वाले घाटे का द्योतक होता है। आय संबंधी घाटे की रकम जो 1986-87 में 8757 करोड़ रुपए थी वह बढ़कर 1987-88 में 9865 करोड़ रुपए हो गई और 1988-89 में 12900 करोड़ रुपए हो गई।

(e) Income Deficit

10. The excess of direct net capital formation over the net savings measures the income deficit of the Central Government. The income deficit which was Rs. 8757 crores in 1986-87 has gone up to Rs. 9865 crores in 1987-88 and further to Rs.12900 crores in 1988-89.

11. The income deficit, which measures the gap between the Central Government's net savings and net investments when added, after adjusting for net capital transfers, to the deficit arising out of the Government's net transactions in financial assets such as investment in shares and loans, represents the Government's total requirements of finance and is given by the sum of the balancing item in Accounts 3 and 4.

II आर्थिक और कार्य संबंधी वर्गीकरण

15. वर्ष 1988-89 के बजट के आंकड़ों के आधार पर आर्थिक और कार्य संबंधी इन दोनों श्रेणियों के अनुसार केन्द्रीय सरकार के व्यय का सम्मिलित वर्गीकरण इस भाग के अन्त में तीन विवरणों में दिया गया है। नीचे के पैराग्राफों में इस प्रकार वर्गीकरण से निकलने वाले निष्कर्षों का संक्षिप्त ब्यौरा दिया गया है।

कुल व्यय

16. वर्ष 1988-89 के लिए बजट में की गई कुल व्यय की व्यवस्था में सामाजिक और आर्थिक सेवाओं के लिए की गई व्यवस्था का अनुमान, जो मुख्यतः केन्द्रीय सरकार के कुल विकास परिव्यय का द्योतक है, 41772 करोड़ रुपए का है अथवा यह कुल व्यय का 53.7 प्रतिशत है।

17. सामान्य सेवाओं पर 1988-89 में 17597 करोड़ रुपए अर्थात् कुल व्यय के 22.6 प्रतिशत के खर्च का अनुमान है। इस पुस्तिका में अपनाई गई कार्य संबंधी वर्गीकरण की योजना के अन्तर्गत 'सामान्य सेवाओं' में रक्षा व्यय और असैनिक व्यय के अतिरिक्त ऐसी मदें शामिल हैं जैसे प्रशासनिक इमारतों पर पूंजी परिव्यय और दैवी विपत्तियों के लिए राज्यों और संघ राज्य क्षेत्रों को दिए जाने वाले आयोजना-भिन्न अनुदान और ऋण।

18. अनावंटनीय व्यय में वे मदें शामिल हैं, राज्यों को दिए जाने वाले सांविधिक सहायक अनुदान, संघ राज्य क्षेत्रों को आयोजना-भिन्न अनुदान, खाद्य और अन्य उपभोक्ता-वस्तु संबंधी आर्थिक सहायता, सरकारी ऋण पर ब्याज, पेंशनें और दूसरे देशों को दी जाने वाली सहायता। इन अनावंटनीय मदों का अनुमान, जो 1988-89 के कुल व्यय का 23.7 प्रतिशत है, 14368 करोड़ रुपए लगाया गया है, जिसकी तुलना में 1987-88 के संशोधित अनुमान 15899 करोड़ रुपए के थे।

II. ECONOMIC-CUM-FUNCTIONAL CLASSIFICATION

15. Based on the data in the budget for 1988-89 a cross classification of the Central Government expenditure by both economic and functional categories has been given in the three statements at the end of this section. The following paragraphs provide a brief summary of the findings of the functional classification.

Total Expenditure

16. Of the total expenditure budgeted for 1988-89 the provision for social and economic services which covers broadly the total developmental outlays of the Central Government is estimated at Rs. 41772 crores or 53.7 per cent of the total expenditure.

17. The expenditure on general services is estimated at Rs.17597 crores for 1988-89 i.e. 22.6 per cent of the total expenditure. Under the scheme of functional classification adopted in the brochure, "general services" include, besides defence and civil expenditure, such items as capital outlays on administrative buildings and non-plan grants and loans for natural calamities to States and Union Territories.

18. The unallocable items include statutory grants-in-aid to States, non-plan grants to Union Territories, food and other consumer subsidies, interest on public debt, pensions and aid to foreign countires. These unallocable expenditures, accounting for 23.7 per cent of the total expenditure in 1988-89 are estimated at Rs. 18455 crores as compared to the revised estimate of Rs.15899 crores for 1987-88.

केन्द्रीय सरकार के बजट के आर्थिक और कार्य सम्बन्धी वर्गीकरण की मदों की परिभाषा और उनकी व्युत्पत्ति पर टिप्पणियां

क. आर्थिक वर्गीकरण

इस पुस्तिका में प्रस्तुत आर्थिक वर्गीकरण का ढांचा 6 विवरणों (खातों) में केन्द्रीय सरकार के लेन-देनों की रूपरेखा पर आधारित है। इन विवरणों में प्रत्येक विवरण की व्युत्पत्ति का संक्षिप्त ब्यौरा नीचे दिया गया है :-

विवरण 1: *वस्तुओं और सेवाओं के लेन-देन और अन्तरण सरकारी प्रशासन का चालू खाता*

इस विवरण का संबंध व्यय पक्ष में सरकार के खपत संबंधी व्यय और चालू अन्तरण अदायगियों से है। प्राप्ति पक्ष में, इस विवरण में कर-प्राप्तियों, सरकारी सम्पत्ति और उद्यमों से आय और शुल्क तथा विविध प्राप्तियों को दिखाया जाता है। खपत संबंधी व्यय में चालू राजस्व के आधिक्य से उत्पन्न शेष तथा चालू अन्तरण अदायगियां केन्द्रीय सरकार के प्रशासन में बचत की सूचक होती है और वाणिज्यिक उपक्रमों की बचतों को मिलाकर यह पूंजी निर्माण के लिए केन्द्रीय सरकार की बचत की द्योतक होती है।

मद 1 : *खपत संबंधी व्यय* : सरकार के खपत संबंधी व्यय में कर्मचारियों को अदा की गई मजदूरी और वेतन तथा वस्तुओं और सेवाओं की खरीद पर हुआ चालू व्यय शामिल है। इससे सरकार के मौजूदा विकास संबंधी तथा विकास भिन्न प्रयोजनों के लिए इस्तेमाल में लाई गई वस्तुओं और उपयोग किए गए अन्य साधनों की उपलब्ध मात्रा के मूल्य का पता चलता है।

मद 1.1 : *मजदूरी और वेतन* : मजदूरी और वेतन की राशि सरकार द्वारा अदा की गई मजदूरी और वेतन के रूप में उत्पन्न आय के अनुमानों को द्योतक है। असैनिक विभागों द्वारा अधिकारियों और कर्मचारियों के वेतन, भत्तों (जिनमें महंगाई भत्ते और शहर प्रतिकर भत्ते को अदायगी शामिल है, परन्तु यात्रा भत्ते शामिल नहीं है) और मानदेय के रूप में वास्तविक अदायगियों के अलावा, इस मद में रक्षा कर्मचारियों को मजदूरी और वेतन, जिसमें किट और वस्त्र भत्ता तथा कर्मचारियों के लिए दिया जाने वाला अन्न भी शामिल है, रक्षा पूंजी परिव्यय के मजदूरी और वेतन अंश और 'मरम्मत और अनुरक्षण' तथा प्रशासनिक विभागों द्वारा रखे गए नैमित्तिक मजदूरों को मजदूरी की अदायगियां भी शामिल है. रक्षा संबंधी पूंजी परिव्यय के मजदूरी और वेतन अंश का अनुमान लगाते समय निर्माण-कार्यों के व्यय के एक तिहाई अंश को मजदूरी और वेतन माना जाता है और दो-तिहाई अंश को वस्तुओं और सेवाओं की खरीद पर होने वाला व्यय माना जाता है। 'मरम्मत और अनुरक्षण' तथा 'इकट्ठी व्यवस्था' के अन्तर्गत व्यय को 50:50 के अनुपात में मजदूरी और वस्तुओं और सेवाओं की खरीद के लिए निर्धारित कर दिया जाता है। क्योंकि आवश्यक आंकड़े अलग-अलग उपलब्ध नहीं है।

मद 1.2 : *वस्तुएं और सेवाएं* : वस्तुओं और सेवाओं की मद में अन्य व्यय शीर्षक के अधीन होने वाले व्यय शामिल है। बजट में की गई इकट्ठी व्यवस्था को वस्तुओं और सेवाओं तथा मजदूरी और वेतन में 50:50 के अनुपात में बांट दिया जाता है। संयुक्त राष्ट्र संघ और अन्य अन्तर्राष्ट्रीय संगठनों को इसी प्रकार की जाने वाली अदायगियों को सेवाओं की खरीद के रूप में मान लिया जाता है। राष्ट्रीय आय का अनुमान लगाने की स्वीकृत प्रक्रिया के अनुरूप रक्षा संबंधी पूंजी परिव्यय को चालू व्यय के रूप में मान लिया जाता है। निर्माण-कार्यों पर हुए व्यय के एक-तिहाई अंश को छोड़कर, जिसे मजदूरी और वेतन माना जाता है, रक्षा पर पूंजी परिव्यय की बाकी राशि मुख्यतः यहां दिखाई जाती है।

APPENDIX

Notes on definition and derivation of items in the Economic-cum-Functional Classification of the Central Government Budget

A. Economic Classification

The framework of economic classification presented in the brochure is based on the delineation of Central Government transactions in a set of six accounts. The following is briefly a description of the derivation of items in each of these accounts.

Account 1: *Transactions in commodities and services and transfers : Current Account of Government Administration*

This account is concerned, on the expenditure side, with the Government's consumption expenditure and current transfer payments; on receipt side, it indicates tax receipts, income from Government property and enterprises and fees and miscellaneous receipts. The surplus arising out of the excess of current revenue over expenditure on consumption and current transfer payment denotes the saving of the Central Government administration and together with savings of the commercial undertakings constitutes the saving of the Central Government available for capital formation.

Item 1: *Consumption Expenditure:* The Government's consumption expenditure comprises wages and salaries paid to employees and current expenditure incurred on purchases of commodities and services. This indicates the value of the available supplies of goods and factors drawn into the Government's current use, for developmental as well as non-developmental purposes.

Item 1.1: *Wages and Salaries:* Denote the estimates of income generated in the form of wages and salaries paid by the Central Government. Besides actual payments by the civil departments in the form of pay of officers and staff, allowances (including dearness allowance and city compensatory allowance but excluding travelling allowances) and honoraria, this item includes wages and salaries of the defence personnel including kit and clothing allowance and foodgrains provided to defence personnel, 'wages and salaries component of defence capital outlay and of 'repairs and maintenance' and also wage payments to casual labour employed by administrative departments. In estimating the wages and salaries component of defence capital outlay, one-third of the works expenditure is treated as wages and salaries and two-thirds as purchase of commodities and services. The expenditure under 'repairs and maintenance' as well as under 'lump sum provision' has been allocated in the ratio of 50:50 between wages and salaries and purchase of commodities and services since the required breakup is not available.

Item 1.2: *Commodities and Services:* Include expenditures under the head 'other charges'. 'Lump sum provisions' in the budget have been broken down into expenditure on commodities and services and wages and salaries in the ratio of 50:50. Contributions to the U.N. and similar payments to other international organisations are treated as purchases of services. Also in conformity with the accepted procedure of national income estimation, defence capital outlay has been treated as current expenditure. Except for one-third of the works expenditure which is treated as wages and salaries, the rest of capital outlay on defence appears here.

मद 2 : *अन्तरण अदायगियां* - ये व्यय माल और सेवाओं की प्रत्यक्ष मांग के सूचक नहीं होते, ये तो अन्य व्यक्तियों की आय में वृद्धि करने के उद्देश्य से केवल अन्तरणों के रूप में होते हैं। वर्तमान विश्लेषण में चालू अन्तरणों और पूंजीगत अन्तरणों में अन्तर की पारिकल्पना इस आधार पर की गई है कि जहां चालू अन्तरणों में प्राप्तिकर्ताओं के आय खाती में रकमों की वृद्धि हो जाती है, वहां पूंजीगत अन्तरणों का उद्देश्य पूंजीगत व्यय में सहायता देना होता है। यहां केवल चालू अन्तरणों को दिखाया गया है। इनमें ब्याज की अदायगियां, राज्यों, संघ राज्य क्षेत्रों, स्थानीय प्राधिकरणों और लाभ न कमाने वाली संस्थाओं को चालू अनुदान, आर्थिक सहायता, पेंशनें और अन्यों को अन्तरण अदायगियां शामिल हैं।

मद 2.1 : राष्ट्रीय ऋणों पर ब्याज की अदायगी को कई बार सरकार की चालू अन्तरण प्राप्तियों में घटाकर दिखाया जाता है, परन्तु इन अदायगियों को यहां सकल रूप में दिखाया गया है। ब्याज में राष्ट्रीय ऋणों पर ब्याज भी शामिल है परन्तु विभागीय वाणिज्यिक उपक्रमों पर भारित ब्याज इसमें शामिल नहीं है। विभागीय वाणिज्यिक उपक्रमों पर भारित ब्याज को विवरण 2 में जो इन उपक्रमों का चालू खाता है, दिखाया गया है।

मद 2.2 : अनुदानों में सांविधिक अनुदान तथा राज्यों और संघ राज्य क्षेत्रों की सभी अन्य आयोजना-भिन्न और आयोजना अनुदान शामिल हैं, पर इनमें वे अनुदान शामिल नहीं हैं, जिनका उद्देश्य पूंजी निर्माण में सहायता पहुंचाना है। (जैसे, ग्रामीण विकास कार्य, भूमि-संरक्षण, वन, छोटे सिंचाई कार्य आदि, के लिए अनुदान)। विस्थापित व्यक्तियों के पुनर्वास पर किया जाने वाला व्यय भी, जो राज्य सरकारों और संघ राज्य क्षेत्रों के माध्यम से किया गया है यहां दिखाया गया है। चौथी आयोजना के शुरू से राज्यों और राज्य क्षेत्रों को केन्द्रीय सहायता एकमुश्त अनुदानों और एकमुश्त ऋणों के रूप में दी जाती है। इस विश्लेषण में एकमुश्त अनुदानों को चालू और पूंजीगत अनुदानों के बीच 50:50 के अनुपात में निर्धारित किया गया है। उप-मद 'औरों को अनुदान' में मुख्यतः संस्थाओं को दिए जाने वाले अनुदान शामिल हैं और इन संस्थाओं में वैज्ञानिक और औद्योगिक अनुसंधान परिषद, भारतीय कृषि अनुसंधान परिषद और विश्वविद्यालय अनुदान आयोग जैसी सरकारी क्षेत्र की संस्थाएं भी शामिल हैं।

मद 2.3 : अन्य चालू अन्तरणों में ये शामिल हैं - आर्थिक सहायता प्राप्त असैनिक और सैनिक पेंशनों और व्यक्तियों को किए गए अन्य चालू अन्तरण जैसे छात्रवृत्तियां, वृत्तिकायें, इनाम, अकाल और अन्य सहायता संबंधी अदायगियां। इस मद में प्रत्यक्ष रूप से विस्थापित व्यक्तियों पर हुआ सहायता व्यय (राज्य सरकारों और संघ राज्य क्षेत्रों के माध्यम से किए गए व्यय से भिन्न) भी शामिल है। इस वर्गीकरण में पेंशन संबंधी अदायगियों को अन्तरण अदायगी के रूप में माना गया है। यद्यपि पेंशन को एक अन्य प्रकार से, अर्थात् आस्थगित वेतन के रूप में माना जा सकता है, परन्तु पेंशनों को अन्तरण के रूप में मानना इस आधार पर सरल और तर्कसंगत है कि पेंशन पाने वाले सेवा-निवृत्त कर्मचारियों से अर्थव्यवस्था के चालू उत्पादन में कोई वृद्धि नहीं होती है।

मद 6 : सरकार की चालू और पूंजी खाते की अंतरण प्राप्तियों (अर्थात् करों) के बीच का अन्तर चालू और पूंजी खाते की अन्तरण अदायगियों के बीच के अंतर की तरह, इस परिकल्पना पर आधारित है कि सरकार की चालू अन्तरण प्राप्तियां आय में की गई अदायगियां हैं जबकि पूंजीगत प्राप्तियां पूंजी से की गई अदायगियां होती हैं। इस धारणा के आधार पर संपदा-शुल्क और दान-कर पूंजीगत प्राप्तियों के रूप में माने जाते और इन्हें यहां पर नहीं दिखाया जाता था। तथापि राष्ट्रीय आय के आंकड़ों के संग्रह और राष्ट्रीय लेखों के संकलन और विश्लेषण की सलाहकार समिति की सिफारिशों के अनुसार, यह भेद राजकोषीय वर्ष 1983-84 (वास्तविक) से समाप्त कर दिया गया है।

Item 2: *Transfer Payments:* These expenditures do not involve direct demand on goods and services; they are of the nature of mere transfers intended to add to incomes of others. In the present analysis, a distinction has been drawn between current transfers and capital transfers on the hypothesis that while current transfers supplement the income accounts of recipients, capital transfers are intended to assist capital expenditure. Current transfers alone appear here; these comprise interest payments, current grants to States, Union Territories, local authorities and non-profit making institutions, subsidies, pensions and transfer payments to others.

Item 2.1: Interest Payments on the national debt are sometimes treated as a deduction from the current (transfer) receipts of Government, but these payments have been shown here on a gross basis. Interest comprises interest on the national debt exleuding interest charged to departmental commercial undertakings. Interest charged to departmental commercial undertakings appear in Account 2, the current account of these undertakings.

Item 2.2: Grants include statutory grants, as well as all other non-plan and plan grants to States and Union Territories excepting those which are intended to assist capital formation (e.g. grants for rural works, soil conservation, forests, minor irrigation etc.). The expenditure on rehabilitation of displaced persons routed through State Governments and Union Territories also appears here. Starting with the Fourth Plan, the Central assistance to States and Union Territories is being given in the form of block grants and block loans; in this analysis, block grants have been allocated between current and capital grants in the ratio of 50:50. The sub-item 'grants to others' comprises grants mainly to institutions and these include grants to public sector institutions, like Council of Scientific and Industrial Research, Indian Council of Agricultural Research, and University Grants Commission.

Item 2.3: Other current transfers include subsidies, pensions-civil and defence and other current transfers to individuals like scholarships, stipends, prizes, famine and other relief payments. This item also includes relief expenditure (i.e. other than that routed through State Governments and Union Territories) incurred directly on displaced persons. Pension payments have been treated in the present classification as a transfer payment. While an alternative treatment of pensions as deferred pay is possible, the treatment of pensions as transfers is simpler and justifiable on the ground that no increase in current output accrues to the economy from retired personnel receiving pensions.

Item 6: The distinction between transfer receipts (i.e. taxes) of Government on current and capital account - like the distinction between transfer payments on current and capital account - rests on the hypothesis that Government's current transfer receipts constitute payments out of income, while capital receipts constitute payments out of capital. Based on this distinction, estate duty and gift tax were treated as capital receipts and did not appear here until 1982-83. However, following the recommendations made by the Adivisory Committee on collection of data for National Income and Compilation and Analysis of National Accounts, this distinction has been done away with starting from the fiscal year 1983-84 (Accounts).

करों की प्राप्तियों की राशि, यहां राज्यों के हिस्से और स्थानीय प्राधिकरणों को अन्तरित करों को घटा कर दिखाई गई है।

आय और सम्पत्ति पर करों की मद में आय-कर, धन-कर, संपदा शुल्क, दान-कर और भू-राजस्व (संघ राज्य क्षेत्रों के संबंध में) और अनुसूचित वाणिज्यिक बैंकों की ब्याज प्राप्तियों पर कर शामिल है। वस्तुओं पर कर में संघ उत्पाद शुल्क, (जिसमें राज्यों का हिस्सा शामिल नहीं है) बीमा शुल्क, देशी कच्चे तेल पर उपकर और विदेश यात्रा पर कर और बिक्री कर, पंजीकरण फीस, स्टाम्प शुल्क आदि (संघ राज्य क्षेत्रों के संबंध में) शामिल हैं।

मद 7 : *सम्पत्ति और उद्यमों से आय* : इस मद में, प्रशासन को अन्तरित विभागीय और गैर विभागीय वाणिज्यिक उपक्रमों के लाभ और भारतीय रिजर्व बैंक के लाभ शामिल हैं। इसमें शामिल ब्याज की प्राप्तियां मुख्यतः राज्यों और संघ राज्य क्षेत्रों और गैर विभागीय वाणिज्यिक उपक्रमों से प्राप्त ब्याज की है। विभागीय वाणिज्यिक उपक्रमों से प्राप्त ब्याज को इसमें शामिल नहीं किया गया है, क्योंकि उन उपक्रमों पर भारित ब्याज विवरण 2 में दिखाई गई व्यय की मद है, विवरण 1 में नहीं। 'अन्यों' में किराये की प्राप्ति और लोक निर्माण कार्यों से प्राप्तियां, और तेल तथा प्राकृतिक गैस आयोग के द्वारा देय कच्चे तेल और गैस पर रायल्टी भी शामिल है।

मद 8 : *फीस और विविध प्राप्तियां* : इसमें वाणिज्यिक आधार पर संगठित न की गई फीस पर दी गई सेवाओं के लिए सरकारी विभागों की प्रशासनिक प्राप्तियां शामिल हैं।

विवरण 2 : *वस्तुओं और सेवाओं का लेन-देन तथा अन्तरण : विभागीय वाणिज्यिक उपक्रम का चालू खाता*

विभागीय वाणिज्यिक उपक्रमों के कार्य जो बजट में दिखाये गये हैं, सरकार की उद्यमकारी प्रवृत्तियों के रूप में हैं। इन उपक्रमों के चालू व्यय उत्पादनशील उद्यमों के कार्यचालन व्यय के समान उस प्रकृति के व्यय के द्योतक हैं जो माल तथा सेवाओं के मूल्यों में शामिल किए जाते हैं, और जिन्हें अर्थ-व्यवस्था के दूसरे भागों को बेचा जाता है। अतः वह प्रशासनिक विभागों के अन्तिम परिव्यय के रूप में भिन्न होते हैं। इसी प्रकार वाणिज्यिक उपक्रमों की बिक्री से प्राप्त आय केवल प्रशासनिक विभागों की प्राप्तियों (अर्थात् करों से, जो उनकी अपनी आय नहीं होती है और उनके व्यय को पूरा करने के लिए अन्य क्षेत्रों की आयों से ली जाती है, भिन्न होती है। अतः इस विवरण में सामान्यतः विभागीय वाणिज्यिक उपक्रमों का लाभ और हानि का लेखा दिया जाता है और यह विवरण 1 के स्वरूप से भिन्न होता है।

स्वतंत्र कम्पनियों या निगमों के रूप में संचालित सरकारी उद्यमों जैसे हिन्दुस्तान स्टील, उर्वरक निगम आदि के लेन-देनों को इस विवरण में शामिल नहीं किया गया है क्योंकि यहां प्रस्तुत किया गया आर्थिक वर्गीकरण उपक्रमों के संबंध में है जो विभागीय तौर पर चलाये जा रहे हैं और इनमें ये उपक्रम शामिल हैं – रेलवे, डाक और दूरसंचार, अफीम की फैक्टरियां और एलकलायड के कारखाने, विदेशी संचार सेवाएं, परिवहन योजनाएं, परमाणु बिजलीघर सहित बिजली परियोजनाएं, वन और दिल्ली दुग्ध योजना। किन्तु 1972-73 में वर्गीकरण में एक बड़ा बहत्वपूर्ण परिवर्तन किया गया है जिसके अनुसार रेल की कर्मशालाओं और उत्पादन एककों (चितरंजन लोकोमोटिव वर्क्स, डीजल लोकोमोटिव वर्क्स और इन्टिग्रल कोच फैक्टरी) के विनिर्माण संबंधी कार्यों को इसके अन्तर्गत ले लिया गया है। 1977-78 से लोक लेखा समिति की सिफारिशों पर रक्षा सेवाएं, कैंटीन भण्डार विभाग के कार्यचालन को भी इसमें शामिल कर लिया गया है क्योंकि इसके द्वारा किए गए लेन-देन सामान्य बजट का एक अंग हैं। इसमें 1982-83 (लेखा) से प्रारम्भ करके परमाणु ऊर्जा औद्योगिक परियोजनाओं के कार्यचालन को भी शामिल किया गया है और 1983-84 (वास्तविक) से नागर विमानन,

Tax receipts shown here are net of the States' share and taxes transferred to local authorities.

Taxes on income and wealth include income tax, corporation tax, wealth tax, estate duty, gift tax, land revenue (in respect of Union Territories) and tax on interest receipts of scheduled commercial banks. Taxes on commodities and transactions include Union excise duties (excluding States' share), customs duties, cesses on commodities and tax on foreign travel and also sales tax, registration fees, stamp duties etc. (in respect of Union Territories).

Item 7: *Income from property and enterprises:* This item includes profits of departmental and non-departmental commercial undertakings transferred to administration as well as profits of the Reserve Bank of India. Interest receipts included here are mainly from States and Union Territories and non-departmental commercial undertakings. Interest received from departmental commercial undertakings is omitted since interest charged to these undertakings is an item of expenditure in Account 2 and not Account 1. 'Others' include rental income, receipts from public works and royalty payable by ONGC on crude oil and gas.

Item 8: *Fees and miscellaneous receipts:* These include administrative receipts of Government departments for services rendered for a fee not organised on a commercial basis.

Account 2: *Transactions in commodities and services and transfers : Current Account of Departmental Commercial Undertaking*

The operation of departmental commercial undertakings which figure in the budget, are of the nature of enterprencurial activities of the Government. Current expenditure of these undertakings like working expenses of productive enterprises constitute intermediate expenditures that enter into the prices of goods and services as they are sold to other sectors of the economy. Therefore, they are different in character from final outlays by administrative departments. Likewise, sale proceeds of commercial undertakings are different from the receipts (e.g. taxes) of purely administrative departments which have no income of their own and draw upon incomes of other sectors to meet their expenditures. This account, therefore, sets out what is generally known as the profit and loss account of departmental commercial undertakings and is different in character from Account I.

The transactions of Government enterprises run as independent companies or corporations such as the Hindustan Steel, Fertiliser Corporation etc. are not included in this Account, as the economic classification presented here pertains to the magnitudes in the Demands for Grants and the Budget. This account is, therefore, concerned only with those commercial undertakings which are run departmentally and include Railways, Posts, Telecommunications, Opium factories and Alkaloid works, Overseas Communications Services, Transport Schemes, Power Projects including Atomic Power Stations, Forests and Delhi Milk Scheme. However, an important major change introduced since 1972-73 Classification has been to bring in the manufacturing activity of the Railway Workshops and production units (Chittaranjan Locomotive Works, Diesel Locomotive Works and Integral Coach Factory). With effect from 1977-78, the working of the Defence Services Canteen Stores Department has been included as its transactions now form part of the general Budget following the recommendations of the Public Accounts Committee. Starting from 1982-83 (Accounts),

वाणिज्यिक प्रसारण सेवाओं, दीप स्तंभों और दीप-पोतों, और सिंचाई निर्माण कार्यों को भी वाणिज्यिक उपक्रम माना गया है ।

अतः यहां यह कह देना महत्वपूर्ण होगा कि विभागीय वाणिज्यिक उपक्रमों की उपर्युक्त सूची में, केन्द्रीय सरकार द्वारा हाथ में लिए जाने वाले वाणिज्यिक अथवा अर्द्ध-वाणिज्यिक किस्म के कार्य-कलापों का पूरा ब्यौरा नहीं दिया गया है । तकनीकी दृष्टि से यह संभव है कि आकाशवाणी, सूचना और प्रसारण मंत्रालय के प्रकाशन विभाग, करेंसी नोट प्रेस और सिक्युरिटी प्रेस की गतिविधियों जैसे कार्य-कलापों को सरकारी वाणिज्यिक कार्य-कलापों के रूप में माना जाए । किन्तु यहां पर ऐसा नहीं किया गया क्योंकि उनकी सेवाओं की अधिकांश बिक्री या तो वाणिज्यिक आधार पर नहीं की जाती या उनकी बिक्री मुख्यतः सरकारी विभागों को ही की जाती है ।

इस विवरण की मदें स्वतः स्पष्ट हैं । विभागीय वाणिज्यिक उपक्रमों के संचालन खाते के व्यय पक्ष में कर्मचारियों को दिया जाने वाला पारिश्रमिक (अर्थात् मजदूरी और वेतन), पेंशन अदायगियां, कच्चे माल आदि की खरीद आदि (अर्थात् वस्तुओं और सेवाओं का क्रय), मरम्मत और अनुरक्षण संबंधी व्यय, इन उपक्रमों द्वारा देय ब्याज और मूल्यह्रास की व्यवस्था दिखाई जाती है । वर्ष 1979-80 से रेलवे के राजस्व में हुई कमी को उनका 'आस्थगित लाभांश दायित्व' माना जाता है और उसे उनके द्वारा सामान्य राजस्व को देय लाभांशों में से घटा दिया जाता है । किन्तु रेलवे की सही वित्तीय स्थिति प्रस्तुत करने के लिए, उनके पूर्ण लाभांश दायित्व को हिसाब में लिया गया है और कमी को काल्पनिक दृष्टि से रेलवे का दिया गया उधार माना गया है । प्राप्ति पक्ष में उपक्रमों की बिक्री से प्राप्त होने वाली कुल रकमें तथा विभिन्न निधियों की बकाया राशियों पर प्राप्त होने वाली ब्याज की रकम दिखाई जाती है । अधिशेष के एक अंश को, उपक्रम के अंशदान के रूप में सरकारी प्रशासन के चालू खाते (विवरण 1) में अन्तरित कर दिया जाता है और शेष राशि को धारित लाभों के रूप में दिखाया जाता है ।

यह धारित लाभों सहित सरकारी प्रशासन की बचत की राशि और विभागीय उपक्रमों के मूल्यह्रास की रकम मिलकर सरकार की कुल बचत की राशि बना जाती है जो सकल पूंजी निर्माण के लिए उपलब्ध होती है ।

विवरण 3 : *वस्तुओं और सेवाओं के लेन-देन और अन्तरण : सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों (सम्मिलित) का पूंजी खाता*

इस विवरण का संबंध, कुल पूंजी-परिव्यय से है जो प्रशासन और विभागीय वाणिज्यिक उपक्रमों द्वारा निर्माण की जाने वाली भौतिक परिसम्पत्तियों और पूंजीगत अन्तरणों का द्योतक है । चूंकि पूंजी निर्माण संबंधी समस्त व्यय, अन्तिम व्यय होता है और राष्ट्रीय उत्पादन पर भारित होता है तथा सरकार को उसके लिए या तो अपनी बचतों में रकमें निकाल कर साधन जुटाने पड़ते हैं अथवा गैर-सरकारी बचतों से रकम जुटानी पड़ती है, इसलिए पूंजीगत व्यय के संबंध में प्रशासन और विभागीय वाणिज्यिक उपक्रमों में भेद करना अधिक सार्थक नहीं होगा ।

सरकार द्वारा निर्माण की जाने वाली भौतिक परिसम्पत्ति को (विभागीय वाणिज्यिक उपक्रमों के नवीकरण और प्रतिस्थापन व्यय को छोड़कर) सकल और निवल परिसम्पत्ति के निर्माण तथा तालिकागत सामान में हुई निवल वृद्धि के रूप में दिखाया गया है । पूंजीगत अन्तरणों को विवरण 3 में सन्तुलनकारी मद के रूप में दिखाया गया है और इससे शेष अर्थव्यवस्था के प्रति सरकार के वित्तीय दायित्व में हुए परिवर्तन की मात्रा का पता चलता है ।

मद 1.1 : भवन और अन्य निर्माण कार्य में सभी कार्यालय, रिहायशी इमारतें और अन्य प्रयोजनों की इमारतें, सड़कें, रेलवे तथा डाक और तार संबंधी निर्माण कार्य, बिजली और अन्य पूंजीगत परियोजनाएं शामिल हैं ।

the working of atomic energy industrial projects and from 1983-84 (Accounts), those of Civil Aviation commercial broadcasting service, light-houses and lightships and irrigation works are also treated as commercial undertakings.

It is important to note here that the list of departmental commercial undertakings as given above does not exhaust the activities of a commercial or semi-commercial nature, undertaken by the Central Government. It is technically possible to treat activities like those of the Publication Division of the Ministry of Information and Broadcasting, Currency Note Press and Security Press as commercial activities of the Government. This has not been done there either because of the bulk of the sale of their services is not on a commercial basis or because the sale is mainly to Government Departments.

The items in this account are self-explanatory. The expenditure side of the operating account of departmental commercial undertakings spells out compensation to employees (i.e. wages and salaries), pension payments, purchases of raw materials etc. (i.e. commodities and services), expenditure on repairs and maintenance, interest charged to these undertakings and provision for depreciation. With effect from 1979-80 the shortfall in the revenues of the Railways are treated as their "deferred dividend liability" and are deducted from the dividends payable by them to general revenues. However, in order to truly reflect the financial position of the Railways, their full dividend liability has been taken into account and the shortfall has been treated notionally as loans to Railways. The receipt side shows their gross sale proceeds and the interest receipts on their outstanding balances in various funds. A part of the surplus emerging out of this is transferred to the current account of Government administration (Account I) as undertakings' contribution and the balance appears as retained profits.

These retaind profits together with the savings of the Government administration and depreciation provision of departmental undertakings constitute total gross Government savings, available for gross capital formation.

Account 3: *Transactions in commodities and services and transfers : Capital account of Government Administration and Departmenial Commercial Undertakings (combined)*

This account is concerned with the total capital outlay representing physical asset formation by administration and departmental commercial undertakings and capital transfers. A distinction between administration and departmental commercial undertakings in respect of capital expenditure is not very meaningful for the reason that the entire expenditure on capital formation is a final expenditure which is a charge on the national product and for which Government has to find resources either from its own savings or by drawing on private savings.

The physical asset formation by Government has been shown in terms of gross and net asset formation (excluding the renewal and replacement expenditure of departmental commercial undertakings) and net increase in inventories. A breakdown of capital transfers has also been indicated. The deficit on all transactions in commodities and services and transfers is shown as a balancing item in Account 3 and this measures the change in Government's net indebtedness to the rest of the economy.

Item 1.1: Building and other construction include all buildings for residential, office and other purposes, road construction, works of railways and posts, telecommunications, power and other capital projects.

मद 1.2 : मशीनें और उपकरण मद में, विभिन्न किस्मों की मशीनों और उपकरणों की खरीद के संबंध में किये जाने वाला व्यय शामिल है। इनमें विदेशी सहायता के अन्तर्गत प्राप्त मशीनें भी शामिल होती है। नवीकरण और प्रतिस्थापन शीर्षक के अन्तर्गत दिखाए गए व्यय का संबंध विभागीय वाणिज्यिक उपक्रमों की मूल्यह्रास निधियों से वित्तपोषित व्यय से है। इसलिए मशीनों और उपस्करों पर तथा सरकारी प्रशासन द्वारा किए जाने वाले निर्माण संबंधी समस्त व्यय को "नया परिव्यय" शीर्षक के अन्तर्गत दिखाया गया है क्योंकि इन परिसम्पत्तियों के मूल्यह्रास के लिए बजट में कोई व्यवस्था नहीं की गई है।

मद 2 : *निर्माण कार्य संबंधी भंडार में वृद्धि* : निर्माण कार्य के लिए आवश्यक धारित सामान और विभागीय वाणिज्यिक उपक्रमों तथा प्रशासनिक विभागों के तालिकागत सामान में होने वाली वृद्धि अथवा कमी को इस मद में दिखाया गया है। 1977-78 में (वास्तविक) से शुरू करके सरकार के आयातित उर्वरकों के स्टाकों के वर्गीकरण में परिवर्तन किया गया है, जिसके अन्तर्गत दिखाई गई बकाया उन प्राप्तियों को घटा कर स्टाक में होने वाली वृद्धि के रूप में, जिनको विविध पूंजी प्राप्तियों के अन्तर्गत वर्गीकृत किया जाता है।

मद 3.1 : *पूंजी निर्माण के लिए अनुदान* : राज्यों और संघ राज्य क्षेत्रों को दिए जाने वाले पूंजीगत अनुदानों में, आयोजनागत योजनाओं के लिए केन्द्रीय सहायता के रूप में दिए जाने वाले इकट्ठे अनुदान की आधी राशि, तथा राजस्व बजट के ऐसे अनुदान शामिल है, जो पूंजी निर्माण (अर्थात् ग्रामीण निर्माण कार्य) में सहायता देने के उद्देश्य से दिए जाते हैं। गैर-विभागीय उपक्रमों को दिए जाने वाले अनुदानों में, तेल और प्राकृतिक गैस आयोग जैसे स्वायत्त निगमों को दी जाने वाली पूंजीगत सहायता (ऋणों से भिन्न) शामिल है। औरों को दिए जाने वाले अनुदानों में वैज्ञानिक और औद्योगिक अनुसंधान परिषद् तथा औद्योगिक संस्थानों जैसे सरकारी क्षेत्र की संस्थाओं को दिए जाने वाले अनुदानों का वह भाग शामिल है जो उपस्करों की खरीद और निर्माण के लिए दिए जाते हैं।

मद 3.3 : इस मद में विदेशों को दिए जाने वाला अनुदान शामिल है। चूंकि इसका संबंध, देश से बाहर के आर्थिक पुनर्निर्माण और विकास के लिए की जाने वाली बचतों के अंतरण न कि वास्तविक पूंजीगत अंतरण मानना युक्तिसंगत होगा।

मद 5 और 6 : पूंजी निर्माण के लिए उपलब्ध प्राप्तियों में विवरण 1 और 2 से आगे लाई गई चालू खाते की सकल बचतें, दान कर और संपदा शुल्क तथा विदेशी अनुदानों की प्राप्तियां शामिल हैं। विदेशी अनुदानों में नकद अनुदान और अन्य देशों से प्राप्त वस्तु अनुदान शामिल है। अन्य पूंजीगत प्राप्तियों में, विस्थापित सम्पत्ति की बिक्री से प्राप्त होने वाली राशि तथा जमीन की बिक्री की रकम को भवन और अन्य निर्माण पूंजी की राशि में से घटा दिया गया है।

विवरण 4 : *वित्तीय परिसंपत्ति में परिवर्तन : सरकारी प्रशासन और वाणिज्यिक उपक्रमों का पूंजी खाता*

विवरण 4 का संबंध औद्योगिक और वाणिज्यिक उपक्रमों की शेयर पूंजी में निवेशित राशि और शेष अर्थ-व्यवस्था को दिए जाने वाले ऋणों और अग्रिमों जैसी वित्तीय परिसंपत्तियों के लेन-देन से है। ऋणों की राशि पूंजी निर्माण तथा अन्य प्रयोजनों के लिए वितरित कर दी जाती है। पूंजी निर्माण के लिए शेयरों और ऋणों में निवेशित रकमों से जो विवरण 4 में दिखाई गई है, यह पता चलता है कि केन्द्रीय सरकार प्रत्यक्ष रूप से पूंजी निर्माण करने का जो काम हाथ में लेती है उसके अतिरिक्त वह वित्तीय सहायता देकर अर्थ-व्यवस्था में किस सीमा तक पूंजी निर्माण को प्रोत्साहन देती है। विवरण 4 संतुलनकारी मद सहित, जो वित्तीय निवेशों और केन्द्रीय सरकार के ऋणों के वित्त परिव्यय की द्योतक है, विवरण 3 के घाटे की राशि से यह पता चलता है कि वित्त आन्तरिक और निवल विदेशी ऋणों की रकम से तथा घाटे की वित्त व्यवस्था द्वारा पूरी की जाने वाली कुल वित्तीय आवश्यकता कितनी है।

Item 1.2: Machinery and equipment include expenditure incurred on the purchase of various types of machinery and equipments including machinery obtained under foreign aid. The expenditure shown against 'renewals and replacement' refers to expenditure financed out of the depreciation funds of the departmental commercial undertakings. The entire expenditure on machinery and equipment as well as on construction by the Government administration therefore appears as 'new outlay', since no provision for depreciation of these assets is made in the budget.

Item 2: *Increase in works stores:* The net increase or decrease in stores needed for construction work and inventories of departmental commercial undertakings and administrative departments is shown under this item. There has been a change introduced in classifying imported fertilizers' transactions beginning 1977-78(Accounts) whereby the net transactions are treated as subsidy instead of increase in stocks after deducting arrear receipts shown under recoveries for past years which are classified under miscellaneous capital receipts.

Item 3.1: Grants for Capital Formation: Capital grants to States and Union Territories include one-half of block grants given as Central assistance for plan schemes, as well as such grants in the revenue budget as are intended to assist capital formation(e.g. rural works). Grants to non-departmental commercial undertakings include capital assistance (other than by way of loans, to autonomous corporations like the Oil and Natural Gas Commission). Grants to others include part of grants to public sector institutions like Council of Scientific and Industrial Research and Institutes of Technology, treated as intended for purchase of equipment and for construction.

Item 3.3: This item includes grants to foreign countries. The rationale of treating these grants as capital rather than current transfer is that they involve transfer of savings for economic reconstruction and development outside the country.

Item 5 and 6: Receipts available for capital formation consist of gross savings on current account brought over from Accounts 1 and 2, and receipts of foreign grants include both cash grants and commodity grants received from other countries. Other capital receipts include sale proceeds of evacuee property and proceeds from sale of land. The sale of other physical assets has been netted against outlay on building and other construction.

Account 4: *Changes in financial assets : Capital Account of Government Administration and Departmental Commercial Undertakings*

Account 4 is concerned with transactions in financial assets, i.e. investment in share capital of industrial and commercial concerns and loans and advances granted to the rest of the economy. Loans have been allocated between those meant for capital formation and those for other purposes. Investments in shares and loans for capital formation as shown in Account 4 indicate the extent to which the Central Government promotes capital formation in the rest of the economy through financial assistance in addition to the capital formation directly undertaken by it. The balancing item of Account 4, representing net outlay on financial investments and loans of the Central Government together with the deficit in Account 3 represents the total requirements of finance to be met out of net domestic and net foreign borrowing and by the deficit financing.

मद 1 : सरकारी प्रतिष्ठानों के शेयरों में किए जाने वाले निवेशों का तात्पर्य--सरकार के ऐसे गैर-विभागीय वाणिज्यिक उपक्रमों की शेयर पूंजी में निवेश, जिनके 50 प्रतिशत से अधिक शेयर केन्द्रीय सरकार के पास हों। बैंकों, सामान्य बीमा आदि का राष्ट्रीयकरण किए जाने के परिणामस्वरूप अधिगृहीत शेयरों आदि को भी निवेश माना जाता है। अन्य सभी प्रतिष्ठानों को, चाहे वे गैर-सरकारी, सहकारी अथवा सरकारी क्षेत्र के प्रतिष्ठानों हों, 'अन्य प्रतिष्ठान' कहा गया है। सरकारी प्रतिष्ठानों के मामले में वित्तीय प्रतिष्ठानों और गैर-वित्तीय प्रतिष्ठानों के बीच भेद किया गया है।

Item 1: Investments in shares of Government concerns denote investments in the share capital of such non-departmental commercial undertakings of the Government, in which the Central Government ownership is more than 50 per cent. Acquisition of shares as a result of nationalisation of banks, general insurance etc., is also treated as investment. All other concerns whether in the private, cooperative or public sector have been treated as 'others'. In the case of Government concerns, a distinction has been drawn between financial concerns and non-financial concerns.

मद 2 : पूंजी निर्माण के लिए दैय ऋणों में पूंजी-परिसम्पत्ति का निर्माण करने के लिए दिए जाने वाले ऋण शामिल हैं। जिसमें राज्यों, स्थानीय प्राधिकरणों, गैर-विभागीय वाणिज्यिक उपक्रमों तथा औरों को दिए जाने वाले ऋण शामिल हैं। अल्प बचतों की राशि में से राज्यों को दिए जाने वाले ऋणों को पूंजी निर्माण के लिए दैय ऋण माना गया है। केवल गैर-विभागीय वाणिज्यिक उपक्रमों को दिए गये आयोजनागत ऋणों को पूंजी निर्माण के लिए दैय ऋण माना गया है। पूंजी निर्माण के लिए औरों को दिए जाने वाले ऋणों में गैर-सरकारी औद्योगिक उपक्रमों, सहकारी आवास समितियों को दिए जाने वाले तथा मकान बनाने के लिए सरकारी कर्मचारियों को दिए जाने वाले ऋण शामिल हैं।

Item 2: Loans for capital formation include loans given for the creation of capital assets and comprise loans to States, local authorities, non-departmental commercial undertakings and others. Loans to States out of small savings have been treated as loans for capital formation. Only plan loans given to non-departmental commercial undertakings have been taken as loans for capital formation. Loans for capital formation to others include loans to private industrial undertakings, cooperative housing societies and house-building loans to Government employees.

मद 3 : राज्य सरकारों और संघ राज्य क्षेत्रों को दिए जाने वाले 'अन्य ऋण' में अर्थोपाय अग्रिम, अल्पावधिक कृषि ऋण, दैवी विपत्तियों के संबंध में दैय ऋण तथा आयोजना-भिन्न अन्तर को पूरा करने के लिए दिए जाने वाले विशेष ऋण शामिल हैं। चूंकि राज्यों को दिए गए सभी अर्थोपाय अग्रिम उसी वित्तीय वर्ष में ले लिए जाते हैं इसलिए 1975-76 से इस शीर्ष के अन्तर्गत भुगतान और प्राप्तियों को छोड़ देने का निश्चय किया गया था। इसी प्रकार, कृषि निविष्टियों के लिए राज्य सरकारों को अल्पावधि ऋणों को 1985-86 (वास्तविक) से छोड़ दिया गया है। राज्यों को दिये गये मध्यावधि ऋणों को, जो भारतीय रिजर्व बैंक के पास उनके घाटे/ओवर ड्राफ्टों को पूरा करने के लिए उन्हें दी गई थी, छोड़ दिया गया क्योंकि इनसे भारतीय रिजर्व बैंक की लेखा पुस्तकों में राज्यों की देनदारियों का केन्द्र को अंतरण ही प्रकट होता था। गैर-विभागीय वाणिज्यिक उपक्रमों को अन्य ऋण में उनके घाटे की पूर्ति के लिए तथा पहले की ऋणों की वापसी अदायगियों के लिए दिए गए आयोजना-भिन्न ऋण शामिल हैं। तथापि 1975-76 (संशोधित अनुमान) से गैर-विभागीय वाणिज्यिक उपक्रमों के पिछले ऋणों के नवीनीकरण का ब्यौरा उपलब्ध हो गया है और इस कारण इनको 'व्यय' 'आय' में शामिल नहीं किया गया है। विदेशी सरकारों को दिए जाने वाले ऋणों में वे प्रक्रियात्मक ऋण शामिल हैं जो उन देशों को दिए जाते हैं जिनके साथ रुपयों में अदायगी करने के लिए करार किए गए हैं। चूंकि अधिकांश प्रक्रियात्मक ऋणों की वसूली उसी वित्तीय वर्ष में की जाती है इसलिए उन्हें अब 1981-82 (वास्तविक) से निवल आधार पर दिखाया गया है। औरों को दिए जाने वाले ऋणों में सरकारी कर्मचारियों को दैय वाहन अग्रिम तथा राहत ऋण (जैसे तूफान सहायता) शामिल हैं।

Item 3: 'Other loans' to State Governments and Union Territories include ways and means advances, short-term agricultural loans, loans for natural calamities and special loans for meeting non-plan gaps. Since the entire ways and means advances to States are recovered within the same financial year, it was decided to ignore both the disbursements and the receipts under this head with effect from 1975-76. Similarly, short-term loans to State Governments for agricultural inputs have been ignored with effect from 1985-86 (Accounts). Medium-term loans to States to clear their deficits/ overdrafts with the Reserve Bank of India are also ignored, as these represent only transfer of liability from the States to the Centre in the books of the Reserve Bank. 'Other loans' to non-departmental commercial undertakings include non-plan loans given for meeting their losses and also for the repayment of past loans. However, from 1975-76(RE) onwards, the details of renewals of past loans in respect of non-departmental commercial undertakings became available and therefore, these have been excluded both from the outgoings and the incomings. Loans to foreign Governments also include technical credits to countries having rupee payment agreements. Since a large part of technical credits are recovered within the same financial year, these are now shown on a net basis with effect from 1981-82(Accounts). Loans to 'others' include conveyance as well as relief (e.g. cyclone) loans to Government employees.

मद 4 : इसमें अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक, अन्तर्राष्ट्रीय विकास संघ तथा एशियाई विकास बैंक को दिए जाने वाले अभिदान शामिल हैं।

Item 4: This include subscription to IMF, IBRD, IDA and ADB.

मद 5 : यह मद स्वर्ण की किसी भी बिक्री को राशि के समायोजन के बाद स्वर्ण की वास्तविक खरीद को दर्शाता है जैसे कि 1980-81 में 4 करोड़ रुपए के राष्ट्रीय रक्षा स्वर्ण बांडों की स्वर्ण के रूप में वापसी अदायगी किया जाना।

Item 5: This represents net purchase of gold after adjusting for any sale of gold, as for instance repayment in gold of National Defence Gold Bonds in 1980-81 valued at Rs.4 crores.

मद 7 : औरों द्वारा "ऋणों की वापसी" अदायगी में सरकारी उपक्रमों द्वारा वापस अदा किए गए ऋण शामिल हैं। यहां पर यह उल्लेख किया जा सकता है कि चूंकि राज्यों को दिए जाने वाले अर्थोपाय अग्रिमों और अल्पावधि कृषि ऋण को उसी वर्ष में वापस अदा करना पड़ता है जिसमें वे दिए जाते हैं लेकिन उन्हें प्राप्ति और व्यय दोनों मदों में दिखाया जाता है।

Item 7: Repayments by others include loan repayments by public undertakings. It may be noted that short-term agricultural loans in respect of States are supposed to be repaid in the course of the same year but appear as items of receipts as well as of expenditure.

विवरण 5 : *वित्तीय देनदारियों में परिवर्तन : सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों का पूंजी खाता*

यह विवरण केन्द्रीय सरकार के ऋण संबंधी लेखे का द्योतक है और इसका संबंध विवरण 3 और 4 से होने वाली कमियों को पूरा करने के लिए की जाने वाली वित्तीय व्यवस्था से है। प्राप्तियों में सकल बाजार ऋण की रकमें, सकल विदेशी ऋण और अल्प बचतों की शुद्ध प्राप्तियां, भविष्य निधियां, रिजर्व बैंक अनिवार्य जमा निधि के आधार पर लिए गए विशेष उधार तथा अन्य विविध पूंजी प्राप्तियां (शुद्धतायिक) शामिल हैं। रिजर्व बैंक से लिए जाने वाले अन्य ऋण राजकोष हुंडियों (मद 14) की बिक्री से संबंधित हैं, राजकोष हुंडियों (मद 13) की बिक्री की रकमों को निधि कार्यों के लिए समायोजित करने के बाद दिखाया जाता है। विशेष राजकोष हुंडियों (मद 12) की बिक्री की निवल रकम मुख्य रूप से अन्तर्राष्ट्रीय मुद्रा निधि, अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक, अन्तर्राष्ट्रीय विकास संघ और एशियाई विकास बैंक को अभिदान देने के लिए जारी की जाने वाली हस्तान्तरणीय गैर-ब्याज प्रतिभूतियों की द्योतक है।

इस संबंध में खर्च होने वाली रकमों में बाजार ऋणों (मद 1) और विदेशी ऋणों (मद 2) के संबंध में वापिस अदा की जाने वाली शामिल है। इस विवरण के अन्तर्गत शेष राशि वित्तीय देनेदारियों में हुई निवल वृद्धि की द्योतक है और नकद शेष राशि को समायोजित रकम के साथ मिलाने पर यह विवरण 3 और विवरण 4 की संतुलनकारी मदों के योग के बराबर हो जाती है।

विवरण 6 : *सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों का रेकेंड और पूंजी समाधान खाता*

यह एक ऐसा समाधान खाता है जो सार रूप में विवरण 3, 4 और 5 की निवल स्थिति का द्योतक है और केन्द्रीय सरकार के सभी लेन-देनों के, उसकी नकदी राशि पर पड़ने वाले प्रभाव को दिखाता है। विवरण 5 में राजकोष हुंडियों की बिक्री की निवल राशियों और नकद शेष राशि में होने वाले अन्तर को मिलाकर देखना केन्द्रीय सरकार के बजट संबंधी घाटे को मापने की एक परम्परागत व्यवस्था है। किन्तु आर्थिक दृष्टि से घाटे की वित्त व्यवस्था को ठीक-ठीक समझने के लिए और बातों का समायोजन आवश्यक होता है जैसे कि भारतीय रिजर्व बैंक को छोड़कर अन्य पार्टियों के हाथ बेचे जाने वाली राजकोष हुंडियों की रकमों को आवश्य करना पड़ता है और इस घाटे का हिसाब लगाने के लिए बाजार ऋणों के संबंध में रिजर्व बैंक द्वारा दिए जाने वाले समर्थनों को इसमें शामिल करना पड़ता है।

ख. कार्य संबंधी वर्गीकरण

कार्य संबंधी वर्गीकरण का उद्देश्य मुख्य अभीष्ट प्रयोजनों के अनुसार सरकारी खर्च की मुख्य मदों अर्थात् रक्षा, प्रशासन, स्वास्थ्य, शिक्षा और आर्थिक सेवाओं आदि मदों को भिन्न-भिन्न वर्गों में संकलित करना है। किन्तु इस पुस्तिका में वर्गीकरण का उद्देश्य सरकारी व्ययों के कार्य संबंधी वर्गीकरण में कुछ संशोधन करना नहीं है जो कि वर्तमान बजट पत्रों में है, बल्कि यह आर्थिक वर्गीकरण के साथ कार्यों के अनुसार पुनः वर्गीकरण करने का एक प्रयास है जिसके आर्थिक वर्गीकरण से उत्पन्न आयामों का महत्व बढ़ाया जा सके।

यह बात भी उल्लेखनीय है कि कार्य संबंधी वस्तुतः व्यय से है और आय पर यह लागू नहीं होता। केन्द्रीय सरकार का कुल परिव्यय जिस पर यह लागू होता है, आर्थिक वर्गीकरण विवरण 1 में चालू व्यय, विवरण 3 में पूंजी परिव्यय और विवरण 4 में वित्तीय निवेशों और श्रेणियों तथा अग्रिमों में बनता है। ये तीन विवरण उन व्ययों को प्रदर्शित करते हैं जिनका संबंध सरकारी नीतियों द्वारा पूरे किए जाने वाले विशिष्ट प्रयोजनों के साथ जोड़ा जा सकता है। यही बात विभागीय वाणिज्यिक

Account 5: *Changes in financial liabilities : Capital Accounts of Government Administration and Departmental Commercial Undertakings*

This represents the borrowing account of the Central Government, and is concerned with the provision of finance for meeting the deficits emerging from Account 3 and 4. Incomings detail gross market borrowing, gross borrowing from abroad, net accretions to small savings, provident funds, deposits of non-government provident funds, special borrowings from the R.B.I. against compulsory deposits and miscellaneous capital receipts (net) other borrowing from the Reserve Bank in the sale of 'treasury bills' (item 13): net sales of treasury bills are shown after adjusting for funding operations. The net sale of special securities (item 12) denotes mainly the result of transactions in the issue of non-negotiable non-interest bearing securities from subscriptions to IMF, IBRD, IDA and ADB and their encashment.

The outgoings on this account include repayments on account of market borrowings (item 1) and foreign loans (item 2). The balance emerging from this Account represents the net increase in financial liabilities and together with adjustment in cash balances is equivalent to the sum of balancing items in Account 3 and 4.

Account 6: *Cash and Capital Reconciliation Account of Government Administration and Departmental Commercial Undertakings*

This is the reconciliation account summing up the net position in respect of Accounts 3, 4 and 5 and showing the effect of all transactions of the Central Government on its cash position. The net variation in the cash balance read with net sales of treasury bills in Account 5 provide a conventional measure of the Central Government's budgetary deficit. The derivation of deficit financing in an economically more meaningful sense, however, calls for further adjustments; sales of treasury bills to parties other than the Reserve Bank of India have to be excluded and the Reserve Bank's support to market borrowings included in the computation of this deficit.

B. Functional Classification

A functional classification is designed to group the main items of Government expenditures in terms of broad purposes to be served, i.e. defence, administration, health, education, economic services etc. The object of the classification adopted in this brochure, however, is not to introduce some refinements in the functional grouping of Government expenditures as may be already existing in the budget documents, but rather it is to attempt a reclassification by functions in conjunction with an economic classification in order to increase the significance of the magnitudes emerging from the latter.

It is also noteworthy that the scheme of functional classification relates essentially to expenditures and does not apply to receipts. The total outlay of the Central Government to which it applies is made up of the current expenditure in Account 1, capital expenditure in Account 3 and financial investments and loans and advances in Account 4 of the Economic Classification. These three accounts show expenditures which can be related to specific purposes to be served by Government policies. The same cannot be

उपक्रमों के चालू व्यय के लिए नहीं कही जा सकती । (जैसा आर्थिक वर्गीकरण के विवरण 2 में दिखाया गया है) हालांकि इन उपक्रमों द्वारा किया गया पूंजी निर्माण कार्य संबंधी वर्गीकरण में शामिल किया जाता है ।

केन्द्रीय सरकार के व्यय का वर्गीकरण चार मुख्य श्रेणियों में किया गया है :-

1. सामान्य सेवाएं
2. सामाजिक सेवाएं
3. आर्थिक सेवाएं
4. अनावंटनीय

श्रेणी 1 : इसका संबंध सामान्य सेवाओं से है और इसमें असैनिक (सिविल) तथा रक्षा संबंधी दोनों व्यय आते हैं । ये व्यय राष्ट्र के बुनियादी प्रशासनिक ढांचे की व्यवस्था के लिए किए जाते हैं । अतः सामान्य प्रशासन, कर संग्रह, पुलिस, करेंसी तथा टकसाल, विदेशों से संबंध, रक्षा तथा दैवी विपत्तियों से बचाव के लिए किया जाने वाला आयोजना-भिन्न व्यय इस श्रेणी के अन्तर्गत दिखाया जाता है । यह भी ध्यान दिया जाए कि विभिन्न सामाजिक और आर्थिक कार्यकलापों के निर्देशन तथा अधीक्षण से संबंधित प्रशासनिक व्यय को संबद्ध कार्य के संबंधी शीर्षकों के अन्तर्गत दिखाया गया है । जहां एक से अधिक कार्यकलाप शामिल हों (उदाहरणार्थ लोक निर्माण कार्य), वहां ऊपरी प्रशासनिक खर्च को यथासम्भव सीमा तक, विभिन्न कार्यकलापों में बांटने का प्रयास किया गया है ।

श्रेणी 2 : इसका संबंध सामाजिक सेवाओं से है और यह समाज की बुनियादी सामाजिक सुविधाओं के लिए की गई व्यवस्था से संबंधित है । इसमें शिक्षा, चिकित्सा और लोक स्वास्थ्य तथा अन्य सामाजिक सेवाओं का व्यय शामिल है । शिक्षा के अन्तर्गत सामान्य और अनुप्रयुक्त अनुसंधान को संबद्ध कार्यकलाप में आवंटित किया गया है । उदाहरण के लिए परमाणु तथा औद्योगिक अनुसंधान दोनों उद्योग के अन्तर्गत दिखाए गए हैं । उपसमूह चिकित्सा और लोक स्वास्थ्य में परिवार कल्याण के कार्यक्रम भी आते हैं । उपसमूह 'अन्य सामाजिक सेवाओं' में आवास, श्रमिक कल्याण तथा अन्य समाज कल्याण योजनाएं, संग्रहालय, पुरातत्व, सार्वजनिक पुस्तकालय तथा प्रसारण और प्रचार के अन्य साधनों से संबंधित व्यय भी शामिल है । विभिन्न रोजगार कार्यक्रम के व्यय के लिए बजट में जो व्यवस्था की गई है वह इसमें शामिल है । इसी उपसमूह में प्राथमिक शिक्षा, गन्दी बस्ती के सुधार, ग्रामीण जल पूर्ति और ग्रामीण आवास स्थलों के लिए बजट में एक मुश्त रकम के रूप में की गई व्यय व्यवस्था भी शामिल है । बच्चों के लिए पोषाहार कार्यक्रम का व्यय भी यहां पर दिखाया गया है । विस्थापितों के लिए राहत-कार्य पर किया जाने वाला व्यय इसमें शामिल है ।

श्रेणी 3 : इसमें आर्थिक सेवाओं के लिए की गई व्यवस्था आती है और इसमें सभी व्यय शामिल हैं जो अर्थव्यवस्था के अन्दर उत्पादक कार्यों को प्रत्यक्ष अथवा अप्रत्यक्ष रूप से बढ़ावा देते हैं । इसलिए उत्पादक आर्थिक सहायता जैसे कि उर्वरकों, कोयला और रेलवे के लिए दी जाने वाली आर्थिक सहायता तथा निर्यात संवर्धन और बाजार विकास के लिए दी जाने वाली सहायता यहां शामिल की जाती है । कृषि, उद्योग, परिवहन तथा संचार और 'अन्य आर्थिक सेवाएं' में और आगे अन्तर्विभाजित आर्थिक कार्यकलाप की किस्म के अनुसार किया जाता है । कृषि में सिंचाई, पशु-पालन, मीन उद्योग, वन पालन,

said of the current expenditure of departmental commercial undertakings (as shown in Account 2 of the Economic Classification) although capital formation by these undertakings is included in the functional classification.

The expenditure of the Central Government have been grouped into four main categories:

1. General Services
2. Social Services
3. Economic Services
4. Unallocable

Category 1 : Category 1 relates to General Services and covers both civil and defence. These expenditures are incurred for the provision of the basic administrative structure of the nation; thus expenses on general administration, tax collection, police, currency and the mint, conduct of external relations, defence and the non-plan provision against natural calamities are shown under this category. It may be noted that the administrative expenditures concerned with the direction and superintendence of the various social and economic activities appear under the relevant functional heads. Where more than one activity is involved (e.g. public works), an attempt has been made to apportion, to the extent possible, the administrative overheads to the various activities.

Category 2 : Category 2 relates to Social Services and is concerned with the provision of basic social amenities to the community. Expenditures on education, medical and public health and other social services are included here. Education covers both general and technical education (e.g. engineering and medical colleges) and also basic research. However, in-service training and applied research have been allocated to the activities concerned. For instance, both atomic and industrial research appear under Industry. The sub-group 'medical and public health' also covers family welfare programmes. The sub-group 'other social services, includes housing, labour welfare and other social welfare schemes, museums, archaeology, public libraries and also expenditures connected with broadcasting and other publicity media. Expenditures provided in the budget for various programmes of employment are also included here. This sub-group also covers such expenditures as the lump-sum provision made in the budget for primary education, slum improvement, rural water supply and rural home sites. The expenditure on nutrition programme for children is also shown here. The relief expenditure for displaced persons are included here.

Category 3 : Category 3 comprises provision for Economic Services and includes all such expenditures as to promote, directly or indirectly, productive activity within the economy. Producer's subsidies such as for fertilisers, coal and railways, as also the assistance for export promotion and market development are, therefore, included here. Further sub-division into agriculture, industry, transport and communications and 'other economic services' is done according to the type of economic activity. Agriculture includes irrigation, animal husbandry, fisheries, forestry,

सहकारिता तथा सामुदायिक तथा सामुदायिक विकास शामिल है । उद्योग में मोटे तौर पर बड़े और छोटे उद्योग, ग्रामोद्योग, विद्युत विकास, खनिज सामग्री का उपयोग तथा व्यापार और निर्यात संवर्धन आते हैं । परिवहन और संचार में रेल, डाक, दूर-संचार, सड़क, पत्तन, नौवहन, नागर विमानन आदि शामिल हैं । 'अन्य आर्थिक सेवाएं' एक अवशिष्ट श्रेणी है जिसमें बहुप्रयोजनी परियोजनाओं पर व्यय और अल्प बचतों में राज्यों के हिस्से जैसी मदें शामिल हैं, राज्यों को आयोजनागत सहायता के लिए केन्द्र द्वारा मंजूर किए गए एकमुश्त अनुदान और ऋण भी इसी श्रेणी में आते हैं, हालांकि इन्हें अलग दिखाया गया है । ये सभी व्यय ऐसे हैं जिनका संबंध आर्थिक कार्यकलापों की एक से अधिक किस्मों से है ।

cooperation and community development. Industry broadly covers both large, small scale and village industries, power development, exploitation of mineral resources and trade and export promotion. Transport and communications include Railways, Posts, Telecummunications, ports, shipping, civil aviation, roads etc. 'Other economic services' is a residual category which includes items like outlays on multipurpose projects, and States' share in small savings. The block grants and loans granted by the Centre to the States for plan assistance, although shown separately, also belong to the same category. All these expenditures are such as are concerned with more than one type of economic activity.

अन्त में, कुछ ऐसी किस्म के व्यय हैं जिनका संबंध विशिष्ट प्रयोजनों के साथ नहीं जोड़ा जा सकता और उनका वर्गीकरण अनावंटनीय श्रेणी के अन्तर्गत किया गया है इसमें शामिल व्यय की मुख्य किस्में हैं-ब्याज अदायगी, पेंशन, खाद्य, खाद्य तेल तथा नियंत्रित कपड़े पर दी जाने वाली उपभोक्ता आर्थिक सहायता तथा राज्य सरकारों को सांविधिक सहायता, अनुदान अर्थोपाय अग्रिम और विशेष ऋण । यद्यपि खपत संबंधी आर्थिक सहायता को रकमें अवांवटनीय मानी गई हैं किन्तु अन्य आर्थिक सहायता की रकमें, जैसे उर्वरक कपास और निर्यात के लिए आर्थिक सहायता सहायता की रकमें संगत कार्य श्रेणियों में आवंटित की गई हैं । अनावंटनीय श्रेणी में विदेशों को रकमों का अन्तरण जैसे नेपाल और भूटान को अनुदान तथा विदेशों को प्रक्रियात्मक ऋण तथा अन्य ऋण आते हैं । जहां तक अन्तर्राष्ट्रीय संगठनों को दिए जाने वाले अभिदानों का संबंध है, यह बात स्पष्ट है कि संयुक्त राष्ट्रसंघ के विशेष स्वास्थ्य संगठन तथा खाद्य और कृषि संगठन को दिए जाने वाले अंशदान उनके अपने-अपने कार्य संबंधी शीर्षकों (जैसे स्वास्थ्य तथा कृषि) के अन्तर्गत आते हैं किन्तु संयुक्त राष्ट्र संघ को अंशदान तथा अन्तर्राष्ट्रीय मुद्रा निधि, अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक आदि को दिए जाने वाले सामान्य सेवाएं के अन्तर्गत दिखाए गए हैं ।

Finally, there are certain types of expenditure which cannot be related to specific purposes and have been grouped under the category "unallocable". The main types of expenditures included here are interest payment, pensions, consumer subsidies (such as on food, edible oils and controlled cloth) and such transfers to the State Governments as statutory grant-in-aid, and special loans. While consumption subsidies have been treated as unallocable, other subsidies such as subsidies for fertilisers, cotton and exports have been allocated to the relevant functional categories. The unallocable category also includes transfer to foreign countries e.g. grants to Nepal and Bhutan, technical credits and other loans to foreign countries. As regards contributions to international organisations, it may be noted that while contributions to such organisations as World Health Organisation and Food and Agricultural Organisation of the United Nations, appear under the respective functional heads (viz. health and agriculture) contribution to the United Nations and also subscription to IMF, IBRD etc., are shown under General Services.

आर्थिक श्रेणियों तथा कार्यों के द्वारा केन्द्रीय सरकार के व्ययों के सम्मिलित वर्गीकरण में, जैसा इस पुस्तिका में बताया गया है, स्तम्भ (कालम) कार्य संबंधी वर्गों के अनुरूप हैं और पंक्तियां उनके आर्थिक स्वरूप को सूचित करती है जिसका आधार आर्थिक वर्गीकरण है । स्तम्भों में अनुसार पढ़ते हुए आर्थिक शीर्षकों के अन्तर्गत प्रत्येक कार्य संबंधी श्रेणी का ब्यौरा देखा जा सकता है, उदाहरण के लिए इससे यह पता चलता है कि प्रत्यक्ष चालू व्यय के रूप में शिक्षा पर कुल कितना व्यय हुआ, अनुदानों, अनुदानों और ऋणों के रूप में कितना व्यय हुआ और पूंजी निर्माण अर्थात् स्कूली इमारतों आदि के रूप में कितना खर्च हुआ । इसी प्रकार पंक्तियों के साथ-साथ पढ़ते हुए यह पता चलता है कि खपत पूंजी पर होने वाले व्यय में से प्रशासनिक सेवाओं के लिए कितना खर्च किया गया । इस प्रकार सम्मिलित वर्गीकरण केन्द्रीय सरकार के कुल व्यय का द्योतक है जिसे, खपत, सकल पूंजी निर्माण, चालू और पूंजीगत वित्तीय निवेशों तथा ऋणों और अग्रिमों की मदों में उसके मुख्य प्रशासनिक, सामाजिक तथा आर्थिक प्रयोजनों के हिसाब से बांट कर दिखाया गया है ।

In the cross-classification of the Central Government expenditure by economic categories and by functions, as presented in this brochure, columns correspond to the functional categories and rows indicate their economic character, as derived from the Economic Classification. Thus reading along columns one may find out the breakdown of each functional category under economic heads; for instance, it would show as to how much of the total expenidutre on education is in the form of direct current expenditure, how much in the form of grants and loans and how much in the form of capital formation i.e. construction of school buildings, etc. Similarly, reading along rows, one may find out as to how much of the expenditure on consumption or capital formation is for administrative services and how much for building up social and economic potential. The cross-classification thus shows the total expenditure of the Central Government as broken down into consumption, gross capital formation, current and capital transfers and financial invesuments and loans and advances and as related to their broad administrative, social and economic purposes.

Key to Budget Documents for 1988-89

वर्ष 1988-89 के
बजट-पत्रों का संक्षिप्त परिचय

वार्षिक वित्तीय विवरण

संविधान के अनुच्छेद 112 के अनुसार प्रत्येक वित्तीय वर्ष के सम्बन्ध में, जो 1 अप्रैल से 31 मार्च तक होता है, भारत सरकार की अनुमानित प्राप्तियों और व्यय का विवरण संसद में प्रस्तुत किया जाता है। *"वार्षिक वित्तीय विवरण"* नामक यह विवरण मुख्य बजट दस्तावेज होता है। वार्षिक वित्तीय विवरण में सरकार की प्राप्तियों और अदायगियों को तीन भागों में, जिनके अनुसार सरकारी लेखे रखे जाते हैं, दिखाया जाता है। ये भाग इस प्रकार हैं :- (i) समेकित निधि (ii) आकस्मिकता निधि और (iii) लोक खाता।

2. सरकार को प्राप्त होने वाले सभी राजस्वों से, सरकार द्वारा लिए जाने वाले उधारों से और उसके द्वारा दिए गए ऋणों की वसूलियों से जो धनराशियां प्राप्त होती हैं वे सब *"समेकित निधि"* में दिखाई जाती हैं। सरकार का सभी खर्च समेकित निधि से किया जाता है और जब तक संसद की स्वीकृति नहीं मिल जाती तब तक इस निधि में से कोई भी रकम खर्च नहीं की जा सकती।

3. कभी-कभी ऐसे अवसर भी आ सकते हैं जब सरकार को संसद की स्वीकृति मिलने के पहले ही कुछ ऐसा बहुत जरूरी खर्च करना पड़ता है जिसका पहले से अन्दाजा नहीं रहता। इस तरह का खर्च *आकस्मिकता निधि* से किया जाता है। यह निधि अग्रदाय के रूप में राष्ट्रपति के पास रहती है। इस प्रकार आकस्मिकता निधि से जो रकम खर्च की जाती है उसके बारे में, बाद में संसद का अनुमोदन ले लिया जाता है और संसद की स्वीकृति से समेकित निधि में से उतनी ही रकम निकाल कर वापस आकस्मिकता निधि में डाल दी जाती है। इस समय, इस निधि के लिए संसद द्वारा निर्धारित कुल राशि 50 करोड़ रुपए है।

4. सरकार की सामान्य प्राप्तियों और व्यय के अतिरिक्त, जिनका सम्बन्ध समेकित निधि से होता है, सरकारी खातों में कुछ अन्य लेनदेनों, जैसे भविष्य निधियों के सम्बन्ध में लेनदेन, अल्प बचत संग्रह, अन्य जमा आदि का हिसाब भी रखा जाता है। सरकार इन लेनदेनों के सम्बन्ध में लगभग बैंकर के रूप में कार्य करती है। इस तरह जो रकमें प्राप्त होती हैं उन्हें *लोक खाते* में दिखाया जाता है और सम्बन्धित संवितरण इसी में से रकम निकाल कर किया जाता है। आम तौर से लोक खाते में दिखाई जाने वाली रकम सरकार की निधियां नहीं होती, क्योंकि इस धनराशि को किसी न किसी समय उन व्यक्तियों या प्राधिकारियों को, जो इसे जमा कराते हैं, वापस देना होता है। इसलिए लोक खाते से अदायगी करने के लिए संसद की स्वीकृति लेना आवश्यक नहीं होता। सरकार की आय का कुछ भाग, कुछ मामलों में, खास-खास कार्यों के लिए, जैसे चीनी विकास के लिए या वाणिज्यिक उपक्रमों में जो मशीनरी आदि पुरानी पड़ गई हो उसके स्थान पर नई मशीनरी लाने आदि के लिए अलग-अलग निधियों में अलग निकाल कर रख लिया जाता है। यह रकम संसद की स्वीकृति लेकर *समेकित निधि* से निकाली जाती है और विशेष कार्यों पर खर्च किए जाने के लिए लोक खाते में जमा रखी जाती है। फिर भी, कार्य-विशेष पर जो खर्च किया जाता है उसे संसद के सम्मुख उसकी स्वीकृति के लिए फिर प्रस्तुत किया जाता है, हालांकि यह रकम निधियों को अन्तरित किए जाने के लिए पहले ही संसद द्वारा निर्धारित की हुई होती है।

5. संविधान के अनुसार, खर्च की कुछ मदें, जैसे राष्ट्रपति की परिलब्धियां, राज्य सभा के सभापति और उप-सभापति तथा लोक सभा के अध्यक्ष और उपाध्यक्ष के वेतन और भत्ते,

उच्चतम न्यायालय के न्यायाधीशों और भारत के नियंत्रक एवं महालेखा परीक्षक के वेतन, भत्ते और पेंशनें, सरकार द्वारा लिए गए उधारों के ब्याज और उनकी वापसी-अदायगियां और अदालती डिक्रियों के सम्बन्ध में की गई अदायगियां, समेकित निधि पर भारित होती हैं। वार्षिक वित्तीय विवरण में समेकित निधि पर भारित खर्च को अलग से दिखाया जाता है।

6. संविधान के अनुसार, बजट में राजस्व खाते के व्यय को अन्य व्यय से अलग दिखाया होता है। इसलिए सरकार का बजट (i) राजस्व बजट और (ii) पूंजी बजट, दो भागों में बंटा होता है।

7. राजस्व बजट में सरकार को राजस्व (कर-राजस्व और अन्य राजस्व) से होने वाली आय तथा इन राजस्वों से किया जाने वाला व्यय दिखाया जाता है। कर-राजस्व में केन्द्र द्वारा लगाए गए करों और अन्य शुल्कों से प्राप्त होने वाली प्राप्तियां शामिल होती हैं। राजस्व प्राप्तियों के जो अनुमान वार्षिक वित्तीय विवरण में दिए जाते हैं उनमें वित्त विधेयक द्वारा लिए गए कर-प्रस्तावों से होने वाली आय शामिल होती है। सरकार की बाकी प्राप्तियों में मुख्य रूप से ब्याज, उसके द्वारा नियोजित पूंजी पर लाभांश, फीस तथा सरकार द्वारा प्रदान की गई सेवाओं की अन्य प्राप्तियां शामिल होती हैं। राजस्व खाते से किया जाने वाला खर्च सामान्य रूप से सरकारी कार्यालयों और विभिन्न सेवाओं के संचालन के लिए, सरकार द्वारा लिए गए ऋणों के ब्याज को चुकाने आदि के लिए होता है। मोटे तौर पर ऐसा सभी व्यय जिससे किसी परिसम्पत्ति का निर्माण नहीं होता, राजस्व से किया जाने वाला व्यय माना जाता है। राज्य सरकारों और अन्य पार्टियों को दिए जाने वाले सभी अनुदान भी राजस्व व्यय के अन्तर्गत आते हैं।

8. पूंजी बजट में पूंजीगत प्राप्तियां और भुगतान शामिल हैं। पूंजीगत प्राप्तियों की मुख्य मदें ये हैं :- सरकार द्वारा जनता से लिए गए उधार जिन्हें बाजार उधार कहा जाता है, राजकोषीय हुंडियों की बिक्री के जरिए सरकार द्वारा रिजर्व बैंक और अन्य पक्षों से लिए जाने वाले उधार, विदेशी सरकारों और संस्थाओं से प्राप्त उधार और राज्यों तथा संघ राज्य क्षेत्रों की सरकारों और अन्य पक्षों को केन्द्रीय सरकार द्वारा दिए गए उधार की वसूली से होने वाली वसूलियां। पूंजीगत भुगतान में ये मदें शामिल होती हैं-जमीन, इमारतों, मशीनों, उपकरणों जैसी परिसम्पत्तियों की प्राप्ति पर किया जाने वाला पूंजी व्यय और शेयरों आदि में लगाई जाने वाली पूंजी और राज्यों और संघ राज्य क्षेत्रों की सरकारों, सरकारी कंपनियों, निगमों और अन्य पार्टियों आदि को केन्द्रीय सरकार द्वारा दिए जाने वाले उधार और अग्रिम। पूंजी बजट में लोक खाते के लेनदेन भी शामिल होते हैं।

बजट का सार

9. बजट का सार नामक पुस्तक में, मोटे तौर पर कर-राजस्व और अन्य प्राप्तियों के ब्यौरे के साथ-साथ, संक्षिप्त रूप में प्राप्तियों और भुगतानों का विवरण दिया गया है। इस पुस्तक में मोटे तौर पर आयोजना और आयोजना-भिन्न व्यय, आयोजना परिव्यय के क्षेत्रवार आवंटन और केन्द्रीय सरकार द्वारा राज्य सरकारों और संघ राज्य क्षेत्रों की सरकारों को अन्तरित किए गए साधनों का ब्यौरा भी दिया गया है।

वित्त विधेयक

10. सरकार द्वारा लगाए जाने वाले नए करों के प्रस्ताव, वर्तमान करों में किए जाने वाले संशोधनों के प्रस्ताव या संसद द्वारा स्वीकृत अवधि के बाद किसी वर्तमान कर को जारी रखने के प्रस्ताव वित्त विधेयक के जरिए संसद में प्रस्तुत किए जाते हैं।

11. वित्त विधेयक में किए गए कर-प्रस्तावों को आसानी से समझने के लिए विधेयक के उपबन्धों की व्याख्या वित्त विधेयक के उपबन्धों का स्पष्टीकरणात्मक ज्ञापन नामक पुस्तक में दी गई है।

प्राप्ति बजट

12. *"वार्षिक वित्तीय विवरण"* में शामिल प्राप्तियों के अनुमानों का और आगे विश्लेषण *"प्राप्ति बजट"* नामक पुस्तक में किया गया है। इस पुस्तक में राजस्व प्राप्तियों और पूंजी प्राप्तियों का ब्योरा दिया जाता है और अनुमानों को स्पष्ट किया जाता है। प्राप्तियों की पिछले वर्षों की प्रवृत्तियों और प्राप्त हुई विदेशी सहायता का ब्योरा भी इसमें दिया जाता है।

व्यय बजट, खंड I

13. व्यय बजट, खंड I में राजस्व तथा पूंजी संवितरणों का ब्योरा तथा इनमें से प्रत्येक के सम्बन्ध में 'आयोजना' और 'आयोजना-भिन्न' के अन्तर्गत अनुमानों की जानकारी दी गई है तथा दोनों के अनुमानों में हुई घट-बढ़ के कारण बताए गए हैं। इसमें विभिन्न प्रकार के व्यय का विश्लेषण भी किया जाता है।

14. लेखा तथा बजट संबंधी वर्तमान प्रणाली के अन्तर्गत कुछ एक प्रकार की प्राप्तियों को जैसे एक विभाग द्वारा दूसरे विभाग को की गई अदायगी और पूंजी परियोजनाओं या योजनाओं से होने वाली आय को उस विभाग के खर्च में से जिसे यह रकम मिलेगी, घटा दिया जाता है। वार्षिक वित्तीय विवरण में दिए गए अनुमान, जैसा कि लेखाओं से पता चलता है, निवल व्यय के अनुमान होते हैं, अर्थात् इसमें से वसूलियों को घटा दिया जाता है। अनुदानों की मांगों में व्यय के जो अनुमान दिए गए हैं वे सकल व्यय के अनुमान हैं। अलग-अलग अनुबंधों में, सरकार द्वारा दी गई गारंटियां, जो पिछले दिसम्बर के अन्त तक बकाया थी, तथा अन्तर्राष्ट्रीय निकायों को किए गए वितरण दिखाए गए हैं।

अनुदानों की मांगें

15. वार्षिक वित्तीय विवरण में समेकित निधि से किए जाने वाले व्यय के अनुमान दिए गए हैं। ये अनुमान संविधान के अनुच्छेद 113 के अनुसरण में अनुदानों की मांगों के रूप में प्रस्तुत किए जाते हैं और इनकी स्वीकृति लोक सभा से लेनी होती है। सामान्यतः, प्रत्येक मंत्रालय अथवा विभाग के सम्बन्ध में एक मांग प्रस्तुत की जाती है। लेकिन बड़े मंत्रालयों या विभागों के सम्बन्ध में एक से अधिक मांगें प्रस्तुत की जाती हैं। प्रायः प्रत्येक मांग में एक सेवा के लिए कुल आवश्यक व्यवस्था दी गई होती है अर्थात् इसमें राजस्व से किया जाने वाला व्यय, पूंजी व्यय, राज्यों और संघ राज्य क्षेत्रों की सरकारों को दिए जाने वाले अनुदान और उस सेवा के सम्बन्ध में उधारों और अग्रिमों के लिए की गई व्यवस्था शामिल होती है। विधानमंडल रहित संघ राज्य क्षेत्रों के संबंध में ऐसे प्रत्येक संघ राज्य क्षेत्र के लिए एक अलग मांग पेश की जाती है। जिन मामलों में किसी सेवा से संबद्ध व्यवस्था पूर्ण रूप से समेकित निधि पर भारित व्यय के लिए होती है, जैसे ब्याज की अदायगियां, तो उस व्यय के लिए, मांग से बिल्कुल भिन्न, एक अलग विनियोग प्रस्तुत किया जाता है और उसके लिए संसद से स्वीकृति लेने की आवश्यकता नहीं होती। किन्तु किसी ऐसे सेवा व्यय के मामले में, जिसमें स्वीकृत एवं भारित दोनों मदें शामिल हों, तो उस सेवा के लिए प्रस्तुत की जाने वाली मांग में भारित व्यय भी शामिल कर लिया जाता है लेकिन *स्वीकृत और भारित* व्यवस्थाएं उस मांग में अलग-अलग दिखाई जाती हैं।

16. अनुदानों की मांगें वार्षिक वित्तीय विवरण के साथ लोक सभा में प्रस्तुत की जाती हैं। प्रत्येक मांग में ऊपर की ओर पहले 'स्वीकृत' और 'भारित' व्यय तथा साथ ही मांग में सम्मिलित 'राजस्व' और 'पूंजी' व्यय के अलग-अलग जोड़ दिखाए जाते हैं। इसके अलावा जिस खर्च के लिए मांग प्रस्तुत की जाती है उसका कुल जोड़ भी इसमें दिखाया जाता है। इसके बाद विभिन्न मुख्य लेखा शीर्षों के अन्तर्गत व्यय के अनुमान दिए जाते हैं। प्रत्येक मुख्य शीर्ष के अन्तर्गत व्यय का आयोजना और आयोजना-भिन्न विभाजन भी दिखाया जाता है। खातों में व्यय में

के घटाई गई वस्तुएं भी दिखाई जाती हैं। पुस्तक के प्रारम्भ में अनुदानों की मांगों का सारांश दिया जाता है तथा इसके अंत में "नई सेवा" अथवा "नई सेवा के साधनों" जैसे कि नई कम्पनी, उपक्रम का निर्माण, अथवा नई योजना का शुरू किया जाना आदि का विवरण भी दिया जाता है।

व्यय बजट, खण्ड-II

17. अनुदानों की मांगों में शामिल प्रस्तावित व्यय के उद्देश्यों को समझने के लिए, मांगों में शामिल प्रमुख कार्यक्रमों के व्यय की विभिन्न मदों और चालू वर्ष के मूल बजट अनुमानों और संशोधित बजट अनुमानों के बीच अन्तर के कारण और बजट वर्ष की आवश्यकताएं इस पुस्तक में दी गई हैं।

18. अनुदानों की मांगों के बाद, अनुदानों की ब्यौरेवार मांगें लोक-सभा पटल पर बजट के प्रस्तुत किए जाने के कुछ समय बाद, लेकिन अनुदानों की मांगों पर बहस शुरू होने से पहले रखी जाती हैं। अनुदानों की इन ब्यौरेवार मांगों में अनुदानों की मांगों में प्रस्तुत धनराशि का और आगे ब्यौरा तथा पिछले के वर्ष का वास्तविक व्यय भी दिखाया जाता है। इन मांगों में सामान्यतः प्रत्येक कार्यक्रम / संगठन से संबंधित अनुमानों का ब्यौरा वहां-कहीं यह रकम 10 लाख रुपए से कम की नहीं होती, कई ब्यौरेवार शीर्षों के अन्तर्गत दिया जाता है जिससे उस कार्यक्रम पर किए गए व्यय की किस्म और स्वरूप का, जैसे वेतन, मजदूरी, यात्रा-व्यय, खरीदी और उपकरण, सहायता-अनुदान आदि का पता चलता है। इन ब्यौरेवार मांगों के अन्त में वसूलियों का ब्यौरा दिया जाता है जिन्हें व्यय में से घटा कर खाती में दिखाया जाता है। प्रमुख कार्यक्रमों और योजनाओं के भौतिक और वित्तीय पहलू कार्य-निष्पादन बजटों में दिए गए हैं जो मंत्रालयों / विभागों द्वारा बजट में अलग से प्रस्तुत किए जाएंगे।

सेवाओं का वर्गीकरण II

19. वार्षिक वित्तीय विवरण में प्राप्तियों और भुगतानों के अनुमान तथा अनुदानों की मांगों में व्यय के अनुमान सेवाओं के वर्गीकरण की उसी पद्धति के अनुसार दिखाए जाते हैं जो संविधान के अनुच्छेद 150 के अन्तर्गत विहित है। इस वर्गीकरण का उद्देश्य संसद और जनता को यह समझने में सहायता देना है कि प्रत्येक कार्यक्रम के लिए किसकी धनराशि निर्धारित किया गया है और इस तरह खर्च करने में सरकार के उद्देश्य क्या हैं। सेवा शीर्षों के वर्गीकरण को पहली अप्रैल, 1987 से संशोधित किया गया था, ताकि यह आयोजना के विकास-शीर्षों के अनुरूप हो।

राज्यों को अन्तरित साधन

20. राज्य सरकारों को विभिन्न आयोजना और आयोजना-भिन्न योजनाओं के लिए अनुदान और उधार दिए जाते हैं। इसके अलावा, केन्द्रीय सरकार द्वारा आय-कर, संघ उत्पाद-शुल्कों और संपदा-शुल्क के रूप में संग्रहीत कर-राजस्व की काफी बड़ी राशि भी राज्य सरकारों को दी जाती है। कुछ राज्यों की वित्त आयोग की सिफारिशों के अनुसार उनके राजस्व साधनों की कमी को पूरा करने के लिए अनुदान भी दिए जाते हैं। राज्यों और संघ राज्य क्षेत्रों को अन्तरित कुल साधनों की जानकारी "बजट का सार" नामक पुस्तक में एक विवरण में दी गई है। करों, सहायता अनुदानों और उधारों के रूप में राज्यों और संघ राज्य क्षेत्रों को दी जाने वाली राशियों का और अधिक ब्यौरा व्यय बजट, खंड-I में दिया गया है। संघ उत्पाद-शुल्कों का हिस्सा और अधिकांश अनुदान तथा उधार वित्त मंत्रालय द्वारा दिए जाते हैं और यह इस मंत्रालय द्वारा प्रस्तुत की जाने वाली "राज्य सरकारों को अन्तरण" नामक मांग में शामिल किए जाते हैं। जो अनुदान और उधार अन्य मंत्रालयों द्वारा दिए जाते हैं, उन्हें उन मंत्रालयों की मांगों में दिखाया जाता है।

आयोजना परिव्यय

21. केन्द्रीय सरकार के कुल व्यय में आयोजना व्यय का अनुपात काफी अधिक होता है। विभिन्न मंत्रालयों की अनुदानों की मांगों में, प्रत्येक शीर्ष के अन्तर्गत आयोजना व्यय को आयोजना-भिन्न व्यय से अलग दिखाया जाता है। व्यय बजट, खण्ड-1 में प्रत्येक मंत्रालय के कुल आयोजना खर्च को विभिन्न विकास शीर्षों के अन्तर्गत दिखाया गया है और आयोजना के अधिक महत्वपूर्ण कार्यक्रमों और योजनाओं के लिए बजट में की गई खर्च की व्यवस्था को स्पष्ट करके दिखाया गया है। आयोजना में सम्मिलित महत्वपूर्ण योजनाओं का विवरण, प्रत्येक मंत्रालय के कार्य-निष्पादन बजट में दिया जाता है जिसमें योजनाओं के उद्देश्यों, लक्ष्यों और उपलब्धियों की जानकारी दी जाती है। आयोजना खर्च के अनुमानों में भिन्नताओं के बारे में भी इस पुस्तक में उल्लेख किया गया है।

कार्य-निष्पादन बजट

22. कार्य-निष्पादन बजट विकास संबंधी कार्य कर रहे सभी मंत्रालयों/विभागों द्वारा तैयार किए जाते हैं और उन्हें बजट के दस्तावेजों में परिचालित किया जाता है। निष्पादन बजट, मंत्रालय/विभाग के बजट को कार्यों, कार्यक्रमों और गतिविधियों के रूप में मंत्रालय/विभाग का बजट प्रस्तुत करता है और 100 करोड़ रुपए या अधिक की अनुमानित लागत वाली केन्द्रीय क्षेत्र की बड़ी परियोजनाओं / कार्यक्रमों के सम्बन्ध में अलग से मूल्यांकन रिपोर्ट देता है। इसमें मंत्रालय / विभाग के अधीनस्थ सरकारी क्षेत्र के विभिन्न उपक्रमों के कार्यकलापों और उनके द्वारा सम्पन्न कार्य का विवरण दिया जाता है, जिसमें अन्य बातों के साथ-साथ, क्षमताएं और उपयोग की गई क्षमता, भौतिक लक्ष्य और उपलब्धियां, कार्यचालन के परिणाम और पूंजी पर होने वाली आय आदि का ब्योरा दिया जाता है। कार्य-निष्पादन बजट, विकास कार्यक्रम के कार्यान्वयन में सम्बन्धित पक्षों के लिए जवाबदेही और वित्तीय नियंत्रण के साधन के रूप में काम करता है।

सरकारी क्षेत्र के उपक्रम

23. केन्द्रीय सरकार द्वारा किए जाने वाले आयोजना-व्यय का अधिकांश सरकारी क्षेत्र के उपक्रमों पर खर्च होता है। सरकार द्वारा इन उपक्रमों के परिव्यय की वित्त-व्यवस्था के लिए इनकी शेयर पूंजी में अंश लगाकर या उन्हें उधार देकर बजटीय सहायता दी जाती है। व्यय बजट, खंड I में, सरकारी क्षेत्र के उपक्रमों को सहायता और बजट वर्ष में आयोजना और आयोजना-भिन्न प्रयोजनों के लिए दी गई पूंजी और दिए गए उधारों के अनुमानों और इन उपक्रमों की अपनी आयोजनाओं के वित्तपोषण के लिए उपलब्ध बजट-बाह्य साधनों का ब्योरा दिया गया है। सरकारी क्षेत्र के उपक्रमों के कार्य की विस्तृत रिपोर्ट, "सरकारी उपक्रम समीक्षा" नामक पुस्तक में दी गई है, जो उद्योग मंत्रालय द्वारा अलग से प्रकाशित की जाती है। विभिन्न मंत्रालयों के नियंत्रण में काम कर रहे विभिन्न उपक्रमों के कार्य का विवरण इन मंत्रालयों की वार्षिक रिपोर्ट में भी दिया जाता है जो संसद सदस्यों में बाद में वितरित की जाएंगी। प्रत्येक सरकारी कम्पनी की वार्षिक रिपोर्ट भी, परीक्षित लेखाओं सहित, संसद में अलग से प्रस्तुत की जाती है। इसके अलावा, सरकारी क्षेत्र के विभिन्न उपक्रमों के कार्य के बारे में, भारत के नियंत्रक एवं महालेखा परीक्षक की रिपोर्ट भी संसद में प्रस्तुत की जाती है।

24. रेलवे और दूर-संचार सेवाएं सरकार द्वारा विभागीय रूप से चलाए जाने वाले प्रमुख वाणिज्यिक उपक्रम हैं। रेलवे का बजट और रेल व्यय से संबंधित अनुदानों की मांगें संसद को अलग से प्रस्तुत की जाती हैं। लेकिन, रेलवे की कुल प्राप्तियों और व्यय को भारत सरकार के वार्षिक वित्तीय विवरण में शामिल किया जाता है। दूर-संचार विभाग की अनुदानों की मांगें केन्द्रीय सरकार की अन्य अनुदानों की मांगों के साथ प्रस्तुत की जाती हैं।

25. वार्षिक वित्तीय विवरण में रक्षा विभाग का जो आय-व्यय दिखाया जाता है उसका अपेक्षाकृत अधिक व्यापक ब्योरा "रक्षा सेवाओं के अनुमान" नामक पुस्तक में दिया जाता है, जो रक्षा मंत्रालय की अनुदानों की ब्योरेवार मांगों के साथ प्रस्तुत की जाती है ।

26. राज्यों और संघ राज्य क्षेत्रों की सरकारों से भिन्न निकायों को दिए जाने वाले अनुदानों का ब्यौरा, गैर-सरकारी निकायों को अदा किए जाने वाले सहायता-अनुदानों के विवरण में दिया जाता है जो विभिन्न मंत्रालयों की अनुदानों की ब्योरेवार मांगों के साथ संलग्न होता है । व्यय बजट के खण्ड I के अनुबन्ध 6 में 5 लाख रुपए (आवर्ती) अथवा 10 लाख रुपए (अनावर्ती) से अधिक के उन सहायता-अनुदानों का विवरण दिया गया है जो गैर-सरकारी संस्थाओं,संगठनों और व्यक्तियों को 1986-87 में मंजूर किए गए थे।

27. प्रत्येक मंत्रालय / विभाग के वर्ष 1987-88 के कार्यों का विस्तृत ब्योरा उसकी वार्षिक रिपोर्ट,1987-88 में दिया गया है, जो अलग से प्रत्येक मंत्रालय/विभाग द्वारा प्रकाशित की जाती है । इसकी प्रतियां अनुदानों की मांगों पर बहस के समय संसद के सदस्यों में वितरित की जाती हैं ।

आर्थिक समीक्षा

28. केन्द्रीय सरकार का बजट उसकी प्राप्तियों और व्यय का विवरण मात्र नहीं होता है । स्वतंत्रता के बाद से जब से पंचवर्षीय आयोजनाएं शुरू की गई हैं, यह सरकारी नीतियों का एक महत्वपूर्ण विवरण भी बन गया है । बजट देश के आर्थिक जीवन की झांकी प्रस्तुत करता है और देश के आर्थिक जीवन को ढालता है तथा स्वयं उस आर्थिक जीवन के अनुसार स्वरूप ग्रहण करता है । 1987-88 के दौरान देश की आर्थिक स्थिति की पृष्ठभूमि की जानकारी प्राप्त होने से, बजट में जुटाए गए साधनों और उनके आवंटन को अधिक अच्छी तरह समझने में सहायता मिलेगी । यह जानकारी आर्थिक समीक्षा, 1987-88 नामक पुस्तक में दी गई है । इसे संसद के सदस्यों में पहले वितरित किया जा चुका है । आर्थिक समीक्षा में, कृषि उत्पादन और औद्योगिक उत्पादन, मुद्रा उपलब्धि, कीमतों, आयात और निर्यात तथा अन्य जरूरी आर्थिक तथ्यों का, जिनका बजट से सम्बन्ध होता है, विश्लेषण किया गया है ।

29. सरकार के बजट का समूची अर्थव्यवस्था पर प्रभाव पड़ता है । सरकारी प्राप्तियों और व्यय का अर्थव्यवस्था के अन्य क्षेत्रों पर जो प्रभाव पड़ता है, उसके अधिक सही मूल्यांकन के लिए यह जरूरी है कि उन्हें आर्थिक महत्व एवं परिमाण के आधार पर वर्गीकृत किया जाए । उदाहरणार्थ, पूंजी निर्माण के लिए कितनी रकम अलग रखी गई है, सरकार द्वारा कितनी रकम प्रत्यक्ष रूप से खर्च की गई है और सरकार द्वारा कितनी रकम का अन्तरण अनुदानों, उधारों आदि के रूप में, अर्थव्यवस्था के अन्य क्षेत्रों को किया गया है । यह विश्लेषण *केन्द्रीय सरकार के बजट का आर्थिक और कार्य संबंधी वर्गीकरण* नामक पुस्तक में दिया जाता है जो वित्त मंत्रालय द्वारा अलग से प्रकाशित की जाती है ।

विनियोग विधेयक

30. लोक सभा द्वारा अनुदानों की मांगों को स्वीकार किए जाने के बाद, इस प्रकार स्वीकृत रकमों को और समेकित निधि पर भारित व्यय को पूरा करने के लिए आवश्यक रकम को समेकित निधि से निकालने के लिए विनियोग विधेयक के जरिए संसद का अनुमोदन मांगा जाता है । संविधान के अनुच्छेद 114(3) के अनुसार समेकित निधि से कोई भी रकम संसद द्वारा इस सम्बन्ध में ऐसा कानून बनाए बिना नहीं निकाली जा सकती ।

31. अनुदानों की मांगों पर विस्तृत विचार करने का कार्य प्रायः मई के प्रथम सप्ताह में ही पूरा हो पाता है । पहली अप्रैल से "विनियोग विधेयक" के अधिनियमित हो जाने तक, विनियोग (लेखानुदान) विधेयक के जरिए संसद से लेखानुदान प्राप्त कर लिया जाता है ताकि इस अर्से में सरकार अपना सामान्य कार्य चला सके ।

KEY TO THE

BUDGET DOCUMENTS 1988-89

Annual Financial Statement

Under article 112 of the Constitution, a statement of estimated receipts and expenditure of the Government of India has to be laid before Parliament in respect of every financial year which runs from 1st April to 31st March. This statement titled "*Annual Financial Statement* " is the main Budget document. The Annual Financial Statement shows the receipts and payments of Government under the three parts in which Government accounts are kept: (i) Consolidated Fund, (ii) Contingency Fund, and (iii) Public Account.

2. All revenues received by Government, loans raised by it, and also its receipts from recoveries of loans granted by it form the *Consolidated Fund* . All expenditure of Government is incurred from the Consolidated Fund and no amount can be withdrawn from the Fund without authorisation from Parliament.

3. Occasions may arise when Government may have to meet urgent unforeseen expenditure pending authorisation from Parliament. The *Contingency Fund* is an imprest placed at the disposal of the President to incur such expenditure. Parliamentary approval for such expenditure and for withdrawal of an equivalent amount from the Consolidated Fund is subsequently obtained and the amount spent from Contingency Fund is recouped to the Fund. The corpus of the Fund authorised by the Parliament, at present, is Rs.50 crores.

4. Besides the normal receipts and expenditure of Government which relate to the Consolidated Fund, certain other transactions enter Government accounts, in respect of which Government acts more as a banker, for example, transactions relating to provident funds, small savings collections, other deposits etc. The moneys thus received are kept in the *Public Account* and the connected disbursements are also made therefrom. Generally speaking, Public Account funds do not belong

to Government and have to be paid back some time or the other to the persons and authorities who deposited them. Parliamentary authorisation for payments from the *Public Account* is, therefore, not required. In a few cases, a part of the revenue of Government is set apart in separate funds for expenditure on specific objects like sugar development, replacement of depreciated assets of commercial undertakings etc. These amounts are withdrawn from the *Consolidated Fund* with the approval of Parliament and kept in the *Public Account* for expenditure on the specific objects. The actual expenditure on the specific objects is, however, again submitted for vote of Parliament even though the moneys have already been earmarked by Parliament for transfer to the funds.

5. Under the Constitution, certain items of expenditure like emoluments of the President, salaries and allowances of the Chairman and the Deputy Chairman of the Rajya Sabha and the Speaker and the Deputy Speaker of the Lok Sabha, salaries, allowances and pensions of Judges of the Supreme Court and the Comptroller and Auditor General of India, interest on and repayment of loans raised by Government and payments made to satisfy decrees of courts etc. are charged on the *Consolidated Fund*. The Annual Financial Statement shows the expenditure *charged* on the *Consolidated Fund* separately.

6. Under the Constitution, Budget has to distinguish expenditure on revenue account from other expenditure. Government Budget, therefore, comprises (i) Revenue Budget and (ii) Capital Budget.

7. *Revenue Budget* consists of the revenue receipts of Government (tax revenues and other revenues) and the expenditure met from these revenues. Tax revenues comprise proceeds of taxes and other duties levied by the Union. The estimates of revenue receipts shown in the Annual Financial Statement take into account the effect of the taxation proposals made in the Finance Bill. Other receipts of Government mainly consist of interest and dividend on investments made by Government, fees, and other receipts for services rendered by Government. Revenue expenditure is for the normal running of Government departments and various services, interest charges on debt incurred by Government etc. Broadly speaking, expenditure which does not result in creation of assets is treated as revenue expenditure. All grants given to State Governments and other parties are also treated as revenue expenditure.

8. *Capital Budget* consists of capital receipts and payments. The main items of capital receipts are loans raised by Government from

public which are called Market Loans, borrowings by Government from Reserve Bank and other parties through sale of Treasury Bills, loans received from foreign Governments and bodies, and recoveries of loans granted by Central Government to State and Union territory Governments and other parties. Capital payments consist of capital expenditure on acquisition of assets like land, buildings, machinery, equipment, as also investments in shares etc. and loans and advances granted by Central Government to State and Union territory Governments, Government companies, corporations and other parties. Capital Budget also incorporates transactions in the Public Account.

Budget at a Glance

9. The document Budget at a Glance shows in brief receipts and disbursements along with broad details of tax revenues and other receipts. This document also exhibits broad break-up of expenditure - Plan and non-Plan, allocation of Plan Outlays by Sectors as well as by Ministries/Departments and details of resources transferred by the Central Government to State and Union territory Governments.

Finance Bill

10. The proposals of Government for levy of new taxes, modification of the existing tax structure or continuance of the existing tax structure beyond the period approved by Parliament are submitted to Parliament through the *Finance Bill* .

11. To facilitate understanding of the taxation proposals made in the Finance Bill, the provisions of the Bill are explained in the document titled Memorandum explaining the provisions in the *Finance Bill* .

Receipts Budget

12. Estimates of receipts included in the "*Annual Financial Statement* " are further analysed in the Document *"Receipts Budget"* . The document gives details of revenue receipts and capital receipts and explains the estimates. Trend of receipts over the years and details of External Assistance received are also included.

Expenditure Budget Vol. I

13. *Expenditure Budget Vol. I* deals with revenue and capital disbursements and gives the estimates in respect of each under 'Plan' and 'Non Plan' and explains the variations in the estimates of both. This also gives analysis of various types of expenditure.

14. Under the present accounting and budgetary procedures, certain classes of receipts, like payments made by one department to another and receipts of capital projects or schemes are taken in reduction of the expenditure of the receiving department. The estimates of expenditure included in the Annual Financial Statement are for the net expenditure as will be reflected in the accounts, that is, after taking into account the recoveries. The estimates of expenditure included in the Demands for Grants are, however, for the gross amounts. In separate annexures guarantees given by Central Government and outstanding as at the end of December last and distributions to International bodies are shown.

Demands for Grants

15. The estimates of expenditure from the *Consolidated Fund* included in the Annual Financial Statement and required to be voted by the Lok Sabha are submitted in the form of *Demands for Grants* in pursuance of article 113 of the Constitution. Generally, one Demand for Grant is presented in respect of each Ministry or Department. However, in respect of large Ministries or Departments more than one Demand is presented. Each Demand normally includes the total provisions required for a service, that is, provisions on account of revenue expenditure, capital expenditure, grants to State and Union territory Governments and also loans and advances relating to the service. In regard to Union territories without Legislature, a separate Demand is presented for each of the Union territories. Where the provision for a service is entirely for expenditure *charged* on the Consolidated Fund, for example, interest payments, a separate *Appropriation* , as distinct from a Demand, is presented for that expenditure and it is not required to be voted by Parliament. Where, however, expenditure on a service includes both *'voted' and 'charged'* items of expenditure, the latter are also included in the Demand presented for that service but the *'voted'* and *'charged'* provisions are shown separately in that Demand.

16. The Demands for Grants are presented to the Lok Sabha along with the Annual Financial Statement. Each Demand first gives the totals of *'voted' and 'charged'* expenditure as also the 'revenue' and 'capital' expenditure included in the Demand separately and also the grand total of the amount of expenditure for which Demand is presented. This is followed by the estimates of expenditure under different major heads of account. The break up of the expenditure under each major head between 'Plan' and 'non-Plan' is also given. The amounts of recoveries taken in reduction of expenditure in the accounts are also shown. A summary of Demands for Grants is given at the beginning of this Document, while

details of 'New Service' or ' New Instrument of Service' such as formation of a new company, undertaking a new scheme etc. if any, are indicated at the end of the document.

Expenditure Budget Vol. II

17. To understand the objectives underlying the expenditure proposed in the *Demands for Grants* a brief description of the various items of expenditure on major programmes included in the Demands together with the reasons for variation between the original budget and revised budget for the current year, and the requirements for the budget year are given in this volume.

18. The Demands for Grants are followed by the *Detailed Demands for Grants* laid on the table of the Lok Sabha some time after the presentation of the Budget, but before the discussion on Demands for Grants commences. These Detailed Demands for Grants show further details of the provisions included in the Demands for Grants as also of actual expenditure during the previous year. A break up of the estimates relating to each programme/organisation, wherever the amount involved is not less than Rs.10 lakhs, is given under a number of detailed heads which indicate the categories and nature of expenditure incurred on that programme, like salaries, wages, travel expenses, material and equipment, grants-in-aid, etc. At the end of these Detailed Demands are shown the details of recoveries taken in reduction of expenditure in the accounts. Physical and financial aspects of major programmes and schemes are included in the *Performance Budgets* presented to Parliament separately by the Ministries/Departments.

Accounting classification

19. The estimates of receipts and disbursements in the Annual Financial Statement and of expenditure in the Demands for Grants are shown according to the accounting classification prescribed under article 150 of the Constitution. This classification is intended to allow Parliament and the public to make a meaningful appreciation of allocation of resources and purposes of Government expenditure. The accounting classification was revised from 1st April, 1987, to bring about correspondence with plan heads of development.

Resources transferred to States

20. The State Governments are paid grants and loans for various Plan and non-Plan schemes. Besides, sizeable amounts of tax revenues

collected by the Central Government in the form of income-tax, union excise duties and estate duty are also transferred to the State Governments. Some of the States also get grants to cover the gap in their revenue resources, as recommended by the Finance Commission. The total resources transferred to State and Union Territory Governments are indicated in a statement incorporated in the document *Budget at a Glance*. Further details of these transfers by way of share of taxes, grants-in-aid and loans are given in *Expenditure Budget Vol.1* . The share of Union excise duties and bulk of the grants and loans are paid by the Ministry of Finance and are included in the Demand "Transfers to State Governments" presented on its behalf. The grants and loans paid by other Ministries are provided for in the Demands of respective Ministries.

Plan Outlay

21. Plan expenditure forms a sizeable proportion of the total expenditure of the Central Government. The *Demands for Grants* of the various Ministries show the Plan expenditure under each head separately from the non-Plan expenditure. The Expenditure Budget Vol. 1 also gives the total Plan provisions for each of the Ministries arranged under the various heads of development and highlights the budget provisions for the more important Plan programmes and schemes. A description of important schemes included in the Plan along with the objectives, targets and achievements is given in the *Performance Budget* of the respective Ministry. Variations in the estimates of Plan expenditure are also explained in this document.

Performance Budget

22. *Performance Budgets* are prepared and circulated to Members of Parliament by all Ministries/Departments dealing with developmental activities. The Performance Budget presents the budget of the Ministry/Department in terms of functions, programmes and activities and gives appraisal reports separately in respect of major central sector projects/programmes estimated to cost Rs.100 crores or more. It also includes a statement on the programmes and performance of the various public sector undertakings under the Ministry/Department indicating, among other things, the capacity installed and utilised, physical targets and achievements, results of operation, return on capital etc. Performance Budget serves the management as a tool of administrative and financial control in the implementation of development programmes.

Public Sector Enterprises

23. A large part of the Plan expenditure incurred by the Central Government is through public sector enterprises. Budgetary support for

financing outlays of these enterprises is provided by Government either through investment in share capital or through loans. *Expenditure Budget Vol. I* shows the estimates of capital and loans disbursements to public sector enterprises in the current and the Budget years for Plan and Non-Plan purposes and also the extra budgetary resources available for financing their Plans. A detailed report on the working of public sector enterprises is given in the document titled *'Public Enterprises Survey '* brought out separately by the Ministry of Industry. A report on the working of the enterprises under the control of the various administrative Ministries is also given in the Annual Reports of the various Ministries circulated to Members of Parliament separately. The annual reports along with the audited accounts of each of the Government companies are also separately laid before Parliament. Besides, the reports of the Comptroller and Auditor-General of India on the working of various public sector enterprises are also laid before Parliament.

24. The Railways and Telecommunication services are the principal departmentally-run commercial undertakings of Government. The Budget of the Railways and the Demands for Grants relating to Railway expenditure are presented to Parliament separately. However, the total receipts and expenditure of the Railways are incorporated in the Annual Financial Statement of the Government of India. The Demands for Grants of the Department of Telecommunications are presented along with other Demands of the Central Government.

25. The receipts and expenditure of the Defence Department shown in the Annual Financial Statement are explained in greater detail in the document Defence Services Estimates presented along with the Detailed Demands for Grants of the Ministry of Defence.

26. The details of grants given to bodies other than State and Union territory Governments are given in the statements of Grants-in-aid paid to non-Government bodies appended to Detailed Demands for Grants of the various Ministries. Annexure 6 to Expenditure Budget Vol I shows details of grants-in-aid exceeding Rs.5 lakhs (recurring) or Rs.10 lakhs (non-recurring) to private institutions, organisations and individuals sanctioned during the year 1986-87.

27. A descriptive account of the activities of each Ministry/Department during the year 1987-88 is given in the document *Annual Report* which is brought out separately by each

Ministry/Department and circulated to Members of Parliament at the time of discussion on the Demands for Grants.

Economic Survey

28. The Budget of the Central Government is not merely a statement of receipts and expenditure. Since Independence, with the launching of Five Year Plans, it has also become a significant statement of governmental policy. The Budget reflects and shapes, and is in turn shaped by, the country's economic life. A background of the economic trends in the country during 1987-88 will enable a better appreciation of the mobilisation of resources and their allocation reflected in the Budget. The document Economic Survey 1987-88 circulated to Members of Parliament earlier provides this background. The *Economic Survey* analyses the trends in agricultural and industrial production, money supply, prices, imports and exports and other relevant economic factors having a bearing on the Budget.

29. The Budget of the Government has an impact on the economy as a whole. For a better appreciation of the impact of governmental receipts and expenditure on the other sectors of the economy, it is necessary to group them in terms of economic magnitudes, for example, how much is set aside for capital formation, how much spent directly by the Government and how much is transferred by Government to other sectors of economy by way of grants, loans etc. This analysis is contained in the document *Economic and Functional Classification* of the Central Government Budget which is brought out by the Ministry of Finance separately.

Appropriation Bills

30. After the Demands for Grants are voted by the Lok Sabha, Parliament's approval to the withdrawal from the *Consolidated Fund* of the amounts so voted and of the amount required to meet the expenditure *charged* on the *Consolidated Fund* is sought through the *Appropriation Bill*. Under article 114(3) of the Constitution, no amount can be withdrawn from the Consolidated Fund without the enactment of such a law by Parliament.

31. Normally, the process of detailed consideration of the Demands for Grants is completed only by the first week of May. To enable Government to carry on its normal activities from 1st April till such time as the *Appropriation Bill* is enacted, a Vote on Account is obtained from Parliament through an Appropriation *(Vote on Account)* Bill.

Speech of the Railway Minister introducting the Railway Budget for 1988-89

SPEECH OF SHRI MADHAVRAO SCINDIA INTRODUCING THE RAILWAY BUDGET, 1988-89 ON 24TH FEBRUARY, 1988

MR. SPEAKER,

Sir, I rise to present the Revised Estimates for the year 1987-88 and Budget Estimates for the year 1988-89 for the Indian Railways.

Introduction

2. It was gratifying for us in the Railways to have received continued support and encouragement from Honourable Members from all sections of the House, and ever-increasing co-operation from members of the public. This served to enthuse and inspire Railwaymen to new heights in the year 1986-87, and in the current year 1987-88.

2.1 The best productivity indicator of freight operations, Net Tonne Kilometres per Wagon per Day, which had increased to 1296 (BG), in 1985-86, reached a new high when it touched 1420 in the year 1986-87—an improvement of as much as 10%. 1350 was the target for the terminal year of the 7th Plan. I am happy to say, we have steamed way past this figure three years ahead of time. It has enabled the Indian Railways to retain the position it had achieved last year as a world leader in freight capacity utilisation, leaving behind countries even in the developed world. Members will appreciate the magnitude of the increased freight transport effort when I state that with only a very marginal increase in the wagon fleet, the first two years of the 7th Plan together, have produced an additional 41.1 billion net tonne kilometres. This has surpassed by as much as 56% in these two years alone, the transport increase of 26.2 billion in the entire five year period taken together, of the 6th Plan.

Freight Performance 1986-87

3. In 1986-87, the Railways crossed a new milestone of 300 million tonnes, loading 307 million against a target of 294. This was 21 million tonnes more than in 1985-86.

4. As the House is aware, a major calamity affecting large parts of our country was the unprecedented drought. The Railways took up the challenge, and joining the rest of the nation in the drought management effort of the Government, ensured massive movement of diesel, foodgrains and edible oil to drought-affected areas, meeting the demands in full. Movement of these commodities to the affected areas, during the crucial months, recorded increases of up to 200 per cent over the same month last year.

Drought and Floods

4.1 This was not the only crisis which the Railways faced during the year. The floods that ravaged the Eastern and North Eastern parts of the country, caused extensive 'wash-aways' of long sections of track. The snapped links were restored at commendable speed, and, special efforts mounted, to ensure the flow of essential supplies to the North East region, even during the period of dislocation. I would like to take this opportunity to record my appreciation for the splendid job done by railwaymen, working round the clock.

5. In the current year 1987-88, in spite of having to cater to the urgent needs of the drought situation and contend with the serious dislocations of rail links due to floods, I am happy to inform the House, that the freight performance in the first 10 months, enables me to say with confidence that Indian Railways is poised, for the third year in succession to surpass its annual targets. These had been fixed for the current year at 313 million tonnes of originating traffic (revised to 316) and 223 billion net tonne kilometres.

Freight Performance 1987-88

6. The financial performance has also kept pace with that of freight. The House will recall that while presenting the last Budget, I had estimated that the year 1986-87 was likely to end with a surplus of Rs. 11 crores. The House will be glad to know, that with additional revenue effort and strict financial management, the Railways have instead, after paying full dividend of Rs. 578.85 crores to the General Revenues, ended the year with a surplus of Rs. 101.99 crores. The surplus was largely used for passenger and staff amenity works and on essential operating improvements.

Financial Performance 1986-87

Energy Conservation

7. In order to further absorb a larger part of mounting input costs, efforts are on to economise through even greater efficiency in energy utilisation. Indian Railways, due to their size of operations, are a major consumer of energy. Over one-fifth of the working expenses is accounted for by coal, diesel and electricity. As a result of measures taken, specific fuel consumption in diesel and electric has recorded a drop. Energy conservation committees have been set up in the Railway Board, Zonal Railways, Divisions, Production Units and Workshops, to initiate and oversee conservation measures. Development of designs of lighter weight coaches and wagons, use of rail wheel lubricators, aerodynamic profiling of rolling stock, and manufacture of fuel-efficient locomotives, are some of the long-term measures being pursued. To reduce the capital, operational and maintenance costs in electrification, a new 2×25 KV system is also being considered.

Financial Performance 1987-88

8. Measures to obtain economies have begun to yield desirable results. In the current year 1987-88, the surplus had been assessed at Rs. 69 crores. However, since then various post-budgetary developments have brought the Ordinary Working Expenses under heavy strain. These include throw-forward payments arising out of the Fourth Pay Commission's recommendations, payment of enhanced Productivity Linked Bonus, additional Dearness Allowance due to increase in rates, and increase in prices of coal and steel. These post-budgetary factors will account for an additional net expenditure of Rs. 295 crores under Ordinary Working Expenses, the Revised Estimates for which are placed at Rs. 6045 crores. This amount has been arrived at after taking into account economies exercised during the course of the year. I am, however, glad to say that we intend to fully cover the extra outgo through a greater revenue effort, with the gross traffic receipts rising to Rs. 8474 crores compared to Rs. 8179 crores estimated in the Budget.

8.1 The House may recall that when I had presented a surplus Budget for the year 1987-88, without taking recourse to any tariff hike, a concern had been expressed that the Railways would have to introduce major supplementary fares and freight increases during the course of the year.

Such apprehensions have been proved wrong. The results are now there for the House to see. In spite of the rise in costs due to the post-budgetary factors just mentioned, and after paying full dividend of Rs. 640 crores to General Revenues, the surplus in 1987-88 is likely to be maintained at Rs. 69 crores.

Passenger Services

9. Passenger traffic recorded a significant increase during the last two years. The passenger kilometres carried in the very first two years of the 7th Plan, rose by about 30 billion, compared to a total increase of 28 billion in the entire five year period taken together, of the 6th Plan. Despite the constraint of locomotives, coaches and terminal capacity, the carriage of this additional traffic was made largely possible through improved utilisation of coaches and rationalisation of rake links.

New Services in 1987-88

9.1 In the year 1987-88, we introduced 64 new trains, and increased the frequency of eight existing trains. We recognise the importance of improving train services between the southern parts of our country and the national Capital, both in terms of time and frequency. In pursuit of this objective, we have ensured that the national Capital is connected with the four Southern State capitals of Bangalore, Hyderabad, Madras and Trivandrum by daily superfast express services.

New Services in 1988-89

9.2 It is our constant endeavour, whilst striking a judicious balance between passenger movements and that of freight, to increase passenger services to the maximum extent possible. I am happy to inform the Honourable Members that from the time-table coming into force with effect from 1st May 1988, several new trains will be introduced. These are :

1. A Superfast Express between Nagpur and Bombay (3 days a week).
2. A Superfast Express between Bombay and Varanasi (4 days a week).
3. A daily Express train between Hyderabad and Sirpur Kagaznagar.

4. An Express train between Sambhalpur and Bhubaneswar via Titlagarh (6 days a week).
5. A daily Express train between Lucknow and Kanpur.
6. A daily Express train between Samastipur and Jaynagar.
7. A daily Passenger train between Katni and Chopan.
8. A daily Passenger train between Nizamabad and Parbhani.

9.2.1 The frequency of a number of trains will be increased. These are :

1. 133/134 Ahmadabad-Howrah Express from 4 days a week to daily.
2. 159/160 Durg—Varanasi Sarnath Express from 3 days a week to daily.
3. 59/60 Madras—Hyderabad Charminar Express from 5 days a week to daily.
4. 933/934 Bombay—Lucknow Express from thrice to 4 days a week.
5. 935/936 Bombay—Mangalore, now named Netravati Express, from twice to 3 days a week.
6. 953/954 Mahanadi Express via Jabalpur from thrice to 4 days a week.

9.2.2 The runs of three existing trains will be extended. These are :

1. 147/148 Delhi—Sitapur Express up to Balamau.
2. 141/142 Guna—Ujjain Passenger up to Nagda.
3. 913/914 Bombay—Muzaffarpur Express up to Chhapra.

9.2.3 Honourable Members will also be glad to know that in addition to 36 new suburban trains introduced in Bombay during 1987-88, it has been decided to add another 22 services in the Bombay area. In Calcutta, in addition to the 11 new suburban trains introduced during 1987-88, eight more trains are proposed to be added this year.

9.3 In accordance with the new emphasis on improving the metre gauge system, we have recently introduced air-conditioned sleeper coaches on seven metre gauge trains, in addition to three trains already having this facility. Air-conditioned sleeper coaches are now available on Delhi—Ahmadabad Mail, Pandian Express between Madras and Madurai, Nellai Express between Madras and Tirunelveli, Rock Fort Express between Madras and Tiruchchirappalli, Ashram Express between Delhi and Ahmadabad, Ajanta Express between Kacheguda and Manmad, Nainital Express between Lucknow and Kathgodam, Delhi—Bikaner Mail, Delhi—Jodhpur Mail and Ahmadabad—Jodhpur Superfast Express. It has also been decided that this facility will soon be extended to the Kamrup Express between Guwahati and Dibrugarh.

Air-conditioned Sleeper Coaches on M.G.

9.4 Keeping in view the projections of the future demand of passenger traffic, we feel it is imperative to re-design, upgrade and create additional terminal facilities. However, since this involves large investments, the programme will have to be undertaken in a phased manner. To meet the present, and more importantly, the future requirements, we have decided to establish new passenger terminals at Kurla and Bandra for Bombay, and at Shalimar for Calcutta. Similarly, the terminal facilities at Hazrat Nizamuddin and New Delhi are being expanded for the Delhi area.

Passenger Terminals

9.5 A major step in the area of passenger facilities has been the decision to establish computerised reservation systems at places where the volume is often leading to delay in obtaining reservations and consequent inconvenience. Within the short span of two years, computerised reservation systems have been developed and installed for all trains in Delhi and Calcutta. Reservation facilities have been made even more conveniently available with the provision of satellite offices. Apart from New Delhi Reservation Office, facilities are now available at Parliament House, Sarojini Nagar, Kirti Nagar, Delhi Shahdara, New Delhi, Delhi Main and Hazrat Nizamuddin. One more satellite reservation office is planned in the trans-Jamuna area. Similarly in Calcutta, reservation facilities are now available at Howrah, Sealdah, Old and New Koilaghat, Fairlie Place and Alexander Court.

Computerised Passenger Reservation Systems

Six more centres are planned in different locations in the city. In Bombay, computerised reservations are available at Bombay VT and Bombay Central. It is expected that all trains will be covered by March 1988, with extension terminals also functioning at Churchgate. At Madras, the computerised reservation service has been introduced on a few trains with effect from 2nd October, 1987, a year ahead of schedule.

9.6 Similar projects at Ahmadabad, Bangalore, Bhopal, Lucknow and Secunderabad have been approved.

9.7 While on the subject of computerised passenger reservations, the House may be interested to know that an estimate indicates that for Delhi alone, about 15 million man-hours are saved annually as a result of provision of computerised reservations and satellite offices. If to this is added the saving in transportation cost due to shortening of journeys undertaken by prospective passengers. Members will appreciate that considerable socio-economic benefits have accrued to the community.

Railway Enquiries

9.8 In continuation of the efforts to improve passenger facilities, the enquiry system is being streamlined, so as to ensure furnishing of prompt and reliable information. The Railways have been directed to bring about qualitative improvement, by increasing the telecommunication channels where necessary, by effective monitoring through centralised enquiry offices, and by improving display systems at station platforms.

Directorate of Passenger Amenities

9.9 To ensure effective coordination in implementing policy guidelines and for emphasising the need to respond and cater expeditiously to passenger requirements, it has been decided to set up a Directorate for Passenger Amenities in the Railway Ministry.

Railway Claims Tribunal

10. The Railway Claims Tribunal Bill, 1987, passed by both the Houses of Parliament during the Winter Session, has been another major step towards better customer service. These Tribunals will go a long way in reducing the burden on the courts, and, in providing an exclusive and expert body for the speedy disposal of claims. Benches will be set up at Ahmadabad, Bangalore, Bhopal, Bhubaneswar, Bombay, Calcutta,

Chandigarh, Ernakulam, Gorakhpur, Guwahati, Jaipur, Lucknow, Madras, Nagpur, New Delhi, Patna and Secunderabad.

11. An evaluation of the potential for international container traffic and its speedy growth has clearly highlighted this as an area for greater attention. Accordingly, it has been decided to establish a Container Corporation under the administrative control of the Ministry of Railways, for the development and management of inland container depots and container freight stations in the country. In addition to the seven container depots already functioning at different locations in the country, it has been proposed to set up a full-fledged inland container depot, with modern facilities, at Tughlakabad.

Container Corporation

12. This has been the third year in succession, in which Indian Railways have managed to sustain a continued improvement in their ability to handle larger and larger volumes, both in passenger and freight traffic. Undoubtedly, traffic will continue to grow in the coming years. Keeping in mind the constraint of resources that exists, the only way to successfully meet the ever-increasing future demands on the system, is by improving our capacity to absorb and implement new technology. It is with these objectives in mind that we have planned technology improvements in selected areas, covering various segments of railway operations, supported by investment programmes. The envisaged programme includes running of heavier freight trains, inter-city multiple unit train sets, longer passenger trains, improved wagon and coach designs, high horse power locomotives, strengthened track, and a more reliable and efficient signalling and communication network.

Technology Upgradation

12.1 Action has been taken to initiate for the future, indigenous development through a well-defined and structured technological development plan with specified missions. Our effort is to achieve development through synergy, involving industry and centres of advanced learning. The Research, Designs and Standards Organisation of the Railways (RDSO), is being restructured to be a centre of excellence in certain fields. The investment outlay for Research in 1988-89 has been increased by 50% over the current year.

12.2 In the area of communications, a beginning has already been made in the use of optic fibre cables, which are immune to inductive interference. The project was commenced recently at a cost of Rs. 10.3 crores between Churchgate and Virar, on the Western Railway, and is expected to be completed by March 1989. In the current year, optic fibre communication is under implementation on the suburban section of the Central Railway. It has also been decided to extend such a system to the 864 kilometres that are proposed for electrification by 1990-91.

12.3 Two other projects sanctioned in the current year are to provide a radio link between the train and the traffic control room on the busy Delhi—Mughalsarai route, and, between the driver and the guard of selected trains.

12.4 For meeting the needs of intensively worked terminals and junction stations, work has started on a train describer and central traffic control pilot project for the Delhi area, at a cost of about Rs. 20 crores. This will provide real-time information of train-running, with the position of trains in the Delhi area indicated automatically through a central computer, relayed at the terminal stations on flip-flap communication displays. It will also greatly improve the utilisation of track and platform capacity. The project is expected to be completed by May 1990.

12.5 To improve and modernise track maintenance and relaying systems, we are adding 33 high capacity track tamping and maintenance machines to our existing fleet of 84. We have also planned installation of high-speed turnouts for improved operations. For on-site welding of track, a mobile flash butt welding plant has been procured.

13. Sophisticated safety devices are being inducted into the system. An auxiliary warning system has been introduced on the Churchgate-Virar suburban section of the Western Railway. This system enables display of the signal aspects to the driver sufficiently in advance, and initiates automatic application of brakes to control the speed of the train, if the driver were to ignore the signal. This is the first project of its kind on the Indian Railways. Sanction has also been accorded for similar systems in the Bombay VT—Kalyan suburban section of Central Railway, and the main

Safety

line sections Delhi—Bombay (Western Railway route) and Delhi—Mughalsarai. For level crossings, trials are being undertaken of a 'solar powered train actuated approach warning safety device', which would give an audio-visual warning of approaching trains to road users. Along with these developments, track circuiting of running lines is being extended to more stations, and axle counters are being provided on selected routes in a phased manner. Emphasis continues to be laid on all basic requirements for safety, covering track, signalling gear and rolling stock. I wish to repeat, that we are not prepared to strike any compromise involving safety of trains, and, the thrust towards greater awareness and safety consciousness amongst railwaymen continues. The House will appreciate our earnestness in this regard, in that the contribution made to the Accident Compensation, Safety and Passenger Amenities Fund, is now almost seven times of what it was in the year 1984-85—the last year of the 6th Plan.

13.1 All these measures have yielded results. The trend of improvement continues. The House may recall that the Railways had recorded the lowest-ever figure of 1.30 train accidents per million train kilometres in the year 1985-86. This figure came down by 13% to 1.13 in 1986-87. In the first nine months of the current year, 1987-88 there has been a further improvement of 7%.

13.2 I would, however, like to assure the House that we do not wish to take refuge behind figures. A train accident is a matter of deep concern and distress to us, and no complacency will be allowed to creep in by seeking solace from statistics.

14. The translation of our plans into reality ultimately depends on the size of our allocations. The constraint of resources which the Railways are facing, is a matter which is well recognised by the House. Early in this financial year, the plan allocation for the Railways, was raised from the budgeted figure of Rs. 2980 crores to Rs. 3400 crores. This was, however, scaled down to Rs. 3300 crores, to enable diversion of funds for drought relief. In the ensuing year, our plan allocation is Rs. 3850 crores and commensurate targets have been fixed. The stress on the judicious distribution of this allocation over the various plan heads will continue. The clear emphasis

Plan allocations

will have to remain on the rehabilitation and modernisation programme, on which alone, as much as 70% of the total annual Plan outlay is being spent.

Internal Resources

14.1 In financing our plan, an important feature in recent years, has been the increasing internal resource contribution. This contribution to the annual Plan amounted to 50% in 1986-87, compared to 25% in the 5th Plan, and 42% in the 6th Plan. Taking into account the investments to be financed by the Indian Railway Finance Corporation, the internal and extra-budgetary resources component for the current year would rise to as much as 65%. As the House is aware, this is reckoned after full payment of dividend to the General Revenues, estimated at Rs. 640 crores in 1987-88. Through these measures, we on our part, are trying to help lighten the burden on the General Finances, and thereby, contribute towards the success of the national effort.

New Lines and Gauge Conversions

15. In view of the priorities that have had to be fixed due to the shortage of resources, progress on new lines and gauge conversion projects has had to proceed on a selective basis. The new lines commissioned so far in the current year, are the stretch between Jaggayyapet Town and Jaggayyapet, which completes the Motumari-Jaggayyapet project, and the metre gauge line between Vishnupuram and Nadikude. The other new lines that are expected to be completed in the current financial year are :

(*i*) Bhuj—Naliya (MG)	106 km.
(*ii*) Miryalguda—Nadikude (BG)	39 km.
(*iii*) Lalabazar—Jamira (MG)	30 km.
(*iv*) Bhatinda Byepass Phase-I (BG)	6 km.

15.1 We plan for completion of another four lines in 1988-89. They are :

(*i*) Kota—Chittaurgarh (BG)	166 km.
(*ii*) Karur—Dindigul (BG)	73 km.
(*iii*) Balipara—Gamani (MG).	14 km.
(*iv*) Bhatinda Byepass Phase-II (BG)	2 km.

15.2 31 on going new line projects, involving a total length of 2614 kilometres, are yet to be commissioned. The residual requirement of funds for completing all the ongoing new line projects, is about Rs. 1470 crores.

15.3 Similarly, there are 10 gauge conversion projects, involving a total length of 1429 kilometres, yet to be commissioned, the balance requirement of funds being approximately Rs. 452 crores. In the current financial year, the 178 kilometre long conversion between Suratgarh and Bikaner will be commissioned, whilst the Moradabad—Ramnagar conversion (78 km) is likely to be completed by the end of June 1988.

Upgradation of the metre gauge system

16. An important policy decision taken has been to give a higher emphasis on improving the metre gauge system which comprises about 39% of the total route kilometrage on Indian Railways, and, is by itself, larger than many other national rail-roads. We have already introduced air-conditioned sleeper coaches on the metre gauge system as mentioned by me earlier. Procurement of metre gauge coaches has been considerably stepped up from 1987-88. To enable higher speeds and more traffic throughput on the metre gauge system, it will be our endeavour to strengthen the track, improve the signalling system, plan for better transhipment facilities, and design more powerful fuel-efficient locomotives and improved rolling stock.

Surveys

17. Surveys for 14 new line projects (2251 km) and five gauge conversions (1136 km) are in progress. An important survey for the west-coast link between Mangalore and Roha has recently been completed, ahead of schedule. A survey for a new line between Ahmednagar and Parli-Vaijnath via Bir (250 km) is proposed in 1988-89.

Road over/under bridges

18. As far as road overbridges are concerned, 23 new works have been included in 1988-89 Works Programme at a cost of Rs. 26 crores. We are constantly in touch with the State Governments to have their share of commitments expedited so that ongoing works can be completed on schedule.

19. India is a country famed for her massive rivers. Bridging the mighty Brahmaputra is no easy task. The Railway engineers constructing the road bridge at Tezpur completed it well ahead of the target. The three kilometre long bridge, so vital to the region, was inaugurated by the Prime Minister in April 1987. The task is being undertaken yet again for a 2.3 kilometre rail-cum-road bridge at Jogighopa. The construction employs the most modern 'cable-stayed' bridge technology for a 650 metre span. It will mark a new stride in railway bridge engineering in India.

Bridging the Brahmaputra

20. An important and essential part of the rehabilitation programme is the effort to wipe out the large accumulated backlog of track renewals. At the beginning of the 7th Plan, the Railways had 19,000 kms of track overdue for renewal. The accelerated pace of the renewal programme, which has been initiated from the year 1985-86, would enable us to wipe out all arrears by 1995. The progress that has been achieved so far in the 7th Plan is in accordance with this programme.

Track Renewal

21. A similar emphasis is being laid on the railway electrification programme on high-density routes. The electrification that is expected to be completed in the first three years of the 7th plan, will be almost the same as the total route kilometrage electrified in the nine years previous to the commencement of the current plan.

Railway Electrification

21.1 A landmark reached in the current year, under the accelerated programme, was the completion of the electrification of the Bombay-Delhi Western Railway route, on schedule. This is the second trunk route fully electrified after the Delhi-Calcutta route, which was completed in 1976.

22. As Honourable Members will appreciate, we in the Railways are fully aware of the challenges ahead, and progress as evidenced indicates, that the priorities laid down will prepare the ground to meet such challenges. The urban transport scene is, however, one area which gives rise to apprehensions in the mind. Urban transport projects are of such a magnitude, that

Urban Transport

it is well-nigh impossible for any single agency to provide for them, in any meaningful manner. During the Budget speech last year, I had outlined a suggestion to adopt the consortium approach towards solving this problem. I had said that ".....urban transport is primarily the responsibility of the city authorities the world over, it is important that the State Governments and city administrations come forward with a cost sharing arrangement, both for the initial capital, and for the recurring expenditure".

22.1 I would like to commend the Maharashtra Government's positive response to the cost-sharing of the Mankhurd-Belapur link, construction of which has made good progress. A positive attitude has also been evinced by the Delhi Administration in response to the Urban Development Ministry's proposal for an urban rail transport system for Delhi. Unless similar initiatives are taken by other authorities and agencies, I can visualise urban transport becoming a major crisis area of the future.

22.2 Whilst on the subject of urban transport, I would like to compliment the people of Calcutta, in their manner of use, and in their co-operation towards the maintenance of the Metro Railway and its various installations. It is a shining example of the benefits that can accrue to all concerned from a responsible and enlightened user.

Production Units

23. The performance of our Production Units has a great bearing on our total transport capacity. The output at Chittaranjan Locomotive Works, Diesel Locomotive Works, Integral Coach Factory, and Wheel and Axle Plant proceeded as per targets laid down in the year 1986-87. In spite of higher targets in some units, this performance was sustained in the first nine months of the current year, except in the case of Chittaranjan Locomotive Works, where frequent power interruptions affected the production schedule. I am also glad to say, that in spite of the extremely formidable task of completion in 24 months, the Rail Coach Factory at Kapurthala will be in a position to roll out its first coach by 31st March 1988, on target. The Indian Railway Construction Company (IRCON), were especially entrusted with a major part of this job, in view of the

extremely tight project schedule. Their contribution deserves special mention.

Public Sector Undertakings

24. This brings me to the Public Sector Units under the Ministry of Railways. Indian Railway Construction Company (IRCON), registered a turn-over of Rs.176.5 crores and a record profit after tax of Rs.20.3 crores, in the year 1986-87. The Company has been making a profit continuously for the last 10 years, and, its cumulative foreign exchange earnings now exceed Rs.117 crores.

24.1 Rail India Technical and Economic Services (RITES), continues to maintain its excellent progress and earned a higher after-tax profit of Rs.4.8 crores in 1986-87. It has secured prestigious contracts in the field of international consultancy and undertaken important assignments at home. Because of its high reputation abroad, it has been able to secure a major five year contract of Rs.182 crores, to operate and maintain the new high-speed railway line of the Iraqi Railways.

24.2 The third Public Sector Undertaking, Indian Railway Finance Corporation (IRFC), has so far raised about Rs.960 crores, of which Rs.400 crores was in the current financial year. I would like to emphasise, that these resources are a part of the Railway Plan, and do not constitute any additionality. The funds raised by the Corporation are proposed to be invested in railway assets such as wagons, coaches and locomotives.

Conservation of forest wealth

25. Conservation of forest wealth is a national programme which is receiving the wholehearted support of the Indian Railways. Apart from tree plantation programmes, which continue at greater pace, the Railways have decided to drastically reduce the intake of wooden sleepers, which is proposed to be brought down from 12 lakh numbers in 1987-88 to only four lakhs in 1989-90. The concrete sleeper represents a modern and more economic substitute because of its durability and its contribution to better track structure. The procurement of concrete sleepers has been greatly stepped up and will cross the 20 lakh mark in the current year, culminating in a production of about 38 lakhs per annum in 1990-91.

26. The success or failure of the Railway organisation ultimately depends on the morale of the railwayman, and, the spirit that motivates him. The results achieved on the Railways, itself reflect, the harmonious relations that exist in the organisation between the management and the staff. I have always believed, that just as one would expect the railwayman to give his best towards the fulfilment of objectives, it is equally important, that he should feel a participant in the overall well-being of the organisation which results from this joint exercise. We have tried to ensure this on the Railways and have received a most heart-warming response from railwaymen.

Staff matters

26.1 Government's decisions on the recommendations of the Fourth Pay Commission, have been satisfactorily implemented at a cost of about Rs. 600 crores. These have benefited approximately 16 lakh railway employees and a large number of pensioners.

Fourth Pay Commission

26.2 Under a new Productivity Linked Bonus Scheme, evolved with the full agreement of the two recognised Federations of Railway employees, a bonus equal to 42 days' wages was declared for the year 1986-87.

Productivity Linked Bonus

26.3 To provide a congenial atmosphere, it is important that we try and alleviate, to the extent possible, the day-to-day worries of railwaymen, so that they can devote themselves in an even more single-minded manner to the task before them. With this in view, the allocations for staff quarters and other staff amenities have been substantially increased, from an annual average of Rs. 20 crores in the 6th Plan, to about Rs. 47 crores in the financial year 1988-89.

Staff Amenities

26.4 A special phased programme has been drawn up for improving educational facilities and medicare. Through co-ordination with the Ministry of Human Resources Development, sanction for opening as many as 17 additional Central Schools was obtained in the current year. Efforts are also being made to improve the quality of Railway

educational institutions. In medicare, a comprehensive medical plan costing about Rs. 45 crores has been framed.

26.5 In the field of sports, the Indian Railways had the privilege of hosting the World Railway Games to mark the 40th anniversary of India's Independence and the Diamond Jubilee of the Railway Sports Control Board. Teams from several countries participated. The Indian Railway contingent won medals in all the three events staged, including a gold in tennis. In the national sports field, Railways continued to perform well, annexing 16 national titles in the year 1986-87. Three of our sportspersons were selected for the Arjuna Award in 1987.

Sports

26.6 Just as we do not forget our serving staff, we must not forget those who retire after serving many long years—the countless number who have helped build the edifice that endures today. The machinery for settlement of retirement dues has been reorganised, and, Pension Adalats continue to be held periodically, so that the grievances of the retired employees can be redressed expeditiously.

Staff settlement benefits

27. Sir, the House will recall that last year, concessions had been given for the young, the handicapped, the drought and flood affected, the kisan, and for the widows of the brave who had laid down their lives in the defence of the nation. All these concessions will continue. There are some others who deserve special support and encouragement. For them, concessions in second class will now be made available.

For the courageous child in the Nehru Centenary Year—

Recipient of the Republic Day National Bravery Award—travel on Indian Railways till the age of 18 years, totally free of charge.

For those charged with the responsibility of future generations—

A 50% concession to all teachers honoured with the Republic Day National Award for exemplary service in the cause of education.

For the outstanding sportsperson—

A 50% concession to the recipients of the Arjuna Award.

For one whose sweat and toil builds national industry—

A 75% concession to the industrial workers who receive the Prime Minister's Shram Award for productivity and innovation.

For the gallant who died—

A 75% concession to the widows of all policemen killed in action against terrorists and extremists.

Budget Estimates 1988-89

28. I shall now deal with the Budget Estimates for the coming financial year 1988-89. With the size of the Railway Plan fixed at Rs. 3850 crores, the target for originating tonnage has been set at 332 million tonnes, of which 303 million would be revenue earning. The total freight traffic effort will amount to 236 billion tonne kilometres.

28.1 Passenger traffic is estimated to go up by 3% and luggage, parcels and other receipts by about 2%.

28.2 On the basis of these assumptions, and at the current level of fare and freight rates, the gross traffic receipts are estimated at Rs. 8771 crores. This is higher by Rs. 297 crores, compared to the Revised Estimates of the financial year 1987-88.

28.3 The Ordinary Working Expenses are estimated at Rs.6675 crores for the year 1988-89, which is an increase of Rs.630 crores over the Revised Estimates of the current financial year. The additional requirement of funds under Ordinary Working Expenses is largely attributable to annual increments to staff, payment of Dearness Allowance, increase in coal and steel prices, increased costs related to higher activity, and rentals payable to the Indian Railway Finance Corporation on the assets to be leased from them.

28.4 It is proposed to step up the contribution to the Depreciation Reserve Fund from Rs.1350 crores in 1987-88 to Rs. 1500 crores in the year 1988-89.

28.5 The contribution to the Pension Fund is being enhanced from the current year's level of Rs.450 crores to Rs.550 crores in the next year. This has become necessary in view of the increased outgo from the Pension Fund resulting from the accepted recommendations of the Fourth Pay Commission.

28.6 The Railway Convention Committee, 1985 have commenced their deliberations and the Railways are in the process of submitting various memoranda on the financial relations between the Railway Finance and the General Finance. Meanwhile, provision for dividend has been made at the same rate as in the year 1987-88. After the recommendations of the Railway Convention Committee are received and considered, proposals in this respect will be placed before the Parliament for approval.

28.7 With the increase in Ordinary Working Expenses and contributions to the Railway Funds, the total working expenses are expected to rise to Rs.8725 crores, leaving the net traffic receipts at Rs.46 crores. Adding to this, Rs. 96 crores from miscellaneous receipts, the net revenue is estimated at Rs. 142 crores, which is insufficient to meet the dividend liability of Rs. 736 crores by Rs. 594 crores.

29. As the Honourable Members would have observed, distinct improvements have been made on the Indian Railways in the first three years of the 7th Plan. In this period, the dividend has been met in full and internal resources generated at much higher levels. At the same time, restraint was exercised in adjusting tariffs, particularly passenger tariff. In the three years of the 7th Plan, the average annual index of input costs has increased by about 12%, whilst the annual average increase in passenger fares has been only about 4.5%. After taking into account the increase in freight rates, as much as 30% of the increase in the input costs has been absorbed by the Railway organisation through higher productivity, additional revenue effort, and internal economies.

Increase in input costs

30. I may remind the House that there was no tariff increase whatsoever in the last Budget. In fact, in the last four years, Second Class Ordinary fares upto 50 kilometres have not been increased at all, and the fares for distances beyond 50 kilometres were increased only once, that too, three years ago, in April 1985.

Tariff Proposals

30.1 As I mentioned earlier, at the current level of fare and freight rates, there will be an estimated shortfall of Rs. 594 crores in the financial year 1988-89. If we default on our obligation to the General Exchequer, it will have repercussions on the resource position of the Government, which, in turn, could seriously affect our development and modernisation programmes. In the long-term interests of the railway system, it is absolutely essential that we retain the financial viability of the organisation. Some adjustments in fare and freight rates, therefore, become unavoidable to bridge the projected gap. I, therefore, propose certain changes in the tariffs to be made effective from 1.4.1988.

30.2 It is proposed to increase the rates of goods traffic by 6%. However, keeping in mind the special interests of the kisan, the rural population and the weaker sections, I have decided to exempt from this increase certain essential commodities of common use. These are fertilizers, food-grains, pulses, salt, edible oils, gur and jagree. The exemption will also apply to fodder and livestock. The proposal is expected to net an additional revenue of Rs. 241 crores in 1988-89.

Freight Rates

30.3 In the case of passenger traffic, it is proposed to increase the Second Class Ordinary fares by 50 paise per ticket at the lowest slab, progressively rising to a maximum, for distances beyond 150 kilometres, of Rs. 3.00. The price of a Platform Ticket is also to be increased by 50 paise. The increase per ticket in Second Class Mail/Express is proposed to be Rs. 2.00 at the lowest slab, progressively rising to a maximum, for distances beyond 750 kilometres, of Rs. 15.00. The increase in fares of Second Class Monthly Season Tickets is to range between Rs. 4.00 and Rs. 8.00 per month. In other words, where normally 50 single journeys are undertaken in a month, the Monthly Season Ticket holder will pay for about 8 to 17 single journeys.

Passenger Fares

30.3.1 The fare for Air-conditioned Chair Car is proposed to be increased by Rs. 5.00 at the lowest slab, progressively rising to a maximum, for distances beyond 1000 kilometres, of Rs. 25.00.

30.3.2 In First Class, a 10% surcharge has already been levied for drought relief with effect from 1.11.1987. This will now continue from 1.4.1988, as a normal fare increase.

30.3.3 The fare of Air-conditioned Sleeper Class is proposed to be increased by Rs. 10.00 at the lowest slab, progressively rising to a maximum, for distances over 1300 kilometres, of Rs. 95.00.

30.3.4 In the case of Air-conditioned First Class, the 10% drought surcharge will continue as a normal fare increase. In addition, fares for this class will be further raised by 10%.

30.3.5 It is also proposed to revise the reservation fees which have remained unaltered for the last 7 years. The reservation fee for Air-conditioned First Class will be Rs. 12.00, for A.C. Sleeper Class and First Class Rs. 6.00, for A.C. Chair and Second Sleeper Rs. 5.00, and for Second Class Rs. 2.00.

Reservation Fees

30.3.6 These measures taken together are expected to yield an additional revenue of Rs. 358 crores in 1988-89.

30.4 Parcel and luggage rates are to be increased by 10%, yielding in 1988-89, an additional Rs. 23 crores.

Parcel and Luggage Rates

31. Taking into account the revenue accruing from all these proposals, and after having paid the full dividend of Rs. 736 crores to the General Exchequer, the year 1988-89 is expected to close with a surplus of Rs. 28 crores.

Conclusion

32. Sir, before concluding, I would once again like to reiterate our sense of gratitude to the Honourable Members of the House for the understanding and goodwill extended to us. This has emboldened us to work, keeping the long-term interest of the Railways constantly in mind. The Indian Railways is a vast organisation, reaching distant corners of the country. Our success or failure does, therefore, have an impact that goes beyond the Railway network. The Prime Minister has charged us with the responsibility of effecting a change—towards professional management, towards a new work ethos, towards modernisation. We are indebted to him for the impetus he has provided, and, the climate in which he has allowed us to function. We feel a deep sense of commitment, a feeling of pride in the organisation, an *esprit de corps*. I would like to express my appreciation once again, to all railwaymen, to whom credit goes in large measure, for whatever has been achieved.

32.1 Undoubtedly, we do have problems facing us, but one can be either shaped and moulded by problems, or challenged and motivated by them. We have felt motivated; we have accepted the challenge. I would like to assure the House, that it will be our earnest endeavour to perform our task in total harmony with the larger objective of building a strong and self-reliant nation.

33. Sir, with these words, I now commend the Railway Budget, 1988-89, to the House.

(d) Other miscellaneous factors (Rs. 182.60 crores) ;

Partly offset by variations on non-recurring expenditure as under :

(e) Less provision for Pensionary payments to retired Railway employees mainly on account of non-recurrence in 1988-89 of the arrears of Pension paid during 1987-88 consequent upon the recommendations of the 4th Pay Commission for Central Government Pensioners (Rs. 30.59 crores).

@Excludes sum of Rs. 300 crores & Rs. 720 Crores raised/proposed to be raised through market borrowings by Indian Railway Finance Corporation (IRFC) for financing plan investments on Railways in Budget Estimates, 1987-88 and Revised Estimates, 1987-88 respectively.

With the adoption of modern inventory control management techniques, the turn over ratio is expected to improve further by 2 per cent from the previous year.

RAILWAY DEVELOPMENT PROGRAMME

The demand for rail transport in the terminal year (1989-90) of the Seventh Plan was estimated at 340 million tonnes of originating traffic. The Railway Plan aimed at creating requisite capacity, at the same time according due priority to the rehabilitation of over-aged assets. Important features of the physical programme include acquisition of 96000 wagons (in terms of 4-wheelers), 6970 passenger coaches, 950 electrical multiple units and 1235 diesel/electric locomotives, 19000 to 20000 Km. of track renewals with priority to high density routes, electrification of 3400 Km. of track with priority to high density routes, augmentation of capacity for manufacture of passenger coaches, electrical multiple units and electric locomotives, upgradation of communication net work and bringing into operation a computer based freight information system. The original Plan allocation was Rs. 12334 crores at 1984-85 prices. Keeping in view the experience of the first two years of the Plan period, a mid-term appraisal is being made. Some of the physical targets including the expected traffic and the total Plan outlays are likely to undergo change. The financing of the Plan in the current year and in the next year envisages raising of bonds of Rs. 720 crores and Rs. 800 crores respectively by the Indian Railway Finance Corporation.

Plan expenditure in the first four years of the Seventh Plan period is as under :

NOTE : Assessment on territorial basis of the financial results of the branch lines indicates that some of them suffered a loss. The aggregate loss on these unremunerative branch lines amounts to about Rs. 82.00 crores which is included in item 1 and partially in item 2 of the above statement.

APPENDIX XIX

Statement of Financial Burden on Indian Railways on account of Uneconomic Branch Lines

All narrow gauge lines and BG lines joining the main system at one end only are treated as Branch Lines in accordance with the recommendations of the Uneconomic Branch Lines Committee, 1969. During 1986-87, 138 (25 BG, 76 MG and 37 NG) branch lines were found uneconomical. The loss suffered by these lines were about Rs. 81 crores excluding dividends.

2. Most of these Branch lines have low density of traffic, the NG lines particularly have the disadvantage of break of gauge transhipment, short lead and severe competition from road traffic. The renewal and strengthening of track as also replacement of old rolling stock require substantial expenditure. Efforts have been made to reduce working expenses to the extent feasible. Instead of running separate goods and passenger trains, mixed trains have been introduced on many sections. Many of the stations have been converted into Contractor-operated halts. The system of "One Engine only" has been introduced wherever possible. With a view to increasing earnings, timely supply of empties for loading is arranged and loading and release of wagons is watched. Efforts have been made to minimise transit time. Checks against ticketless travel have been intensified. Close liaison is being maintained with the trade.

3. In respect of the operation of unremunerative branch lines, various high level committees have recommended that all uneconomic branch lines, where alternative modes of transport existed or can be developed should be closed down. However, the State Governments concerned are averse to support the closure of these lines. The Railway Reforms Committee in Part XI of their report on 'Economies' (Oct. 83) recommended closing down of 40 such lines where adequate alternative road transport facilities are already available. They further suggested that in case the State Governments did not agree to closure of such lines for their own reasons, they should share the losses on 50 : 50 basis. In the first instance, it was decided to close down and dismantle 7 lines (out of the said 40 lines) where train services had been withdrawn some years ago. Five out of these 7 lines have since been dismantled. As regards the remaining lines to be closed down, despite taking up the matter with the State Governments at the highest level, there has been no progress so far. Railway Convention Committee, 1985 recommended that the dialogue with the State Governments should be continued further and that the Railways should try to convince them of the desirability of agreeing for closure of lines recommended by Railway Reforms Committee. Accordingly, the General Managers of the Zonal Railways have been asked to reopen the dialogue with the State Governments, in order to persuade them to agree for closure of these lines by offering financial assistance on one-time basis as a package deal for development of roads and strengthening the present fleet of bus services in lieu of train services being operated at present.

1988-89 में प्रस्तावित महत्वपूर्ण नये निर्माण-कार्यों का विवरण और उनके औचित्य की संक्षिप्त टिप्पणियां निम्नलिखित हैं :—

दोहरी लाइन बिछाना

1. मैहर–अमदारा के बीच दोहरी लाइन बिछाना—मध्य रेलवे : कटनी—सतना—मानिकपुर खंड बम्बई—हावड़ा खंड के ट्रंक मार्ग पर स्थित है । यह खंड जो इस्पात संयंत्रों के सीमेंट और कच्ची सामग्री के प्रारम्भिक यातायात को सम्हालता है, संतृप्त हो गया है । अतः इस खंड में चरणों में दोहरी लाइन बिछाने का विनिश्चय किया गया है । 12.34 करोड़ रुपये की प्रत्याशित लागत से इस दोहरी लाइन को बिछाने का प्रस्ताव है जिसके लिए 1988-89 में 15 लाख रुपये के परिव्यय की व्यवस्था की गयी है ।

2. पलवल–तुगलकाबाद जंक्शनखंड —मौजूदा डाउन लाइन को अप और डाउन मिडिल लाइन में बदलने के लिए आमान परिवर्तन—मध्य रेलवे —मथुरा–पलवल खंड और पलवल–तुगलकाबाद जंक्शन मध्य रेलवे और पश्चिम रेलवे के ग्रांड ट्रंक मार्ग और दिल्ली–बम्बई ट्रंक मार्ग पर मथुरा–तुगलकाबाद का एक भाग है । चार लाइनों का यातायात अर्थात् पश्चिम और मध्य रेलवे की दो-दो लाइनें मथुरा पर आगे के संचलन के लिए अभिमुख होती है । कई मेल/एक्सप्रेस और लम्बी दूरी की यात्री तथा माल गाड़ियां तुगलकाबाद की ओर संचलन के लिए इस खंड से अभिमुख होती हैं । इस खंड पर 58 गाड़ियों की निर्धारित क्षमता संतृप्त स्तर तक पहुंच चुकी है, जिससे मथुरा–पलवल खंड पर तीसरी लाइन और पलवल–असावटी–बल्लभगढ़ पर मध्यवर्ती ब्लाक हट की व्यवस्था करने की आवश्यकता है । यातायात के घनत्व और रूप के साथ-साथ यातायात के प्रत्याशित वृद्धि स्तर उच्च गति गलियारे के रूप में आगरा–दिल्ली की पहचान होने को ध्यान में रखते हुए 6.70 करोड़ रुपये की लागत से डाउन मुख्य लाइन को अप और डाउन मिडिल लाइन में बदलने का प्रस्ताव है जिसके लिए 1988-89 के दौरान 10 लाख रुपये के परिव्यय का प्रस्ताव है ।

3. मथुरा–पलवल—तीसरी लाइन के लिए भूमि का अधिग्रहण–मध्य रेलवे —मथुरा–पलवल खंड मध्य और पश्चिम रेलवे के ग्रांड ट्रंक मार्ग और दिल्ली–बम्बई ट्रंक मार्ग पर मथुरा–तुगलकाबाद का भाग है । चार लाइनों का यातायात अर्थात् मध्य और पश्चिम की दो-दो लाइनें मथुरा पर आगे संचलन के लिए अभिमुख होती हैं । इस खंड पर कई मेल, एक्सप्रेस और लम्बी दूरी की गाड़ियां चलती हैं । इसी प्रकार देश के दक्षिण, पश्चिम, पूर्व और उत्तर क्षेत्रों से भी इस खंड पर तुगलकाबाद की ओर संचलन के लिए माल यातायात अभिमुख होता है । अतः यह खंड अत्याधिक संतृप्त होता जा रहा है और रुकावट की नाजुक स्थिति में पहुंच गया है । यातायात के बढ़ते हुए स्तर को पूरा करने के लिए मथुरा–

Important New Works proposed during 1988-89, with brief notes of justification, are as under :—

DOUBLING

1. *Doubling of Maihar—Amdara—Central Railway.*—Katni—Satna—Manikpur section is located on the trunk route of Bombay-Howrah section. This section which handles originating traffic of cement and raw-material to steel plants is saturated. It has therefore, been decided to double the section in phases. This doubling work has been proposed at an anticipated cost of Rs. 12.34 crores with an outlay of Rs. 15 lakhs during 1988-89.

2. *Palwal—Tuglakabad Jn. Section—Conversion of existing down line into Up and Dn middle line—Central Railway.*—Mathura-Palwal section and Palwal-Tuglakabad Jn. form part of Mathura—Tuglakabad section on the Grand Trunk Route and Delhi-Bombay Trunk Route of Central Railway and Western Railway. The traffic of four lines i.e. double lines of Western Railway and Central Railway converges at Mathura for further movement. A large number of Mail/Express and long distance trains and goods trains also converge on this section for movement towards Tuglakabad. The charted capacity of 58 trains on this section has reached a saturation level necessitating provision of 3rd line on Mathura-Palwal section and IBH on Palwal-Asaoti-Ballabgarh. Keeping in view the anticipated increased level of traffic as also the density and pattern of traffic, identification of Agra-Delhi as High Speed Corridor, it is proposed to convert the Dn. Main line as Up and Dn middle line at a cost of Rs. 6.70 crores. The outlay proposed during 1988-89 is Rs. 10 lakhs.

3. *Mathura—Palwal—Acquisition of land for 3rd line—Central Railway.*—Mathura—Palwal section forms part of Mathura—Tuglakabad section on the G.T. route and Delhi—Bombay trunk route of Central and Western Railways. The traffic of four lines i.e. double lines of Central and Western Railways converge at Mathura for further movement. A number of mail, express and long distance trains run on this section. Similarly goods traffic from Southern, Western, Eastern and Northern regions of the country also converges on this section for movement towards Tuglakabad. This section is, therefore, tending to over-saturation and becoming a critical bottleneck.

पलवल के बीच तीसरी लाइन के लिए भूमि के अधिग्रहण के कार्य को 1.35 करोड़ रुपये की प्रत्याशित लागत में शामिल करने का प्रस्ताव है और वर्ष 1988-89 के दौरान 10 लाख रुपये के परिव्यय का प्रस्ताव है।

4. पलवल–तुगलकाबाद खंड—चौथी लाइन के लिए भूमि का अधिग्रहण—मध्य रेलवे :—पलवल—तुगलकाबाद खंड ग्रांड ट्रंक मार्ग पर मथुरा—तुगलकाबाद और मध्य तथा पश्चिम रेलों के दिल्ली—बम्बई ट्रंक मार्ग का भाग है। चार लाइनों के यातायात अर्थात् पश्चिम और मध्य रेलों की दो-दो लाइनें आगे संचलन के लिए मथुरा से अभिमुख होती है। इस खंड पर कई मेल/एक्सप्रेस और लम्बी दूरी की गाड़ियां चलती है। इसी प्रकार, इस खंड से देश के दक्षिणी, पश्चिमी, पूर्वी और उत्तरी क्षेत्रों से माल यातायात संचलन के लिए तुगलकाबाद की ओर अभिमुख होता है। अतः यह खंड अति-संतृप्त होता जा रहा है और रुकावट की नाजुक स्थिति में पहुंच गया है। यातायात के बढ़ते स्तर को पूरा करने के लिए, इस खंड पर चौथी लाइन आवश्यक हो गयी है। अतः पलवल–तुगलकाबाद जंक्शन के बीच चौथी लाइन के लिए भूमि के अधिग्रहण के कार्य को 1.35 करोड़ रुपये की प्रत्याशित लागत में शामिल करने का प्रस्ताव है जिसके लिए वर्ष 1988-89 के दौरान 10 लाख रुपये के परिव्यय का प्रस्ताव है।

5. (i) इटारसी–झुझारपुर (2.6 कि० मी०) (ii) पोलापाथर–काला आखर (6.6 कि० मी०) के बीच दोहरी लाइन बिछाना और (iii) मेटापंजरा—भारतवाडा (38.4 कि० मी०) के बीच भविष्य में दोहरी लाइन बिछाने के लिए भूमि का अधिग्रहण—मध्य रेलवे :—इटारसी–आमला–नागपुर खंड (297 कि०मी०) महत्वपूर्ण ट्रंक मार्ग का भाग है। इस खंड पर वर्षों से यातायात में बहुत अधिक वृद्धि हुई है तथा दक्षिण से उत्तर को सीमेंट और उत्तर से दक्षिण को खाद्यानों के संचलन में प्रत्याशित वृद्धि के कारण यातायात में पर्याप्त रूप से वृद्धि हुई है। अतः दोहरी लाइन बिछाने का कार्य चरणों में किया जा रहा है। चरण-I, II और III, जिसमें 139 कि०मी० शामिल है, पिछले वर्ष पहले ही अनुमोदित किये जा चुके हैं। 84 कि०मी० की दोहरी लाइन पहले ही चालू कर दी गयी है और शेष खंड में कार्य प्रगति पर है। अतः अब दो नाजुक ब्लाक खंडों (9.2 कि०मी०) में दोहरी लाइन बिछाने का काम शुरू करने तथा अन्य 38.4 कि.मी० में दोहरी लाइन बिछाने के लिए भूमि का अधिग्रहण करने के लिए कार्य को 7.53 करोड़ रुपये की अनुमानित लागत से करने का प्रस्ताव है जिसके लिए 1988-89 के दौरान 20 लाख रुपये के परिव्यय का प्रस्ताव किया गया है।

6. नर्मदा पुल के हिस्से में दोहरी लाइन बिछाना—मध्य रेलवे :—इटारसी–भोपाल खंड दिल्ली—मद्रास ग्रांड ट्रंक मार्ग और बम्बई—दिल्ली ट्रंक मार्ग का एक महत्वपूर्ण

To meet the increased level of traffic it is proposed to include the work of acquisition of land for third line between Mathura—Palwal at an anticipated cost of Rs. 1.35 crores and an outlay of Rs. 10 lakhs has been proposed during 1988-89.

4. *Palwal—Tughlakabad Section—Acquisition of land for 4th Line—Central Railway.*—Palwal—Tughlakabad Section forms part of Mathura—Tughlakabad on the G.T. route and Delhi—Bombay trunk route of Central and Western Railways. The traffic of four lines i.e. double lines of Western and Central Railways converge at Mathura for further movement. A number of Mail/Express and long distance trains run on this section. Similarly, goods traffic from Southern, Western, Eastern and Northern regions of the country also converges on this section for movement towards Tughlakabad. This section is, therefore, tending to oversaturation and becoming a critical bottleneck. To meet the increased level of traffic, a fourth line on this section has become necessary. It is, therefore, proposed to include the work of acquisition of land for 4th line between Palwal—Tughlakabad Junction at an anticipated cost of Rs. 1.35 crores with an outlay of Rs. 10 lakhs during 1988-89.

5. *Doubling of—(i) Itarsi—Jhujharpur (2.6 km.) (ii) Polapathar—Kala Akhar (6.6 km.), (iii) Acquisition of land, Metapanjra—Bharatwada (38.4 km.) for future doubling—Central Railway.*—The Itarsi—Amla—Nagpur section (297 km.) forms part of the important trunk route. The traffic on this section has increased considerably over the years and further increase in traffic is anticipated due to growth in movement of cement from South to North and foodgrains from North to South. The doubling is being taken up in phases. Phase-I, II and III covering a total of 139 km. have already been approved in the previous years. 84 km. of doubling have already been commissioned and work on the remaining sections is in progress. It is now proposed to take up doubling of 2 critical block sections (9.2 km.) and acquisition of land for doubling of another 38.4 km. length. Cost of the work is estimated at Rs. 7.53 crores. An outlay of Rs. 20 lakhs during 1988-89 has been proposed..

6. *Doubling of Narmada Bridge Portion—Central Railway.*—Itarsi—Bhopal section forms an important part of Delhi—Madras G.T. route and Bombay—

भाग है । बुदनी और बड़खेरा के बीच घाट खंड के कारण यह उत्तर—दक्षिण ग्रांड ट्रंक मार्ग पर अत्यधिक कठिन खंडों में से एक खंड है । यह नर्मदा नदी पर 3.6 कि०मी० के प्रमुख पुल के छोटे टुकड़ को छोड़कर दोहरी लाइन वाला खंड है जो उत्तर—दक्षिण धमनी पर भारी रुकावट है । इस कार्य को 14.13 करोड़ रुपये की प्रत्याशित लागत से शामिल करने का प्रस्ताव है और जिसके लिए वर्ष 1988-89 के दौरान 15 लाख रुपये के परिव्यय का प्रस्ताव है ।

7. **हेतमपुर–घेर खंड चम्बल पुल तक दोहरी लाइन बिछाना—मध्य रेलवे :**—ग्रांड ट्रंक मार्ग पर उत्तर-दक्षिण प्रमुख मार्ग पर झांसी—आगरा खंड एक महत्वपूर्ण टुकड़ा है जिसका विद्युतीकरण करने का कार्यक्रम बनाया गया है । झांसी तक विद्युतीकरण पूरा हो चुका है और जी०टी० मार्ग का शेष भाग जून 1989 तक विद्युतीकृत हो जायगा । उत्तर-दक्षिण मार्ग पर यातायात के स्तर में वृद्धि होने के कारण यह खण्ड रुकावट की नाजुक स्थिति में पहुंच गया है । हेतमपुर और घेर के बीच 3.81 करोड़ रुपये की प्रत्याशित लागत से दोहरी लाइन बिछाने का प्रस्ताव है और जिसके लिए 1988-89 के दौरान 20 लाख रुपये के परिव्यय का प्रस्ताव है ।

8. **बारासत–बोंगांव चरण–1 के बीच दोहरी लाइन बिछाना (क) बारासत और दत्तापुकुर (7.67 कि० मी०) के बीच—पूर्व रेलवे :**—दमदम जंक्शन—बोंगांव (69 कि० मी०) पूर्व रेलवे पर अत्यधिक व्यस्त विद्युतीकृत उपनगरीय खंडों में से एक है, जो कलकत्ता के चारों ओर घनी आबादी वाले क्षेत्र को सेवित करता है । यह खण्ड दमदम जंक्शन और बारासत (15 कि०मी०) के बीच दोहरी लाइन रेलपथ पर और बारासत—बोंगांव (54 कि०मी०) इकहरी लाइन पर परिचालित है । सम्पूर्ण खंड संतृप्त अवस्था में कार्य कर रहा है । बारासत—बोंगांव खंड में दोहरी लाइन बिछाने के लिए अंतिम स्थान निर्धारण सर्वेक्षण 1987-88 में स्वीकृत किया गया था और यह प्रगति पर है । बढ़ती हुई मांग को देखते हुए बारासत—दत्तापुकुर (7.67 कि० मी०) के बीच खंड में चरण-1 में 6.07 करोड़ रुपये की अनुमानित लागत से दोहरी लाइन बिछाने का प्रस्ताव है जिसके लिए वर्ष 1988-89 के दौरान 10 लाख रु० के परिव्यय का प्रस्ताव है ।

9 **उजियारपुर–बछवारा खंड के बीच कहीं-कहीं दोहरी लाइन बिछाना (24.75 कि० मी०)—पूर्वोत्तर रेलवे:** लखनऊ और कटिहार के बीच का बड़ी लाइन मार्ग बड़े महत्व का है क्योंकि यह देश के उत्तर–पश्चिमी भाग और उत्तर-पूर्वी राज्यों के बीच एक दूसरे गलियारे की व्यवस्था करता है । इस मार्ग पर यातायात में अत्यधिक वृद्धि हुई है विशेषकर मुजफ्फरपुर—समस्तीपुर—बरौनी खंड पर । अतएव पिर्तौजिया—समस्तीपुर—उजियारपुर और बछवारा—बरौनी खंडों में कहीं-कहीं दोहरी लाइन बिछाने के लिए

Delhi trunk route. This is one of the most difficult sections on North—South G.T. route due to Ghat section between Budni and Barkhera. This is a double line section except for a small patch of 3.6 km. having a major bridge over the Narmada river which is severe bottleneck on the North—South artery. This work is proposed at an anticipated cost of Rs. 14.13 crores, with an outlay of Rs. 15 lakhs during 1988-89.

7. *Doubling of Hetampur—Gher Section upto Chambal Bridge—Central Railway.*—Jhansi—Agra section constitutes a vital stretch on the North-South artery on G.T. route which is programmed for electrification. Electrification upto Jhansi has been completed and the balance portion of the G.T. route will be electrified by June, 1989. The section has become a critical bottleneck on the North-South route due to increased level of traffic. The doubling between Hetampur and Gher is proposed at an anticipated cost of Rs. 3.81 crores with an outlay of Rs. 20 lakhs during 1988-89.

8. *Doubling between Barasat—Bongaon Phase-I (A) between Barasat and Dattapukur (7.67 kms.)—Eastern Railway.*—Dum Dum Jn.—Bongaon (69 km) is one of the heavily worked electrified suburban sections on Eastern Railway, serving a densely populated area around Calcutta. The section between Dum Dum Jn. and Barasat (15 km.) is on double line track and the section between Barasat—Bongaon (54 km.) operates on single line. The entire section is working to saturation. A final location survey for doubling of Barasat—Bongaon section was sanctioned in 1987-88 and is in progress. In view of the pressing need, it is proposed to double the section between Barasat—Dattapukur (7.67 km.) in Phase-I at an estimated cost of Rs. 6.07 crores. An outlay of Rs. 10 lakhs has been proposed during 1988-89.

9. *Patch doubling (Phase-II) of Ujiarpur—Bachhwara section (24.75 km.)—North Eastern Railway.*—The Broad Gauge route between Lucknow and Katihar is of great importance as this provides a second corridor between the North-West part of the country and the North-East States. There has been tremendoous increase of traffic on this route particularly on Muzaffarpur—Samastipur—Barauni section. Therefore, there is immediate need for augmenting its line

चरण-1 में इसकी लाइन क्षमता में वृद्धि करना तत्काल आवश्यक है, जो 1987-88 में स्वीकृत किया जा चुका था। दूसरे चरण में 14.04 करोड़ रुपये की अनुमानित लागत से उजियारपुर—बछवारा खंड में कहीं-कहीं दोहरी लाइन बिछाने का काम शुरू करने का प्रस्ताव है और जिसके लिए वर्ष 1988-89 के दौरान 50 लाख रुपये के परिव्यय का प्रस्ताव है।

10. **पट्टाभिराम–तिरुवेल्लूर के बीच तीसरी लाइन—दक्षिण रेलवे :**—मद्रास–तिरुवेल्लूर मद्रास-अरक्कोणम मार्ग पर महत्वपूर्ण उपनगरीय खंड है। पट्टाभिराम तक चौहरा रेल-पथ बिछाने का काम पूरा हो गया है। पट्टाभिराम और तिरुवेल्लूर (16 कि०मी०) के बीच मौजूदा लाइन क्षमता के उपयोग जो निर्धारित क्षमता के अतिरिक्त गाड़ियों की संख्या में प्रत्याशित वृद्धि के आधार पर तीसरी लाइन की शीघ्र व्यवस्था करना अपेक्षित है। यह कार्य 13.58 करोड़ रुपये की प्रत्याशित लागत से शामिल कर लिया गया है और जिसके लिए 1988-89 में 2.00 करोड़ रुपये के परिव्यय की व्यवस्था करने का प्रस्ताव है।

11. **मलखेड रोड और वाडी (वाडी बाई पास लाइन सहित) के बीच रेलपथ का दोहरी करण (24.86 कि० मी०) दक्षिण मध्य रेलवे :**—विकाराबाद–वाड़ी खंड बम्बई से सिकन्दराबाद/हैदराबाद को जोड़ने वाले ट्रंक मार्ग का भाग है। यह खंड सीमेंट संयंत्रों और कृष्णा पर ताप बिजलीघर के लिए कोयले की संचलन की आवश्यकता को सेवित करता है। अपेक्षित वृद्धि को सम्हालने के लिए मौजूदा लाइन क्षमता अपर्याप्त है। अतः वाड़ी से सिकन्दराबाद तक के सम्पूर्ण खंड में दोहरी लाइन बिछाने के लिए योजना बनायी गयी है और विभिन्न खंडों पर कार्य प्रगति पर है। मलखेड रोड-वाडी खंड में 20.24 करोड़ रुपये की अनुमानित लागत से दोहरी लाइन बिछाने का प्रस्ताव है जिसके लिए 1988-89 के दौरान 40 लाख रुपये के परिव्यय का प्रस्ताव है।

12. **तालचेर–कटक पारादीप खंड—चरण–I में दोहरी लाइन बिछाना; रजतगढ़ से जरोंदा रोड (12 कि० मी०) में दोहरी लाइन बिछाना—दक्षिण-पूर्व रेलवे :**—तालचेर कटक–पारादीप खंड तालचेर क्षेत्र से कोयले के संचलन को सेवित करता है। इसके अतिरिक्त, तालचेर में एक ताप संयंत्र और एक उर्वरक कारखाना भी स्थित है। तमिलनाडु आदि में विजाग इस्पात संयंत्र, ताप बिजली घरों की आवश्यकताओं की पूर्ति के लिए कोयला उत्पादन में वृद्धि से खंड में दोहरी लाइन बिछाना आवश्यक समझा गया है। चरण–I के रूप में 10 करोड़ रुपये की प्रत्याशित लागत से रजतगढ़ और जरोंदा रोड के बीच 12 कि०मी० लम्बे खंड में दोहरी लाइन बिछाने का प्रस्ताव है जिसके लिए 1988-89 के दौरान 70 लाख रुपये के परिव्यय का प्रस्ताव है

capacity. Phase-I for patch doubling of Pitaunjhia—Samastipur—Ujiarpur and Bachhwara—Barauni sections was sanctioned in 1987-88. It is proposed to undertake patch doubling of Ujiarpur—Bachhwara section in the IInd phase at an estimated cost of Rs. 14.04 crores with an outlay of Rs. 50 lakhs during 1988-89.

10. *Third line between Pattabiram and Tiruvallur—Southern Railway.*—Madras-Tiruvallur is an important suburban section on Madras-Arakkonam route. Quadrupling of track upto Pattabiram has been completed. Third line between Pattabiram and Tiruvallur (16 Kms.) is required to be provided early on the basis of the present line capacity utilisation which is more than the charted capacity as well as the anticipated growth in number of trains. This work is included at an anticipated cost of Rs. 13.58 crores and an outlay of Rs. 2.00 crores during 1988-89 has been proposed.

11. *Doubling of track between Malkhaid Road & Wadi (Including Wadi bye-pass line)—24.86 km.—South Central Railway.*—Vikarabad-Wadi section forms part of the trunk route connecting Secunderabad/Hyderabad with Bombay. This section caters to cement plants and to coal for the Thermal Power House at Krishna. The present line capacity is inadequate to deal with the increasing requirements. The entire section from Wadi to Secunderabad is therefore, planned for doubling and the work is in progress on different sections. Doubling of Malkhaid Road-Wadi section is proposed at an estimated cost of Rs. 20.24 crores with an outlay of Rs. 40 lakhs during 1988-89.

12. *Doubling of Talcher—Cuttack—Paradeep section—Phase I; Doubling of Rajatgarh to Joronda Road (12 km.)—South Easteran-Railway.—Talcher—Cuttack—Paradeep* section caters to the movement of coal from Talcher area. In addition, a thermal plant and fertiliser plant are also situated at Talcher. With the increased coal production to meet the requirements of Vizag Steel Plant, thermal power stations in Tamil Nadu etc., doubling of the section is considered necessary. As Phase-I, doubling of the 12 km. long section between Rajatgarh and Joronda Road is proposed at an anticipated cost of Rs. 10 crores with an outlay of Rs. 70 lakhs during 1988-89.

13 शजालपुर–कालापीपल खंड (12.6 कि० मी०) में दोहरी लाइन बिछाना—पश्चिम रेलवे :—अपेक्षित परिवहन क्षमता का विकास करने के लिए पश्चिम रेलवे के कोयला ढुलाई वाले मुख्य मार्गों पर अपेक्षित सुविधाओं का पता लगाने हेतु 1975 में सर्वेक्षण किया गया था। सर्वेक्षण रिपोर्ट में कार्य को विभिन्न चरणों में करने का सुझाव दिया गया था और तदनुसार 1976–77 से विभिन्न चरणों में कार्य किये जा रहे हैं। योजना के भाग के रूप में अब बैरागढ़-मकसी के बीच इकहरी लाइन वाले खंड पर जो सबसे बड़ा तथा लाभुक खंड है, पर दोहरी लाइन बिछाने का काम शुरू करने का प्रस्ताव है। इससे पश्चिमी भारत में बिजली घरों, कपड़ा मिलों, सीमेंट कारखानों आदि के लिए अतिरिक्त यातायात के संचलन को सम्हालने हेतु इस खंड पर परिवहन क्षमता में वृद्धि हो जायेगी। इस पर 11.62 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 20 लाख रुपये के परिव्यय का प्रस्ताव है।

14. (1) हरिपुर और बार; (2) बार और सेंद्रा तथा (3) सरधाना और दुरई के बीच दोहरी लाइन बिछाना—पश्चिम रेलवे :—यह निर्माण कार्य अतिरिक्त लाइन क्षमता की व्यवस्था करेगा जिसके लिए काफी समय से आवश्यकता महसूस की गयी है और जो अब उत्तरी क्षेत्र के राज्यों जम्मू कश्मीर, हिमाचल प्रदेश, पंजाब, हरियाणा, राजस्थान राज्यों और संघ शासित क्षेत्र दिल्ली में अतिरिक्त सीमेंट यातायात को संभालने के लिए आवश्यक है। ये कार्य पहले से चल रहे लाइन क्षमता कार्यों को देखते हुए प्रस्तावित किये गये हैं। इस कार्य की अनुमानित लागत 17.82 करोड़ रुपये है। 1988-89 के दौरान 10 लाख रुपये के परिव्यय का प्रस्ताव है।

यातायात सुविधाएं—यार्ड के ढांचे में परिवर्तन तथा अन्य काम

1. दिघा–वसई रोड खंड—भिवण्डी पर आवास सुविधाओं के साथ-साथ दो क्रासिंग स्टेशन—मध्य रेलवे :—मध्य रेलवे पर दिघा और पश्चिम रेलवे पर वसई को जोड़ने वाला दिघा-वसई रोड रेल सम्पर्क (42 कि०मी०) माल यातायात के लिए दिसम्बर, 1982 में चालू किया गया था। इस संपर्क का मुख्य उद्देश्य मध्य और पश्चिम रेलवे के बीच माल यातायात के अदलाबदली के लिए छोटे मार्ग की व्यवस्था करना था। इस खंड की मौजूदा क्षमता एक ओर से केवल 7 गाड़ियों की है। तथापि, नयी बम्बई में उद्योगों के द्रुत विकास तथा यातायात के अन्य स्रोतों के कारण मार्ग माल यातायात के लिए सघन हो गया है और गुजरात को दक्षिण से जोड़ने वाली लम्बी दूरी की यात्री गाड़ियों के लिए महत्व पूर्ण बाई-पास भी बन जायेगा। अतः इसकी लाइन क्षमता में वृद्धि करने की तत्काल आवश्यकता है। अतः 4.60 करोड़ रुपये की अनुमानित लागत से भिवण्डी में एक साथ

13. *Doubling of Shujalpur-Kalapipal section (12.6 km)—Western Railway.*—Survey to identify facilities required on the main coal carrying routes of the Western Railway for developing the required transport capacity was conducted in 1975. The survey report had suggested taking up work in phases and accordingly the works in different phases are being taken up from 1976-77 onwards. As part of the scheme it is now proposed to take up this doubling being the longest and most critical section on the single line section between Bairagarh-Maksi. This will supplement the transport capacity of the section to enable movement of additional traffic for Power Houses, Textile Mills, Cement Plants etc. in Western India. Its cost is estimated at Rs. 11.62 crores and outlay for 1988-89 is Rs. 20 lakhs.

14. *Doubling the line between : (i) Haripur and Bar, (ii) Bar and Sendra, (iii) Saradhana and Durai—Western Railway.*—The work would provide additional line capacity, the need for which has been felt for quite sometime now to deal with the additional cement traffic in the northern region comprising the States of Jammu and Kashmir, Himachal Pradesh, Punjab, Haryana, Rajasthan and Union Territory of Delhi. These works have been proposed taking into account the line capacity works already in progress. The work is estimated to cost Rs. 17.82 crores. An outlay of Rs. 10 lakhs during 1988-89 has been proposed.

TRAFFIC FACILITIES—YARD REMDELLING AND OTHERS

1. *Diva—Vasai Road Section—Two crossing stations with simultaneous reception facilities at Bhivandi—Central Railway.*—Diva—Vasai Road rail link (42 Km.) connecting Diva on the Central Railway and Vasai on the Western Railway was commissioned for goods traffic in December, 1982. The main objective of this link was to provide a shorter route for inter-change of goods traffic between Central and Western Railways. The existing capacity of this section is only 7 trains each way. However, due to rapid development of industry and other sources of traffic in new Bombay, the route has become a freight intensive one, and will also become an important bye-pass for long distance passenger trains linking Gujarat with the South. There is, therefore, urgent need for augmenting its line capacity. It is, therefore, pro-

आदान सुविधाएं प्रदान करने सहित कमान और खरबा पर दो क्रॉसिंग स्टेशनों की व्यवस्था करने का प्रस्ताव है। 1988-89 के दौरान 51.60 लाख रुपये के परिव्यय का प्रस्ताव है।

2. **बम्बई-कल्याण थ्रू लाइन—लाइन क्षमता में वृद्धि (बम्बई मंडल)—मध्य रेलवे**— बम्बई-कल्याण खंड दिल्ली-बम्बई और मद्रास-बम्बई चतुर्भुजीय मार्ग तथा हवड़ा-बम्बई त्रिकोणीय मार्ग का भाग है। कल्याण पर बम्बई से आगे संचलन के लिए तीन महानगरों से यातायात पहुंचता है और बम्बई-कल्याण थ्रू गलियारे पर अत्याधिक कार्य भार मौजूद है। वाडी बंदर पर आयातित तेल आदि के आगे के लदान की सुविधाएं तथा सीमेंट की उतराई सुविधाएं भी स्थापित की जा रही हैं। यातायात के बढ़ते हुए स्तर की पूर्ति के लिए 3.33 करोड़ रुपये की अनुमानित लागत से इस खंड की लाइन क्षमता में वृद्धि करने का प्रस्ताव है जिसके लिए 1988-89 के दौरान 53 लाख रुपये के परिव्यय का प्रस्ताव है।

3. **झांसी-आगरा खंड—(i) झांसी-करारी (II) सोनागिर—दतिया और (ii) सिंधौली—संडलपुर पर मध्यवर्ती ब्लाक हट—मध्य रेलवे**: झांसी-आगरा मुख्य लाइन खंड एक अति दुःसाध्य खंड है जिस पर हाल ही में जनता की मांगों को देखते हुए और गाड़ियां चलायी गयी हैं चालन क्षेत्र बढ़ाया गया है। खंड की लाइन क्षमता यातायात के मौजूदा स्तर को संन्हालने के लिए अपर्याप्त है। माल तथा यात्री यातायात के बढ़े हुए स्तर के कारण तीन ब्लाक खंडों को, जो बहुत ही संकीर्ण हैं, यातायात के निर्बाध संचलन के लिए मध्य वर्ती ब्लाक हटों की व्यवस्था करके विभाजित करना अपेक्षित है। इस कार्य की अनुमानित लागत 70.04 लाख रुपये है, जिसके लिए 1988-89 के दौरान 12 लाख रुपये के परिव्यय का प्रस्ताव है।

The line capacity of the section is inadequate to meet the existing level of traffic. Due to increased level of goods as well as passenger traffic, the three block sections which are a serious bottleneck are required to be split up by provision of IBHs for smooth movement of traffic. The estimated cost is Rs. 70.04 lakhs and the outlay proposed during 1988-89 is Rs. 12 lakhs.

4. *Jhansi—Kanpur section—3—line crossing stations with standard III interlocking on (i) Ait—Orai (ii) Chirgam—Moth (iii) Erich—Ait—Central Railway.*—Jhansi—Kanpur section is a branch line of 15 block sections. As against the average length of 14.65 kms., this section is having three long critical block sections of 24.78 Km., 23.33 Km. and 21.62 Km. grade the existing signalling standards of MG systems of Indian Railways for augmenting speed potential. The scheme will offer substantial operating advantage by saving time. It would be possible to run through trains at a maximum speed of 50 KMPH through stations. This work is, therefore, proposed at an anticipated cost of Rs. 4.32 crores with an outlay of Rs. 5 lahks in 1988-89.

27. *Standard-I interlocking and Key locking alongwith LQ Semaphore Signalling at 33 stations on MG section Mailani-Gonda-Anandnagar and Gorakhpur Cantt.-Kaptanganj—North Eastern Railway.*—It has been decided to upgrade the existing signalling standards of MG systems of Indian Railways for augmenting speed potential. बाईहाटा में वर्तमान माल गोदामों की स्थापन क्षमता बहुत ही अपर्याप्त है जिसके परिणामस्वरूप मालडिब्बों की रुकौनी, मालगाड़ियों का अलग हो जाना, दूसरे स्टेशनों पर रेक छोड़ना, यात्री प्लेटफार्म लाइनों, चालू लाइनों आदि के उपयोग से यात्री गाड़ियों का समयपालन बुरी तरह प्रभावित होता है। अतः इन पांच स्टेशनों पर रेक सम्हलाई सुविधाओं की व्यवस्था करना अति आवश्यक है। इस कार्य पर 244.90 लाख रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 45.00 लाख रुपये के परिव्यय का प्रस्ताव है।

30. लमडिंग–मांदेरडिसा/पाथर खोला के बीच 3.8 कि० मी० पर पैनल अन्तर्पाशन सहित नया क्रासिंग स्टेशन—पूर्वोत्तर सीमा रेलवे :—लमडिंग स्टेशन पूर्वोत्तर सीमा रेलवे के तीन खण्डों अर्थात् न्यू गुवाहाटी–लमडिंग, तिनसुकिया-लमडिंग और लमडिंग–बदरपुर के जंक्शन बिन्दु पर स्थित है। वर्तमान लाइन क्षमता यातायात को सम्हालने में अक्षम है और गाड़ियों की रुकौनी होती है। क्षेत्र में पनप रहे बहुत से उद्योगों, पूर्वोत्तर कोयलाखानों द्वारा कोयले के उत्पादन में अपेक्षित वृद्धि और हिन्दुस्तान उर्वरक निगम/नामरूप द्वारा अतिरिक्त उर्वरक उत्पादन आदि के कारण यातायात में महत्वपूर्ण वृद्धि का पूर्वानुमान है। लाइन क्षमता निर्माण के चरण–I और II बढ़े हुए यातायात की आवश्यकताओं को पूरा करेंगे : तथापि, भविष्य की यातायात आवश्यकताओं को पूरा करने के लिए चरण–III निर्माण कार्य लमडिंग-मांदेर डिसा/पाथर खोला के बीच 3.8 कि.मी. पर पैनल अन्तर्पाशन सहित नये क्रासिंग स्टेशन की व्यवस्था करना अपरिहार्य है। इस कार्य पर 1.07 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 25.00 रुपये के परिव्यय का प्रस्ताव है।

31 लमडिंग मंडल—बदरपुर यार्ड के ढांचे में परिवर्तन—पूर्वोत्तर सीमा रेलवे :—बदरपुर यार्ड 185 कि.मी. लम्बे लमडिंग-बदरपुर हिल खण्ड के छोर पर स्थित है और अनेक महत्वपूर्ण टर्मिनलों को यातायात भेजता/प्राप्त करता है। विभिन्न यातायात सर्वेक्षणों द्वारा पूर्वानुमान लगाया गया है कि इस खंड पर वर्तमान 142 मालडिब्बा प्रतिदिन की तुलना में 1999-2000 तक 577 मालडिब्बों की थ्रूपुट आवश्यकता होगी। इस समय भी इस यार्ड की अपर्याप्त सम्हलाई क्षमता के कारण बहुत से मालडिब्बे गंतव्य से पूर्व छोड़ दिये और खड़े कर दिये जाते हैं। इसके अलावा, आदान एवं प्रेषण लाइनें आजकल छंटाई प्रयोजनों के लिए और यात्री लाइनें माल आदान और प्रेषण के लिए इस्तेमाल में लायी जा रही हैं। वर्तमान कठिनाइयों को दूर करने और बढ़े हुए थ्रूपुट को सम्हालने के लिए बदरपुर यार्ड के ढांचे में परिवर्तन करना आवश्यक है। इस कार्य पर 2.94 करोड़ रुपये की लागत आने का अनुमान है और 1988-89 में 24.00 लाख रुपये के परिव्यय का प्रस्ताव है।

tioned. However, the placement capacity of existing goods sheds at Dhupguri, Kokrajhar, Chaprakata and Baihata is extremely inadequate resulting in detention to wagons, breaking up of goods trains, dropping of rakes at other stations, utilisation of passenger platform lines running lines etc. adversely affecting punctuality of passenger trains. Provision of rake handling facilities at these five stations is, therefore, imperative. The work is estimated to cost Rs. 244.90 lakhs and an outlay of Rs. 45.00 lakhs is proposed during 1988-89.

30. *New crossing station with panel interlocking at km. 3.8 between Lumding-Mandardisa/Patharkhola—Northeast Frontier Railway.*—Lumding station is situated at the junction point of three sections of Northeast Frontier Railway *i.e.* New Guwahati-Lumding. Tinsukia-Lumding and Lumding-Badarpur. The existing line capacity is unable to meet the traffic and there is detention to trains. In view of many industries coming up in the region, contemplated increase in coal production by North Eastern Coalfields and additional fertilizer production by HFC/Namrup etc. substantial increase in traffic is precast. Phases I & II of the line capacity works will cope with the increased traffic. However, Phase-III work—provision of new crossing station with panel interlocking at km. 3.8 between Lumding-Mandardisa/Patharkhola is inescapable to meet the future traffic requirements.

The work is estimated to cost Rs. 1.07 crores and an outlay of Rs. 25.00 lakhs has been proposed dur-during 1988-89.

31. *Lumding Division-Remodelling of Badarpur Yard—Northeast Frontier Railway.*—Badarpur yard lies at the end of 185 km. long Lumding-Badarpur Hill Section and receives traffic to and from a number of important terminals. Various traffic surveys have forecast a throughput requirement of 577 wagons on this section by 1999-2000 as against 142 wagons per day at present. Even at present a number of wagons are dropped short and stabled due to inadequate handling capacity of this yard. Besides, reception-*cum*-despatch lines are at present being used for sorting purposes and passenger lines for goods reception and despatch. To overcome the existing constraints and to meet increased throughput, remodelling of Badarpur yard is imperative. The work is estimated to cost Rs. 2.94 crores and an outlay of Rs. 24.00 lakhs has been proposed during 1988-89.

32 गुवाहटी–लमडिंग–दीमापुर खण्ड पर मीटर लाइन प्रणाली का ग्रेड बढ़ाना—पूर्वोत्तर सीमा रेलवे :—एन.ई.सी.एल. के उत्पादन में वृद्धि, तीसरे तेल-शोधक कारखाने की स्थापना, नामरूप उर्वरक संयंत्र के विस्तार के कारण यातायात में वृद्धि के संबंध में भावी यातायात प्रक्षेपणों की आवश्यकताओं को पूरा करने के लिए जबकि 1991-92 तक प्रतिदिन 7 गाड़ियों के अतिरिक्त यातायात प्राप्त होने की संभावना है, गति में वृद्धि थ्रूपुट क्षमता, सिगनल और अन्तर्पाशन व्यवस्था में सुधार आवश्यक हो गया है। यह मीटर लाइन प्रणाली का ग्रेड बढ़ाकर प्राप्त किया जा सकता है। अतः पहले चरण में गुवाहटी–लमडिंग–दीमापुर खंड के बीच मीटर लाइन खण्ड का ग्रेड बढ़ाना अपरिहार्य है। इस कार्य पर 19.30 करोड़ रुपये की लागत आने का अनुमान है। वर्ष 1988-89 में 2 लाख रुपये के परिव्यय का प्रस्ताव है।

32. *Upgradation of M.G. system on Guwahati-Lumding-Dimapur Section—Northeast Frontier Railway.*—To meet the future traffic projections in respect of increase in traffic due to increase in production of N.E.C.L., coming up of 3rd refinery, expansion of Namrup Fertilizer Plant, when additional traffic to the extent of 7 trains per day is likely to materialise by 1991-92, improved speeds, throughput capacity, improvement in signalling and interlocking has become essential. This can be achieved by upgradation of the M.G. system. Upgradation of M.G. section between Guwahati-Lumding-Dimapur section in the first phase is, therefore, inevitable. The work is estimated to cost Rs. 19.30 crores. An outlay of Rs. 2 lakhs has been proposed during 1988-89.

33. न्यू गुवाहटी बड़ी लाइन— अलग निर्गामी बड़ी लाइन माल गोदाम सुविधाओं की व्यवस्था—पूर्वोत्तर सीमा रेलवे :—न्यू गुवाहटी बड़ी लाइन माल यार्ड अक्तूबर, 1984 में चालू किया गया था जब बड़ी लाइन गुवाहटी तक बढ़ायी गयी थी। इसे पूर्वोत्तर सीमा रेलवे के लिए बड़ी लाइन यातायात का टर्मिनल यार्ड बनाया जाना था। वर्तमान यार्ड आगत और निर्गामी यातायात को सम्हालने में अक्षम है और इस यार्ड में सम्हाले गये माल डिब्बों की अत्यधिक रुकौनी होती है। यातायात में अधिक वृद्धि होने से, सीमेन्ट रेक जोगीघोपा को अपरिवर्तित कर दिये जाते हैं और न्यू गुवाहटी माल यार्ड की सीमित क्षमता के कारण बारंबार यातायात प्रतिबंध लगाये जाते हैं। भविष्य में यातायात में वृद्धि होने से, स्थिति और खराब होने की संभावना है। अतः न्यू गुवाहटी में एक अलग से बड़ी लाइन के निर्गामी माल गोदाम का प्रावधान अपरिहार्य हो गया है। इस कार्य पर 1.70 करोड़ रुपये की लागत आने का अनुमान है। वर्ष 1988-89 में 10 लाख रुपये के परिव्यय का प्रस्ताव है।

33. *New Guwahati B.G.—Provision of separate outward B.G. goods shed facilities—Northern Frontier Railway.*—The New Guwahati BG goods yard was commissioned in October, 1984 when BG line was extended upto Guwahati. This was to be the terminal yard of BG traffic for N.F. Railway. The existing yard is incapable of dealing with inward and outward traffic and wagons dealt with in this yard are suffering heavy detention. With the sharp increase in traffic, cement rakes are diverted to Jogighopa and frequent traffic restrictions are being imposed because of the limited capacity of New Guwahati goods yard. With the increase in traffic in future the situation is likely to aggravate. Provision of a separate outward B.G. goods sheds at New Guwahati has, therefore, become unavoidable. The work is estimated to cost Rs. 1.70 crores. An outlay of Rs. 10 lakhs has been proposed during 1988-89.

34 दो थ्रू लाइनों पर तार लगाना और प्रेषण लाइनों पर ऊपरी तार लगाना—दक्षिण रेलवे :—रामपुरम एक महत्वपूर्ण यार्ड है जहां माल और कोचिंग की गहन और विविध गतिविधियां होती हैं। इस यार्ड में सम्हाले जा रहे भारी आगत यातायात और अन्य कोचिंग स्टाक के बावजूद, किसी लाइन पर तार नहीं लगे हैं। इससे यार्ड में बिजली रेल इंजन प्रवेश नहीं कर पाते और कार्य संचलन में नम्यता नहीं आती है। यदि बिजली रेल इंजनों द्वारा परिचालन किया जाय तो यार्ड के कार्य संचालन में बहुत सुधार आ जायेगा। अतः 52.64 लाख रुपये की अनुमानित लागत पर इस यार्ड की दो लाइनों पर पूरी तरह तार लगाने और दो और लाइनों पर ऊपरी तार लगाने का प्रस्ताव है जिसके लिए 1988-89 में 25 लाख रुपये के परिव्यय का प्रस्ताव है।

34. *Royapuram Goods Yard—Wiring of two through lines and top wiring of despatch lines—Southern Railway.*—Royapuram is a very important yard where intense and diverse activities of goods and coaching take place. Inspite of heavy inwards loads and other coaching stock dealt with at this yard, no line is wired. This blocks the entry of electric locos to the yard and takes away flexibility in working. The working of the yard will improve greatly if operations are made by electric locos. Therefore, two lines in this yard are proposed to be fully wired and two more lines top wired at an anticipated cost of Rs. 52.64 lakhs. Outlay proposed for 1988-89 is Rs. 25 lakhs.

35. **मद्रास सेंट्रल—21/22 सवारी डिब्बे खड़े करने के लिए प्लेटफार्म नं. 11 और 12 सहित प्लेटफार्म की लम्बाई में विस्तार करने के लिए यार्ड के ढांचे में परिवर्तन—दक्षिण रेलवे** :—मद्रास सेन्ट्रल भारतीय रेलों का एक अत्यधिक व्यस्त यात्री टर्मिनल है । भारत के महत्वपूर्ण शहरों और विभिन्न राज्यों की राजधानियों से जोड़ने वाली 33 जोड़ी डाक/एक्सप्रैस गाड़ियां इस स्टेशन से प्रारंभ होती हैं । यात्री जनता की ओर से और नई गाड़ियां चालू करने की मांगें हैं । यातायात की मात्रा को देखते हुए गाड़ी सेवाओं में होने वाले व्यवधान को कम से कम करते हुए, 26 डिब्बों वाली गाड़ियों के लिए भावी विस्तार की व्यवस्था करने सहित प्लेटफार्म नं० 11 और 12 को बढ़ाने का प्रस्ताव है । इस कार्य पर 3.57 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 50 लाख रुपये के परिव्यय का प्रस्ताव है ।

36. **जोलारपेट्टै—ईरोड साइड को बेंगलूर सिटी साइड से जोड़ने के लिए बाई-पास लाइन—दक्षिण रेलवे** :—इस समय 23 जोड़ी डाक/एक्सप्रेस गाड़ियां, 3 जोड़ी यात्री गाड़ियां और 19 जोड़ी माल गाड़ियां अरकोनम—जोलारपेट्टै खण्ड पर चलती हैं । चार जोड़ी डाक/एक्सप्रेस गाड़ियां ईरोड साइड से बेंगलूर सिटी तक चलती हैं । तीन माल गाड़ियां ईरोड साइड से सीधे बेंगलूर की ओर चलती हैं । इस यातायात में काफी वृद्धि होने की प्रत्याशा है । जोलारपेट्टै में विपर्य स्थिति में चलने वाले ऐसे यातायात की रुकावटों को दूर करने के लिए, 2.89 करोड़ रुपये की अनुमानित लागत पर बाई-पास लाइन के प्रावधान का प्रस्ताव है जिसके लिए 1988-89 में 17 लाख रुपये के परिव्यय का प्रस्ताव है ।

37. **मगुडांचावाडी और मावेलिपालैयम के बीच मध्यवर्ती ब्लाक हट—दक्षिण रेलवे**:—तूतीकोरिन में ताप बिजली संयंत्र और अन्य बातों के साथ-साथ खाद्यान्न यातायात आदि के कारण ईरोड-सलेम खंड पर गाड़ियों की संख्या में काफी वृद्धि होने की संभावना है । 31 गाड़ियों के लिए उपलब्ध क्षमता की तुलना में, 1990 तक गाड़ियों की संख्या 40 हो जाने की प्रत्याशा है । अतः मध्यवर्ती ब्लाक हटों की व्यवस्था करके ब्लाक सैक्शन को विभाजित कर क्षमता में वृद्धि करने का प्रस्ताव है । इस कार्य पर 51.70 लाख रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 11 लाख रुपये के परिव्यय का प्रस्ताव है ।

38. **एट्टिमडै—ब्लाक स्टेशन में बदलाव—दक्षिण रेलवे**:—एट्टिमडै पोदनूर-पालक्काट खंड पर मदुकरै और वालयार स्टेशनों के बीच घाट खण्ड पर स्थित है । जोलारपेट्टै-ईरोड खंड के विद्युतीकरण के बाद पालक्काट मंडल पर बड़ी संख्या में भारी माल गाड़ियां चलने की संभावना है, जिसके कारण इस भेद्य खण्ड पर यातायात प्रभावित होगा । इसलिए लम्बे ब्लाक खण्ड को विभाजित करना जरूरी हो गया है ।

35. *Madras Central—Yard Remodelling to provide for extended length of platforms including Platform Nos. 11 & 12 to hold 21/22 Coaches—Southern Railway.*—Madras Central is one of the busiest passenger treminal on the Indian Railways. 33 pairs of Mail/Express trains originate from this station connecting various capitals and important cities of India. There are demands from the travelling Public for introduction of new trains. keeping in view the volume of traffic, it is proposed to extend with provision for future extension for 26 Coach Trains the Platform Nos. 11 & 12 with minimum dislocation to the train services. Cost of this work is estimated at Rs. 3.57 crores and an outlay of Rs. 50 lakhs has been proposed during 1988-89.

36. *Jolarpettai—Bye-pass line to link Erode side with Bangalore city side—Southern Railway.*—At present, 29 pairs of mail/express trains, three pairs of passenger trains and 19 pairs of good trains run on Arkkonam-Jolarpettai section, four pairs of mail/express trains run from Erode side to Bangalore city. Three goods trains run direct from Erode side towards Bangalore. This traffic is anticipated to grow substantially. To avoid detention of such traffic for reversal at Jolarpettai, it is proposed to provide the bye-pass line at an estimated cost of Rs. 2.89 crores. The Outlay proposed for 1988-89 is Rs. 17 lakhs.

37. *Intermediate block hut between Mogudanchavadi and Movelipalayam—Southern Railway.*—The number of trains on the Erode-Salem Section is expected to increase substantially on account of the Thermal Power Plant at Tuticorin and foodgrain traffic, among other. Against available capacity for 31 trains, the anticipated number of trains by 1990 is 40. It is, therefore, proposed to increase the capacity by splitting the block section with provision of intermediate block huts. The anticipated cost of the work is Rs. 51.70 lakhs and outlay proposed for 1988-89 is Rs. 11 lakhs.

38. *Ettimadai—Conversion into a block station—Southern Railway.*—Etimadai is situated on the Ghat Section between Madukkarai and Walayer Stations on the Podanur-Palghat Section. After the electrification of Jolarpettai-Erode Section larger number of heavy freight trains are expected to run over Palghat Division which will, in turn, affect the traffic on this vulnerable section. So, the splitting of the long block

एट्टिमडै ब्लाक स्टेशन (मदुकरै से 5.23 कि०मी० और बालयार से 8.78 कि०मी०) चालू हो जाने पर, दूरी विभाजित करना संभव हो जायेगा जिससे मदुकरै होकर बिना रोके डाउन गाड़ियां चलाने में सुविधा होगी । ऐसा हो जाने के बाद, अनुमान है कि डाउन दिशा में प्रत्येक गाड़ी के लिए 20 मिनट की बचत होगी । इस कार्य पर 54.45 लाख रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 11 लाख रुपये के परिव्यय का प्रस्ताव है ।

39 **शोरुवण्णूर–कालीकट खण्ड—टोकन रहित ब्लाक संचलन—दक्षिण रेलवे**—शोरुवण्णूर और कालीकट के बीच 86 कि०मी० लम्बी इकहरी लाइन रेलपथ एक अत्यधिक संचलन वाला खण्ड है । गाड़ियों की औसत गति कम करके, वर्ष के व्यस्त मौसम के दौरान 1986-87 में निर्धारित लाइन क्षमता का उपयोग 86.5% था । अब इस खण्ड पर चल रही 12 जोड़ी यात्री गाड़ियों में से, नौ जोड़ी गाड़ियां तेज अन्तर्नगरीय एक्सप्रेस गाड़ियां हैं और निकट भविष्य में कुछ और तेज गाड़ियां शुरू करना अपरिहार्य होगा । 1991-92 तक माल यातायात में 213 मालडिब्बा से 318 माल डिब्बा प्रति दिन की वृद्धि होने का अनुमान है । अतः खण्ड की क्षमता बढ़ाने के लिए 1.13 करोड़ रुपये की अनुमानित लागत से टोकन रहित ब्लाक संचलन की व्यवस्था करने का प्रस्ताव है जिसके लिए 1988-89 में 11 लाख रुपये के परिव्यय का प्रस्ताव है ।

40. **तिरुवनन्तपुरम सेन्ट्रल कोल्लम खण्ड—(1) कप्पिल–क्रासिंग स्टेशन में बदलाव और (2) मय्यानाड—क्रासिंग स्टेशन में बदलाव—दक्षिण रेलवे**—तिरुवनन्तपुरम से/तक आने/जाने वाली अतिरिक्त मेल/एक्सप्रेस गाड़ियों के लिए उत्तरोत्तर मांग बढ़ रही है । इस खण्ड की क्षमता बढ़ाना आवश्यक होगा तथा इस खण्ड पर नमक एवं उर्वरक उद्योगों की स्थापना और तेल शोधक कारखाने की क्षमता में भी वृद्धि हो जाने के कारण यह आशा की जाती है कि इन मदों की ढुलाई बहुत अधिक होगी । कप्पिल तथा मय्यानाड में क्रमशः 96.10 लाख रुपये तथा 90 लाख रुपये की प्रत्याशित लागत से क्रासिंग स्टेशनों की व्यवस्था करने का प्रस्ताव है । 1988-89 में दोनों निर्माण-कार्यों के लिए क्रमशः 21 लाख रुपये तथा 20 लाख रुपये के परिव्ययों का प्रस्ताव है ।

41. **क्यातसन्द्र—क्रासिंग स्टेशन में बदलाव—दक्षिण रेलवे**—क्यातसन्द्र बैंगलूरु सिटी की ओर तुमकूर से 5.26 कि०मी० की दूरी पर स्थित एक ब्लाक रहित स्टेशन है । तुमकूर बैंगलूरु सिटी मी०ला० खण्ड (69.21 कि०मी०) पर इस समय 6 ब्लाक रहित तथा 6 ब्लाक युक्त हैं । इस खण्ड पर कई दैनिक यात्री गाड़ियां चलती हैं तथा तुमकूर से 11.4 कि०मी० पर हिरेहल्ली में मेल होता है । इसके परिणामस्वरूप गाड़ियां रुकी रहती हैं । क्यातसन्द्र का क्रासिंग स्टेशन में बदलाव हो जाने से दैनिक यात्री गाड़ियों के समय पालन में सुधार होगा तथा तुमकूर /हिरेहल्ली में

section has become necessary. By commissioning Ettimadai Block station (5.23 Km.) from Medukkarai and 8.78 Km. from Walayar, it will be possible to split the distance, facilitating down trains to run through Madukkarai without hold up. It is anticipated that with this there will be a saving of 20 minutes for each train in the down direction. Cost of the work is estimated at Rs. 54.45 lakhs and the outlay proposed for 1988-89 is Rs. 11 lakhs.

39. *Shoranur-Calicut Section—Tokenless block working*—Southern Railway.—The 86 Km. long single line track between Shoranur and Calicut is a heavily worked section. Utilisation of the charted line capacity for 1986-87 was 86.5% during the busy season of the year, depressing the average speed of trains. Out of the 12 pairs of passenger trains now running on the section, as many as nine pairs are fast inter-city expresses and introduction of a few more fast trains in the near future would be inevitable. The goods traffic is estimated to increase from 213 wagons to 318 wagons per day by 1991-92. Provision of tokenless block working on the section to improve the capacity is therefore proposed at an anticipated cost of Rs. 1.13 crores. The outlay proposed for 1988-89 is Rs. 11 lakhs.

40. *Trivandrum Central Quilon Section (i) Kappil—Conversion into a crossing station and (ii) Mayyanad—Conversion into a crossing station—Southern Railway.*—There is ever increasing demand for additional Mail/Express trains from and to Trivandrum. It will be necessary to increase the section capacity, and with the increase in the setting up of Salt and Fertiliser Industries on this section and also with the increase in Refinery capacity, it is expected that the movement of these items will be very heavy. It is proposed to provide crossing stations at Kappil & Mayyanad at an anticipated cost of Rs. 96.10 lakhs and Rs. 90 lakhs respectively. Outlays proposed for the two works in 1988-89 are Rs. 21 lakhs and Rs. 20 lakhs respectively.

41. *Kyatsandra—Conversion into a crossing station—Southern Railway.*—Kyatsandra is a non-block station situated at a distance of 5.26 Km. away from Tumkur towards Bangalore city. Tumkur-Bangalore city M.G. Section (69.21 Km.) at present has 6 non-block stations and 6 block stations. On this section a number of commuter trains run and crossing are booked at Hirehalli, 11.4 Km. from Tumkur. This results in hold up of trains. The conversion of Kyatsandra into a crossing station will improve puntcuality of commuter trains and will avoid detention to trains

गाड़ियों के रोके जाने से बचा जा सकेगा। इस निर्माण कार्य की लागत 1.05 करोड़ रुपये है तथा 1988-89 के लिए 31 लाख रुपये के परिव्यय का प्रस्ताव है ।

42. **बैय्यप्पनहल्ली—कृष्णराजपुरम और बैय्यप्पनाहल्ली के बीच रूट रिले अन्तर्पाशन तथा युग्म एकल लाइन संचलन—दक्षिण रेलवे**—बैय्यनपनहल्ली जोलारपेट्टै—बेंगलूरु सिटी खण्ड पर स्थित है । इस खण्ड पर जहां बेंगलूर सिटी तथा कृष्ण-राजपुरम की ओर दो दोहरी लाइनें चल रही हैं तथा विमानपुरा और चन्नासन्द्र की ओर इकहरी लाइन है, 18 यात्री गाड़ियां तथा 12 माल गाड़ियां सम्हाली जाती हैं । इसके अतिरिक्त, बहुत-सी पायलट गाड़ियां, अकेले इंजन तथा विभागीय गाड़ियां, औसतन प्रतिदिन 20 गाड़ियां चलती हैं। यातायात के समुचित प्रवाह, संरक्षा तथा परिचालन में किफायत सुनिश्चित करने की दृष्टि से बैय्यप्पनाहल्ली में कृष्णराजपुरम तथा बैय्यप्पनाहल्ली के बीच युग्म एकल लाइन संचलन सहित एक रूट रिले अन्तर्पाशन केबिन बनाने का प्रस्ताव है । निर्माण कार्य की अनुमानित लागत 3.10 करोड़ रुपये है तथा 1988-89 में इस के लिए एक लाख रुपये के परिव्यय का प्रस्ताव है ।

43. **अम्मूगुड़ा के निकट मौला अली–सनतनगर बाई-पास लाइन पर क्रासिंग स्टेशन—दक्षिण मध्य रेलवे**—1978-79 में अम्मूगुडा के निकट क्रासिंग स्टेशन की व्यवस्था के बिना मौला अली से सनतनगर तक एक कार्ड लाइन के निर्माण की स्वीकृति दी गयी थी । विकाराबाद–वाडी खण्ड और गुत्ती नंदलूर खण्ड पर सीमेंट संयंत्रों की स्थापना तथा रायचुर और पर्ली स्टेशनों पर ताप बिजली घरों की योजना के विस्तार से दोनों ओर के यातायात के स्तर में वृद्धि हुई है । इसलिए अम्मूगुडा के निकट क्रासिंग स्टेशन की व्यवस्था करना अनि-वार्य समझा गया है । तदनुसार इस काम पर 66 लाख रुपये की लागत आने का अनुमान है । इसके लिए 1988-89 में 20 लाख रुपये के परिव्यय का प्रस्ताव है ।

44. **मोटूमारी–अतिरिक्त लूप—दक्षिण-मध्य रेलवे**:—मोटूमारी में दो मुख्य लाइनें तथा मानक लम्बाई की दो लूप लाइनें हैं । इस समय विजयवाड़ा – दोर्णाकल खण्ड पर प्रत्येक ओर से 37 गाड़ियां चल रहीं है । मोटूमारी ग्रांड ट्रंक मार्ग का जंक्शन स्टेशन होगा जिससे विजयवाड़ा–दोर्णाकल तथा मोटूमारी–जग्गय्यापैट खण्ड सेवित होंगे । मुख्य लाइन की लाइन क्षमता का उपयोग 95% है । चूंकि मार्च, 1987 में जग्गय्यापैट तक एक नयी बड़ी लाइन चालू की गयी थी, अतः नयी शाखा लाइन पर 3 नये सीमेंट संयंत्रों के कारण इस खण्ड पर माल यातायात बढ़ने की संभावना है । इसके अलावा, नयी बड़ी लाइन मोटूमारी अप लूप लाइन से शुरू होती है और इस शाखा लाइन पर प्रतिदिन 6 से 8 गाड़ियों के यातायात की संभावना है । इसलिए एक अतिरिक्त लूप लाइन की बहुत अधिक जरूरत

at Tumkur/Hirehalli. Cost of the work is Rs. 1.05 crores and outlay proposed for 1988-89 is Rs. 31 lakhs.

With a view to ensuring smooth flow of traffic and safety and economy in operation, it is proposed to have a route relay interlocking cabin at Baiyyapenahalli with twin single line working between Krishnarajapuram and Baiyyappenahalli. The work is estimated to cost Rs. 3.10 crores and outlay proposed for 1988-89 is Rs. 1 lakh.

43. *Crossing station on the Moula Ali—Sanatnagar bye-pass line near Ammuguda—South Central Railway.*—The construction of a chord line from Moula Ali-Sanatnagar was approved in 1978-79 without provision of a crossing station near Ammuguda. With the setting up of cement plants on Vikarabad-Wadi section and Gooty-Nandalur section and expansion scheme of Thermal Power Stations at Raichur and Parli stations, the level of traffic to and from has increased. The provision of a crossing station near Ammuguda is considered essential. Accordingly this work is proposed at an estimated cost of Rs. 66 lakhs. Outlay proposed for 1988-89 is Rs. 20 lakhs.

44. *Motumari—addition loop—South Central Railway.*—Motumari is having two main lines and two loops with standard length. At present the train services on Vijayawada-Doranakal section is 37 trains each way. Motumari will be a Junction station on the G.T. route serving Vijayawada-Dornakal and Motumari-Jaggayyapet sections. The utilisation of line capacity on main line is 95%. Since a new BG line to Jaggayyapet was commissioned in March 1987, the goods traffic on this section is likely to increase, due to 3 cement plants on the newbranch line. Further, the new BG line takes off from Motumari Up loop and the expected traffic on this branch line is 6 to 7 trains per day. The need is therefore

48. **आद्रा–नीमपुरा खण्ड के 4 स्टेशनों पर 686 मीटर की मानक लम्बाई तक लूप लाइनों का विस्तार—दक्षिण-पूर्व रेलवे**—मोहुदा क्षेत्र में बन रहे नये धुलाई कारखानों से विशाखापट्टनम इस्पात संयंत्र को धुलु हुए कोयले की ढुलाई के लिए आद्रा-नीमपुरा दोहरी लाइन का खण्ड नियत किया गया है । यह खण्ड उत्तरी भारत से कलकत्ता क्षेत्र को खाद्यान्नों के यातायात, पाथरडीह के निकट मुकुण्डा खानों आदि के यातायात की आवश्यकता की पूर्ति भी करता है । इस खण्ड के सभी स्टेशनों पर लूप लाइनें गैर-मानक लम्बाई की हैं । लाइन क्षमता बढ़ाने की दृष्टि से सभी 13 स्टेशनों की लूप लाइनों की लम्बाई बढ़ाकर पूरे रैक की लम्बाई के अनुरूप करने का प्रस्ताव है । तीन स्टेशन की लूप लाइनों के विस्तार सहित चरण-I का काम प्रगति पर है । चरण-II में 2.45 करोड़ रुपये की प्रत्याशित लागत से चार और स्टेशनों पर निर्माण कार्य शुरू करने का प्रस्ताव है । 1988-89 में उसके लिए 14.50 लाख रुपये के परिव्यय का प्रस्ताव है ।

48. *Extension of loops to standard length of* 686 *metres at* 4 *stations in Adra-Nimpura section—Southeastern Railway.*—Adra-Nimpura double line section has been earmarked for movement of washed coal from the new washeries coming up in Mohuda sector to the Visakhapatnam Steel Plant. This section also caters to food grains traffic from Northern India to Calcutta area, traffic from Mukunda Mines near Pathardih etc. The loop lines at all the stations of this section are non-standard. With a view to increased line capacity it is proposed to extend the loop lengths at all the 13 stations to full rake length. Phase-I including extension of loops at three stations is in progress. It is proposed to take up the work at four more stations in Phase-II at an anticipated cost of Rs. 2.45 crores. The outlay proposed during 1988-89 is Rs. 14.50 lakhs.

49. **हतिया–बोंडामुण्डा खण्ड के बालसरिंग तथा महाबुआंग पर दो क्रासिंग स्टेशनों को पुनःखोलना —दक्षिण-पूर्व रेलवे**—बोंडामुण्डा—हटिया ब०ला० खण्ड की योजना 21 ब्लाक स्टेशन के साथ राउरकेला और भिलाई इस्पात संयंत्र तथा हटिया के भारी इंजीनियरी संयंत्र के प्रत्याशित यातायात को सम्हालने के लिए बनायी गयी थी परन्तु यातायात फलीभूत नहीं हुआ तथा खण्ड को केवल 16 ब्लाक स्टेशनों के साथ खोला गया । बाद में, किफायत के तौर पर, 16 ब्लाक स्टेशनों में से 5 स्टेशन बन्द कर दिए गए । बोकारो इस्पात के धीरे-धीरे विस्तार से 4/4.75 एमटीए के उत्पादन के स्तर तक पहुंच जाने से यातायात की प्रत्याशित वृद्धि को सम्हालने के लिए 10 क्रासिंग स्टेशनों को पुनः खोलना आवश्यक हो गया है, । योजना के प्रथम चरण के रूप में, बालसरिंग तथा महाबुआंग के दो क्रासिंग स्टेशन पुनः खोलने का प्रस्ताव है । इस निर्माण-कार्य की प्रत्याशित लागत 2.88 करोड़ रुपये है तथा 1988-89 में इसके लिए 15 लाख रुपये के परिव्यय का प्रस्ताव है ।

49. *Re-opening of* 2 *crossing stations at Balsaring and Mahabuang in Hatia-Bondamunda section—South Eastern Railway.*—Bondamunda-Hatia BG section was planned with 21 block stations to deal with the anticipated traffic for Rourkela and Bhilai Steel Plant and from Heavy Engineering Plant at Hatia, but the traffic did not materialise and the section was opened with 16 block stations only. Later, as a measure economy, five out of 16 block stations were closed down. In the context of gradual expension of Bokaro Steel Plant to 4/4.75 MTA stage of production it has become necessary to re-open 10 cross ing stations to deal with the anticipated growth of traffic. As first Phase of the scheme, it is proposed to re-open 2 crossing stations at Balsaring and Mahabuang. The anticipated cost of the work is Rs. 2.88 crores an an outlay of Rs. 15 lakhs has been proposed during 1988-89.

50. बर्नपुर–कोचिंग गाड़ियां संभालने के लिए प्लेट फार्म सुविधाएं—दक्षिण-पूर्व रेलवे —इस समय आद्रा–आसनसोल खण्ड के बर्नपुर स्टेशन पर केवल एक यात्री प्लेटफार्म है। यह लाइन दक्षिणी बिहार को उत्तरी बिहार तथा उत्तर भारत से जोड़ती है और इससे इस्को इस्पात कारखाना भी संबंधित है। इस क्षेत्र में माल यातायात के उच्च घनत्व के कारण बर्नपुर में प्लेटफार्म उपलब्ध न होने से निकटवर्ती स्टेशनों पर कोचिंग गाड़ियों का नियन्त्रण करना आवश्यक हो जाता है, जिसके परिणामस्वरूप विलम्ब हो जाता है। इन कठिनाइयों को दूर करने की लिए ऐसी व्यवस्था करने का प्रस्ताव है ताकि दो कोचिंग गाड़ियों को लाइन सं० 1 पर एक ही समय में संभाला जा सके। इसके लिए, वर्तमान प्लेटफार्म के विस्तार, एक अतिरिक्त क्रासओवर, जिसके परिणामस्वरूप वर्तमान सिगनलों को स्थानान्तरित करने तथा अतिरिक्त सिगनलों की व्यवस्था करने की योजना बनायी गयी है। इस कार्य पर 1.32 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 4 लाख रुपये के परिव्यय की व्यवस्था की गयी है।

51. कोकपारा—खड़गपुर–टाटानगर खण्ड पर सिरोपरि उपस्कर सहित अप और डाउन लूप लाइन—दक्षिण-पूर्व रेलवे:—खड़गपुर–टाटानगर खण्ड पर कोकपारा स्टेशन पर केवल दो रनिंग लाइनें हैं। यह एक बहुत व्यस्त स्टेशन है जिसका उपयोग संतृप्त बिंदु पर पहुंच गया है। लूप लाइनों के न होने के कारण महत्वपूर्ण गाड़ियों को अग्रता देने के लिए किसी भी गाड़ी को इस स्टेशन पर नहीं रोका जा सकता। जब माल गाड़ियों को निकटवर्ती स्टेशन पर रोक दिया जाता है तो कोचिंग गाड़ियों को मार्ग देने के समय कठिन स्थिति पैदा हो जाती है। इस कठिनाई को दूर करने के लिए कोकपारा में एक अप और एक डाउन लूप लाइन की व्यवस्था करने का प्रस्ताव है। इस कार्य पर 1.66 करोड़ रुपये की लागत आने की प्रत्याशा है जिसके लिए 1988-89 के दौरान 14 लाख रुपये के परिव्यय का प्रस्ताव है।

52. तालचेर—रजतगढ़ खण्ड में लाइन क्षमता में वृद्धि—दक्षिण पूर्व रेलवे:—तालचेर—रजतगढ़ खण्ड में इस समय तीन ब्लाक स्टेशन और पांच यात्री हाल्ट हैं। धेनकनाल—रजतगढ़ खण्ड में 100 में 1 ढाल होने के कारण इस खण्ड को निर्बाध बनाने के लिए बैंकिंग इंजन लगाया जाता है। तालचेर क्षेत्र में नयी कोयला खानों के सृजन होने और विशाखापत्तनम इस्पात कारखाना को नान-कोकिंग कोयला पहुंचाने के कारण खण्ड की क्षमता बढ़ाना अपरिहार्य है। अत्यधिक नाजुक खंड होने के कारण पहले चरण में धेनकनाल—रजतगढ़ के बीच एक नया क्रासिंग स्टेशन तथा तीन स्टेशनों पर अन्तर्पाशन में सुधार करने के कार्य को स्वीकृति दी गयी है और नालको की लागत पर बुधापंक में एक और क्रासिंग स्टेशन का निर्माण किया गया है। चरण-II में, छोर केबिनों सहित खतांगिडपुर यात्री हाल्ट पर

50. *Burnpur—Platform facilities to deal with coaching trains—South Eastern Railway.*—Burnpur station on Adra-Asansol section is at present having only one passenger platform. This line connects South Bihar with North Bihar and North India and also serves the IISCO Steel Plant. Due to the high density of goods traffic in the area it becomes necessary to control coaching trains at the adjacent stations for want of availability of platform at Burnpur resulting in delays. To overcome the constraints it is proposed to provide arrangements so that two coaching trains can be dealt with at a time on line No. 1. For this, extension of existing platform, an additional cross-over, consequential shifting of existing signals and provision of additional signals have been planned. The anticipated cost of the works is Rs. 1.32 crores and an outlay of Rs. 4 lakhs has been provided during 1988-89.

51. *Kokpara—Up and Down loop line with OHE on Kharagpur-Tatanagar Section—South Eastern Railway.*—Kokpara station on Kharagpur-Tatanagar section is provided with only two running lines. This is a very busy section which has reached saturation. Due to non-existence of loop lines no train can be held at this station for giving precedence to important trains. The situation gets critical at the time of passage of Coaching trains when the goods trains are held at adjacent station. To obviate this constraint it is proposed to provide one Up and One Down loop line at Kokpara at an anticipated cost of Rs. 1.66 crores with an outlay of Rs. 14 lakhs during 1988-89.

52. *Augmentation of Line Capacity in Talcher-Rajatgarh section—South Eastern Railway.*—Talcher-Rajatgarh section is at present having three block stations and five passenger halt. Due to existence of 1 in 100 gradient in Dhenkanal-Rajatgarh section, banking engine is deployed in clearing this section. Due to coming up of new coal mines in Talcher area and linking of non-cocking coal to Visakhapatnam Steel Plant, augmentation of the section capacity is inescapable. As a first Phase, a new crossing station between Dhenkanal-Rajatgarh, being the most critical section, and improvement of interlocking at three stations has been sanctioned and another crossing station at Budhapank has been constructed at the cost of NALCO. As Phase-II it is proposed to provide a

तीन लाइन वाले क्रासिंग स्टेशन की व्यवस्था करने का प्रस्ताव है। इस कार्य पर 1.30 करोड़ रुपये की लागत आने की प्रत्याशा है जिसके लिए 1988-89 में 13 लाख रुपये के परिव्यय का प्रस्ताव है।

53. **कोचिंग गाड़ियों को सम्भालने के लिए पुरी–खोरधा रोड खण्ड में सुविधाएं—दक्षिण पूर्व रेलवे** :—खोरधा रोड—पुरी शाखा लाइन एकल लाइन खण्ड है जिस पर पांच ब्लाक स्टेशन और तीन यात्री हाल्ट/फ्लैग स्टेशन हैं। इस खण्ड पर प्रतिदिन 12 जोड़ी गाड़ियां चलती हैं। इसके अतिरिक्त प्रति मास लगभग 100 तीर्थ बोगियों तथा पूरे वर्ष अनेक तीर्थ यात्री विशेष गाड़ियां और भारत दर्शन विशेष गाड़ियां भी पुरी आती हैं। खण्ड की अपर्याप्त लाइन क्षमता के कारण गाड़ियां समय पर नहीं पहुंच पाती हैं। इन कठिनाइयों को दूर करने के लिए, चरण-I में, बीरपुरुषोत्तमपुर यात्री हाल्ट पर तीन लाइन वाले क्रासिंग स्टेशन की व्यवस्था करने का प्रस्ताव है। इस कार्य पर 1.30 करोड़ रुपये की लागत आने की प्रत्याशा है जिसके लिए 1988-89 में 13 लाख रुपये के परिव्यय का प्रस्ताव है।

54. **3.4 एम० टी० के लिए विशाखापत्तनम इस्पात कारखाना परिधीय यार्ड हेतु रेल सुविधायें चरण-II—प्री टिपलर यार्ड में दस लाइनें जिसमें दो लाइनों का विद्युतीकरण शामिल है—दक्षिण पूर्व रेलवे** —विशाखापत्तनम इस्पात कारखाने में वर्ष 1988 में 1.2 एमटी और 1990 में 3.4 एमटी का उत्पादन के लिए चालू करने का लक्ष्य रखा गया है। इस्पात कारखाना के परिधीय यार्ड में प्री-टिपलर यार्ड की सेवा करने के लिए 18 लाइनों (6 विद्युतीकृत) की व्यवस्था की जानी है। पहले से स्वीकृत चरण I के कार्यों में 8 लाइनों (4 विद्युतीकृत) की व्यवस्था कर दी गयी है। अब दूसरे चरण में प्री-टिपलर यार्ड के लिए शेष 10 लाइनों (2 विद्युतीकृत) की व्यवस्था करने का प्रस्ताव है। इस कार्य पर रेलों के हिस्से के रूप में 18.10 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 1988-89 में 68.90 लाख रु० के परिव्यय का प्रस्ताव किया गया है।

55. **किसोनी, कालीसिंध, अकोदिया, शिवालपुर, कालापीपल, सिहोर और फंदा पर 58 बी ओ एक्स माल डिब्बों सहित गाड़ियों को ठहराने के लिए लूप लाइनों का विस्तार-पश्चिम रेलवे** —ये स्टेशन कोयले की ढुलाई करने वाले महत्वपूर्ण उज्जैन-भोपाल बड़ी लाइन खण्ड पर स्थित हैं। जम्बू रेक बी ओ एक्स 'एन' मालडिब्बों के उर्द्धगामी रुख को देखते हुए गाड़ियों का भार बढ़ गया है और इन स्टेशनों पर क्रासिंग/साथ-साथ ग्रहण सुविधाओं का प्रबन्ध करना कठिन हो गया है। अतः पूर्णभार वाली गाड़ियों के लिए लूप लाइनों की लम्बाई बढ़ाना अनिवार्य होगा। इससे लाइनों की लम्बाई कम होने के कारण इन स्टेशनों तथा आस पास के स्टेशनों पर होने वाली रुकावटों से बचा जा

three line crossing station at Sadashibpur Passenger halt, with end-cabins. The work is anticipated to cost Rs. 1.30 crores and an outlay of Rs. 13 lakhs is proposed for 1988-89.

53. *Facilities in Puri-Khurda Road section to deal with coaching trains—South Eastern Railway.*—Khurda Road-Puri branch line is a single line section with five block stations and three passenger halts/flag stations. There are 12 pairs of coaching trains on this section daily. In addition about 100 pilgrim bogies per month and several pilgrim specials and Bhart Darshan Specials also come to Puri throughout the year. Due to inadequate line capacity of the section, there is loss of punctuality for the trains. In order to remove the constraints it is proposed, as Phase-I, to provide a three line crossing station at the Birpurshottampur passenger halt. The work is anticipated to cost Rs. 1.30 crores and an outlay of Rs. 13 lakhs is proposed in 1988-89.

54. *Rail Facilities for the Visakhapatnam Steel Plant Peripheral Yard for 3.4 M.T. Phase-II—Ten lines in the pre-tippler yard including electrification of 2 lines—South Eastern Railway.*—The Visakhapatnam Steel Plant is targeted for commissioning in 1988 for 1.2 M.T. stage and in 1990 for 3.4 MT stage. For serving the Pre-tippler Yard in the Peripheral Yard of the Steel Plant, 18 lines (6 electrified) are to be provided. 8 lines (4 electrified) have been provided in the Phase-I works already sanctioned. It is now proposed to provide for the remaining 10 lines (2 electrified) for the pre-tippler yard in Phase-II. The work is estimated to cost Rs. 18.10 crores as Railway's share and an outlay of Rs. 68.90 lakhs during 1988-89 has been proposed.

55. *Extension of loops for accommodating trains with 58 BOX wagons at Kisony, Kalisindh, Akodia, Shivalpur, Kalapipal, Sehore & Phanda—Western Railway.*—These stations are located on important coal carrying Ujjain-Bhopal BG section. With the increasing trend of Jumbo rakes Box 'N' wagons, the load of trains has increased and it has become difficult to arrange crossings/simultaneous reception facilities at these stations. The work of lengthening of loops will, therefore, be essential for full load trains. This will save the detention at the stations and also the deten-

5. *Rebuilding of Bridge No.* 41 *at Km.* 182/0-1 *between Adapur & Raxaul stations on Darbhanga-Narkatiaganj section—North Eastern Railway.*—This bridge was constructed in 1907, and has inadequate water-way. During the monsoon of 1986 this bridge got highly overstressed hydrologically and the water was flowing at very high velocity. Under the prevailing conditions of fast flow of water and high efflux, the existing foundation is considered unsafe. Remedy lies in providing a wider bridge with well foundation to take care of the scour conditions and bring down the high efflux to reasonable level. It is, therefore, proposed to construct a new composite Girder bridge with 10×12.2m spans on well foundation at a cost of Rs. 183.19 lakhs. An outlay of Rs. 40 lakhs during 1988-89 has been proposed.

6. *Rebuilding of Bridge No.* 39*A between Adapur-Raxaul stations on Darbhanga-Narkatiaganj section Samastipur Division—Northeastern Railway.*—The bridge was constructed in 1922. The masonry substructure of the existing bridge, which was constructed in the year 1922, is showing signs of distress. Five piers have developed cracks. Pressure grouting too has not been effective, and a speed restriction of 15 KMPH has been imposed on this bridge. It is proposed on safety considerations to rebuild this bridge with 10×5.00m RCC slab spans at a cost of Rs. 77.58 lakhs. An outlay of Rs. 37 lakhs during 1988-89 has been proposed.

13. **तोंडलागोपावरम और इरुपलेम स्टेशनों के बीच कि० मी० 541/7–8 (कटलर नदी) पर पुल सं० 727 का पुनर्निर्माण दक्षिण मध्य रेलवे**:––यह पुल 1889 में बना था। चूने की चिनाई से बनायी गयी इस पुल की उप संरचना की

in the year 1986 and a speed restriction of 10 KMPH was imposed on the bridge. As a long term measure, it is proposed to construct a new bridge, 10m down stream side, by providing 2×61.00m and 2×45.70m open web through type girders for the new bridge with double D well foundation and sub-structure for a single track at a cost of Rs. 5.96 crores. An outlay of Rs. 35 lakhs during 1988-89 has been proposed.

11. *Regirdering of existing girders of Pamban viaduct Br. No. 346 at Km. 655/2-657/4 with new metallised girders in 19 spans in Mananadurai-Rameswaram section, Madurai Division—Southern Railway.*— The Pamban viaduct of the Palk strait is situated in highly corrosive area and consists of 132 Nos. of steel girders, 13 Nos. of PSC girders and one lift span. Regirdering of 51 spans where heavy corrosion had occurred in the steel girders is currently in progress. Heavy corrosion has been noticed in the steel girders of further 19 spans affecting their life. It is, therefore, proposed to replace the existing corroded girders in span 66 to 84 by new metallised steel girders, at a cost of Rs. 57 lakhs. An outlay of Rs. 39 lakhs during 1988-89 has been proposed.

12. *Replacing the existing corroded steel plate girder of Road-Over-Bridge No. 23-A at Km. 5/0-1 on Dr. T. N. Nair Road with new girders and providing one additional span on either side of the bridge near* Madras Egmore station yard on Madras Egmore Tambaram section—Southern Railway.—Thisroad over bridge connects important metropolis south of the MG track and the national highway on the Northern side. The existing girders were erected during 1927. Extensive corrosion has occurred in the main girders, cross girders and steel plates of this bridge. The heavy road traffic over the bridge was suspended recently and temporary patch repairs to the steel work were carried out and traffic rostered. The deck and the road way requir immediate renewal. As a meausre of long term safety, it is proposed to replace the existing corroded steel deck with new deck and also provide one additional span of 7.5 m at either side of the existing bridge to cater for future requirements of additional line in this important yard, at a cost of Rs. 84 lakhs. An outlay of Rs. 30.00 lakhs during 1988-89 has been proposed.

हालत बिगड़ती जा रही है । वर्तमान उप-संरचना के आयु एवं हालत के आधार पर पुनर्निर्माण की आवश्यकता है । वर्तमान पानी निकासी का मार्ग भी अपर्याप्त है और प्रतिवर्ष एच एफ एल खतरे के निशान को पार कर जाता है जिससे पुल की नींवों को खतरा उत्पन्न हो जाता है । अत: 2.20 करोड़ रुपये की लागत से कूप नींव पर स्थायी विपथन करके जिसमें पानी की निकासी की पर्याप्त व्यवस्था हो और एच एफ एल से ऊपरी सतह एक नीचे की ओर डायफ्राम दीवार के साथ-साथ पहुंच मार्ग की व्यवस्था करके नये पुल का निर्माण करने का प्रस्ताव है । ताकि क्षति/निर्घर्षण से रक्षा की जा सके । 1988-89 में इस पर 80 लाख रुपये के परिव्यय का प्रस्ताव है ।

14. हावड़ा–नागपुर मुख्य लाइन पर तिरोड़ा और भुंडीकोटा स्टेशनों के बीच पुल सं० 125 अप का सम्पूर्ण पुनर्निर्माण —दक्षिण पूर्व रेलवे :—इस पुल की उप-संरचना का निर्माण वर्ष 1891-92 में चूना मसाला और लेट राइट पत्थर से किया गया था । कुछ पत्थर बुरी तरह अपक्षीण हो हो गये हैं । हालांकि एक अस्थायी उपाय के रूप में, हावड़ा छोर के पीलपाया को मजबूत कर दिया गया है फिर भी उप-संरचना के पुनर्निर्माण की आवश्यकता है और पहले वाले मौजूदा इस्पात गर्डरों को बदलना भी अनिवार्य समझा जाता है । 99.70 लाख रुपये की लागत पर मौजूदा अप और डाउन लाइनों के बीच स्थायी मार्ग परिवर्तन पर पुल के पुनर्निर्माण का प्रस्ताव किया गया है जिसके लिए 1988-89 के दौरान 37 लाख रुपये के परिव्यय का प्रस्ताव है ।

नागदा–रतलाम खण्ड, अप लाइन पर चम्बल नदी पर पुल सं० 317 के मौजूदा संक्षारित एम० एस० गार्डरों का बदलाव—पश्चिम रेलवे :—मौजूदा पुल 10×30.5 मी स्पैन के थ्रू अन्डरस्लंग गर्डर वर्ष 1895 में लगाए गये थे और उनमें स्टील ट्रफ डेकिंग की व्यवस्था की गयी थी । उपर्युक्त पुल की डेकिंग में भारी माडा में जंग लग गया है और रेल सीट के समीप ट्रफ में टूट-फूट हो गयी है । मुख्य गर्डरों के ऊपरी फ्लैंज में भी भारी संक्षारण हो गया है जिन पर स्टील ट्रफ टिके हुए हैं और जिनकी नियमित सफाई/पेंटिंग और अनुरक्षण का काम आसानी से नहीं हो पाता है । निकट भविष्य में इस ट्रंक मार्ग पर अधिक भारी गाड़ियां तेज रफ्तार से चलने की प्रत्याशा की जाती है इसलिए पुल के गर्डरों को बदलना जरूरी है । 1.07 करोड़ रुपये की लागत पर मिश्रित निर्माण के रूप में पूर्व प्रबलित कंक्रीट डेक के साथ इस पुल के मौजूदा गर्डरों को नये अन्डरस्लंग गर्डरों द्वारा बदलने का प्रस्ताव है । जिसके लिए 1988-89 के दौरान 42.44 लाख रुपये के परिव्यय का प्रस्ताव है ।

is showing signs of distress. The existing sub-structure requires rebuilding on age-*cum*-condition basis. The existing water way is also inadequate and every year, the HFL crosses danger level endangering the bridge foundations. It is, therefore, proposed to rebuild the bridge with well foundation on a permanent diversion providing adequate water way and clearance above the HFL and regrading the approaches along with the provision of a diaphragm wall on the down stream side to guard against damage/scour, at a cost of Rs. 2.20 crores. A outlay of Rs. 80.00 lakhs during 1988-89 has been proposed.

14. *Complete rebuilding of Bridge No. 125 Up between Tirrora and Mundikota stations on Howrah—Nagpur Main line South Eastern Railway.*—The substructure of this bridge constructed in the year 1891-92 consists of laterite stone in lime mortar. Some of the Stones have been weathered badly. While the Howrah end abutment has been strengthened as a temporary measure, the substructure needs to be rebuilt and regirdering the existing early steel girders is also considered essential. It is proposed to rebuild the bridge on permanent diversion between the existing Up and Down lines at a cost of Rs. 99.70 lakhs. An outlay of Rs. 37 lakhs during 1988-89 has been proposed.

15. *Replacing existing corroded M. S. girders of Bridge No. 317 Chambal River on up line on Nagda—Ratlam section—Western Railway.*—The underslung girders of the existing bridge (10 x 30.5m span) were laid in the year 1895 and are provided with steel trough decking. The decking of this above bridge has shown signs of heavy corrossion and there is extensive cracking of the troughs near the rail seat. Heavy corrosion has also been noticed on the top flange of the main girders, where the steel troughs are resting and which is not accessible to regular cleaning/painting and maintenance operation. With heavier trains and higher speeds expected in thenear future on this trunk route, the girders of the bridge need replacement. It is proposed to replace existing girders of this bridge by new under-slung girders with reinforced concrete deck as composite construction, at a cost of Rs. 1.07 crores. An outlay of Rs. 42.44 lakhs during 1988-89 has been proposed.

ऊपरी/निचले सड़क पुलों की प्रगति

1987-88 के बजट में वर्तमान व्यस्त समपारों के बदले ऊपरी/निचले सड़क पुलों के 125 निर्माण कार्यों के लिये चालू काम और नये काम के रूप में कार्यक्रम बनाया गया था। 94 निर्माण कार्यों के संबंध में प्राक्कलन स्वीकृत किये गये थे। वर्ष के दौरान 9 पुलों का निर्माण पूरा किया गया था और 58 पुलों का कार्य चल रहा था। शेष प्रस्ताव योजना तैयार करने, नक्शे तैयार करने, अभिकल्प तैयार करने और प्राक्कलनों की स्वीकृति के विभिन्न चरणों में थे। (रेलवे-वार और राज्यवार ब्यौरे पृष्ठ 53-56 पर दिये गये हैं।)

PROGRESS OF ROAD OVER/UNDER BRIDGES

2. ब० ला० मी० ला० के ब्रेक-कम डायनोमीटर कारों का आधुनिकीकरण—अनुसंधान, अभिकल्प एवं मानक संगठन—भारतीय रेलों की समवेत योजना के अन्तर्गत लाइन क्षमता की कमी की कठिनाइयों को कम करने के लिए 9000 टन/14000 टन/18000 टन वाली भारी माल गाड़ियें और 160/200 कि०मी० प्रति घंटा की गति से ब०ला० पर तथा 130/150 कि०मी० प्रति घंटा की गति से मी०ला० पर लाइन गाड़ियां चलाने का विचार किया गया है। तेज गति और ढुलाई की भारी माल गाड़ियां चलाने से पहले क्षेत्र परीक्षण के लिए ब०ला० और मी०ला० की सेवाओं के परिचालन के लिए बोर्ड डैटा माइक्रो प्रसैसिंग प्रणाली पर आधारित आधुनिक इन्स्ट्रूमेन्टेशन और माइक्रो-प्रोसेटर वाली दो उच्च गति के सवारी डिब्बों की खरीद का प्रस्ताव है। इस कार्य की प्रत्याशित लागत 4.99 करोड़ रुपये है जिसके लिए 1988-89 के दौरान 59.00 लाख रुपएके परिव्यय का प्रस्ताव है।

3. लखनऊ (अ० आ० मा० सं०)—केन्द्रीय कारखाना—अ० मा सं० :—अनुसंधान अभिकल्प एवं मानक संगठन पर कारखाना इस समय अस्थायी संरचनाओं में स्थित है जिन्हें तोड़ कर एक केन्द्रीय कारखाने के निर्माण का प्रस्ताव है जो विभिन्न निदेशालयों की आवश्यकताओं को बेहतर ढंग से पूरा करेगा। इस कार्य की प्रत्याशित लागत 56.82 लाख रुपये है जिसके लिए 1988-89 के दौरान 11.35 लाख रुपये के परिव्यय का प्रस्ताव है।

2. *Raising of B.G. platform at Gonda—Northeastern Railway.*—Gonda is an important station of Lucknow-Gorakhpur Cantt. B. G. Section. Incoming and outgoing passengers at this station are 9500 daily. It is, therefore, proposed to raise the B. G. platform at Gonda at an estimated cost of Rs. 55.79 lakhs and an outlay of Rs. 9.20 lakhs has been provided during 1988-89.

RAILWAY RESEARCH

1. *Creation of Design and Developmental facilities at CLW, DLW and ICF.*—It has been decided that the Production Units should set up their own Research and Design Cells so that the Research, and Standards Organisation, Lucknow can be relieved of lighter areas of Research & Development and can devote their full attention to more important programmes. Accordingly it is proposed to create Design and Development Cells at the three Production Units—CLW, DLW and ICF at anticipated costs of Rs. 2.90 crores, 1.92 crores and 4.75 crores respectively. The outlay of Rs. 40 lakhs have been proposed during 1988-89 for each of the work.

2. *Modernisation of BG and MG Brake-cum-Dynamometer Cars—RDSO.*—Corporate Plan of Indian Railways has identified running of heavy goods trains with trailing loads upto 9000 t/140000 t/18000 t and passenger trains at higher speeds upto 160/200 Kmph. on BG and 130/150 Kmph on MG to ease the line capacity problems. To cope with the task of conducting field trials before the high speed and heavy-haul trains are introduced, a proposal has been developed for procurement of two high-speed coaches for operation on BG and MG services with modern instrumentation and microprocessor-based on board data processing systems. The work is proposed at an anticipated cost of Rs. 4.99 crores with an outlay of Rs. 59.00 lakhs during 1988-89.

3. *Lucknow (RDSO)—Central Workshop—RDSO.*—The Workshops at RDSO are now housed in temporary structures. It is proposed to dismantle them and construct a central workshop which will meet the requirements of various directorates better. The anticipated cost of the work is Rs. 56.82 lakhs and an outlay of Rs. 11.35 lakhs has been proposed during 1988-89.
